Which were passed.

The Counsel presented a Report recommending an application to the Supreme Court for the appointment of Commissioners for opening 6th Street in the place of Messrs Thomas R Smith, John Slidell & Cary Dunn who have resigned the same, as there was not in their opinion property sufficient to assess for the damage in opening having been read was referred to the Street Committee.

A Report was received from the Attorney (Lemuel Smith Esqr) stating that a suit had been commenced in September last against George Milne a Merchant of this City for a breach of the Law for not bonding Passengers and Mr Milne being an Alien [12] has removed the Suit from the Supreme Court to the Circuit Court of the United States—The object of the defence is to try the constitutionality of the State Law on that subject—The Attorney considering it a question of much importance, thought it his duty thus to bring it before the Common Council.

Whereupon the same was referred to the Law Committee with authority to act in employing further Counsel if deemed necessary.

The Street Commissioner presented the following Returns of Delinquents on Assessments which were read—Whereupon Warrants were directed to issue to the Collector thereof Vizt

For paving Greenwich street from Bank street to the Kill Road—Also for a Well & Pump in Montgomery street near Harman street, Warrant to issue to John Hanmer the Collector thereof

For a Well & Pump near the intersection of Lewis and Rivington streets—Warrant to issue to Jameson Cox the Collector thereof.

The Street Commissioner presented an Assessment For a Well & Pump in Amity street between Mercer and Green street which was confirmed and Thomas Cottrell appointed Collector thereof.

[13] The Committee on Lands & Places presented the following Report on the subject of the Keeping of the Public grounds and proposing to discharge the present Keepers, and place the grounds under the charge of the Committee on Lands and places.

The Committee on Lands and Places respectfully beg leave to Report.

That under the present Ordinances of the Common Council relative thereto, they find it impracticable properly to regulate and keep in good order the several public places under their charge, and from the fact of the Keepers not enforcing the present Laws the public are without the benefit that might be realized from them even as they now are.

The expences of the Keepers are as follows.

Mr Gilman at the	Battery	$456.25
Mr McCready	Park	456.25
Mr Osborn	Washington Square	273.75
Mr Ferry for general Superintendence $1 pr Diem		365.
	making	$1551.25

which may be considered in fact the expence of superintendance alone as the labour hire annually required on those places is paid for beyond this.

Your Committee are of opinion that if they were authorised to employ a man at each of those places, who would work as well as Superintend that the effect would be a saving to the Public of [14] *of* at least Two thousand dollars per Annum—And in conclusion offer for the consideration of the Board the following Resolution.

Resolved that the Office of Keeper of the Battery, Bowling Green, Park and Washington Square as at present constituted, be abolished and that the said Public Grounds be and the same are hereby placed under the charge of the Committee on Lands and places with authority to employ such persons as they may deem proper.

The Law Committee to whom was [16] referred the Memorials of several persons Owners of private Vaults in the City praying for a repeal of the Law relative to Interments presented a Report together with a Law, which was read Laid on the Table, and directed to be printed for the use of the Members.

The Finance Committee to whom was referred the Petition of Thomas C Taylor for the purchase of a Gore of Land [on] 14th Street presented the following Report in favor of the same.

The Finance Committee to whom was referred the application of Thomas C Taylor for the purchase of a Gore of Land on the North side of Fourteenth street

Respectfully Report

That the said Gore became the property of the Corporation by the proceedings for opening Fourteenth street and adjoins the land of the Petitioner.

The Committee are of opinion that the said Gore should be sold to him, and having inquired as to the value thereof they consider that the sum of Thirty Dollars is a fair price for the same. They offer therefore the following Resolution.

Resolved that the Counsel to the Board prepare a Deed for the said Gore from the Corporation to the said Thomas C Taylor he paying therefor the [17] sum of Thirty Dollars besides the expences of the Deed; and that the same be authenticated during the recess of the Board.

The Finance Committee to whom was referred the Petition of John Jacob Astor for the purchase of a Gore of Land on 14th Street near 8th Avenue presented the following Report in favor of the same

The Finance Committee to whom was referred the application of John J Astor in relation to a Gore of ground on 14th Street near the 8th Avenue beg leave to Report. That in the opening of Fourteenth

street a Gore of Land on the Southerly side thereof adjoining the Land of the Petitioner, being Twenty three feet six inches on 14th Street, eleven feet four inches on the one side, and twenty feet seven inches on the other side, was awarded to the Corporation for the sum of One hundred and Seventy one dollars and which was paid on the first day of February last.

As it has been the practice of the Common [18] Council to dispose of the Gores awarded to them in the opening of Streets, to the owners of the adjoining lands, Your Committee are of opinion that it would be proper to do so in this case, and offer the following Resolution.

Resolved that the Gore of ground on the Southerly side of 14th Street awarded to the Corporation in the opening of said street, and which is adjoining Land of John Jacob Astor be sold to him for the sum of One hundred and seventy one dollars, and interest from the first day of February last, and expences of the conveyance, and that the Counsel to this Board be directed to prepare the proper Deed therefor, the same to be authenticated in the usual manner during the recess of the Board

The Finance Committee to whom was referred the Petition of Isaac Chauncey for the purchase of a Gore of Land on 86th Street near his premises presented the following Report in favor of the same

[19] The Finance Committee to whom was referred the application of Commodore Isaac Chauncey for the purchase of a Gore adjoining his property in the 12th Ward Respectfully Report

That the said Gore is a very small strip of Land formerly part of an Old Road which has been closed and now lying between 86th Street as the same has been recently opened, and the property of the Petitioner.

The Committee under all circumstances and having consulted the Street Commissioner, as to the value of the said Gore, are of opinion that it should be sold to Commodore C[h]auncey for the sum of Twenty five dollars and the expences of the Deed.

They offer the following Resolution therefore

Resolved that the Counsel to the Board prepare a Deed for the said Gore of Land from the Corporation to Commodore Isaac Chauncey, on his paying therefor the sum of Twenty five Dollars besides the expences of the Deed, and that the same be authenticated during the recess of the Board.

[20] The Finance Committee to whom was referred the Petition of Horatio Tucker to have money refunded to him with Interest which he paid for certain Lots sold for Taxes in 1825 presented the following Report against the same.

The Finance Committee to whom was referred the Petition of Horatio Tucker praying to have money refunded to him with interest which he paid for certain Lots sold for Taxes in the year 1825

Respectfully Report

That they have enquired into the facts and find that at a Sale of Lands and tenements for Taxes which took place on the 28 December 1825, Mr Tucker purchased Four Lots of ground which were assessed as belonging to C H Hammond for one year the same having been sold to pay the taxes due thereon for the year 1823 amounting with interest and charges of Sale to $33.21 and being subject also at the time of such sale to the taxes for the year 1824 amounting to $10.26 making in all $43.47 which Mr Tucker paid It is alledged by Mr Tucker that there was a mistake in the Sale inasmuch as the said Lots were described as being in Hammond street, when in fact only two of them fronted on that Street, the other two however being immediately in the rear and adjoining. The Committee have ascertained that Mr Tucker was not misled or prejudiced by any such Mistake [21] as he found the whole four Lots, and actually made a bargain with a person to pay him rent for the same, And it is only, as the Committee believe because such rent was not paid, and Mr Tuckers Lease expired that he conceived the Idea of applying to the Corporation to refund the money which he had paid. The Committee think that this application cannot be sustained upon any ground, for even if Mr Tucker had been misled by any wrong description or other

mistake at the Sale they conceive that he waived all claim, on any such account by accepting the Lease. The Corporation moreover Warrant nothing in making sales of this nature, and the Committee are of opinion that they are in no respect liable for any such mistake as is alledged to have occurred in this instance.

They beg leave therefore to submit the following Resolution.

Resolved that it is inexpedient to grant any relief upon the said Petition.

The Finance Committee to whom was referred the Petition of the Editors of the Evening [22] Journal and Journal of Commerce to publish for the Corporation presented the following Report against the same.

The Finance Committee to whom was referred the Petitions of the Editors and proprietors of the News papers called the Journal of Commerce and the Evening Journal praying that the said papers may be employed to publish for the Corporation.

Respectfully Report.

That the subject of employing Daily News papers to publish for the Corporation was before the Board on a former occasion, upon the Report of the Finance Committee relative to an application made by Charles N Baldwin Editor of the Morning Chronicle and in that Report, which was adopted January 28th 1828, it was considered that the number of Daily papers then published were more than sufficient to give publicity to the Corporation Advertisements, and it was deemed inexpedient to increase the number then employed. In consequence of which Report a Resolution was passed that no News paper which was not printed and published in this City prior to the first day of May 1827 should be employed by the Corporation, or be authorized to print the Corporation advertisements unless a Resolution should be previously passed in relation to such paper.

There are now Eight Daily papers em- [23] ployed by the Corporation at the rate of $100 per Annum for each, and the Committee are of opinion that the said number is quite sufficient to give the necessary publicity to the Corporation notice and Ordinances, and that it would not be advisable to incur any additional expence for such purpose.

They beg leave therefore to offer the following Resolution.
Resolved that it is inexpedient to comply with the said Petitions.

The Finance Committee to whom was referred the Petition of Abraham Van Nest and others purchasers of the State Prison Lots to be discharged from the payment of interest on the purchase money presented the following Report against the same.

The Finance Committee to whom was referred the Petition of Abraham Van Nest and others purchasers of Lots formerly part of the State Prison property praying to be discharged from the payment of interest on the purchase money due for said Lots.

[24] Respectfully Report.

That the present application is made upon the ground that the conditions published at the sale of the said Lots have not been complied with or enforced. The Petitioners allege that by the terms of sale the buildings upon the said Lots were to be removed within three months. In this they are correct; and the intention thereof was simply, that inasmuch as the ground and the buildings were to be sold separately, and might be purchased by different persons, the purchaser of the buildings might have a reasonable time to remove the same, at the expiration of which, the purchaser of the ground should have a right to enter into possession. The terms of sale were thus declaratory of what the rights of the parties should be, and for the enforcement of those rights the same course was open to them as in any other case.

At the expiration of the three months the purchaser of a Lot had a right to enter and take possession, and if the owner of the buildings thereon, had not by that time removed them, he was in default and might perhaps have lost his right to remove them at all.

But at all events the rights of the parties under such circumstances was a matter to be determined between themselves by Law, or otherwise, and the Corporation are not, as the Committee conceive in any respect responsible to the purchasers of the Lots, having guaranteed nothing [25] to them, or in any respect sanctioned the purchasers

of the buildings in any non compliance on their part with the terms of sale.

Under this view of the subject, the Committee are of opinion that no part of the interest on the purchase money of the Lots bought by the Petitioners should be remitted and they submit therefore the following Resolution.

Resolved that it is inexpedient to grant any relief upon the said Petitions

The Finance Committee to whom was referred the Petition of Richard Riker praying for the purchase of a Gore on Ann street

Respectfully Report.

That the Gore applied for, was part of Ann street and became the property of the Corporation at [26] the estimated value of Seventy five Dollars, by the late proceedings for improving and widening Ann street between Broadway and Nassau street.

The Committee have ascertained that the Petitioner is the owner of the adjoining Land and they are of opinion therefore that his application should be complied with, They beg leave to offer the following resolution.

Resolved that the Counsel to the Board prepare a Deed for the said Gore from the Corporation to the said Richard Riker, he paying therefor the said sum of $75, and the expences of the Deed, and that the same be authenticated in the usual manner during the recess of the Board.

The Finance Committee to whom was referred the Petition of J D Waterman for reduction of Rent and renewal of Lease of 16 Lots presented the following Report against the same.

The Finance Committee to whom was referred the Petition of Joshua D Waterman [27] praying for a reduction in the rent and an extension of the Lease of sixteen Lots of ground between Washington West King and Charlton streets held under Lease from the Corporation Respectfully Report

That the parties interested in the said Lease have been before the Committee and stated the grounds upon which in their opinion, their application should be granted. And the Committee have fully examined and enquired into the circumstances of the said property with the view of determining whether the rent now reserved by the Lease thereof was more than a fair rent for the same. Taking the value of the property into consideration, they are of opinion that the present rent is not too high, and that no reduction should be made. With respect to extending the Lease, the Committee entertain the same opinion which they have lately had occasion *lately* to express upon similar Applications Viz[t] that it is unwise to grant any such application when made during the pendancy of the Lease, and at a time when it is impossible to foresee the various circumstances which might on the expiration of the Lease make it inexpedient to renew it all or have an influence in determining the terms and conditions of such renewal. If the owners of the Lease in question should have any claims upon the favorable consideration of the Corporation the[y] will no doubt [28] be properly received by those who may compose that body when the said Lease will expire, And the Committee are of opinion, that until that time arrives it is better to make no alteration in the terms of the said Lease.

They offer therefore the following Resolution.

Resolved that it is inexpedient to grant any relief on the prayer of the said Petition

The Finance Committee to whom was referred the Petition of Peter Embury and others Devisees of the late Daniel Aymar relative

to the widening and improving of Ann street presented the following Report against the same.

The Finance Committee to whom was referred the Memorial of Peter Embury on behalf of himself and others devisees of Daniel Aymar Dec[d] respectfully Report

That the object of the said Memorial is to obtain relief from the Corporation for injustice [29] alledged to have been done to the applicants by the proceedings for widening and improving Ann street between Broadway and Nassau street, and the following appear to be the facts of the case.

M[r] Aymars devisees were the owners of the property situated at the Northwesterly corner of Nassau street and Ann street the principal part of which was required for the purpose of widening Ann street. The Commissioners thought it expedient (as they had power by Law to do) to include the residue of the said property in their Estimate and Assessment, and thus the whole was taken by the said proceedings. The sum allowed therefor in the first instance was $11220—M[r] Embury objected, and the Commissioners on reconsidering the matter encreased the amount to $11370; The Report on being presented to the Supreme Court was opposed by Counsel employed by M[r] Embury but was confirmed, no appeal or further legal proceedings was resorted to by the parties interested in the said premises and the improvement is now carrying into effect.

It is evident from the above state of facts, that no grounds exist for asking any relief or claiming any additional compensation from the Corporation. M[r] Embury alledges that the property was worth at least $12,000. It may be so but the Commissioners appointed by the Court to judge of [30] that matter, thought otherwise, and the Court approved of their judgment, but whether injustice in this respect has been done to the owners or not, the Corporation have no controul over the subject nor any right to apply public money to relieve parties situated as the applicants in this case are.

The Committee beg leave therefore to offer the following Resolution.

Resolved that it is inexpedient to grant any relief upon the said application.

The Finance Committee to whom was referred the Petition of James Flanagan praying for the renewal of his Lease of Lot N° 203 of the Common Lands

Respectfully Report.

That the subject of renewing Leases from the [31] Corporation, before they are about to expire, has already occupied the attention of the Board, and they were of opinion and so reported to the Board, that as a general rule, the Board should refuse to grant applications of that kind. In the present instance the Petitioners Lease will not expire until the first of May 1833 And the Committee see no reason for making it an exception. The Street Committee to whom was referred the subject of closing the Southampton Road between 15th & 21st Street and also for closing the Warren Road between Southampton Road and 21st Street—Respectfully Report

That in their opinion the retaining of those old Roads as public highways has by the opening the Streets in conformity with the regular plan of the City, become unnecessary, and that they ought therefore to be closed and accordingly recommend the adoption of the following resolutions

Resolved that it is desirable for public convenience and individual interest that [33] Southampton Road be closed between 15th & 21st Street.

Resolved that Warren Road be closed between Southampton Road and 21st Street.

Resolved that the Counsel to this Board make the necessary Application to the Supreme Court for the appointment of Commissoners of Estimate and Assessment in the said matters, and that the Petition for that purpose be authenticated in the usual manner during the recess of the Board

The Street Committee to whom was referred the Petition to have the 8th Avenue paved presented the following Report in favor of the same.

The Street Committee to whom was referred the annexed Petition to have the 8th Avenue paved from 13th to 21st Street.

Respectfully Report.

That in their opinion that Avenue ought to be paved inasmuch as it is rendered almost impassible for Carriages owing to the waters of the intersecting streets making a lodgement thereon and which cannot be remedied but by paving the Avenue. They therefore submit the following Resolution.

Resolved that the Eighth Avenue be regulated and paved from Thirteenth street to Twenty first street.

[36] The Street Committee to whom was referred the Petition to have the name of Hanover street adopted for the Street lately opened between Wall street and Exchange Place presented the following Report in favor of the same.

The Street Committee to whom was referred the Petition to have the name of Hanover street adopted for the Street lately opened between Wall street and Exchange Place, and to have that name continued to Pearl street late Hanover Square.

Respectfully Report

That in their opinion much of the inconvenience which now exists by having Streets lying contiguous to and intersecting each other, called by names so very similar as those of "Exchange place" & "Exchange street" would be in a great measure obviated by granting the request of the Petitioners they accordingly submit the following Resolution.

Resolved that the Street lately opened along the Exchange Buildings between Wall street and Exchange Place be known and distinguished by the name of Hanover street and that so much of Exchange Place as lies between the Exchange Buildings and Pearl street be also changed to that of Hanover street.

The Street Committee to whom was referred the Petition of the Clinton Hall Association to have Beekman street widened between Chatham street and Theatre Alley presented the following Report against the same.

The Street Committee to whom was referred the Petition of the Clinton Hall Association and the owners of property in Beekman street to have that street widened and improved by removing a portion of the building between Theatre Alley and the Park Respectfully Report.

That in their opinion it would add much to public convenience to have the entrance into Beekman street widened at that place on a line with the front of Clinton Hall. Yet as some doubts have arisen in the mind of your Committee respecting the propriety of the measure, they offer for consideration the following Resolution.

Resolved that it is inexpedient to grant the prayer of the Petitioners.

George D Strong
W Scott
John Lovett

[38] Whereupon Alderman Mott presented as a substitute the following Resolutions which were adopted.

Resolved that Beekman street be widened and improved between Chatham street and Theatre Alley agreeable to an application lately made for that purpose.

Resolved that the Counsel of the Board make the necessary application to the Supreme Court for the appointment of Commissioners for the said purpose, And that the Petition be authenticated in the usual manner during the recess of the Board.

The Committee on the Fire Department presented the following Report relative to an exchange of Grounds with M[r] Howe for the accommodation of the Public Water Works presented the following Report in favor thereof.

The Committee on the Fire Department in part Report, that it is desirable to exchange a few feet of ground with M[r] B[r]igham How, by giving him three feet of the Corporation property fronting on the Bowery adjacent to his North line, and running down the same, and the Angular gore running on his South line, in exchange for so many feet in the rear of his Lot as will be equivilent to the three feet and the gore proposed to be conveyed. M[r] How acceeds to this

proposal, and the exchange will accommodate the Public Water Works, Your Committee offer the following Resolution.

[40] Resolved that the Counsel of the Board examine the Title and prepare the necessary papers and that the Mayor execute the Deed on the part of the Corporation agreeable to this Report.

The Committee on the Fire Department to whom was referred the Petition of John T Irving and others complaining of the disorderly conduct of persons who assemble about the Engine Houses in Tryon Row presented the following Report.

The Committee on the Fire Department to whom was referred the Petition of John T Irving and others complaining of the disorderly conduct of young persons who congregate about the Engine Houses in Tryon Row beg leave

Respectfully to Report.

That the Petitioners set forth and the evidence produced before your Committee most conclusively shows that much disorder and evil result from the improper practice of allowing young lads to frequent the Engine Houses of this City, they enter the [41] same by what is termed night keys, and there they can and do resort at all times, and on some occasions do remain nearly all night, they use the Oil & firewood furnished to the Firemen, and create false alarms of Fire, for the purpose of getting the Fire Engines out, and racing them through the Streets. These complaints are not confined to this particular neighborhood, but embrace many other places. But your Committee wish it to be expressly understood that in no instance have the Firemen been accused of creating false alarms of Fire, or of countenancing the boys in their improper conduct. Another very improper practice prevails, that of running the Engines on the Side walks, not only in violation of the Law, and to the great injury of Public and private property, but often endangering the lives of our fellow Citizens, the evil is one calling for the interferance of the Common Council.

Your Committee offer for the consideration of the Common Council, the following.

Resolved that the Chief Engineer, and the several Ward Street

Inspectors be and they are hereby directed to make diligent enquiry whenever complaint is made to them of any Engine or other Fire Machine running on the side walk contrary to the 5th Section of the 14th Chapter of the Ordinances of the Common Council, for the names of the persons who may have been with such Machine at the time and that they [42] hand the same, together with the facts of the case to the Attorney of the Board for prosecution.

Resolved, that the Committee on the Fire Department be and is hereby empowered to place a large Lock of a description that cannot be opened by night keys on every Engine House, and that no person be allowed to have a key, except a member of the Company.

Resolved that the Clerk of the Common Council be directed to furnish Copies of the above Resolutions to the Departments whose duty it will be to see them inforced.

[43] The Police Committee to whom was referred the Petition of William Higgs to be relieved from a fine for selling Liquor without Licence presented the following Report in favor of the same.

The Police Committee to whom was referred the Petition of William Higgs to be relieved from a Fine—Report.

That the Petitioner applied for a Licence on the 8th March last, and it is believed there was no objection to granting him a Licence, his money was paid on the same day at the Mayors Office, the Licence was not however signed by the Aldermen or taken out until the 17th March. On the 15th of March seven or eight days after he had paid his money, he was sued, and being taken at night as late as 11 OClock he was put in Jail—The Committee think he should be relieved and offer the following Resolution.

Resolved that the Attorney of the Board refund to Petitioner the Penalty and Costs paid by Petitioner in the suit referred to.

[44] The Police Committee to whom was referred the subject of drawing Lotteries in front of the City Hall presented the following Report.

The Police Committee to whom was referred the Resolution of P. W Engs Esq[r] relating to the drawing of the Lottery in front of the City Hall. Report.

That if it was in the power of the Corporation to exclude the drawing of Lotteries, Your Committee would recommend such prohibition. But this not being the case, it only remains to say whether the Lotteries shall be drawn at the Hall.

Your Committee admit that the Lotteries should be drawn in a public place, but consider that the rear of the Hall, would answer all the purposes of publicity, and be less inconvenient to persons approaching the Hall, than in Front, and therefore offer the following Resolution.

Resolved that hereafter the drawing of Lotteries in front of the City Hall be prohibited but that the Managers thereof be permitted to draw the same in the rear of the Hall.

[45] The Police Committee to whom was referred the Petition of Samuel Seacord complaining of disorderly persons Gambling &c in the 12[th] Ward on the Sabbath presented the following Report.

The Police Committee to whom the Petition of Samuel Secord was referred Report.

That the Petitioners complains of violations of the Sabbath "by gambling drinking and other indecent and improper conduct in the 12[th] Ward.

Your Committee believe, that as there is ample Law on the subject of the Complaint they presume that all that is necessary is for the Petitioner to point out the violations of the Law, and the abuses referred to, to the Alderman and Assistant of the Ward, and they will be remedied.

They recommend the following Resolution.

Resolved that the Petition of Samuel Seacord complaining of Gambling, indecent and other improper practices in the 12th Ward be referred to the Alderman and Assistant of that Ward, with a request that they should remedy the same

The Canal Committee to whom was referred the subject of constructing Drains or Sewers at the foot of Delancy street presented the following Report in favor of the same.

The Canal Committee respectfully Report on the annexed Resolution to have drains or Sewers constructed at the foot of Delancy street, that in their opinion temporary Sewers are much required at that

place, as that [49] part of the Street having been recently filled in, is not at present in a State that would be proper to pave on, not being sufficiently settled and firm for that purpose, they would therefore recommend the adoption of the following Resolution.

Resolved that one or more Sewers be built of wooden Materials and placed in Delancy street between Goerck street and the Bulkhead, at Tompkins street

Henry Arcularius
George D Strong

P. W Engs

Which was approved and the Resolution adopted.

The Canal Committee to whom was referred the Petition of Richard F Carman and others to have the sewer under Stone street opened presented the following Report in favor of the same.

The Canal Committee to whom was referred the Petition of Richard F Carman and others setting forth that the common Sewer in Stone street is obstructed or decayed and their Cellars inundated with water, and request that such measures may be adopted as shall afford relief in the premises.

On which your Committee respectfully

Report

[50] That in their Opinion the constructing of a small Sewer of durable materials would be proper, in order that the relief may be afforded which is asked for by the Petitioners.

Your Committee would also recommend that the Carriage way of Stone be repaved (after the Sewer is built) between Mill street and Broad street as it is much required, the greater part will be broken up in constructing the Sewer—They therefore recommend the adoption of the following Resolutions.

Resolved that a Drain or Sewer be built of suitable dimensions in Stone street from near Coenties Alley to the Common Sewer in Broad street.

Resolved that so much of the Carriage way of Stone street as may be necessary be repaved between William street and Broad street.

The Special Committee to whom it was referred to make enquiry and Report how far the Public Administrator has fulfilled the [51] duties of his Office presented the following Report.

The Special Committee to whom it was referred to make enquiry and Report how far the Public Administrator has complied with the Laws of the State and Regulations adopted by the Common Council in relation to the duties of his Office.

Beg leave to Report

That in making the enquiry committed to their charge they have examined the Comptroller and present Surrogate, as well as the Public Administrator himself, and they have discovered no reason to doubt that in performing the duties of his Office, the Public Administrator has in all respects within his power, complied with the Laws of the State and the Regulations adopted in relation to such Office by the Common Council. They would state however that as yet no Bond with sureties as required by the Revised Statutes has been given; M[r] Miller the present incumbent having entered upon the duties of the Office before the Revised Statutes went into operation, and no new appointment having been made since, And such new Appointment being deemed necessary to obtain the benefit of the sureties prescribed by those Statutes. It is due to M[r] Miller to say that he professes himself ready to give such Bond with sureties whenever it may be proper or he may be required so to do, And the Committee are of [52] opinion that the Revised Statutes should be complied with in this respect without further delay.

The Committee having performed the duty assigned to them beg leave to offer the following Resolution.

Resolved that this Committee be discharged from the further consideration of the Matter referred to them.

Bernard J Meserole
James I Roosevelt J[r]

[55] Mr Engs presented the following Resolution which was Adopted.

Resolved that the Alderman of the 13th Ward be added to the Committee on the Fire Department.

Mr Engs presented the following Resolution which was adopted.

Resolved that Five hundred Copies of the Act in relation to Fires and the Fire Department of this City be printed for the use of the Fire Department of this City.

Mr Engs presented the following which was referred to the Alderman and Assistant of the 14th Ward and Street Commissioner with Powers.

Resolved that Bridge Stones of proper width be placed at the corner of Grand street where it intersects Mulberry street, Mott street, and Elizabeth street.

Mr Engs presented the following Resolution.

Resolved that the property known as the " Corporation Yard " is a suitable Location for a Bridewell and that the Committees on the Jail & Bridewell and Police be directed to furnish to [56] this Board, an estimate of the expenditure, necessary for the erection of a suitable building for this purpose together with the plan proposed.

A Motion was made to lay the same on the Table, which was lost. A Motion to refer it back to the Joint Committees was also made and Negatived. Mr Roosevelt then moved the previous question which was negatived.

It was then moved that the question be divided and taken of the first part of the Resolution Viz " that the property known as the Corporation Yard is a suitable location for a Bridewell " which was agreed to. Alderman B M Brown moved to strike out the words " Corporation yard " and insert. " Penitentiary at Bellevue." A Motion was then made to Adjourn which was lost.

The Question was then taken on Alderman B. M Browns motion to strike out and it was Negatived. The question was then taken on the Resolution as divided and was carried in the Affirmative. The question was then taken on the whole Resolution and it was carried in the Affirmative. Alderman B M Brown gave Notice of reconsideration at the next Meeting of the Board.

I Warren City Inspector.

Which were passed.

The City Inspector presented an Ordinance to fill in a Cellar Hole fronting on Shirleys Alley between Mangin & Goerck street at the Public expence, which was read & passed.

The Counsel presented the following Report that the Commissioners appointed for opening 17th Street have resigned and recommending an Application to the Supreme Court for the appointment of Commissioners.

The Counsel of the Board begs leave respectfully to Report

That in the matter of opening Seventeenth street from the Sixth Avenue to the Bloomingdale Road, and from the Bloomingdale Road to the Third Avenue, the Commissioners Gideon Tucker, John Leonard and Thomas R [77] Smith have resigned their appointment. It becomes necessary for the Board to pass a Resolution authorising a new application to be made to the Supreme Court for the appointment of other Commissioners in their places. The following Resolution is therefore respectfully submitted for the consideration of the Board.

Resolved that the Counsel of the Board make application to the Supreme Court or one of the Judges thereof, for the appointment of Commissioners in the matter of opening 17th Street in the place of Messrs Smith Tucker and Leonard resigned, and that the Clerk authenticate the necessary papers during the recess of the Board.

The Finance Committee to whom was referred the Petition of Hugh Maxwell for the purchase of a Gore of Land on the South westerly side of Cedar street Respectfully Report

That the said Gore became vested in the Corporation by the late proceedings for opening Cedar street from William to Pearl street at the price of $607, since which it has been Assessed for paving Cedar street and for widening William street, making the whole amount with interest, at which it now stands the Corporation $665.72. The Committee have been informed that Mr Maxwell is the Lessee of the adjacent Land with the privilege of purchasing the same and that he intends so to [do]. They recommend therefore, that when he shall have completed his Title to the said adjacent property, the said Gore be sold to him for the amount which the same has cost the Corporation, with interest calculated thereon to such time, and they offer the following Resolution accordingly.

Resolved that whenever Mr Maxwell shall have obtained a legal title in fee to the [83] premises adjacent to the Gore applied for by him and shall satisfy the Counsel of the Board thereof, the said Counsel shall be authorized to prepare a Deed to him for the said Gore upon the terms herein before mentioned. he paying also the expences of such Deed. The Committee on Assessments to whom was referred the Petition of Peter D Demarest to be relieved from an erroneous Tax.

Respectfully Report.

That Mr Demarest appeared before the Committee and affirmed that he was Assessed [89] for his personal property in the 9th Ward on $900, which he was exempt from in consequence of his doing duty in the Horse Artillery.

He further stated that he called on the Assessors during the period that their Books were open and that his Tax was then erased.

The Certificate of the Assessors merely states that they were unaware of the fact that Mr Demarest belonged to the Horse Artillery, but as he affirms that he called on them, and that they erased the Tax, the Committee feel bound to grant the desired relief.

The Committee on Assessments to whom was referred the Petition of Ab[m] R Pattison to be relieved from an erroneous Tax Respectfully

[92] Report

That M[r] Pattison appeared before the Committee and testified that he was Assessed on his personal property in the 14th Ward on $500, which he was exempt from, in consequence of his doing duty in the Artillery.

He further stated that he was never before assessed for his property being a poor man and occupying but a small portion of the House in which he resided; and that he therefore was totally ignorant of the Law which regulates Assessments.

Your Committee believing from the statement of M[r] Pattison and the Certificate of the Assessors, that he is entitled to relief, offer the following Resolution

The Committee on Assessments to whom was referred the Petition of Andrew Curtis & others to be relieved from an Assessment for a Well & Pump in 20th Street corner of 8th Avenue presented the following Report against the same

The Committee on Assessments to whom was referred the Petition of Andrew Curtis & others to be relieved from an Assessment for a Well & Pump in 20th Street corner of 8th Avenue

Respectfully Report.

That M[r] Curtis appeared before the Committee and stated that Six owners of property in the vicinity made application to the Common Council for permission to dig a Well and erect a Pump at their own expence. That in consequence of the Petition interfering with the rights of the remonstrants, they were thereby induced to remain neutral in regard to the said application, and that as the Alderman & Assistant of the 12th Ward and Street Commissioner reported in favor of their application, but authorized the Assessment in the usual way, whereby the present remonstrants were assessed, they feel aggrieved and desire the Common Council to relieve them from the payment of the said Assessment. The [96] Committee find the facts as above stated to be correct, and while they are aware of the impropriety of thus Reporting on a Petition of this nature & thereby depriving the opponents of the measure of the privilege of remonstrating, they still are perfectly convinced that the Committee who reported in favor of the above named Well and Pump proceeded in good faith, but owing to some cause inadvertantly overlooked the tenor of the Original Petition.

Under this view of the subject the Committee felt bound to give the remonstrance of the late petitioners, the same consideration as if they had originally appeared, and after a full investigation of the subject, the Committee believe that the above named Well & Pump were required for public convenience and they therefore offer the following Resolution.

Resolved that the Petition of Andrew Curtis & others in the 12th Ward be rejected.

The Committee on Applications for Office presented the following Report recommending the appointment of Peter See to the Office of Clerk of the Assistant Justices Court 3[d] District in the place of John Campbell deceased.

The Committee on Applications for Office beg leave respectfully to Report that in consequence of the decease of M[r] John Campbell Clerk of the 3[d] District Justices Court, it becomes necessary for this Common Council, to appoint some competent person to fill the vacancy. Various persons have informally applied for the appointment, and the Committee after maturely weighing the competency and claims of the different individuals thus applying, have come to the conclusion of recommending to the Common Council the appointment of M[r] Peter See for that Office, and accordingly recommend the adoption of the following Resolution.

Resolved that Peter See be and he is hereby appointed Clerk of the Justices Court for the 3[d] District in the place of John Campbell Esq[r] deceased.

Respectfully submitted

[98] Bernard J Meserole
Peter J Nevius

Which was read and on Motion the Board proceeded to Ballot when Peter See had a majority of Votes and was declared duly elected.

M[r] Roosevelt presented the following Resolutions in relation to the appointment of Public Administrator.

Whereas, by the provisions of the Revised Statutes, the Public Administrator, before entering upon the duties of his Office is required to take the Oath and give the security in the said Statutes prescribed—

And whereas the present Public Administrator, having been appointed previous to the time when the said Statutes went into operation, hath not given the said Security altho' ready and willing, to do so.

Therefore, in order that the said security may be duly given

Resolved that the Office of Public Administrator in this City be and the same is hereby vacated

Resolved also that Silvanus Miller be and he is hereby appointed Public Administrator upon his taking the Oath and executing (with sureties as shall be approved by the Mayor or Recorder) the Bond required by Law

[99] Resolved that the Salary, to be allowed and paid quarterly to the Public Administrator, shall be Twelve hundred and fifty dollars per Annum.

The same having been read the First Resolution was adopted—The Board then upon motion proceeded to Ballot for a person to fill the said Office, when on counting the Ballots it appeared that Silvanus Miller had a Majority of Votes—The question was then taken on the second Resolution and it was adopted—The Question was then taken on the last Resolution fixing the Salary at $1250, per Annum and it was Adopted.

Mr Roosevelt moved that the Board go into the appointment of a Keeper of the City Prison. The Question being taken thereon it was carried in the Affirmative—Alderman I Brown gave notice that he would at the next meeting of Board move for a Reconsideration of the vote given—The Mayor decided that on a Resolution of the Board to go into an Appointment of an Officer, a notice of Reconsideration was out of order—Alderman I Brown appealed from the decision of the Mayor—And upon the question, is the decision of the Mayor correct; It was carried in the Affirmative, and the Decision of the Mayor was sustained.

The Board then proceeded to Ballot for a Keeper of the City Prison when on counting the Ballots, [100] George B Thorp had a Majority of Votes and the President declared George B Thorp duly elected Keeper of the City Prison & Bridewell of New York

The Street Committee presented the following Report on subject of paving the intersection of Suffolk & Hester streets

The Street Committee respectfully Report on the subject of abating a Nuisance which at present exists, at and near the intersection of Suffolk and Hester streets, that such nuisance is occasioned by the water course and pavement being too low to carry the water off freely, and that in order to remedy the evil, it will be necessary to repave a

part of those streets, and accordingly recommend the adoption of the following Resolution.

Resolved that so much of Suffolk street and Hester street be repaved as may be necessary to abate the existing nuisance at the Junction of those streets.

Thomas T Woodruff
John Rogers
William Scott
George D Strong

Which was approved and the Resolution adopted.

[101] The Street Committee to whom was referred the subject of abating the Nuisance now existing on 21st Street near 5th Avenue presented a Report in favor of filling up the grounds, was read, & Laid on the Table.

The Street Committee to whom was referred the Report of the Counsel relative to applying for the appointment of New Commissioners in the matter of opening Sixth street between Broadway and the Bowery presented the following Report.

The Street Committee to whom was referred the annexed Report of the Counsel informing the Board that the Commissioners appointed in the matter of opening Sixth street between Broadway and the Bowery Road, had resigned such appointment

Respectfully Report.

That as the said Commissioners have resigned on the ground that they have not beeen able to find property sufficient to assess for the payment of the damage of opening said Street, the question is presented whether it is expedient to apply to the Supreme Court for the appointment of other Commissioners in their places, or to abandon the improvement entirely for the present. The Committee are of opinion that if the latter course be adopted, a new application will before long be made to the Board for the opening of [102] the said street; and without questioning the correctness of the judgment formed by the Commissioners who have resigned, they think it will be more satisfactory to all parties interested, to have the subject examined by another set of Commissioners who may probably view it in a different light.

In case such new Commissioners should arrive at the same conclusion with the old ones, the Board will have stronger grounds for abandoning the said matter, than they have at present. And as the Maps and Surveys are already made, the expence will not be much

encreased by proceeding with it until the opinion of such new Commissioners shall be obtained—The Committee therefore offer the following Resolution

Resolved that the Counsel make the necessary application for the appointment of Three Commissioners in the said matter in the place of Thomas R Smith John Slidell and Cary Dunn Junior who have resigned and that the necessary papers for that purpose be authenticated during the recess of the Board

Thomas T Woodruff
William Scott
John Rogers

The Question being taken thereon it passed in the Negative.

[103] The Street Commissioner presented the following Ordinances which were passed and Assessors appointed thereto Viz[t]

For building Sewers at the foot of Delancy street and John Leonard, Alpheus Sherman & Cornelius Harsen appointed Assessors.

For repaving parts of Suffolk and Hester streets and Abraham Dally Samuel Purdy and Peter Ogilvie Jun[r] appointed Assessors.

The Street Committee to whom was referred a Resolution proposed by Alderman Nevius and a Report of the Law Committee on the same subject respecting an alledged encroachment at the North West corner of Broadway and Liberty street presented the following Report.

The Resolution of Alderman Nevius was as follows

Resolved that his Honor the Mayor cause the obstruction on the North side of Liberty street at the corner of Broadway to be immediately removed.

The Report of the Law Committee was as follows.

The Law Committee to whom was referred sundry documents relating to the alleged encroachment at the North westerly corner of Broadway [104] and Liberty street Report.

That after re-examining the subject, they perceive no reason for changing the opinion expressed by them in their former Report and adopted by the Board. In order however to shorten the proceedings and save the expence of further litigation they respectfully recommend the adoption of the following Resolutions.

Resolved (in case the proprietor of the premises in question should consent thereto) that it be referred to two indifferent persons, to be chosen one by him, one by the Corporation, and they two in case of disagreement to choose a third, to determine what compensation, under all the circumstances, ought to be allowed to such proprietor for his relinquishment of the said premises.

Resolved that the Law Committee be empowered to adopt such measures as they may deem expedient to carry the foregoing Resolution into effect

The Report of the Street Committee presented this Meeting was as follows.

The Street Committee to whom was referred the annexed Report of the Law Committee [105] relative to an alleged encroachment at the Northwesterly corner of Broadway and Liberty street

Respectfully Report

That from the said Report of the Law Committee it appears, that sundry documents relating to this subject were referred to the said Committee but neither are any documents annexed to the said Report nor is it stated therein what Documents were so referred nor have the Street Committee been able to find in the Office of the Clerk any documents relating to this subject which were referred to the Law Committee.

It appears also from the said Report that after re-examining the subject, the Law Committee found no reason to change the opinion which they had expressed in a former Report made by them and adopted by the Board, but that in order to shorten proceedings and save the expence of further litigation, they recommended in substance that it should be referred to them with power to negociate with the proprietor of the premises in question for a settlement by arbitration of the compensation which under all the circumstances ought to be allowed to him for relinquishing the said premises.

The above being all that can be gathered from the document referred to them, the Street Committee with a view of understanding this subject and of ascertaining what particular duty was intended to be imposed on them, by the said reference have been obliged [106] to look elsewhere for the necessary information, it being stated in the said Report of the Law Committee, that they had already made a former Report on this subject, which had been adopted by the Board, the Street Committee were naturally led to examine the said former Report and the subsequent proceedings to which it gave rise, so far as such proceedings appear from the Minutes of the Board and from the papers filed with the Clerk thereof.

In the said former Report of the Law Committee which was adopted November 2d 1829 it is stated That by an Act of the Legislature passed 4th May 1784 the Corporation were authorized to appoint Commissioners for the purpose of laying out the Streets in such parts of the City as had principally suffered by fire during the Revolutionary War—That Commissioners were accordingly appointed and having agreed upon a plan, the same was submitted to and approved by the Corporation and ordered to be carried into execution. By this plan Liberty street then called Crown street was widened five feet, on each side from Broadway to the North River.

As damages might be sustained by the proposed alterations the Act provided a mode of appraising the same, and paying the amount out [107] [of] the City Treasury.

No provision was made for the removal of any building then standing but it was enacted that any and every building which should thereafter be erected so as to intrude or encroach upon the Streets to be laid out in pursuance of this Act, should be deemed a public nuisance and upon a view thereof by the Mayor Recorder or any two or more of the Aldermen, the owner or builder should be obliged to enter into a recognizance in such sum as the Mayor or Recorder or Aldermen should think fit to remove the same in convenient time, and in case of refusal to enter into such recognizance, or neglect to perform the condition of the same within the time limited, the Common Council might thereupon make an order for abating and demolishing the said nuisance.

That the proprietors of all the Lots fronting on Liberty street have receded according to the plan of the Commissioners except two, On the two excepted Lots substantial brick buildings had been erected previous to the Act in question, one of which still continues standing, the other having been destroyed by fire about four years since. In rebuilding on the Lot thus made vacant, the proprietors so far as respects the main Wall of his house has conformed to the line prescribed by the Commissioners, but in constructing his Area has occupied not only the usual space allowed by the [108] Ordinances of the Common Council, but also the interdicted five feet by erecting a stone Wall around the same surmounted by a railing and united to the main Wall. The Law Committee were of opinion, that the said Wall being connected with the House, and erected at the same time should be considered as part of the same Edifice and the whole together as forming one building; and that the said Wall around the Area was a building within the meaning of the Act above mentioned

and that the proper course to be pursued therefore to remedy the annoyance which the said Area was alleged to be to the neighbourhood, was the course pointed out by the said Act. This Report therefore concluded with a Resolution stating in substance that the said Area was a public nuisance within the meaning of the said Act and a further Resolution that the Mayor should cause the same to be removed in the manner prescribed in the said Act.

The Act of the Legislature above referred to will be found at length in the Volume of State Laws relative to this City page 502.

It appears also that in pursuance of the last Resolution presented by the said Report, the Mayor having viewed the premises in question caused a written notice to be personally served [109] upon Waldron B Post (who claims to be the owner thereof) on the 13th day of November last, requiring him to enter into a recognizance in the sum of One thousand Dollars to remove the said alleged nuisance within ten days from such date, the same being in his opinion the correct mode of proceeding to be pursued by him in conformity with the directions of the Act above mentioned, and that a remonstrance was thereupon presented by the said Waldron B Post against the proceedings lately ordered by the Board in relation to the said alleged nuisance.

It appears also that the said remonstrance was on the 30th of November last referred to the Mayor and the Counsel of the Board who made a Report thereon on the 14th of December last, and that such Report was referred to the Law Committee—The Street Committee have not seen either the said Report or the Remonstrance of Mr Post not having found the same in the Office of the Clerk, but they have had Mr Post and the owners of Property in Liberty street who complain of the said Area, before them, and have heard the respective statements of the said parties, from all which the Committee have ascertained that shortly after the building now standing on the North westerly corner of Broadway and Liberty street had been erected, with the Area connected therewith in Liberty street, and enclosed in the same situation [110] as at present, applications were made to the Common Council complaining of the said Area as a Nuisance and requesting that measures should be taken to remove the same, and that the proceedings of the Board after the usual reference of the subject to a Committee and a Report thereon resulted in the adoption of the following Resolution on the 30th of July 1827.

"Resolved that the Street Commissioner be directed to give notice to the owner or occupant or person having charge of the premises

at the North west corner of Broadway and Liberty street that they remove the railing fence, and other encroachments on Liberty street in front thereof in pursuance of the 17th Section of the Law for the appointment of a Street Commissioner &c passed 14th May 1827 and of the other Ordinances of the Corporation, and that in default thereof the Street Commissioner request the Counsel of the Board to prosecute for the penalty under that section and adopt such further proceedings as may be necessary under the direction of the Law Committee."

In pursuance of the said Resolution an Action of Debt was brought in the Supreme Court in the name of the Corporation, against the owner of the said premises for the penalty incurred under the Section above referred to in not removing the obstructions [111] complained of after due notice, and the object of the said suit being to obtain the decision of the Supreme Court as to the rights contended for by the owner of the premises in question, and such being the understanding of both parties, a verdict by consent was taken for the plaintiffs subject to a case to be made for the opinion of the Court.

The said case was agreed upon by the Attornies for the parties respectively, and it would appear that every fact or circumstance that could tend to throw light upon the point to be determined by the Court was either embodied in the Case or suggested in the written arguments of Counsel presented with it.

The avowed object of the case was to submit to the Supreme Court the substantial question arising in the Cause, and what those questions were, is put beyond a doubt, not only by the ultimate decision of the Court, but by the express terms of the Case itself. In the original draught of the said case the following will be found in the hand writing of the then Counsellor of the Board.

"If the Court are of opinion that the Defendant is bound to yield up his five feet of ground under the Act of 1784 without compensation as part of Liberty street, then the Plaintiffs to have judgment for the penalty with full costs, and if the Court think that the Defendant is not bound to submit to the Act of 1784 without being previously compensated for the Land required, then the Defendant to have [112] Judgment for full Costs of his defence."

Upon such case submitted to the Court Judgment was rendered for the Defendant and the following points were decided.

1st The Court were of opinion that the Act of 1784 does not provide for compensation in cases where houses were then standing on Lots adjoining Crown street but applies in cases where there were no

buildings and where the owner is required to yield five feet, for widening the Street, the consequence of this is, that the defendant is not bound to surrender five feet of the Lot on which the house was lately burnt without Compensation.

2d The Court were also of opinion that the Defendant had not a right to rebuild on the five feet, the Act of 1784 declaring such erection to be a Nuisance; this being merely a regulation as to the manner of using the property is considered as within the legitimate powers of the Legislature

This Judgment was acquiesed in on the part of the Corporation. They had the right of appeal to the Court of Errors, but it was not thought expedient to exercise it and the Defendants Costs were paid, thereby fully assenting to the decision of the Supreme Court.

Whether the said decision was a sound one or not in point of Law is not for the Street [113] Committee to determine; It is enough for them that the Matter has been so decided, and they have only to consider what the effect of such decision has been upon the rights of the parties. They deem this the more important, as the owners of property in Liberty street still urge the Board to proceed in the mode recommended by the Law Committee in their former Report.

It may be said that the view taken of this subject by the Law Committee in that Report, does not disagree with the above opinion of the Supreme Court inasmuch as the Court (although they have not touched the question whether the Area in this Case is a Nuisance within the meaning of the Act of 1784) have recognized the validity of that part of the said Act which declares every building thereafter to be erected so as to intrude or encroach upon the Street to be a Nuisance, and which points out the very mode of proceeding recommended by the Law Committee. If the Area in question be a building within the meaning of the Act of 1784 it is a nuisance which may be proceeded against in the manner directed by that Act. Whether it is such building, is at least susceptible of doubt, but admitting the opinion of the Law Committee in this respect to be correct will the difficulties presented by this case be obviated by acting upon it? The most successful result that could be expected from proceeding against Mr Post under the Act of 1784 would be the [114] technical abatement of the alledged nuisance by demolishing the Wall surrounding the Area and connected with the main building, and by removing the railing (it being also connected with the main building; but what further step could the Common Council legally take? If any point is clearly decided by the Judgment of the Supreme Court, it is, that Mr Post is the legal owner

of those five feet, and that they cannot be taken from him for the Street or for any other purpose without compensation. It is evident therefore that the attempt to abate the nuisance according to the provisions of the Act of 1784 even if successfull, would lead to the existence of a much greater nuisance; for after demolishing the Wall and railing, the power of the Corporation would be spent, and any further interference with the premises might subject them to an Action of trespass.

Mr Post might insist upon his right to keep his own property in whatever condition he might think fit. The five feet of ground would form no part of the Street, the Corporation would have no right to pave regulate or lay the side walk there, and the owner might use it in various ways more annoying to the neighbourhood than it is at present, without again subjecting it any way to the operation of the Act of 1784.

[115] The question is then presented whether it is expedient for the Common Council to undertake proceedings, which if Mr Post chooses to stand upon his strict rights, will not attain the desired object. It would be worse than useless in the opinion of the Street Committee to pursue such a course. Whatever the inconvenience may be arising from the existing state of things, it is less than what might be occasioned by the attempt to apply an imperfect remedy, and as any measure beyond what was strictly warranted by Law, would be an invasion of private rights, the Street Committee cannot recommend it to the Board to adopt any such, even if it should promise to be successful.

It has been suggested that the Corporation should purchase the premises in question from Mr Post and throw it open to the Street. This however would be making the whole City pay for a strictly local improvement, and the Committee doubt the power of the Common Council to apply the Public money to such a purpose.

On the whole subject as it would appear to be referred to them, the Street Committee have arrived therefore at the following conclusions.

That the premises in question are the private property of a Citizen, who by Law can exercise every right over the same incident to his ownership except that of erecting a Building thereon

[116] That if the said property should be required for the purpose of improving Liberty street, it must be taken in the only way known to the Law—Viz by Commissioners of Estimate and Assessment, who on a full consideration of all the circumstances can fix the amount of compensation which the proprietor thereof should receive. That no

application being before the Board for any such improvement, the Common Council are not called upon to take any Measures for carrying the same into effect, and that until they are so called upon it is inexpedient for them to interfere in any way with the said premises.

The Street Committee beg leave to submit the following Resolution.

The Committee on Repairs and Arts & Sciences to whom was referred back their Report relative to the Public Clock and the [117] alteration of the Cupola presented the following Report.

The Committees on Repairs and Arts & Sciences to whom was referred back the Report and Resolution relative to the alteration of the Cupola and an appropriation for the completion of the same.

Beg leave to Report, that they have examined the same and are fully of the opinion that the work should be completed as proposed in the former Report with the exception of the fixtures and of lighting the Dial. The Dial being made of Glass will answer the several purposes of emiting light in the Cupola, and form a Beautiful surface to show the time by day and be prepared for Illumination whenever the interest of the City calls for it to be done.

We therefore submit the following Resolutions.

1. Resolved that $650, be appropriated to add to the Clock the machinery necessary to make it strike the Hour.

2. Resolved that $1500, be appropriated to furnish a Bell for that purpose.

3. Resolved that $1000, be appropriated to put in Dials of glass in Copper frames.

4. Resolved that *that* $450 be appropriated for contingent expences.

The Road Committee to whom was referred the Petition of sundry persons to have the Seventh Avenue opened between 21st Street and the Bloomingdale Road, and also the Remonstrance against the same.

Respectfully Report—That in their opinion the opening of that part of the Avenue is not required for public purposes, and would be attended with very serious loss, and damage to the individual owners of the highly cultivated grounds through which the Avenue would pass when so opened. They therefore recommend the adoption of the following Resolution.

Resolved that it is inexpedient to open the Seventh Avenue between Twenty first street. [120] and the Bloomingdale Road

The Road Committee to whom was referred the Petition of Jacobus

Dyckman and others for some pecuniary aid in repairing the Bridge over the Harlaem Creek Respectfully

Report

That the Bridge crosses the Harlaem Creek at some distance Southerly of the Kingsbridge, and [is] much required for the accommodation of the inhabitants of the upper part of this Island, in their intercourse with the adjacent Country, and of the Farmers of West Chester County in bringing their produce to this Market—An[d] inasmuch as that this Corporation have not (except in one instance) contributed any thing towards the Keeping in repair the said Bridge but that it has been done at the sole expence of [121] the Inhabitants in its vicinity. Your Committee deem it but just and reasonable, that a small sum should be appropriated by this Board for that purpose. And accordingly recommend the adoption of the following Resolution.

Resolved that the sum of Two hundred dollars be appropriated by this Board towards the repairing of the Bridge over Harlaem creek near Kings bridge, provided a like sum be contributed by the Petitioners for, and applied to the like purpose and that the said repairs be made under the direction of the Street Commissioner.

The Road Committee to whom was referred the Petition of sundry persons for and remonstrance against opening the Ninth Avenue between the 28th Street and the Bloomingdale Road presented the following Report in favor of the same.

The Road Committee respectfully Report on the Petition for, and remonstrance against opening the Ninth Avenue between the 28th Street and the Bloomingdale Road that in their opinion [122] the opening of that Avenue as requested by the Petitioners is not required at present. But inasmuch as that it has been for several years opened and worked to 28th Street, and that portion of it which passes through the grounds formerly of John L Norton, commonly called the Hermitage has been ceeded to this Corporation, and partially worked, Your Committee would recommend that so much of the 9th Avenue as lies between 28th Street and that part ceeded by Mr Norton be opened provided the Petitioners will give assurances to the Corporation that they will work the same into a convenient Road at their individual

expence when the same shall have been so opened—In conformity thereto your Committee recommend the adoption of the following Resolutions.

Resolved that the Ninth Avenue be opened from the 28th Street to the grounds formerly of John L Norton on the conditions expressed in the foregoing Report.

Resolved that the Counsel to this Board take the necessary measures for having the foregoing Resolution carried into effect by making application to the Supreme Court for the appointment of Commissioners of Estimate and Assessment in the above case, and that the same be authenticated during the recess of the Board.

[129] Alderman Seaman presented the following Resolution which was read and referred to the Finance Committee.

Resolved that it is expedient that this Corporation should assume the occupancy of the Bulkhead and Waters on the Westerly side of West street between Hubert street and Vestry street as it is now required for public purposes and which is to be relinquished by the proprietors of the Water Grants when the same shall be so required for Public purposes.

A Petition of a Committee appointed at a meeting of Citizens at the City Hall to apply to the City Authorities for aid in the establishment of a House of Industry was read and referred to the Finance Committee.

The Annual Report of the Superintendent of the Alms House Bridewell & Penitentiary was read, Also the Annual Report of the Commissioners of the Alms House Bridewell & Penitentiary were read and referred to the Special Committee on Pauperism with power to print the said Report if deemed advisable.

His Honor the Mayor stated that he had received a Mandamus issuing out of the Supreme Court of this State dated the 15th of May 1830 directed [130] to the Mayor Alderman and Commonalty of the City of New York in relation to the case of the Election of David Rogers as Alderman of the 5th Ward [the same being read] was in the words following.

(Seal) The People of the State of New York by the Grace of God Free and Independant. To the Mayor Aldermen and Commonalty of the City of New York Greeting

Whereas on the first day of November last past, and for the two succeeding days, an Election was duly held according to Law in the Fifth Ward of the said City, for the purpose of Electing an Alderman and other Officers of the said fifth Ward according to the Charter of

the City of New York and the Statutes amending the same. And whereas at the said Election David Rogers had a Majority of votes for Alderman of the said Ward, Whereupon the said David Rogers was entitled to and ought to have qualified himself to become a Member of the Common Council of the said City, by appearing and taking the oath or oaths by Law provided, but on the contrary, thereof, the said David Rogers soon after the said Election took place, and in the said Month of November, and before the first day of January last past, departed from the United States for the Island of S^{t} Croix in the West Indies [131] without having ever qualified himself by Law to assume the Office of Alderman of the said Fifth Ward; And whereas he the said David Rogers has ever since been and still is absent from the United States whereby the said Fifth Ward is not fully represented in the said Common Council, and manifest injustice is done to the residents and Electors in the said Fifth Ward as has been suggested to us by the Complaint of John B Schmelzel, James R Manley, George Concklin, George W Arnold, David Banks and Benjamin Briggs residents and electors in the said Ward. And Whereas we have been informed by the said Complaint, that by reason of the premises aforesaid, the Office of Alderman of the said Fifth ward is now vacant, and that it is proper, expedient and necessary that an Election for Alderman of the said Ward should be had without delay, therefore being willing that due and speedy justice should be done in this behalf (as it is reasonable) Do command you, by firmly enjoining you, that immediately after the receipt of this our writ, You do without delay cause an election to be held for the purpose of choosing and electing an Alderman of the said Fifth ward, pursuant to the said Charter and the Acts of the Legislature of the State of New York in such case made and provided or signify to us to the contrary thereof, that the same Complaint may not by your default be again repeated to us, [132] and how you shall have executed this our writ make it appear before our Justices of our Supreme Court of Judicature, at the Academy in the Town of Utica, on the first Monday of July next, and this you are not to omit on peril that may fall therein.

Witness John Savage Esquire Chief Justice at the City Hall of the City of New York, the fifteenth day of May in the year of our Lord, One thousand eight hundred and thirty.

The Mayor Alderman and Commonalty of the City of New York

City and County of New York SS. John B Schmelzel, James R Manley, George Conklin, George W Arnold, David Banks and Benjamin Briggs, residents and electors in the Fifth ward of the City of New York being duly sworn depose and say that on the first Monday of November last past, and for the two succeeding days, an Election was duly held according to Law in the Fifth Ward of the City of New York for the purpose of electing an Alderman and other Offices of the Fifth Ward, according to the Charter of the City of New York and the Statutes amending the same, that at the said elect*ed*[ion] David Rogers had a Majority of Votes for Alderman of the said Ward. Whereupon the said David Rogers was entitled to and ought to have qualified himself to become a member of the Common Council of the said City, by appearing and taking the oath or oaths by Law provided; but on the contrary thereof, the said David Rogers soon after the said Election took place, and in the said month, of November and before the first day of January last past departed from the United States for

the [134] Island of S^{t} Croix in the West Indies without having even qualified himself by Law to assume the Office of Alderman of the said Fifth Ward and that the said David Rogers has ever since been and still is absent from the United States whereby the said Fifth Ward is not fully represented in the said Common Council. And these deponents further say that they are advised and believe that the said David Rogers by reason of his non Compliance with the said Charter and Laws, has forfeited all right and claim to the said Office of Alderman, that the same is now vacant, and that it is proper, expedient and necessary that an Election for an Alderman of the said Fifth Ward should be had without delay. And further these deponents say not

The Counsel presented a Report in the matter of opening 4th Avenue from Broadway to 28th Street, stating that the Supreme Court decided against confirming the Report of the Commissioners but [148] have suspended referring it to New Commissioners until the Board determine whether or not it is expedient to abandon the opening at present which was read and referred to the Road and Street Committee.

The Counsel presented a Report stating that the Supreme Court at the last term Confirmed the Report of the Commissioners for opening 5th Avenue from 13th to 21st Street, of widening Jacob street and also opening 11th Street from Greenwich Lane to Broadway [which] was read and referred to the Street Committee.

The Street Commissioner presented the following Assessments which were confirmed and Collectors appointed thereon Viz[t]

For a Well & Pump in Mulberry street between Spring and Prince street and Thomas Cottrell appointed Collector.

For a Well & Pump in the 8th Avenue near 19th Street and John Hanmer was Appointed Collector.

The Street Commissioner presented a Return of Delinquents on Assessment for [149] regulating 21st Street from the 5th Avenue to the Hudson River—Whereupon a Warrant was directed to be issued to John Hanmer the Collector thereof

The Joint Committees on Public Offices and Repairs to whom was referred the Report of the 30th of November last on Accommodation for Courts &c in the Building on Chamber street presented the following Report.

The Report of the 30th of November was called up & read as follows.

The Committee of Repairs and Public Offices to whom was referred the Resolution of M[r] Jeremiah for a suitable appropriation of the New York Institution, and the further accommodation of Public Offices beg leave to Report.

That they have maturely considered that subject, and are of opinion that the entire building alluded to in the Resolution, is required for public purposes, and may be occupied agreeably to the plan and views hereunto annexed. First, for your Police Office; Second, for your House of Detention; Third, for your Grand Jury; Fourth for your First District Watch; Fifth, for your Commissioners of the Alms House; Sixth (where the Museum now is) for a Court room Forty two feet by Ninety three, with Judges Chamber, Clerks Office, and Jury Rooms connected therewith; [150] Seventh for the Collectors of Assessments, eighth for the Public Administrators Office and Court; Ninth for your Marine Court, and the rooms that may be necessary for its accommodation, there will then remain several apartments which may hereafter be appropriated. The attention of your Committee has also been drawn to the nuisance that now surrounds the back part of your Bridewell and Debtors Jail, and do in their opinion herewith suggest a plan that will entirely remedy and remove that nuisance. It is further proposed by your Committee, that the Iron railing of the Park be extended on the Chamber street front, and that the ground be laid out in an Ornamental manner, as per plan, and be reserved exclusively for M[r] Hunters family and the Keeper of the House of Detention, that the whole building be newly painted white, and windows trimmed on

Chamber street with green blinds which will in the opinion of your Committee, make the front equal in appearance to any of the private buildings opposite, particularly as the proposed plan is to make the front on the Park, the business front. In the consideration of this subject the attention of your Committee has been drawn to the present condition [151] of the City Prison, as well in relation to the imperfect arrangement of this building as to the manifest neglect of that peculiar class of individuals which chiefly constitutes its inmates. Your Committee are perfectly aware that the happiness and security of Society require that a place of confinement should be prepared for persons awaiting their trial, but they would at the same time deprecate the idea of degrading them into the character of felons, by placing them in the society of such, or into a building which possesses the character and all the revolting attributes of a common prison; too long your Committee would urge has this subject been neglected and humanity outraged, in the midst of a population distinguished for liberality of sentiment and character, they would therefore respectfully suggest that that part of the Institution lying nearest to your future Court of Sessions, be occupied for the accommodation of persons charged with crime, to be called the House of Detention, and to be prepared with the view of separation or such Judicious classification as may best comport with the health and propriety of the establishment, and the comfort of individuals confined therein. The advantages of this arrangement will be that very small expence, all the real objections urged against the present Bridewell will be obviated, and the building when so prepared will be less liable to objections as a nuisance, than one of your public schools; nor should it [152] be thought degrading that the same range of buildings is to be occupied for a Court Room and for Various Public Offices when we reflect that the tenants of the House of Detention will be in fact only charged with crime, of which in the spirit of our Laws they will be deemed entirely innocent. As that part of the Institution to be occupied as above stated will be seperated from the Court of Sessions (now preparing) by a small space of ground, it will be readily seen that by running high walls so as to include that space into a yard, as it is now occupied, the intercourse between the two places will be entirely concealed from the public eye; and thus one of the greatest Nuisances complained of the assemblage of idle and curious spectators to witness the passage of the prisoners will be in a great measure done away; by the arrangement proposed it will be necessary to remove the Commissioners of the Alms House and the family of Mr Hunter, into another part of the

building, where they will be equally well accommodated; their yard however can still continue to be occupied for all the necessary public purposes, to which it has been heretofore appropriated. Your Committee in conclusion of this part of their subject would urge in general terms the propriety of locating the different Courts and Establishments intimately connected therewith [153] as nearly as possible in the same vicinity. The future improvements of the City will undoubtedly develope a more central location for all those Institutions; but until that period arrives, public accommodation as well as economy suggests the present as the most suitable situation

The estimated cost of all the alterations proposed by your Committee, except the Iron fence in Chambers street will not exceed Ten thousand Dollars. In conclusion your Committee beg leave to offer the following Resolution.

Resolved, that the Committees on Public Offices and Repairs, be authorized to make the alterations suggested in the above Report, and that they be limited not to expend more in amount than Ten thousand Dollars

James N Wells
Thomas T Woodruff

Jeremiah Dodge

The Report now presented was as follows.

The Committee on Public Offices and Repairs to whom was referred the Report of the 30th of November last on the subject of the better accommodation of the Courts and Public Offices for a suitable appropriation of the buildings on Chambers street,

Respectfully Report

That all the legal measures necessary to put the City authorities in possession of the building called the Institution have been taken, and the same is now in [154] situation to be occupied for public purposes, as soon as the Common Council shall direct.

The great length of time during which so large an amount of the public property has been suffered to be applied, without any material equivalent, almost exclusively to private uses, has been a subject of frequent and, it must be admitted of just animadversion. When to this consideration is added the present crouded state of the City Hall and its utter inadequacy to the accommodation of the numerous Courts and public Offices, the Committee are persuaded that no other argument need be urged to induce the Common Council, without further delay, to adopt some plan for the occupation of the building in question. In

the Report referred to your Committee the establishing of the proposed House of Detention in the East wing of the Building was recommended Since that period the Board have passed certain resolutions on the subject of a Location for a New Bridewell, the effect of which however, has been suspended by a notice of re-consideration. The Committee therefore have deemed it proper to postpone for the present that branch of the subject referred to them, reserving until the Bridewell location question shall have been finally settled by the Board.

With respect to the Westerly portion of [155] the building, there is no difficulty in the way of fitting it up immediately to meet such of the Public wants as are the most pressing; and your Committee after a very careful investigation, have come to the conclusion that the same may be most advantageously disposed of in the following manner.

First. One large Court Room with its Judges Chambers, Clerks Office and Jury Rooms, for the use of one or more of the higher Courts

Second. One smaller Court Room for the Surrogate, with an Office adjoining for the records of Wills and other documents relating to the estates of deceased persons.

Third. One Court Room for the Marine Court with a Clerk's Office and Jury Room, instead of the present subteranean abode of that tribunal.

Fourth. A more appropriate and commodious apartment for the Grand Jury with a Chamber for the witnesses and others in attendance.

According to the estimates submitted to the Committee the expence of these alterations will not exceed Five thousand dollars—Your Committee therefore offer the following resolution for the consideration of the Board.

Resolved that the Committees on Repairs and Public Offices be and they are hereby authorized and directed to cause so much of the [156] building on Chambers street called the Institution as may be necessary for the purpose to be fitted up agreeably to the plan stated in the above Report and the sum of Five thousand Dollars is appropriated to carry this Resolution into effect

James I Roosevelt Jr
James N Wells
David Bryson
Thos Jeremiah
Thomas T Woodruff

Alderman Mott moved that the Report be laid on the Table. The Question being taken thereon the Ayes & Noes being required by Mr Roosevelt it passed in the Negative, the Members voting as follows.

In the Affirmative Ald Mott Strong Mandeville 3

In the Negative Mr Recorder Ald Nevius Stevens I Brown B M Brown Wells Marsh Lee, Woodruff Mr Roosevelt Seymour Bryson, Beadel Rogers, Jeremiah Dibble[e] Cooper Engs 18

[157] The Question was then taken on Adopting the Report and it was carried in the Affirmative—Alderman Strong gave notice of Re-consideration—A motion was then made that when the Board adjourn, they adjourn to meet on Monday next. Alderman Strong then withdrew his notice of Reconsideration—The question was then taken on the Adjournment and it passed in the Negative.

The Finance Committee to whom was referred the Petition of John Morss to purchase a Gore of ground on 12th Street presented the following Report in favor of the same.

The Finance Committee to whom was referred the Petition of John Morss for the purchase of a small Gore of Land on Twelfth street

Respectfully Report

That the said Gore became the property of the Corporation by the proceedings for opening 12th Street between Broadway and the Bowery at the Assessed value of $51,6¼/100 and that the Petitioner is the owner of the adjoining land. They recommend therefore that the said Gore be sold to the Petitioner for the said price with the interest due thereon, and they offer the following Resolution.

Resolved that the Counsel to this Board prepare a Deed to John Morss for the said Gore he paying therefor the said sum of $51.64. [158] with interest as above and with the expences of the Deed, and that the said Deed be authenticated in the usual mode during the recess of the Board

The Finance Committee to whom was referred the Petition of Michael Dougherty to be exonerated from his Contract as Lessee of Districts No 4 & 7 Public Slips presented the following Report accompanied with an Ordinance.

The Finance Committee to whom was referred the annexed Petition of Michael Dougherty relative to two of the Districts of the Public Docks and Slips beg leave to Report

That the several Districts into which the Public Docks & Slips are divided were Leased at Auction under their direction on the 28th day of April last. The annexed statement contains the names of the several Lessees and of the Sureties offered by them and the sums for which the said Districts were respectively leased for the ensuing year.

[159] It appears that Districts Nos 4 & 7 were struck off to William H Hoople, the first for $6000, and the other for $9900, and that Michael Dougherty and Losee Van Nostrand were the sureties proposed for the said two Districts—The said Michael Dougherty has presented a Petition to the Board stating that he became the purchaser of the said two Districts and praying the Corporation to take one of them off his hands upon such terms as they might think right and just.

In consequence of this application the Committee directed the Leases and Bond for the said two Districts to be tendered without delay to the parties whose names had been given as Lessees and sureties; and they are informed that Mr Hoople alth'o he admitted himself to be the Lessee, refused to execute the papers, on the ground that Mr Dougherty was the person actually interested in the Leases, and that he had only allowed his name to be used at Mr Doughertys request—Mr Van Nostrand also refused to execute the Bond as a surety—Under these circumstances the Committee are of opinion that Mr Hoople & Mr Dougherty are at all events liable, and as the terms have not been complied with by giving the Bond with sureties and executing the Lease, and as the Committee see no good reason for granting the prayer of Mr Doughertys [160] Petition, they recommend as the proper course that the parties be duly notified that unless the said terms be complied with by a given day the said Districts will be advertised for Sale and sold on their account, and that they will be held liable for any deficiency between the amounts for which they may be struck off at such re-sale, and the amounts for which they were sold on the 28th of April last.

The Committee would also inform the Board that by the terms upon which the said Public Docks & Slips we[re] so leased Spring Street Slip was reserved exclusively for Market Boats and Small Boats—as no Ordinance has yet been passed for this purpose, they beg leave to submit One and recommend its passage.

The Committee conclude by offering the following Resolutions.

Resolved that the Comptroller give notice as hereinbefore mentioned to the Lessee and proposed Sureties for Districts N° 4 and 7 of Public Docks and Slips, and that if the same be not complied with, the said Districts be Resold under the direction of the Finance Committee for and on account of the parties concerned, and that the said Committee have a general discretion in the premises.

[161] Resolved that the Ordinance hereunto annexed be passed

Which was approved and the Resolution Adopted. The Ordinance was passed in the following words.

The Mayor Aldermen and Commonalty of the City of New York in Common Council convened do ordain as follows.

No person shall bring any Vessel or Vessels whatsoever (except Market Boats and other small Boats) within the Slip belonging to the Corporation at the foot of Spring street, under the penalty of Five Dollars for every such Offence.

The Market Committee to whom was referred the Petition of Lawrence Wiseburn for Stall N° 8 Greenwich Market presented the following Report.

The Market Committee to whom was referred the Petition of Lawrence Wiseburn for a Butchers Licence for Stall N° 8 Greenwich Market Beg leave respectfully to Report

That the same is accompanied with the [162] necessary consent of Charles Gillman the present occupant. They therefore offer the following Resolution for the consideration of the Board

Resolved that a Butcher's Licence be granted to Lawrence Wiseburn for Stall N° 8 Greenwich Market—Respectfully submitted

The Street Commissioner presented an Assessment for a Well & Pump in Seventeenth street near the 8th Avenue which was confirmed and John Hanmer appointed Collector.

The Committees on Public Offices and Repairs presented a Report on the subject of the removal of the Court of Sessions from the Sessions Hall accompanied with the following Resolution. "Resolved that the holding of the said Courts in the City Hall is contrary to the Ordinances of this Common Council and the Mayor is hereby requested to communicate this Resolution to the presiding Judges [196] of the said Courts respectively."

The Report was opposed on the ground that the subject had not been referred to the Committee. A considerable debate arose thereon, and a Motion was made to refer back the Report and Resolution which was lost. A motion was made to reject the whole, but no question was taken thereon. A motion was then made to refer the Resolution independant of the Report to the same Committee, the question being taken thereon the Board was equally divided, and the Mayor gave his Vote in the Affirmative, so the Resolution was referred back. A motion was then made to reject the Report which the Mayor declared out of order.

The Special Committee on subject of the Mandamus from the Supreme Court in relation to the Election of David Rogers as Alderman of the 5th Ward presented a Report. The same was objected to on the ground that the Report was made without the knowledge of two of the Committee, considerable debate arose thereon and it was finally referred back to the same Committee. Alderman Seaman & Mr Bryson requested to be discharged from the Committee but the Board refused to grant their request [197] On Motion of Mr Bryson the Committee was directed to Report at the next meeting of the Board.

The Committee on Wharves Piers & Slips presented a Report relative to building Piers at Barrow street which was read and Laid on the Table.

Alderman Strong presented the following Resolution which was referred to the Committee of Arrangements to Report thereon.

Resolved that John Sidell, Jacob Hays Douw D Williamson and John Ahern receive the Amount received from the Booths on the ensuing Anniversary of our Independance.

Alderman Seaman presented the following Resolution which was Adopted.

Resolved that in all cases where the purchasers of any of the State Prison Lots who may have given Bonds and Mortgages to secure the purchase Money for the same shall request such Bonds & Mortgages to be assigned over to any other person, such Assignments may be executed and authenticated in the usual manner during the recess of the Board and may be delivered by the Comptroller to such Assignees on payment of the [198] amount due for principal and interest on such Bonds and Mortgages together with the expences of such assignments.

[211] The Finance Committee to whom was referred the Petition of Stephen C Brown praying that certain Assessments for opening 14th & 15th Streets and 7th Avenue should be divided presented the following Report against the same.

The Finance Committee to whom was referred the Petition of Stephen C Brown praying that certain Assessments for opening 14th & 15th Streets and 7th Avenue laid upon property formerly belonging to Peter Dustan deceased, should be divided and apportioned upon the different Lots composing such property.

Respectfully Report.

That having heard the reasons and arguments urged in favor of this application and carefully examined the subject with the assistance of the proper Officers of the Board, they are satisfied that it is not in the power of the Corporation to comply with the application, and if they had such power, that there are many reasons why it should not be exercised in the present case—They offer therefore the following Resolution.

Resolved that it is inexpedient to grant any relief on the said Petition

[212] The Finance Committee to whom was referred the application of G. B White relative to establishing Baths at Castle Garden presented the following Report in favor of the same.

The Finance Committee to whom was referred the Petition of George B White praying for permission to place small buildings on the West side of the exterior of Castle Garden for the purpose of warm Sea water baths, and to moor a floating bath and make such use of the Sea water as may be necessary for such purpose.

Respectfully Report

That in their opinion, Public Baths properly conducted, contribute much to the health and comfort of the community, and that the Location proposed by the Petitioner is an eligible one for this purpose. The Committee therefore see no impropriety in giving the Assent of the Corporation to this application provided the Petitioner and the present Lessee of Castle Garden agree on the subject, and provided that such assent be not construed as any permission to erect any building or buildings not authorised by Law. They offer therefore the following Resolution

Resolved that the Petitioner have [213] the permission of the Corporation to establish the Baths proposed by him at Castle Garden so far as the same can be granted without impairing any rights under the existing Lease for that establishment, and so far as such baths or the buildings to be erected therefor may be according to Law.

The Finance Committee to whom was referred the Petition of Azel S Roe and Hugh Munro for the purchase of a Gore on 12th Street presented the following Report in favor of the same.

The Finance Committee to whom was referred the Petition of Azel S Roe and Hugh Munro for the purchase of a Gore

Respectfully Report.

That the said Gore became the property of the Corporation by the proceedings for opening 12th Street between Broadway and the Bowery at the estimated price of $16.13 That the Petitioners have by purchase from William W Fisher become the owners of the land adjoining the said Gore and require the same to complete their front on the Street. The Committee therefore offer the following Resolution.

[214] Resolved that the Counsel to the Board prepare a Deed to the Petitioners for the said Gore of Land, they paying for the same the above sum with interest from the 1st day of February 1830 and the expences of the Deed, and that such Deed be authenticated in the usual manner during the recess of the Board.

The Finance Committee to whom was referred the Petition of Henry Costar for a renewal of Lease of Lot of common Land in the Twelfth ward presented the following Report against the same.

The Finance Committee to whom was referred the Petition of Henry Costar for a renewal of a Lease held by him for a Lot of the Common Lands, Respectfully

Report.

That there are about three years of the said Lease yet unexpired, and as the Board have uniformly of late refused to extend the terms of unexpired Leases, the Committee see no reason [215] why the present case should form an exception to the rule so adopted—They therefore submit the following Resolution.

Resolved that it is inexpedient to comply with the prayer of the said Petition.

The Finance Committee on the application of the Mechanics Society for a remission of rent of the Buildings occupied by the Society presented the following Report in favor of the same.

The Finance Committee to whom was referred the Petition of the General Society of Mechanics and Tradesmen of the City of New York praying for a remission of the rent of the ground occupied by the said Society under Lease from the Corporation

Respectfully Report

That the Petitioners occupy a piece of ground fronting on Chamber Street and belonging to the Corporation which was leased to them at

the annual Rent of One hundred and twenty five Dollars. That the Corporation about five years ago, agreed to remit this Rent, for a period lately [216] expired, upon condition that the sum so remitted should be expended in the purchase of Books for the Library established by the said Society on the said premises for the use of Apprentices.

Your Committee on due enquiry have every reason to be satisfied that this condition has been faithfully complied with, and taking into consideration the great and increasing usefulness of the said Society by means of the School established under its auspices for the children of its deceased and indigent members, also of the charity dispensed by it, And more especially by its library, which tends in an eminent degree to disseminate useful knowledge and correct principles among the apprentices of this City, the Committee are of opinion that with a view to encrease the said Library and extend its utility, it would be proper to comply with the prayer of the Petition by continuing to remit the said rent upon the same terms for a further period. They submit therefore the following Resolution.

Resolved that the annual Rent of $125, reserved in the Lease from the Corporation to the said Mechanics Society for the ground in Chamber street occupied by the buildings of the said Society be remitted for the further term [217] of Seven years from the 1st of May last upon condition that the said amount be annually appropriated by the said Society to the purchase of Books for the Apprentices Library, and that an Annual Report be made on or before the 1st of May of every year during the said seven years by the said Society to the Corporation shewing in what manner such appropriation shall have been made.

The Finance Committee to whom was referred the applications of Jonas Platt and David B. Ogden Esqr for Counsel fees in the case of Leake's Will presented the following Report.

The Finance Committee to whom was referred the applications of Jonas Platt and of David B Ogden Esqrs for the payment of Counsel fees for their services in the Court of Errors in the case relative to the Will of John G Leake

Respectfully Report

That having heard the statement of Judge Platt and Mr Ogden also of Mr Miller the Public Administrator and of Mr Ulshoeffer the former Counsel to this [218] Board, they are of opinion that those Gentlemen were employed as Counsel in the said cause on behalf of the Corporation, and that they rendered their services under the impression that they should receive compensation from the Corporation. It should be borne also in mind that the decision of the Chancellor in the said cause, was against the validity of the said Will, the effect of which was to give the Corporation a right to receive the whole amount of Mr Leakes personal estate, and that decision being appealed from the Corporation were fully justified in employing Counsel and using every effort to prevent a reversal in the Court of Errors. The amount applied for by Judge Platt is $1250, being the balance of his Account rendered and which is hereunto annexed—The sum claimed by Mr Ogden is $1000, If the result of the cause had been favorable the Committee do not think these amounts would be objectionable, but as the efforts of those gentlemen were not successful and as they have already received fees in the said cause, the Committee think there should be a reduction of the sums claimed. Mr Ogden has already received $250 for services in the Court of Errors and the Committee are of opinion that $500, in addition thereto would be under [219] all circumstances a fair compensation. In like manner they think $500, should be deducted from the sum claimed by Judge Platt which would leave the amount to be received by him at $750. The Committee submit therefore the following Resolution.

Resolved that the Comptroller be directed to pay to David B Ogden Esquire the sum of Five hundred dollars, and to Jonas Platt Esqr the sum of Seven hundred and fifty Dollars in full for their respective services as Counsel in the late controversy relative to the Will of John G Leake deceased.

The Committee on the Fire Department to whom was referred the Petition of Caleb S Lindsley of Fire Engine C° N° 9 for remission of Fine

Beg leave respectfully to Report

That the members of that Fire Company have been heard before your Committee, and the fact admitted by them of the running of

the Fire Engine on the walk contrary to Law, but they stated that in their opinion the complaint was made with malicious feelings towards them, the Street Inspector of the first ward (who made the complaint) appeared also before the Committee and expressly disavowed being actuated by any improper motives and your Committee would state that in their opinion it was under a sense [222] of duty incumbent on him in the strict discharge of the Office Committed to his trust, and as it is of importance that this wholesome & salutary Ordinance should be enforced not only for the protection of property both Public and Private, but also for the protection of the lives of our Citizens they accordingly offer for the consideration of the Board viz[t]

Resolved that in the case of the Petition of Caleb F Lindsley it is inexpedient to grant the prayer of the same, and on payment of the Fine, the Attorney of the Board be and he is hereby directed to pay the amount to the Treasurer of the Fire Department Fund.

The Committee on Assessments to whom was referred the Petition of Mary J De Lancy to be relieved from an erroneous Tax presented the following Report in favor of the same

The Committee on Assessments to [223] whom was referred the Petition of Mary J Delancey to be relieved from an Erroneous Tax

Respectfully Report

That M[rs] De Lancey testifies that she was Assessed on her personal property in the Fifth Ward on $10,000 while she was worth no personal estate.

It appears also by her statement that she removed out of Town shortly after the death of her husband which took place five or six years since, and that she remained out of town until a few months previous to the Assessors making their Assessment in 1829, that she was not aware of her being assessed until the Assessors Books were closed and that from the circumstance of her never having been Assessed before, she was totally ignorant of the Law governing Assessments.

The Certificate of the Assessors corroborates her Statement and the Committee offer the following Resolution

Resolved that the personal Tax of Mary J Delancey in the 5th Ward be and the same is hereby remitted.

[224] The Committee on Assessments to whom was referred the Petition of John M[c]Comb and others Trustees &c of the New York La Fayettee fire Insurance Company to be relieved from the payment of a Tax assessed upon property of said Company for 1829 presented the following Report

The Committee on Assessments to whom was referred the Petition of John M[c]Comb and others Trustees of the estate and effects of the New York La Fayette Fire Insurance Company praying to be relieved from the payment of a Tax assessed upon the property of the said Company for the year 1829.

Respectfully Report.

That it has been proved to their satisfaction that in consequence of Losses sustained by the said Company, the business thereof was discontinued in the early part of the year 1829 and that during the March term of the Court of Chancery in the said year a Petition was presented to the said Court for the dissolution of the said Company upon which application, an order was made, on the Eighteenth day of June in the said year, dissolving the said Company and appointing the Petitioners, Trustees thereof; and no income or profit has been derived by the said Company from its Capital or otherwise since the 3[d] of [225] March 1829.

Upon these facts, the Committee are of opinion that the Capital Stock of the said Company was not liable to taxation. The words of the Law confines such liability expressly to monied or Stock Corporations deriving an income or profit from their Capital or otherwise, and the Tax from which relief is sought in the present case was Assessed upon the balance of Capital paid in, after deducting the value of the Real estate belonging to the Company which Capital it appears had ceased to be at all productive long before the Assessors entered upon their duties according to Law. They offer the following Resolution.

Resolved that the Tax of the La Fayette Insurance Company for 1829 be and the same is hereby remitted.

[230] A Communication was received from Elijah T Pinckney Esq[r] Assistant Justice of the 9[th] and 11[th] Wards resigning said Office which was in the words following Viz[t]

To the Honorable Walter Bowne Mayor of the City of New York.

Sir

I Consider it my duty to apprise you that it is my intention to resign my station of Assistant Justice of the Ninth and Eleventh Wards. It has occurred to me that the Public Interest might be injured in doing this immediately, inasmuch as pending Suits previously adjourned would thereby become abated, to enable the Common Council to supply the Vacancy in due Season, and to produce as little derangement in the business of the Court as possible, I announce my resignation to take place, on the first day of August next.

Respectfully &[c]

New York 21[st] June 1830. Elijah T Pinckney

Which was read and referred to the Committee on Applications for Office

The Street Committee to whom was referred the Petition of Mrs T Turk for permission to place a Cistern in Liberty street, and also one in William street in front of her building presented the following Report in favor of the same.

The Street Committee to whom was referred the Petition of Taneke Turk for permission to build Cisterns under the Side walks at the corner of William and Liberty streets Respectfully

[238] Report.

That Mrs Turk has occupied so much of her grounds with buildings, that there is not sufficient room for Cisterns on the premises, and although evils have arisen from having Cisterns built in the Streets yet your Committee think that if any are constructed in a proper manner no serious evil would be experienced by having them placed under the Street walks, and therefore submit the following Resolution.

Resolved that Taneke Turk have permission to build a Cistern under the side walk in front of her building in Liberty street, and also in front of her building in William street provided the same

shall be constructed of Brick or Stone in the most substantial manner with an Iron grate in the neck and a stone covering laid level with the walk and the water drawn off through the Cellar wall, the whole to be done under the directions of the Street Commissioner and to his satisfaction.

[239] The Special Committee to whom was referred the Mandamus in relation to the Election of the 5th Ward presented the following Report

The Special Committee to whom was referred the conditional Mandamus from the Supreme Court on the subject of the 5th Ward Election

Respectfully Report

That it is still uncertain when Alderman Rogers will return— That a Respectable number of the Electors of the 5th Ward have Petitioned for an Election.

That the Counsel of the Board to whom the subject was referred has in an able and elaborate opinion clearly demonstrated the right to order an Election inherent in the Common Council.

That no solid, legal reasons can be assigned why an Election should not be ordered to fill the vacancy occasioned by the absence of Alderman Rogers.

And that in the opinion of your Committee it is the duty of the Common Council to order an Election forthwith

They offer the following Resolution.

Resolved that the Office of Alderman of the 5th Ward be and the same is hereby declared to be vacant: And that the Common Council do accordingly order that a Special Election to fill the said vacancy be held in and for the said 5th Ward at the Hotel of Thomas Riley corner of Chapel & Provoost [240] streets on the Seventh and Eighth days of July next

Alderman Strong presented the following Report signed by himself and Mr Dibblee the Members of the Committee who had not signed the above Report, which was in the words following.

Whereas application has been made to this Common Council for permission to have a Special Election for Alderman of the 5th Ward in the place of Alderman Rogers who is absent in the West Indies.

And Whereas a Communication has been received from Samuel D Rogers Esqr son of Alderman Rogers, containing a virtual resignation of the Office in behalf of his Father, by and with the consent of his constituents & friends;

And Whereas the Republican Ward Committee of the 5th Ward friendly to Alderman Rogers has in a communication expressed their desire that the Election may take place—Therefore

Resolved, that this Common Council do order an Election for Alderman of the 5th Ward to fill the vacancy occasioned by the resignation of Alderman Rogers, to be held in and for the 5th Ward [241] at the Hotel of Thomas Riley corner of Chapel & Provoost streets on the Twelfth and Thirteenth days of July next according to Law and that Robert M Russel, William Westervelt and John Van Beuren of the said Ward be and they are hereby appointed Inspectors of the said Election.

George D Strong
Fyler Dibblee

A considerable discussion arose, when Mr Engs moved the previous question, which was seconded, put and carried. The Question was then taken on the Resolution which was in the words following

"Resolved that, the Office of Alderman of the 5th Ward be and the same is hereby declared vacant and the Common Council do accordingly order that a special Election to fill the said vacancy be held in and for the said 5th Ward at the Hotel of Thomas Riley corner of Chapel & Provoost streets on the seventh and eighth days of July next according to Law." and a Division being called by Alderman Stevens it was carried in the Affirmative the Members voting as follows

In the Affirmative Mr Recorder Ald Nevius I Brown Seaman [242] B M Brown Wells Meserole Woodruff Mr Roosevelt Mandeville Bryson Scott Beadle Rogers Lovett Engs 16.

In the Negative Ald Mott Stevens Strong Palmer Mr Seymour Arcularius Jeremiah Dibblee 8

The Board were then proceeding to elect one Inspector of the Election in place of one who had resigned, at the last Election, and

the Members had prepared their Ballots, but it was determined that the case was provided for by Law and the Mayor was requested to destroy the Ballots unopened.

Which were passed.

The City Inspector presented an Ordinance to fill in yard and Cellar South East corner of Avenue D and 5th Street at the Public expence—Which was passed.

[261] The Committee on Public Offices & Repairs to whom was referred the communication from the Surrogate relative to removing his Office from the City Hall presented the following Report in favor of removing said Office.

The Committee on Public Offices and Repairs to whom it was referred (among other things) to make provision for the accommodation of the Surrogate in the building on Chambers street

Respectfully Report.

That the westerly room lately occupied by the Historical Society is now in a state of readiness, but the Surrogate deems it proper, before removing from the City Hall, that the Board should give their directions for that purpose as his authority for so doing—Your Committee therefore submit the following Resolution.

Resolved that the Office of the Surrogate be removed from the City Hall to the apartment in the building on Chamber street lately occupied by the Historical Society.

Which was approved and the Resolution adopted.

[262] The Committee on Assessments to whom was referred the Petition of William Bloodgood to be relieved from the payment of an erroneous Tax presented the following Report in favor of the same.

The Committee on Assessments to whom was referred the Petition of William Bloodgood to be relieved from an erroneous Tax Respectfully Report

That in the month of April last Mr Bloodgood applied for relief from an erroneous personal Tax, which as he then represented was $10,000 which sum were placed by the Assessors by mistake for $1000, and the Common Council granted him the desired relief but since that period he has been served with a Notice by the Collector claiming a Tax on $6000 instead of the $1000, which was contemplated by the Committee.

The Error appears to have occurred in consequence of the Assessors having given an erroneous statement of his former Tax which was $15,000 instead of $10,000 and in consequence of which $6000, still remains charged to him.

As Mr Bloodgood appeared before the Assessors during the period prescribed by Law, and as the error is acknowledged by [263] them to have occurred from copying the Books, the Committee believe Mr Bloodgood to be entitled to relief, and offer the following Resolution.

Resolved that the personal Tax of Mr Bloodgood in the 14th Ward be reduced from that on $6000, to that on $1000, and that the surplus be returned among the errors of Taxes for 1829

The Canal Committee to whom was referred the Petition of John G Coster and others against the extension of the Sewer in centre street presented the following Report in favor of the same.

The Canal Committee to whom was referred the Petition for and the remonstrance against the extension of the Sewer in Centre [Street] Respectfully Report.

That they have ascertained by examination that the extension of the Sewer as Petitioned for would be attended with great expence in consequence of the necessity of [264] driving Piles, as the ground is not of sufficient firmness to support a competent foundation. The great majority of the owners of property subject to Assessment have

remonstrated against the extension & have suggested the propriety of crowni[n]g the Street in the centre raising the Curb stones, and carrying off the water by means of wide side gutters. The Committee believe the proposition of the remonstrants to be practicable, but as the subject belongs more strictly to the Street Committee and is not within the province of the Canal Committee they offer the following Resolution.

Resolved that it is inexpedient to extend the Sewer in Centre street.

Resolved that the subject of crowning Centre street in the centre and widening the Side gutters be referred to the Street Committee.

Which was approved and the Resolutions adopted.

The Committee on the Fire Department [265] to whom was referred the return of the Chief Engineer of Fire Engine Co No 13 appointing David Willson a fireman of said Company, also a Remonstrance against said appointment presented the following Report against his appointment.

The Committee on the Fire Department to whom was referred the return of the Chief Engineer for a member of Fire Engine Company No 13 vizt David Willson, also the remonstrance of several members of said Company against the same

Beg leave Respectfully to Report

That by an Act of the Legislature of this State passed 9th April 1813 it is declared "that it shall be lawful for the Mayor Aldermen & Commonalty of the City of New York in Common Council convened and they are hereby required from time to time to appoint a sufficient number of strong able discreet, honest & sober men, of the said City, willing to accept such appointment being freeholders, or freemen, of the said City, to have the care, management, working and using the Fire Engines & the other tools & instruments now provided or hereafter to be provided for extinguishing of fires within the said City, which persons so to be appointed shall be called the Firemen of the City of New York." That Mr Willson was before your Committee & stated that he was an Alien, having but recently arrived in this [266] Country, consequently in the opinion of your Committee ineligible to the Office of a Fireman, They offer the following.

Resolved that the Return of the Chief Engineer of David Willson as a Fireman be rejected.

Benjamin M Brown
John Rogers
James Palmer
William Scott
Samuel Stevens
P. W Engs

Which was approved and the Resolution adopted.

The Committee on the Fire Department to whom was referred the Return of the Chief Engineer relative to the expulsion of Jeremiah F Craig from Fire Engine C° N° 8 presented the following Report in favor of his expulsion.

The Committee on the Fire Department to whom was referred the Petition of Jeremiah F Craig to be reinstated as a Fireman in Engine Company N° 8 and also the Report of the Chief Engineer of members for the said Company, beg leave respectfully to Report

That the Petitioner and the Foreman of the said Company appeared before your Committee and from the statements then [267] made and admissions of M^r Craig [it does appear that M^r Craig] has neglected his duty, that the same was fully examined by the members of the said Company and M^r Craig nearly unanimously expelled, it therefore does appear to your Committee that it would be inexpedient to retain him in that Company, and they offer the following for the consideration of the Common Council.

Resolved that the Return of the Chief Engineer be accepted.

The Committee on the Fire Department to whom was referred the Petition of the Members of Fire Engine C° N° 33 for the removal of their Engine House presented the following Report

The Committee on the Fire Department to whom was referred the Petition of Members of Fire Engine Company N° 33 for the removal of their Engine House, beg leave Respectfully [268] to Report

That the above Fire Engine is located on a piece of Ground on the

premises of Mr James P Allair in Cherry street, that it has been thus located, for several years past, free of ground rent to the Corporation, but in the opinion of your Committee the location is not as favorable a one as ought to be selected, and the Engine house is very small and inconvenient and is fallen into decay—That your Committee have endeavoured to procure a more favorable scite and after no little delay, Report that a Lot can be procured on the West side of Gouverneur Street 25 feet South of Henry street of the following dimensions 24 feet 7 Inches front and rear & 54 feet deep for the sum of One thousand dollars, this Lot in their opinion is a very desirable Location, and that part of the Lot that will not be wanted at this time for the above purpose can be rented at a price nearly to pay the interest of the purchase money.

They offer the following for the consideration of the Common Council.

Resolved that the Committee on the Fire Department be and is hereby empowered to purchase the above Lot at a sum not exceeding One thousand dollars, and when the Title shall [269] be reported perfect by the Counsel of the Board the Comptroller Report a Warrant for the same

Resolved that the Committee on the Fire Department have a suitable Engine House erected on the same.

The Committee on Public Offices and Repairs to whom were

referred the Communication from the Register of Deeds, the Resolution of Mr Roosevelt, and the Report of a former Committee on subject of Fire proof building for Records &c presented the following Report

The Joint Committee on Public Offices and Repairs, to whom were referred the Communication from the Register of Deeds and the Resolution of Mr Roosevelt in relation to Fire proof Offices, and also the *Report of a former Committee on the same subject Respectfully Report.

That the City Hall, in which the Public Records are now deposited, is not secure against Fire. The immense amount of property, of which these records are the evidences, and the confusion and ruin which must ensue from their destruction, admonish us of the necessity of making every possible provision to guard them against accidents. Your Committee impressed with this conviction, have carefully examined the two places submitted to them, one of which proposes the fitting up of a portion of the building on Chamber street, and the other altering the old Gaol.

[284] With respect to the first of these plans it will undoubtedly be the least expensive and least inconvenient inasmuch as it will not involve any removal of the Debtor Prisoners. But altho the apartments, to which it refers, may be made comparitively fire proof, yet, in the opinion of experienced builders, they cannot be rendered completely so. The Gaol, on the other hand, is a massive Stone edifice, and stands entirely insulated from every other structure. But the question has been asked, what is to be done in the meanwhile with the Debtor prisoners. The number of debtors in actual confinement, is at present Thirty five. No serious difficulty therefore exists in disposing of them. So small a number of persons might for the present a[t] least be accommodated in the East wing of the Building on Chamber street and the expence of the alterations necessary for that purpose, it is estimated, would not exceed Five hundred dollars. In order, however, to test the sense of the Common Council, on the main question, the Committee submit the following Resolution.

Resolved that it be referred to the Committees on Public Offices and Repairs to cause the building at present occupied as a Gaol to be fitted up in a Fire proof manner [285] for the reception of the Public Records as soon as the imprisoned debtors shall be removed, and the

sum of Fifteen thousand dollars is hereby appropriated to carry this Resolution into effect.

The Finance Committee to whom was referred back their Report on the Petition of Merchants for a reduction of the rate of Commutation of Alien Passengers presented the following Report in favor of the same. The former Report [295] was as follows.

The Finance Committee to whom was referred the Memorial of a number of Merchants praying for a reduction of the rate of Commutation money charged for Alien Passengers.

Respectfully Report

That deeming this subject to be one of great importance to the City, the Committee have given it a careful examination and have

heard statements in relation to it, from the proper Officer of the Alms House Department, as well as from a Committee of the Applicants.

The practice in regard to Alien Passengers who arrive in this port, is either to take Bonds from the Masters of the Vessels, with surety, in the mode directed by the Act of the Legislature, or to commute for their future liability by accepting a certain amount in money, which amount has been fixed at $2.50 for each passenger by a Resolution of this Board, and it is discretionary with the Mayor to require such Bonds or accept such commutation as he may think most expedient. In almost every instance where Bonds are taken, the owner or consignee of the Vessel becomes the surety and such sureties are in fact the responsible and interested parties. The system of Bonding is strongly objected to by Merchants because as they allege (and the [296] Committee believe correctly) it exposes them to impositions against which they have no adequate means of guarding. It is not uncommon for paupers to say, that they arrived here in a particular Vessel, and to assume the name of some person who actually did arrive in such Vessel; And it is extremely difficult to detect such a fraud, by which the Merchant becomes saddled with the Alms House bill for the support of such pauper at the rate of Three dollars per week. And independant of such objection, Merchants dislike giving those bonds, as they delay the final settlements of the Accounts of particular Voyages, or expose them to be called upon for payments after such accounts have been closed, which should have been included in them.

For those reasons they prefer the System of commuting, but complain that the rate now charged for each passenger is much too high, particularly in the present depressed state of the shipping interest, and that they are driven to give Bonds, against their will as the lesser of two evils.

The object of the Committee has been to determine how the City revenue may be affected by a reduction in the rate of Commutation. If such reduction will have the effect [297] of inducing Merchants generally to prefer Commuting in every instance where commutation would be received, the Committee are of opinion that the change will be advantageous in a pecuniary point of view to the City. It is certain that a very inconsiderable amount is collected upon the bonds taken in these cases. There is no guarding against the possible insolvency of the obligors or other contingencies which render this a precarious source of revenue, while on the other hand, the general payment of

even a diminished rate of commutation money would in their opinion ensure the actual receipt of a larger annual fund, than what is now derived in both ways. From the Statements and representations made to them, the Committee are strongly inclined to believe, that the effect of a reasonable reduction will be a general commutation in all cases where it may be allowed, and that if no great gain, should result to the City Treasury by the change, its receipts will not be diminished thereby from what they have hitherto been—The Memorial asks for a reduction to fifty cents for each passenger, but your Committee have reason to believe that One dollar would be considered by the Merchants generally who are interested in this subject, as a fair rate; and they recommend therefore that, that [298] rate be adopted for future commutations it being understood however that Bonds may still be required as usual in all cases where it may be deemed expedient to commute.

The Committee conclude by offering the following Resolution for the adoption of the Board.

Resolved that the Mayor be authorized to commute hereafter for Alien passengers at the rate of One dollar for each passenger, in all cases where he shall not deem it expedient to take Bonds of indemnity as provided by Law

W Seaman
Wm W Mott
Peter J Nevius
G Lee.

The Report made at this Meeting was as follows.

The Finance Committee to whom was referred back the Petition of several Merchants for a reduction in the rate of Commutation money for Alien Passengers, together with their former Report upon the said Petition.

Respectfully Report

That they have had the subject of the said Petition and Report again under consideration and have received additional reasons for [299] believing that if the rate of Commutation should be reduced to One Dollar for each passenger as recommended by them in their former Report, the Merchants engaged in the business of bringing passengers to this City, will prefer paying such commutation in all cases to giving Bonds, and that the result will be a larger amount of money received annually from this source than there has hitherto been. The Committee therefore under a full belief that the City will

be benefitted by the adoption of such a measure beg leave to recommend the passage of the Resolution offered by them with their said former Report which is hereunto annexed.

William W Mott
Peter J Nevius
B M Brown

Which was approved, and the Resolution offered in the former Report was adopted.

The Finance Committee to whom was referred the Petition of Jonathan Lyon, Owen McCabe, John Devlin & Michael Tally to have the amount remaining due on Contracts for paving paid them presented the following Report.

The Finance Committee to whom was referred the annexed Petitions from Jonathan Lyon Owen McCabe, and from John Devlin and [300] Michael Tally respectively Report

That the Petitioners respectively apply to have the amounts remaining due to them on contracts for paving paid to them, alleging that they are much in want of their money. The Committee on conferring with the Street Commissioner (whose statement of the amounts still due to them respectively is hereto annexed) are of opinion that it would be right and just to comply with the applications of the said Petitioners and they offer therefore the following Resolution.

Resolved that there be paid to Jonathan Lyon the sum of $157.66 being the balance due him on his contract for paving Greenwich street from Bank street to Kill Road. Also to Owen McCabe the *the* sum of 476.81 being the amount of balances due him on his contracts for regulating and paving Jane street from Greenwich Lane to Assylum street, and for paving the 1st Avenue from North to 6th Streets. Also to John Devlin and Michael Tally the sum of $577.27 being the amount due on their contract for regulating and paving Barrow street from the 6th Avenue to the intersection of the Street formerly called Raisin street

The Finance Committee to whom was referred the Petition of the Congregation of Sheareth Israel and also of J Smith & A Gifford relative to a piece of ground on Eleventh street presented the following Report.

The Finance Committee to whom was referred the Memorial of the Congregation of Sheareth Israel, relative to a certain piece of ground fronting on Eleventh street, Also the Petition of James Smith and Andrew Gifford praying for the privilege of purchasing the same.

Report.

That the said piece of ground was formerly a part of the burying ground of the said Congregation and was awarded to the Corporation at the sum or price of $759.52 by the late proceedings for opening Eleventh street and that the same adjoins and partly fronts the lands of the Petitioners Smith and Gifford.

The Committee have had the respective applicants before them, and it appears that Messrs Smith & Gifford presented their Petition under the impression that the price of the said piece of ground was only $500, on discovering which error, they have expressly declined, any further application [302] for the purchase thereof at the price assessed therefor upon the Corporation. On the other hand the said Congregation to whom a larger amount, was awarded by the said proceedings for damages sustained by taking away another part of their ground for the Street, are willing to take *to* [the] Gore or piece in question at the full amount put upon the same, And allow such amount to be deducted and retained out of the damages so awarded to them.

The Committee are therefore of opinion that their proposition should be acceded to; and they submit the following Resolution.

Resolved that the Counsel to the Board prepare a Deed to the Trustees of the said Congregation for the said piece of ground at the said price of $759.52 (to be paid in the manner above mentioned) together with the expences of the Deed and that the same be authenticated in the usual manner during the recess of the Board.

The Finance Committee to whom was referred the Petitions of E Hunt and [303] R B Dore & others for a suspension of the Collection of the Assessments on their property presented the following Report against the same.

The Finance Committee to whom was referred the annexed Petitions of Elvin Hunt and of Robert B Dore and others praying that

the Corporation may suspend the Collection of certain Assessments upon their property

Report.

That the said Assessments are included in the Final return of uncollected Assessments presented to the Board at their last Meeting by the Street Commissioner and which has been referred to this Committee.

The property Assessed has not therefore as yet been advertised for three Months before any sale can be made. As the Board are now also vested by Law with the power of postponing such sales when they may deem it expedient, the Committee think that the proper mode of affording indulgence in such cases would be by exercising that power before the day of sale if the circumstances should then warrant it; And that it would be premature to make any order for the relief of any of the persons so assessed at present. They offer therefore the following Resolution.

Resolved that it is inexpedient at this time to grant the prayer of the said Petition.

The Finance Committee to whom was referred the Final Return of Delinquents on sundry Assessments presented the following Report in favor of Advertising the same according to Law.

The Finance Committee to whom was referred the Final returns of delinquents on sundry Assessments presented by the Street Commissioner to the Board on the 28th of June last

Report.

That in their opinion the Assessed property mentioned in the said Returns should be advertized according to Law without delay.

They submit therefore the following [305] Resolution

Resolved that the Street Commissioner cause the necessary steps to be taken to Advertize the said property for sale in the usual manner.

The Finance Committee to whom was referred the Petition of G W Skellorn late Keeper of the Bridewell for remuneration of expences paid for advertizing and re-capturing certain Prisoners who escaped from Bridewell while he was Keeper thereof presented the following Report

The Finance Committee to whom was referred the annexed Petition and account of George W Skellorn late Keeper of the Bridewell

Report.

That the said Petition is for an allowance of expences incurred by him in advertizing and recapturing certain prisoners who escaped from Bridewell while he was Keeper thereof. The Committee are satisfied that the said escape occurred without fault on the part of Mr Skellorn and that he took prompt measures to re-capture the said prisoners, which resulted in re-taking Eight of the Ten [306] who so escaped. They are of opinion therefore that he should be re-imbursed the expences paid by him for this purpose. Mr Skellorn has however informed the Committee that the sum of $20 charged in the said Account for the services of John Conrey, were not actually paid to him, and as Mr Conrey was then under a Salary as a deputy Keeper of the Bridewell, they see no reason why that item should be allowed. They recommend therefore that the same be deducted and submit the following Resolution.

Resolved that the Comptroller report a Warrant in favor of George W Skellorn for One hundred and nine dollars and thirteen cents being the residue of his said Account.

The Road and Street Committees to whom was referred the subject of opening 4^th^ Avenue between Broadway and 28^th^ Street presented the following Report.

The Road and Street Committees to whom was referred the Communication of the Counsel to the Board on the subject of opening

the Fourth Avenue between Broadway and 28th Street that the Supreme Court at their late Sittings had rejected the Report of the Commissioners in the said matter, and that it now remained [309] with this Common Council to determine whether or not it is expedient to abandon the said opening for the present, On all which your Joint Committees respectfully Report that they have given the subject their deliberate consideration, and although public convenience would be somewhat promoted by having that Avenue opened, but inasmuch as the expence of such opening falls oppressively heavy at the present on a few individuals much beyond any benefits that will be derived therefrom Your Committee therefore deem it inexpedient to make further application to the Supreme Court for the appointment of Commissioners of Estimate and Assessment in the above case, and accordingly recommend the adoption of the following Resolution.

The Street Committee to whom was referred the Petition for and remonstrance against the widening of Dover street from Water to South street Respectfully Report.

That they have viewed the premises and are of the Opinion that the widening of that Street is much required as from its extensive narrowness (being only 20 feet) it is with difficulty that Carts can pass and from its central location leading to some of the principal business wharves on the East river it is very desirable that access to them should be direct and convenient—Your Committee accordingly would recommend the following Resolutions.

Resolved that it is desirable for public convenience that Dover street be widened and improved from Water street to South street.

That your Committee have viewed the premises and are of the opinion that the widening of that Street as asked for by the Petitioners would add much to their convenience as it is at present very narrow, and the expence at this time small, as the corner Lot is now vacant, and the adjoining building would receive but little injury, they accordingly recommend the adoption of the following Resolution.

Resolved that Pine Street be widened and improved by taking a small part of the vacant Lot corner of William street and of the adjoining building and Lot agreeably to a Map or plan herewith pre-

The Board adjourned to this day Four weeks at 5 OClock P. M.

The following Report on subject of Fire proof Buildings for Records &c made on the 9th March 1829 and laid on the Table afterwards called up & Referred to the Committees on Public Offices and Repairs and which should have been inserted at page 283 is now Inserted here as follows.

The Joint Committee, to whom was referred the Memorial of the Register of the City of New York stating the necessity of securing the Records in said Office, from danger by Fire, and in consequence of the accumulation of Books; to make further arrangements as respects more room, and likewise the consideration of a Resolution offered by Alderman Peters Septemr 24th 1827 and referred to said Committee, which resolution proposes, the erection of a Fire proof [367] building with apartments to receive the Records of the different departments including the Records of the Courts beg leave to Report that they have carefully investigated the subject, and find that the records of the Courts, which are the evidences of the titles of property to the amount of many Millions of Dollars; The great importance of your

Registers Office, as respects real estate, likewise your Comptrollers Office and your Street Commissioners Office, which has already been on fire, and was very near being destroyed, And further, that in consequence of the necessity of having fire and light at all times of night, in all parts of the building; and the necessity of allowing free access to every part of it, to all classes of Citizens, and the Records Books Maps &c being of a combustible nature, do consequently greatly endanger this valuable building.

The Committee are therefore of opinion that a suitable fire proof building should be provided as soon as possible; And your Committee beg leave farther to state, that they have carefully examined the Debtors Gaol, which is soon to be vacated, and find that it will answer every purpose, for the fire proof building proposed. Its walls are of the best quality, and built in the most substantial manner, the interior is divided in a suitable manner with Stone Partition walls to every Room 22 inches thick, and consequently will only require [368] the wooden floors taken out, and brick Arches put in their places, the Doors and windows made of Iron, and the outside finished in a handsome manner, so as to represent marble a flat Copper or Stone roof, with a neat balustrade all round thus giving you at a comparitively small expence a handsome building of 60 by 75 feet containing 14 fire proof rooms, ten of which are 18 by 19 and four are 19 by 26 feet, the said rooms being sufficiently spacious for all the purposes required— And farther, the advantages of making use of the said walls, are as follows; The age of the Walls has made them permanent to receive the pressure of the arches, which if you were to build a new one would require the outside walls to be double the thickness to be of equal strength—The present walls are perfectly dry, and can be made ready to receive your Records &c in nine months, Whereas a new building could not be used for several years without destroying your papers in consequence of the dampness of your Walls. The probable cost, according to a rough estimate made by your Committee, for the alteration of said building as above proposed (the minute description of which is not inserted here) will be from 15 to 20,000 Dollars and your Committee are of opinion that the cost of erecting a new building of the same description would be from 35 to 40,000 Dollars making a saving [*] by using the walls of the present Jail of one half the expence, independent of the advantages of having the use of the building for the purposes for which it is required much sooner than

if you were to build a new one—In consideration of the above your Committee beg leave to offer the following Resolution.

Resolved that Committee be directed to procure a plan representing the proposed alteration of the present Jail, and in the usual manner obtain estimates of the Cost of said alteration and submit the same to this Board at the next Meeting

Alderman Seaman presented the following Resolution which was Adopted.

Resolved that the Comptroller be authorised to borrow under the direction of the Finance Committee whenever it may be deemed necessary, any sum not exceeding, Eighty thousand Dollars at an Interest not exceeding Six per Cent per Annum.

Upon Motion of Mr Mandeville it was Resolved that it be referred to a Special Committee to take into consideration, and to Report to this Board some mode for directing the employment of Marshals & Constables attending the Courts of Justice and as to their compensation. The Mayor [5] appointed on that Committee Mr Roosevelt Mandeville Dibblee Ald B M Brown Woodruff.

Upon like Motion it was referred to the same Committee to Report to this Board on the subject of the service of Subpenas on Witnesses by the Peace Officers and to Report some arrangement therefor.

Alderman Wells presented the following Resolution which was read and Adopted.

Resolved that the Commissioners of the Alms House be authorised to have Pottersfield enclosed with a suitable Board fence the Cost not to exceed Five hundred Dollars.

The Report of the Joint Committees on Public Offices and Jail & Bridewell which was under consideration at the last Meeting of the Board when an Adjournment took place was now called up and read in the words following.

The Joint Committees on Public Offices an[d] Gaol and Bridewell to whom was referred the Resolution to authorize the Committee of Repairs to fit up part of the Old Alms House for the [6] accommodation of the prisoners in the Gaol

Respectfully Report.

That by an Act passed by the Legislature on the 10th of April 1824 the Common Council were authorized to erect a new Gaol and Bridewell or to appropriate for that purpose any buildings already erected. Altho more than six years have elapsed since this power was obtained, yet, owing to the great diversity of opinion to which its exercise has given use, nothing effectual has been done. At the last meeting however of the Common Council, a report was adopted directing the fitting up of the present Gaol for the reception of the Public Records, and, as a necessary consequence requiring other accommodations to be provided for the confinement of the Debtors. In this view, it is presumed, the Resolution in question was presented.

Owing to the heavy responsibilities imposed upon the Sheriff in cases of escape from confinement on civill process the building devoted to that object is required to be perfectly secure. To remove the apprehensions of that Officer, it is found that much greater expence must be laid upon the Old Alms House than would be consistent with the temporary nature of the arrangement. Your Committee have therefore endeavoured to devise some other plan less liable to objection; and they have come to [7] the conclusion that under all the circumstances, it would be most advisable as a temporary arrangement, that the Bridewell should be turned into a Debtors Prison, and that the Criminals should be removed to the establishment at Bellevue. By adopting this course no expence will be incurred, and the future changes now in contemplation, may hereafter be made without loss.

A large Portion of the Penitentiary, owing to the removal of the prisoners to Blackwells Island, is now vacant, and the building (in every thing except its name) is in fact a Bridewell ready built. Its distance will no doubt be attended with some inconvenience, an evil however which as the City increases will be daily decreasing and which even now may be greatly mitigated by holding there the Courts of Special Sessions, and also a branch of the Police Office. And with respect to the present Bridewell its occupation as a Gaol would probably be of short duration, inasmuch as the barbarous practice of imprisonment for debt, jud[g]ing from the strong indications of public sentiment will no doubt eer long be abolished. Your Committee therefore recommend the adoption of the following Resolutions.

Resolved that the building in this City at present known as the Bridewell be and the [8] same is hereby designated as the Gaol of this City for the confinement of persons on civil process.

Resolved that the Building at Bellevue, in this City known as the Penitentiary be and the same is hereby designated as the City Prison or Bridewell of this City.

Resolved that the Keeper of the City Prison forth with cause the prisoners under his charge to be removed to the said Prison at Bellevue and that the Debtors in actual confinement be thereupon removed to the Goal or debtors Prison so newly designated as aforesaid

After considerable discussion, the question was taken on adopting the Resolutions, and a Division having been called by Alderman Stevens the Members voted as follows.

In the Affirmative Ald Nevius Seaman B M Brown Wells Lee [9] Woodruff Mr Roosevelt Bryson Scott Beadel Rogers Jeremiah Lovett 13

In the Negative Mr Recorder Mott Stevens I Brown Strong Ald Meserole Marsh Mr Seymour Mandeville Dibblee 10

So it was carried in the Affirmative. Alderman Stevens gave notice of Reconsideration at the next Meeting.

The following Resolution was read and laid on the Table.

Resolved that it be referred to the Committee on Repairs to cause the small buildings and Nuisances to be removed from the Old Bridewell, and that the said Main building be handsomely fitted up.

Mr Mandeville presented the following Resolution which was read and referred to the Committee on the Fire Department.

Resolved that the Fire Committee be requested to hold a conference with Mr Elisha Hall on the subject of Rotary Engines, and if they approve [10] of them, Resolved, that the Committee be empowered to contract for one Engine as an experiment to prove their utility in extinguishing Fires.

The Special Committee appointed to investigate the Official conduct of the Inspector of the 11th Ward (Abm Hatfield) presented a Report which was read and laid on the Table. A motion was made to print the same, But it was Negatived

His Honor the Mayor announced to the Board that he had received intelligence of the death of Colonel Marinus Willett a distinguished Officer of the Revolutionary War, a highly respected Citizen and who once filled the Office of Mayor of this City he departed this life last evening in the 90th year of his age.

The Recorder then presented the following Resolutions which were unanimously adopted.

Resolved that the Common Council entertain for the Memory of Colonel Marinus Willett the most profound respect. That they remember with grateful recollection the eminent public services of the deceased. His patriotism and devotion to his Country. His atcheivements in the War of the Revolution. His volour in battle, His heroic firmness in the most dangerous of Military [11] enterprizes, and his early constant and unshaken support in the great cause of American Independence.

Nor is the Common Council unmindful of the strong claims, which the deceased has upon the respectful feelings of his fellow Citizens, for the able upright and enlightened manner in which he discharged his Civil duties in the various important public stations which he filled.

Resolved, that as a tribute of respect to the virtues of Colonel Marinus Willett, the Corporation of the City of New York will assemble at the Common Council Chamber in the City Hall at 4 OClock to morrow afternoon, and will from thence proceed to attend the funeral of the deceased.

The Committee on Wharves Piers & Slips on a Petition from William Van Buskirk for remuneration for loss of his Horse by backing off from the Easterly side of Middle Pier, Peck Slip

Respectfully Report.

That your Committee have ascertained, that the backing pieces at Peck slip was level with the dirt on the Pier, and have reason to believe that the Horse would not have gone off had the backing piece been a

proper heighth, it appears that at the time of the [28] accident the Petitioner (being lame) was not driving himself, but his son a lad of about 17 years of age was driving for him, and was not legally authorised to do so, Your Committee take the liberty of stating that the Petitioner as they are informed is a person of very good character, has heretofore been very unfortunate, and losing his Horse (worth $70) at this time has left him destitute even of a Dollar, and a large family dependant upon him for support; If he had been driving his horse at the time, or if his son had been deputised agreeably to the Law on that subject, the Committee would have had no hesitation in Reporting in his favor, but as his son was driving in violation of the Law, the Committee are compelled to offer the following Resolution.

The Minutes of the last Meeting were read and approved

Upon reading the Accounts audited by the Comptroller when the Account of the sum of $5000, [37] for the Superintendent of the Alms House was read. Alderman Strong objected to the passing of

that item in the Comptrollers account and he presented a Resolution—The Mayor decided that according to the course of business Resolutions were not then in order Alderman Strong appealed from the decision of the Chair and was about to state his reasons for his appeal, when the Mayor decided that debate on an appeal from the Chair was out of order. Alderman Stevens appealed from that decision of the Chair—The Mayor declared that appeal out of order—The question was then taken on Alderman Strongs appeal—A Division was called by Alderman Strong—Alderman Mott Alderman Stevens & Mr Dibblee requested to be excused from voting, after some discussion their request was complied with, and the Division being called the Members voted as follows.

The Committee on Assessments to whom was referred the Petition of F. A. C. Brichta to be relieved from an erroneous Tax.

Respectfully Report.

That Mr Brichta appeared before the Committee and testified that he was Assessed for personal property on $1000, for the year 1829 in the 14th Ward whereas at the time the Tax was imposed he was Insolvent.

Mr Brichta further stated that when he was visited by the Assessors, that he stated he was worth nothing and did suppose that no Tax was imposed. And that having seen the Assessors, and being a foreigner unacquainted with the Laws, he was not aware of the fact of the Books being open for Inspection. The Committee believing him entitled to relief, as the Assessors have given a Certificate that the Tax is erroneous, offer the following Resolution.

[40] Resolved that the Tax on the personal *personal* property of F. A. C. Brichta in the 14th Ward on $1000, be and the same is hereby remitted.

The Finance Committee to whom was referred the Petition of Thomas Cumings for payment of Balances due him on Contracts for paving &c presented the following Report in favor of the same.

The Finance Committee to whom was referred the Petition of Thomas Cummings for the payment of the Balances due him on sundry contracts for work executed for the Corporation beg leave to Report

They have examined the accounts in the Street Commissioners Office in relation to the amounts applied for by the Pe[ti]tioner and find due and unpaid to him as follows: For paving Barrow street from Washington to West street a balance of $223,$^{9}/_{100}$.

[41] For paving West street from the late State prison to Hammond street $238.$^{3}/_{100}$

For paving Commerce & Barrow streets from Hudson to Bedford Street $196,17/100.

For paving Hammond street from Washington to West street $213,73/100.

For paving the 6th Avenue from 6th to 13th Street $1672,53/100.

For regulating the 6th Avenue from 13th to 21st Street $441,11/100.

And for regulating 19th and 20th Streets from the 6th to the 8th Avenue $200,53/100.

The whole of the preceding contracts were executed by the Petitioner, during the past year, the assessments, all confirmed, and returns of delinquents according to Law made some time since, and the property, on which the Assessments remain unpaid are now advertised, by order of the Common Council to collect the same—Your Committee are therefore of opinion, that the prayer of the Petitioner is reasonable, and ought to be granted, and offer the following Resolution.

Resolved that the Comptroller draw Warrants in favor of Thomas Cummings the Petitioner in conformity with the above statement.

The Alderman & Assistant of the 11th Ward and the City Inspector to whom was referred the Petition of Inhabitants at Burnt Mill point to be relieved from a Nuisance presented the following Report.

The Alderman and Assistant of the Eleventh Ward and the City Inspector to whom [47] were referred the Petition of sundry Inhabitants at Burnt Mill Point praying to be relieved from a nuisance occasioned by dumping the Butchers Offal at that place Respectfully Report.

That in the opinion of your Committee the evil complained of is one which calls for redress.

Owing to the occupation of the Wharves on the East river southerly of Thirteenth street the Butchers Carts from the numerous Stalls located in the Eastern section of the City avail themselves of this Street as the first opening to the Water—at the intersection of the East River and this Street which is not extended out to the Channel, but is formed by a bulk head along the Southerly side of a Bay, the greater part of the Butchers Offal of this City is cast into the water, which along this Bulkhead is neither sufficiently deep or rapid to remove the offensive deposit, but it remains more or less exposed to the Sun and Air.

Your Committee are aware that the Corporation Law directs under a penalty that all such offal shall be dumped into the stream, but they beg leave to remark that all Laws to be salutary must be reasonable, and they respectfully state that in their opinion the growing population of this City, and the consequent increase of the evil complained of, as well as the reasonable claims of the Butchers to be provided with a convenient place in order that they may be enabled on their part to [48] comply with the Law, seem to require that a suitable provision should be made by the Common Council. With this view your Committee after personal examination recommend as a proper location the dock at the foot of Twenty third street on the East River. This Dock is extended into the Stream to the Boundary Line of the City namely Tompkins street, it is not otherwise occu-

pied, is situated above the Shoal water of the Bay and somewhat remote from population.

From this Dock your Committee recommend that a Bridge Wharf or Pier be built on Piles extending Twenty feet over the Water in order that Persons emptying their Carts may be enabled to dump into the Stream which is at this place both deep and strong.

The expence of a Pier or Wharf as above mentioned according to estimates made for Your Committee will not exceed Four hundred and fifty Dollars, they therefore ask leave to offer the following Resolution for the adoption of the Common Council.

Resolved that the sum of Four hundred and Fifty dollars be and the same is hereby appropriated for the purpose of erecting a suitable Bridge or Pier on Piles at the foot of Twenty third street East River from which the Butchers Offal &c may be conveniently dumped into the Stream

A Communication was received from the Police Magistrates requesting suitable apartments in the Old Alms House may be fitted up for a Police Department, was read and referred to the Committee on Public Offices & Repairs.

The Street Committee to whom was referred the subject of Repairs and alterations at foot of Barclay street presented the following Report in favor of the same.

The Street Committee respectfully Report on the subject of the repairs and alterations at the Intersection of Barclay and West streets, that they deliberately and carefully examined the premises previous to giving directions to have the necessary repairs made, and were decidedly of the opinion that the only efficient method to remedy the evil, was the one which has been adopted, and they gave directions accordingly, and which has been done to the entire satisfaction of the Public, and with regard to the strictest Economy as to the expence, The fixtures made by the Mess[rs] Stevens at the Hoboken Ferry (and which in the opinion of the Committee) has been done with [50] great Judgment and much to the public Accommodation, but which at the same time rendered it necessary to convey the water of Barclay street across West street by means of covered Sewers as there was not sufficient elevation to convey the water on the surface to the river unless by deep gutters rendering it not only inconvenient, but

extremely dangerous to carriages with passengers to and from the Ferry.

Your Committee deem the foregoing explanation sufficient to justify them in the course they have pursued in making the improvement at the foot of Barclay street—They therefore recommend the adoption of the following Resolution.

Resolved that the Comptroller issue a Warrant for Two hundred and Ninety five Dollars and thirty two Cents for the payment of the repairs and improvements at the intersection of Barclay and West streets.

Whereupon on Motion the Board proceeded to Ballot and the President upon counting the Ballots declared Elias Hicks duly elected, he having a Majority of the Votes.

The Committee on cleaning Streets presented the following Report on the situation of the Department of the Superintendent of Streets and recommending the abolishing the Office of Assistant Superintendent of Streets.

The Committee on Cleaning Streets beg leave to Report

That after a variety of ineffectual attempts to obtain a settlement of the Accounts of the Deputy Superintendent of Streets, from the

1st February to the 31st December 1829 they have finally succeeded through the aid of Mr Waters whose assistance your Committee were compelled to require from the very irregular situation in which the accounts were found.

By an exhibit made from documents [68] furnished by the Deputy Superintendent (which is attached to this Report and to which reference may be had for particulars) the Deputy Superintendent appears indebted to the Corporation Three thousand two hundred and twenty dollars forty six cents, for which sum the Committee have received Fifteen hundred dollars in Cash, and his Bond at Six months for the balance One thousand seven hundred and twenty Dollars forty six Cents in order to effect a settlement.

Your Committee regret the necessity to state, that the Office of the Superintendent has been forcibly entered the desk broken open, and three hundred and fifty three dollars twenty four Cents of the public money abstracted therefrom: and your Committee cannot refrain from stating, that in their opinion sufficient prudence has not been exercised by the Officers in this department inasmuch as your Committee directed them more than Six months since, to procure an Iron chest or safe, for the preservation of the Books and papers of this Office.

It appears very evident to your Committee that there is not that promptness in Collecting the moneys due to this Office, which a due regard to the public interest renders desirable, and which strict attention might produce, and as evidence [69] of this opinion, there is now due to this department Nineteen hundred and eighty five dollars forty cents, for manure sold and delivered more than eight months.

From the most deliberate and attentive consideration bestowed on this subject, and the difficulties that exist your Committee would suggest the propriety of placing the whole responsibility of the department on the Superintendent of Streets, and that he be held liable for all the transactions of his Office, subject to the controul of the Committee, to whom monthly returns should be made, and that the Office of Deputy Superintendent be vacated. And it is also further recommended, that each of the Inspectors of Manure shall under oath render monthly returns of all the Manure delivered or Inspected by them to the Comptroller containing the number of the Certificate, number of Loads, name of the Captain and Vessel, or place where delivered.

Your Committee are of opinion that if this plan is adopted and also monthly returns from the Superintendent, of the condition of the horses, carts, and all the Articles under his controul and use, a considerable saving would result by this arrangement to the public.

They therefore offer the following Resolution.

Resolved that the above Report be adopted, and the suggestions embraced therein be carried into immediate effect.

Which was approved and the Resolution adopted. The Report and Account accompanying were directed to be printed for the use of the Members.

The Market Committee to whom was referred the subject of removing the Hay Market to [71] the rear of Tompkins Market presented the following Report in favor of the same together with an Ordinance.

The Market Committee to whom was referred the Resolution to remove the Hay Market to the public ground in the rear of Tompkins Market

Respectfully Report.

That in the opinion of your Committee the place as now designated by Law viz[t] Third street between the Bowery and Second Avenue, is not only very inconvenient to the vender of Hay, but creates a very great nuisance in the front of the Dwellings of the Citizens who reside on that street, that the proposed location is an open space free from

those objections and in the opinion of your Committee ought to be adopted.

They accordingly offer the following Ordinance for the consideration of the Common Council.

"A Law to amend the Law to prescribe a place in this City for the sale of Hay and Straw in Wagons"

Be it Ordained by the Mayor Aldermen and Commonalty of the City of New York in Common Council convened, that so much of the Law to prescribe a place in this City for the sale of Hay & Straw in wagons be so amended as that the place so assigned be Hall street between Sixth and Seventh streets and that all the provisions of the Law hereby amended inconsistent with the provisions of this Law be and the same are hereby repealed.

The Committee on the Fire Department to whom was referred the Petition of Moses Coddington and sundry others to have the Engine House at the foot of Duane street removed and the square enclosed with a pale fence.

Respectfully Report.

That they have had a proportion of the petitioners before your Committee and have heard their several statements and your Committee are of the opinion that it is very important for the protection of a large amount of property in that section of the City, that the Engine should be retained on the square, and in the opinion of your Committee, there can be no objections to enclose the same with a neat pale fence which can be done at about the same expence as paving it, they would further state that the Engine House is very old and decayed— They offer the following Resolution for the consideration of the Common Council.

The Minutes of the last Meeting were read and Approved.

After reading the Cash Account of the Comptroller, with the accounts Audited, the Mayor put the following Question, Shall an appropriation be made, and shall Warrants issue for the payment [94] of the said Accounts. Alderman Seaman rose in his place and stated that in his opinion, no Warrants could issue for payment of those accounts, while the Resolution proposed by Alderman Strong, and passed at the last meeting of the Board continued in force, and he

moved that the said Resolution be rescinded—The reading of the Resolution was called for, and it was read in the following words.

"Resolved that in conformity with the 18th Section of the New "Charter of the City, no expenditure which has not previously been "appropriated for the object to which the same is to be applied shall "be paid out of the Funds, which now are or may be hereafter in "the City Treasury."

Considerable discussion arose and on the question of agreeing to the Motion of Alderman Seaman to rescind the said Resolution it was carried in the Affirmative the Members voting as follows.

In the Affirmative Mr Recorder Ald Nevius Mott Lamb Seaman B M Brown [95] Wells Meserole Woodruff Mr Roosevelt Seymour Bryson Scott Rogers Jeremiah Cooper Lovett 17

In the Negative Ald Stevens I Brown Strong Palmer Mr Mandeville Arcularius Dibblee Engs 8

The Mayor then put the Question shall the appropriation be made for payment of the Accounts mentioned in the Comptrollers Cash Account, which was carried in the Affirmative—He then put the Question, shall Warrants issue for payment of said Accounts which was also carried in the Affirmative—see Cash Account page 129

The Resolution proposed by Alderman Palmer at the last Meeting of the Board, and as amended was read in the words following.

"Resolved that no Public Dinners be hereafter given at the Alms House, or elsewhere or Suppers unless ordered by the Common Council.

Debate arose thereon and after some time the Previous question was called, the Mayor put the [96] question, shall the main question be now put, which was agreed to—The question was then taken on adopting the Resolution and a Division being called by Mr Engs the Members voted as follows.

In the Affirmative Ald Nevius Stevens I Brown Lamb Strong Seaman B M Brown Meserole Palmer Mr Roosevelt Mandeville Arcularius Scott Dibblee Cooper Engs 16.

In the Negative Mr Recorder Ald Mott Wells Woodruff Mr Seymour Bryson Rogers Jeremiah Lovett 9

So it was carried in the Affirmative. Alderman Palmer gave notice of Reconsideration at the next Meeting of the Board—Alderman Stevens called for the Vote of the Mayor; on the question The Mayor stated that by the Rules he was entitled to one Vote only, and that it was right to give that [97] vote when he saw fit and was not compelled to Vote Alderman Stevens appealed from that opinion of the

Mayor, but upon Motion of Alderman Mott the consideration of that appeal was postponed.

Mr Dibblee presented the following Resolution which was read and Laid on the Table.

Resolved that this Common Council will not in future sanction the payment of any Bill for any Corporation or Public Dinner which is not previously directed by a Resolution of the Common Council.

Mr Engs presented the following Resolution which was read and referred to the Gas Committee.

Which were passed.

The City Inspector presented an Ordinance to fill in Sunken Lots between Bloomingdale Road and Sixth Avenue & between 13th & 15th Streets [108] at the public expence, and that a Lien be taken on the premises for the same—Which was read and passed.

The Commissioners of the Alms House Penitentiary and Bridewell presented a Report in pursuance of the Resolution of the Common Council of the 28th of June last which was ordered to be laid on the Table and 250 Copies to be printed for the use of the Members.

The Finance Committee to whom was referred the Petitions of Peter Smith for the payment of Balances due him for paving Streets presented the following Report in favor of the same.

The Finance Committee to whom was referred the Petitions of

Peter Smith for the payment of the balances due to him on his contracts for regulating and paving streets

Respectfully Report

They find due to the Petitioner on the paving of West street from Spring to Hamersly street $593 $^{7}/_{100}$, and also to be due to him on the filling up and regulating Avenue C from Second to Fifth streets $2802 $^{96}/_{100}$. [109] The assessments for the above mentioned streets have been confirmed several months since, all the steps pointed out by Law have been complied with by the Collectors, and the property which is delinquent, is now advertised for sale, in order to Collect the same by order of the Common Council from these circumstances your Committee are of opinion, that the prayer of the Petitioner, is reasonable and ought to be granted, and offer the following Resolution

Resolved that the Comptroller be directed to draw Warrants in favor of Peter Smith the Petitioner for the sum of $593,$^{7}/_{100}$ balance for paving West street from Spring to Hamersly street and for the sum of $2802,$^{96}/_{100}$ balance for regulating Avenue C from 2^{d} to 5th Streets Respectfully submitted

The Committee on the Fire Department to whom was referred the Petition of Members of Fire Engine Company N° 36 for a New Engine House and also a permanent Location near its present one, presented the following Report in favor of the same.

The Committee on the Fire Department to whom was referred the Petition of the Members of Fire Engine Company N° 36 for a New Engine House, and also for a permanent location near its present one

Respectfully Report

That the Engine House is very much decayed and not worth repairing and in the opinion of your Committee ought to be replaced by a new one, that the present scite, viz the ground of the Presbyterian Church in Spring street near Varick street is too small and inconvenient for the erection of a proper and suitable House, that your Committee have endeavoured to procure a Lot in the vicinity, and they would Report that Mr Anthony Compton [112] has offered them a piece of ground on the corner of Van Dam & Varick streets of the following dimensions 15 feet front and rear & 25 feet deep on a Lease of Seventeen years at the rate of Fifty Dollars per year, which in the opinion of your Committee is the most advantageous terms they can procure a Lot on. They accordingly offer for the consideration of the Common Council the following Resolution.

Resolved that the Committee on the Fire Department be and is empowered to Lease the above Lot, and that the Superintendent of

Repairs under the direction of the said Committee have a suitable House erected on the same.

The Market Committee to whom was referred the Petition of Isaac Asten sweeper of Fulton Market praying an increase of Salary Respectfully Report.

That the duties of sweeper of said Market has increased very much & he now daily requires the aid of three Assistants.

To pay these men together with the expence of Brooms &c so reduces the amount of his compensation, as to afford an inadequate maintenance for himself; They therefore offer the following Resolution for the consideration of the Common Council.

Resolved that the pay to Isaac Asteen sweeper of Fulton Market be increased from One dollar & fifty cents per day to Two Dollars.

The Committee on Wharves Piers & Slips and Finance Committee to whom was referred the Petition from a number of persons recommending the purchase of part of the Estate of the late Colonel Rutgers near the foot of Jefferson street presented the following Report against the same.

The Committee of Wharves Piers & Slips and Finance to whom was referred a Petition from a number of persons residing in the Eastern part of the City recommending the purchase of part of the Estate of the late Col[l] Rutgers near the foot of Jefferson street. Respectfully Report.

That your Committees have made the necessary enquiry and have ascertained that the Grant of Water Lots made to Co[l] Rutgers extends to and includes South street, reserving however to the Corporation the water in front thereof for a Public Slip or Basin and also such portion of South street as may be necessary after such Public Slip or Basin shall be formed. Under these circumstances your Committees are of opinion that it would not be to the interest of the Corporation to become the purchasers of the ground now offered for Sale by the Executors [116] of Col Rutgers and offer the following Resolution.

Resolved that it is unnecessary at this time for the Corporation to purchase any portion of the Land belonging to the estate of Col

Rutgers situate on the East River between Rutgers and Jefferson streets.

The Committee on Repairs to whom was referred the subject of painting the Basement of the City Hall white in imitation of Marble presented the following Report in favor.

The Committee of Repairs to whom was referred the Resolution of Mr Roosevelt relative to painting the Basement of the City Hall white in Imitation of Marble

Beg leave to Report

That your Committee have maturely considered that subject, and it is not without feelings of regret that they are constrained to say they think a great Error was committed by building any [117] part of the outside of the Hall with Brown free stone, when Marble could have been procured of a much stronger and more durable nature, But from the experience of some of your Committee, and from the enquiry they have made of old experienced builders and Stone Cutters, they are satisfied that painting free Stone with Oil colours, tend more to harden and preserve that material, than any other thing they are acquainted with. In consideration of which your Committee would offer the following Resolution.

Resolved that the Superintendent of Repairs cause the Basement of the South, East and West fronts of the City Hall to be painted white under the direction of the Committee on Repairs.

The Alderman and Assistant of the 1st Ward and Street Commissioner to whom was referred the Petition of Peter Remsen & others requesting the removal of the Pump at Hanover Square presented the following Report against [125] the same.

The Alderman and Assistant of the First ward and Street Commissioner to whom was referred the Petition of Peter Remsen and others requesting that the Well & Pump at Hanover square may be removed to some more suitable Location

Respectfully Report

That in their opinion the Well in its situation gives less Annoyance to the individuals in that vicinity or to the public, than at any

other place in that section of the City, and that the water is good which would probably not be the case even if it was removed, but a little distant from its present location.

For the foregoing considerations your Committee are induced to recommend the Adoption of the following Resolution.

Resolved that it is inexpedient to remove the Well and Pump at Hanover Square from its present location.

Peter J Nevius
James I Roosevelt Jr
R Graves.

Which was approved and the Resolution adopted.

The Gas Committee presented the following Report relative to lighting Beekman Wall and Courtlandt Streets with Gas, on being read [126] It was moved that Fulton street be inserted in the Resolution which was carried in the Affirmative

The Report was then read in the words following.

The Gas Committee respectfully Report

That there is now on hand in the Corporation Yard One hundred and seventy six Gas Lamp Post[s] which in the opinion of your Committee should be immediately put in use.

And from an Estimate made by the Superintendent of Lamps, this number appears to be sufficient to light Beekman Wall & Courtlandt streets, they accordingly recommend the adoption of the following Resolution.

Resolved that the Superintendent of Lamps under the directions of the Gas Committee, cause Beekman street, Wall street, "Fulton street" and Courtlandt street to be lighted with Gas

Respectfully submitted

Peter J Nevius
Thomas T Woodruff
William W Mott

The Minutes of the last Meeting were read and approved.

The unfinished business of the last Meeting was now taken up

[159] The Street Commissioner presented the following Return of Delinquents which were read and Warrants ordered to be issued to the Collectors thereof. Vizt

For an Assessment to pave Weehawken street from Christopher to Amos street.

For building Public Cisterns corner of Bleecker & Amos streets. Warrant to issue to Thomas Cottrell the Collector thereof.

Also for an Assessment for regulating the 9th Avenue from 16th to 18th Street.

For laying Side walks in Centre street between Franklin & White streets.

For widening Jacob street between Frankfort and Ferry streets.

For laying side walks in Mott street between Prince and Bleecker streets

For laying side walks in Mulberry street between Prince and Houston streets. Warrants to issue to John Hanmer the Collector thereof.

The Street Commissioner presented the following Assessments which were Confirmed and Collectors appointed thereto Viz[t]

For repaving Nassau street from Beekman to Spruce street & Thomas Cottrell appointed Collector.

[160] For repaving South street from old Slip to Coenties Slip & Thomas Cottrell appointed Collector.

For paving Seventh street between the 2[d] & 3[d] Avenue & Thomas Cottrell appointed Collector.

For paving Sixth street between the 2[d] & 3[d] Avenue and John Hanmer appointed Collector

For paving Side walks of Norfolk street between Rivington and North street and John Hanmer appointed Collector.

For paving Burton street between Bedford and Bleecker street and John Hanmer appointed Collector.

He also presented an Assessment for Bulkhead at James Slip, together with objections to the confirmation which were referred to the Committee on Assessments.

The Street Committee to whom was referred the Petition to have Hester street re-paved between the Bowery and Norfolk street presented the following Report in favor of the same.

The Street Committee to whom was [161] referred the Petition to have Hester street re-paved between the Bowery and Norfolk street Respectfully

Report.

That the pavement of that Street is much broken and in their opinion ought to be repaved, And accordingly submit the following Resolution.

Resolved that Hester Street be repaved and the side walks re-laid from the Bowery to Norfolk street.

The Street Committee to whom was referred the Petition to have the Bloomingdale Road paved to 21st Street presented the following Report in favor of the same.

The Street Committee respectfully Report on the annexed Petition to have the Bloomingdale road paved to 21st Street

That inasmuch as that way and Road has been recently dug out and regulated and the present surface is composed of Clay and loom, it will be rendered impassible during the ensuing [162] season unless it is covered with a suitable layer of gravel or sand. Your Committee are therefore of the opinion that inasmuch as it is one of most frequented Avenues to this City the anticipated evil ought to be prevented, in order to which, they recommend the adoption of the following Resolution.

Resolved that so much of the Bloomingdale road as lies between the 13th & 21st Streets be gravelled and paved that the setting of the Curb stone and Gravelling of the Carriage way and side walks be done the present season, and the paving of the Carriage way be postponed until the next ensuing summer

The Law Committee to whom was referred the case of Patrick McPake the judgment against him having been reversed by the Superior Court presented the following Report

The Law Committee to whom was referred the Report of the Attorney to the Board in [163] relation to the case of Patrick McPake

Respectfully Report.

That the Judgment recovered by the Corporation in the year 1829 against McPake for a violation of one of the Corporation Ordinances was in June last reversed by the Superior Court upon Certiorari. That the Costs thereon have been regularly Taxed at $83.94 for which amount judgment has been rendered, payment of which amount is therefore unavoidable.

The Committee recommend the adoption of the following Resolution.

Resolved that the Comptroller issue his Warrant in favor of

William Mulock the Attorney of Patrick M^c^Pake for the said sum of $83 $^{9}/_{100}$ in satisfaction of said judgment

The Finance Committee to whom was referred the Petition of Resolvent Stephens for compensation for extra services as Clerk of Police Office presented the following Report in favor of the same.

The Finance Committee to whom [164] was referred the Petition of Resolvent Stephens Clerk of the Police Office for compensation for extra services Respectfully Report.

That Jacob Townsend the former Assistant Clerk of the Police Office died on or about the 25th of July last, and that the vacancy occasioned by his death was not filled until the 7th of September, when M^r^ Hicks the present Deputy Clerk was appointed; during that Interval the duties of that Office were performed by M^r^ Stephens, and his present application is for the amount of compensation which M^r^ Townsend would have received for such period had he lived. The Committee have ascertained that the said duties were faithfully performed by M^r^ Stephens, and that in order to accomplish this extra service, he was obliged to labour during the evenings and at other times not usually appropriated to business. It was absolutely necessary that this duty should be done by some one, and the Committee have no hesitation in saying that M^r^ Stephens is justly entitled to receive the compensation which he has thus earned. They offer the following Resolution therefore. Resolved that the Comptroller report a Warrant in favor of Resolvent Stephens for Ninety three Dollars $^{3}/_{100}$ for his extra services in performing the duties of Assistant Clerk of the [165] Police Office from the 25th of July to the 7th of September 1830.

The Comptroller respectfully informs the Common Council, that the Assessment Books have been delivered to the respective Collectors except the 12[th] and 13[th] Wards. It is understood that in consequence of the failure in electing a Collector for the 12[th] Ward at the last Annual Election a vacancy occurs in that Office, which the Board will no doubt remedy in the regular mode prescribed by Law.

The Collector of the 13th Ward was duly notified on the 25th day of September last that the Assessment Book of his Ward was ready for delivery, and he was requested to give a Bond within the time prescribed by Law. He has not come forward in conformity with the Notice, and as it is proper that the Tax should be collected as early as possible [170] The Common Council are informed of the circumstances that such measures may be adopted as their wisdom may judge proper

The Special Committee to whom was referred to examine and Report their opinion as to the true construction of the 18th Section of the New Charter presented the following Report

The Special Committee to whom was referred the annexed Resolution directing them to examine and Report their opinion as to the true construction to be given to that Section of the New Charter (framed by a Convention of the People) which requires "that Annual and occasional appropriations shall be made by proper Ordinances of the Common Council for every branch and object of City expenditure."

Respectfully Report.

That they have given all the consideration, which the shortness of the time has enabled them to bestow on the subject, being one of high interest to the future well management of our Municipal concerns.

The Common Council has heretofore [187] in its practice not required the setting apart of its Revenues for the specific objects of City expenditure, But the proper construction of the New Charter does, in the opinion of your Committee, require that this should

now be done. That this opinion is in conformity to the true construction of the 18th Section is obvious, for the language is that by "proper Ordinances the appropriation shall be made for every branch of City Expenditure," not that an appropriation shall be made for the payment of Debts and liabilities incurred, but for objects of expenditure. And if this was not the case how idle would the provisions of the Charter be, which could be satisfied by putting the word appropriate before the word Pay in the Resolution, to take money out of the Treasury.

Having come to this conclusion Your Committee are of opinion that an Ordinance should be passed appropriating the estimated Amount which would be required for the usual City Expenditures, between the present and the time of the New Charter going into effect. Your Committee admit that all the advantages of appropriations for expenditures, cannot be had with the Board as now Organized, Yet your Committee hope, that no inconsiderable advantage will accrue, under the present organization by obliging the Committees of the Board, to make accurate estimates and requiring them to ask the Common Council [188] for specific appropriations for the many new and incidental expenditures of money which the Board will from time to time be called upon to grant.

And many expenditures will be avoided when the whole Cost is fully and fairly put before the Board at the time of their original discussion. But whether this advantage will at present certainly accrue or not, it is nevertheless the duty of the Board to comply with the positive requirements of the Statute.

In preparing the annexed Ordinance for the Common Council the Committee have called to their aid the Comptroller and other Officers of the Board and although the appropriations are not made in as specific a manner as would be desirable, and will leave many subjects for specific occasional appropriations; Yet something will be effected, and it will be laying the foundation of a System which experience and the division of the Common Council, and the organization of Departments, will mature into a more perfect system.

Your Committee by the Ordinance by no means intend that Committees should conclude that they are to make expenditures, because of these general appropriations, but rather that our p[r]actice should be

First. That the Board should meet all usual and common expences by a general appropriation [189] to the object.

Secondly. That the Board itself should pass on all new subjects of expenditure as well as on those not absolutely necessary for carrying into effect objects of expenditure which the Board had previously directed, And that the Act of the Board authorizing the work or undertaking should precede the expenditure.

Your Committee admit that there are small casual expences, particularly those embraced by Repairs, which cannot in every particular be called up and passed upon by the Board; yet it is desirable to increase the class of cases, which the Board are in the habit of acting on, and lessening those on which the Committees are in the practice of acting on as far as possible, and it is hoped our future practice may conform to these suggestions.

In conclusion Your Committee recommend the adoption of the accompanying Ordinance.

A Motion was made to adjourn, which was negatived.

The Report of the Street Committee on the Petition for widening Lombardy street which was laid on the Table on the 6th September last was now called up and read in the words following.

The Street Committee respectfully Report on the annexed Petition and Remonstrances against having Lombardy street widened and improved between Catharine street and Jefferson street, That in their opinion the time has arrived, when the Street ought to be widened agreeably to the plan adopted; and as shewn on the Map or plan of the Rutgers estate, making that street when so widened of the width of Fifty six feet being as originally laid out but Forty feet and as this Street is the only remaining one, that has not been widened as agreed upon and according to the Cession of all the ground to, and accepted by this Corporation belonging to the Rutgers family as may be required for the widening of the said streets. And for as much [194] as that the Buildings and improvements are at present of much less Value, than they probably will be at any future period, and inasmuch as that a great majority of the Owners and lessees of the property to be affected, and [*are*] the petitioners. Your Committee are induced to recommend the adoption of the following Resolutions.

Resolved that Lombardy street between Catharine street and Jefferson street be widened to Fifty six feet and the same is hereby ordered to be done.

Resolved that the Counsel to this Board make the necessary application to the Supreme Court for the Appointment of Commissioners of Estimate and Assessment in the said matter and that the petition for that purpose be authenticated during the recess of the Board.

The Street Commissioner presented the following Assessments which were confirmed and Collectors appointed thereto Viz^{t}

For paving Twenty first Street from Eighth to Ninth Avenue and John Hanmer appointed Collector.

For paving the Eighth Avenue from 13th to 21st Street and John Hanmer appointed Collector.

For paving Hall street from Sixth to Seventh street and John Hanmer appointed Collector

For paving Side walks in Bleecker street between Hancock & Downing streets and [210] John Hanmer appointed Collector.

For regulating 6th Street between Avenue D and Lewis street and Thomas Cottrell appointed Collector.

For repaving Stone street from Broad to Whitehall Street and Thomas Cottrell appointed Collector.

For paving Side walks of Third Avenue between Sixth and Eighth streets and John Hanmer was appointed Collector

The Street Commissioner presented a Return of Delinquents on the Assessment for a Well & Pump in North street between Willet and Pitt street—Warrant directed to issue to Thomas Cottrell the Collector thereof.

The Finance Committee presented the following Report on subject of remitting the Ground Rent of the Mechanics Society in Chamber street.

Whereas at a Meeting of the Common Council on the 21st June last, a Resolution appended to a Report of the Finance Committee was passed remitting to the Mechanics Society the ground rent [211] in Chamber street on which the Mechanics School and Apprentices Library is erected for the term of Seven years from the first of May last, and did appropriate the said Ground rent for the purchase of Books for the said Library. And Whereas the Finance Committee who reported the Resolution did intend the first of November last instead of the first of May—Therefore

Resolved that the term of Rent remitted by said Resolution commence on the first day of November last instead of the first of May last

The Lamp and Gas Committees to whom was referred the subject of changing the manner of purchasing Oil presented the following Report.

The Lamp & Gas Committees to whom was referred the following Resolution offered by Mr Assistant Engs on the 25th January 1830—viz

" Resolved that it be referred to the Committee on Lamps and Gas Light, to enquire and Report to this Board, on the expediency of so changing the present mode of purchasing Oil for the City Lamps, as to [212] make Contracts for the same for the term of one year."

Beg leave to Report

That they have had the subject under their consideration and have caused proposals to be issued for supplying the City with Oil for one year; the result of which is as follows. They have had one offer made to furnish the quantity required viz 40,000 Gallons at the average price of 81⅔ Cents per Gallon—One, at 67⅓ Cents per

Gallon. One at 66⅓ cents per Gallon. One at 64⅔ Cents per Gallon. And one at 58 Cents per Gallon.

There has been used for the past year 35,843 Gallons of Oil, which cost $23.873,1/100 making the average price of 66½ Cents per Gallon. Taking the past year as a guide, the same Quantity at 58 Cents per Gallon, the lowest price offered by the Estimates will make a saving if the Oil is purchased by contract for the year of only $3,084 7/100 and on 40,000 Gallons the quantity to be contracted for of $3,400

Your Committee beg further to state that they at present invite all the Oil Dealers in the City to send in samples of their Oil with estimates monthly, which Estimates are opened in the presence of the Committee, and the person who exhibits the best Oil for the lowest price gets the order for the Month—And further, that there is no accommodation at present in the Oil House for receiving a larger [213] Quantity as the Cisterns will not hold more than 1500 Gallons —Your Committees are therefore of opinion that it is more advisable to continue in the present mode of contracting to furnish Oil for the City by the Month and thereby evade the risk of loss by leakage bad bargains failures of Contracts &c

The Ferry Committee to whom was referred the Petitions complaining of the Conduct of the Williamsburgh Ferry Company presented a Report which was read—Laid on the Table and directed to be printed for the use of the Members—It was also directed that it be made the order of the day at the next meeting of the Board.

[215] The Joint Committees of Public Offices & Repairs to whom was referred the Resolution of the Recorder authorising suitable apartments to be prepared in the Old Alms House for the accommodation of the Criminal Courts presented the following Report.

The joint Committee consisting of the Committees on Public Offices and Repairs to whom was referred the Resolution of the Recorder, authorising the Committees to prepare suitable Apartments in the Westerly end of the Old Alms House for holding the Criminal Courts of the City and for the accommodation of the grand and Petit Jurors, the District Attorney the Clerk of said Courts the Police Office & others connected with the same. Respectfully Report

That it appears to the Committee that the time has arrived when it has become necessary for the Board to decide the Question, as to the removal of the said Courts from the City Hall, they have therefore maturely considered the Resolution referred to them and are of opinion that the Public interest and convenience would be materially promoted by having said Courts and the Offices connected therewith placed adjacent to each other & as the Old Alms House will afford ample accommodation for the purpose they are of opinion that they ought to be removed to that building.

There appears to be some doubt however whether these Courts can be removed under the [216] existing Laws, it will be seen by an examination of the Act of the Legislature of this State in relation to the Criminal Courts of this City passed April 14th 1829 "that the Common Council are authorized to assign such place in the said City other than the City Hall, as to them may seem most conducive to the Public convenience for holding the Courts of General Sessions, and of Oyer & Terminer & Goal delivery to be held in and for the said City & County provided such alteration of the place of holding said Courts shall before the same shall take place be notified in one or more of the Public Newspapers in said City for a period of not less than four weeks" In conformity with this Law, the Common Council did by Ordinance assign the Building formerly Known as the Rotunda under the denomination of the Sessions Hall, as the place where these Courts should be held; having thus fulfilled the object of the Law, the power of the Common Council over the subject must have ceased— If there should be any doubt that this is the true construction of that Act a reference to the Law passed February *30th* [20th] 1830 in relation to certain proceedings in criminal cases in the City of New York, will remove that doubt.

By that Act it is declared "that it shall be lawful for the Common Council by Ordinance to provide from time to time as the public [217] convenience may require, that the Circuit Court and Court of Oyer & Terminer and Jail delivery, and general and Special Sessions to be held in and for the said City and County shall be held either at the City Hall of said City, or at the Building in said City Known as the Sessions Hall, and unless otherwise provided by such Ordinance the said Courts respectively may, by an Order to be entered upon their Minutes from time to time, direct the holding of said Courts at either of said places" Thus limiting the Sessions of those Courts to those two buildings.

Your Committee are of opinion that notwithstanding this obstacle to an immediate removal of said Courts, the Old Alms House ought to be prepared for their reception and for that of the Offices connected with them & that application ought to be made to the Legislature for the requisite authority for their removal to said building.

With respect to the Police Office the Common Council have power to place it where they may think proper, and your Committee are decidedly of opinion that it ought to be removed from its present situation as soon as practicable.

Your Committee therefore propose for the consideration of the Board the following Resolution.

Resolved that the Committee on Public Offices and Repairs be authorized to prepare suitable apartments in the West end of the Old Alms House [218] for the holding of the Criminal Courts of this City and for the accommodation of the Grand and Petit Jurors, the District Attorney and Clerk of said Courts, the Police Office and others connected with the same and that the sum of Two thousand dollars be and the same is hereby appropriated for such purpose.

Resolved that it be referred to the Committee on applications to the Legislature for the passage of an Act authorising the Removal of said Courts to the aforesaid building.

It *is* was moved to strike out the "appropriation" in the first Resolution which was agreed to. Alderman Stevens moved that there be added at the end of the first Resolution "And that the expences thereof shall not exceed the sum of Two thousand Dollars," which was agreed to—The question was then taken on the Report and Resolutions, and they were adopted.

Mr Engs presented the following Resolution which was read and referred to the Watch Committee

[219] Resolved that the subject of providing Accommodations for the first District Watch in the West end of the Building known as the Old Alms House be referred to the Watch Committee to Report thereon.

The Finance Committee to whom was referred the Petition of Elizabeth Pearson for a balance paid into the Treasury belonging to the Estate of her late husband presented the following Report in favor of the same.

The Finance Committee to whom was referred the Petition of Elizabeth Pearson widow of Thomas R Pearson deceased praying for a balance of Seventeen dollars and Seventy nine cents paid into the treasury by Benjamin Prince the late Public Administrator as belonging to the intestate Estate of her late husband.

Respectfully Report.

That they have caused enquiry to be made respecting this claim and have every reason to believe that the circumstances set forth in the Petition are correct Viz—that the applicant is the widow of the said Thomas R Pearson, that he left no children, and that the said sum has been paid into the Treasury as the balance remaining of his estate—They are of opinion therefore that the prayer of the Petition should be granted and submit the following Resolution.

[220] Resolved that the above sum of $17,^{79}/_{100}$ be paid to the Petitioner, and that a Warrant be Reported for that purpose, on her giving Bond with surety to be approved by the Counsel of the Board to refund the same in case it should hereafter appear that she is not entitled thereto

The Committee on Wharves Piers & Slips to whom was referred the subject of extending the Pier at the foot of Oliver street presented the following Report in favor of the same.

The Committee on Wharves Piers & Slips to whom was referred

the subject of extending the Pier at the foot of Oliver street by adding thereto a Block and a Bridge Respectfully Report

That in their opinion the extension of that Pier is necessary to afford sufficient accommodation for the Vessels frequenting the adjoining Slips, and as the Piers at James and Catharine Slips have been recently lengthened seventy feet each, there appears to be a propriety of extending the intermediate Pier at Oliver street as well to afford greater accommodations, as to prevent the deposit of Ice resulting from the aforesaid Piers forming an Eddy in the tide between them and thereby preventing the ingress and egress of Vessels in the Winter season. This Pier is the joint property of this Corporation and of the Individuals in its vicinity—The whole cost of extending it would not exceed Two thousand Dollars One third of which sum would only have to be paid [222] by this Board—Your Committee would therefore recommend that the aforesaid Pier be extended by adding a Block and a Bridge thereto provided the individuals interested therein unite with this Corporation in the expence thereof, and they accordingly recommend the adoption of the following Resolution.

Resolved that the Pier at the foot of Oliver street be extended Seventy feet by adding a block and bridge thereto. Provided that the individual owners and proprietors therein unite with this Corporation in defraying their just proportion of the expence thereof.

The Committee on Wharves Piers & Slips to whom was referred the subject of building a Pier in the North River at the foot of King street presented the following Report in favor of the same

The Committee to whom was referred the subject of building a Pier or Wharf into the North or Hudson river at the foot of King street

Respectfully Report

That in their opinion the interests of this Corporation as well as Public accommodation [223] require that a Pier should be built at that place. The Pier at Charlton street affords the only security for Vessels between Spring and Christopher streets a distance of more than Two thousand feet—The Block of ground between Charlton and King street belongs to this Corporation, by building the contemplated Pier a Basin will be formed immediately in front of their premises and the wharfage

wholly accrue to this Corporation as well as the increased value to their Lots. As has been reported by the Street Commissioner to this Board Mr Astor refuses to unite in building the said Pier. Your Committee would therefore recommend that it be built at the Public expence. The estimated Cost will not exceed Eight thousand dollars and probably considerably less the length and size of the Pier to correspond with that at Charlton street. Upon due deliberation your Committee are convinced of the propriety of having a Pier built at the place above designated And that estimates be received therefor, and a contract entered into the present season, and the work commenced as early in the ensuing Spring as the weather and other circumstances will permit, as it is believed that such Contract may be made on much better terms at the present than by delaying it until the next year. From the foregoing considerations your Committee recommend the Adoption of the following Resolutions

[224] Resolved that a Pier or Wharf be built at the foot of King street to extend Two hundred and fifty feet into the Hudson river with an Ell correspon[d]ing with the Pier at the foot of Charlton street.

Resolved that the Street Commissioner receive Estimates for building the said Pier and Contract for the same to be built the ensuing Spring

The Special Committee to whom was referred the subject of employing Marshals to attend the different Courts presented the following Report which was read, amended & adopted as follows

The Special Committee to whom was referred the subject of employing Marshals to attend on the different Courts, established in the City Hall and also for serving Subpoenas on Witnesses and to Report some mode by which they shall be employed in future, beg leave to state that by Statute it is the duty of the Sheriff to summon as many [225] Constables or Marshall's as he may deem necessary for the Business of the Court. Your Committee have endeavoured to collect information on this subject from persons familiar with the Arrangements of the respective Courts, and the duties to be performed in

relation to the same; and from the result of their examinations it appears to them that the Compensation allowed for serving Subpoenas is reasonable and ought to be continued: But that the number of Marshals attending Courts may be curtailed, consistent with the due administration of Public justice, and as this subject is entirely within the controul of the respective Courts they respectfully suggest to the Courts the propriety of reducing the number of Marshals attending these Courts as follows viz[t]

General Sessions	Twelve
Superior Court	Four
Circuit Court	Four
Oyer & Terminer	Six
Special Sessions	Five
Common Pleas	Four

[236] The Report of the Law Committee on subject of the proceedings against the Bail of Joshua Mersereau Deputy Sheriff of Richmond County presented on the 11^th^ Instant and laid on the Table was now on motion called up and read as follows.

The Law Committee to which have been referred several communications in relation to the proceedings against the bail of Joshua Mersereau late Deputy Sheriff of Richmond County

Report

That in the summer of 1826 one William Curran arrived here from Cork as master of the Brig Irene, and violated the Laws of this State in landing certain Alien Passengers: That M^r^ Philip Hone the then Mayor of the City on advisement with the then and present Recorder directed the Attorney of the Board to issue process against Captain Curran which was accordingly done and M^r^ Mersereau, the Sheriff of Richmond County was directed to serve it. The process was served on Curran while on board his Vessel lying between Staten Island and New Jersey. Curran was under the process brought to the City. The authorities of New Jersey, either at the instance of Curran, or of

their own motion, issued process against Mersereau the Deputy for the service of the New York process on Curran in the waters and Jurisdiction of their [237] State as they alledge. Out of the conflicting claims to jurisdiction of the respective State to the waters adjacent, this difficulty has arisen.

The authorities of New Jersey prosecuted this suit, threatening Mersereau with imprisonment in their state prison for seven years, and for default of appearance the amount of the Bail is claimed in lieu of the imprisonment of one of our Citizens.

The history of this transaction from the Counsel of the Board, accompanies this Report, and makes it unnecessary for the Committee to further enter into the procedings of the suit. The farms and property of the securities has been levied on and will be sold unless we take from our City treasury and place in the treasury, of the State of New Jersey, between seven and eight thousand dollars. This mode may procure money, but we doubt if it will settle state rights or questions of jurisdiction, and it may lead to retaliation certainly to be avoided, as its tendency would be to create feelings between neighbours injurious to both.

Your Committee have deliberated on another branch of this subject, that is how far it is the duty of the Board to exonerate or indemnify the bail, or the individuals to whom the Bail look for their indemnification.

The Common Council will perceive by the statement from the Counsel, that the board acted [238] on the subject of indemnity with closed doors, and the minute of that meeting is not now to be found probably it has been used by some Committee and not returned to the Clerk of the Board. To supply the place of these minutes, a note was addressed to Thomas Bolton Esq^{r} then a member of the Law Committee, and for the further information of the board, his answer, and a Certificate appended thereto from Judge Schieffelin of the Marine Court, also a Member of the then Law Committee accompany this Report.

By these communications it will appear that the Board actually engaged to indemnify the then Mayor, but if they had not, and this obligation of the Board were now for the first time taken into consideration, it would appear;

First—That the suit against Cap^{t} Curran was commenced by the Officers of the Board, and in our Corporate name.

Second—That the said suit against Curran was one in which neither

our Officers nor any individual had any interest; the City alone was concerned to prosecute.

Third—That the Mayor in directing Cap[t] Curran to be sued, acted within the scope of his official authority.

Fourth—That justice and equity require the City to indemnify its Officers, acting as they were in good faith for the City, and within the scope of [239] their authority that the parties so acted in this instance is beyond all doubt.

Your Committee are therefore of opinion that a Memorial should be presented to the Legislature of New Jersey for the refunding this Money, and that a Memorial should also be presented to the Legislature of the State of New York for the settlement of the question of the jurisdiction of these waters; and also that the State make good our loss in the prosecution of these suits, being an expence which the City has been made liable for by reason of a Deputy Sheriff serving a State process in waters claimed exclusively by this State.

Your Committee in conclusion offer the following Resolution.

Resolved that the Comptroller Report a Warrant at the next Meeting of the Board in favor of John Leveridge Esq[r] for the sum of Seven thousand and Sixty six dollars and twenty three Cents for the settlement of the suits against the Bail of Joshua Mersereau, and that the same be paid from the appropriation of the contingent fund

The Letter from Thomas Bolton Esq[r] together with the Certificate of Judge Schieffelin were as follows

[240] New York October 9. 1830

Dear Sir

Your favor of this day is now before me, in which you ask what took place in the secret Session of the Common Council in October 1826 in reference to the imprisonment of M[r] Mersereau Sheriff of Richmond County, arrested at Amboy, for serving process on a Master of a Vessel who had landed passengers in violation of the Laws of this State, and how far the then Mayor acted under the advice and direction of the Common Council, and if any, what Resolution was passed for his indemnity.

In answer to these inquiries permit me to say that I am not at this time able to state whether the injunction of secrecy has ever been

removed, and of course how far I am at liberty to speak on this subject. But inasmuch as your letter is official, I will state what I now recollect in relation to this matter. You will act accordingly.

The first I now recollect to have heard on this subject, was when the Law Committee was charged with a verbal communication made by Mr Hone in relation to this arrest. That Committee I believe reported on the matters referred. On the coming in of this report, or at some other meeting of the Board (I now think it was at the secret Session you refer to) much was said in reference to this unpleasant [241] controversy between us and New Jersey. Mr Hone with a view of accommodating the Board or Committee offered his name and responsibility to any extent which might be required, provided the Board would promise to indemnify him. This offer was immediately accepted by the Board but whether by a written or verbal resolution I am not now able to say, though I am clear in my recollection that the indemnity to Mr Hone was to be to the full extent which he might be called upon by the Laws of New Jersey to enter into—Mr Van Wyck was the Chairman of the Law Committee, and was charged by the Committee with the details, he employed one or more agents to go to New Jersey on this subject, and from time to time informed me of the progress made. I understood that Mr Hone had entered into Bonds, or in some other way had become responsible in relation to this arrest, and I never for one moment have supposed that any doubt existed as to Mr Hones right to a full and complete indemnity. This I know was Mr Van Wycks opinion also, and I have not any doubt but he supposed that it clearly appeared among the Records of the Common Council. I certainly did think so.

I am Dear sir with respect

Your Obt Servant

Samuel Stevens Esqr Thomas Bolton

I fully concur in the above statement made by Mr Bolton and would only add that I [242] was a Member of the Law Committee at the time.

Effingham Scheiffelin

The Statement from the Counsel was as follows.

In obedience to the directions of the Law Committee I have examined the subject of Mr Leveridges communication presented to the Board on the 14th June instant, and the following appear to be the material facts of the case to which it refers.

In the summer of 1826, the brig Irene commanded by William

Currin arrived from Cork at Amboy in New Jersey, with a number of passengers on board. The Vessel was entered at Amboy, but the passengers (about fifty in number) were put on board a small Sloop and sent up to this City, and were landed on the State Prison Dock. A complaint being made to Philip Hone Esq[r] then Mayor of this City, a suit was directed to be brought against the Captain in the name of the Mayor Aldermen & Commonalty, a writ was accordingly issued by the Attorney of the Board, in the Supreme Court, directed to the Sheriff of Richmond County, the Vessel being then anchored in the stream between Amboy and Staten Island. The Captain was arrested on board the vessel by Joshua Mersereau a deputy Sheriff of Richmond County, and at his own request was brought to this City, where he was lodged in Jail. [243] A satisfactory arrangement having however been made with him, he was discharged in a few days. Shortly afterwards, M[r] Mersereau being in Amboy on other business, was arrested on the charge of having (by executing the above process against Captain Currin) violated an act of the Legislature of the State of New Jersey passed 3[d] December 1807; by the second section of which it is enacted "That if any person not authorized under the authority of the State or of the United States, shall execute or attempt to execute any legal process within the State of New Jersey, such person shall be deemed guilty of a misdemeanor and on being thereof duly convicted shall be sentenced to pay a fine not exceeding $2000, and to imprisonment in the State Prison not exceeding seven years." On being so arrested, M[r] Mersereau was taken to New Brunswick and there confined in Jail. M[r] Leveridge was employed by M[r] Hone to go to New Brunswick and procure his enlargement if possible; A habeas corpus was obtained, and an order made that M[r] Mersereau should give bail in the sum of $6000, himself in $2000, and two sureties in that sum each. Considerable difficulty ocurred in procuring sureties, but through the exertions of M[r] Leveridge, and with an Indemnity from M[r] Hone, two citizens of New Jersey one residing at Trenton, the other at New Brunswick were induced to become bail for M[r] Mersereau's appearance in court, [244] to abide its order in the premises and he was accordingly released.

It appears that subsequently (I believe in December 1826) a bill of indictment was found against M[r] Mersereau at a Court of Oyer and Terminer held for Middlesex County in New Jersey, and that a new recognizance was ordered to be taken with three sureties in the sum of $3000 each, and that through the Agency of M[r] Leveridge and a Bond of indemnity from M[r] Hone such sureties were procured; their

names were Smith Freeman George H Stout and Cathel (since deceased). They entered into a several recognizance each in the sum of $3000, that Mr Mersereau should appear in the Supreme Court at Trenton, in May 1827, traverse the indictment and not depart the Court without leave.

It appears also that immediately after Mr Mersereau had been arested Mr Hone the then Mayor addressed a Letter on the subject to the late Mr Clinton then Governor of this State, and that he brought the whole subject before the Common Council on the 31st July 1826. By reference to the Minutes (vol 58 page 147 to 157) it will be found that a Report from the Attorney of the Board and one from the Mayor, a letter from Mr Leveridge to the Mayor, and two letters from the Mayor to the Governor were referred to the Law Committee; [245] and (page 203) that the governors answer to the Mayor was also referred to the same Committee. Also that on the 9th of October 1826 (page 319) a report was presented by the Law Committee, and referred back; and that on the same day (page 336), while the Board were sitting with closed doors, a Report from the same Committee on this subject was presented, read and Adopted. This report is not to be found in the Office of the Clerk, no[r] is it copied in the Minutes, I have not been able therefore to ascertain its contents but have been informed that the Common Council by adopting it, undertook to save Mr Hone harmless in the matter. It appears also that immediately after Mr Mersereaus arrest, Mr Leveridge employed George Wood Esqr an eminent lawyer then residing at New Brunswick, to Act as Counsel for Mr Mersereau, and that Mr Wood has had charge of defending Mr Mersereau and his sureties in this matter ever since; and that he has kept up a correspondence on this subject with the Counsel to the Board, to whom, by a resolution on a Report of the Law Committee adopted March 24th 1828 Mr Wood's previous communications to the Board were referred, with directions to reply thereto, and give such instructions in relation to the proceedings against Mr Mersereau as he might deem advisable.

It appears also that Mr Leveridge was paid by order of the Common Council for his services [246] and the expences incurred by him in going to New Jersey and procuring sureties for Mr Mersereau, whereby his release was effected

It appears also that at the May term of the Supreme Court of New Jersey in 1827, Mr Mersereau was called on his recognizance, but did not appear, and that his default was entered; that further proceedings were

however delayed in consequence of a negotiation pending between the two States, for a settlement of the boundary question by Commissioners, but that such negotiation having failed, proceedings were recommended in this matter in the early part of 1828 by issuing a scire facias against Mr Mersereau's bail; that Mr Wood appeared and defended those proceedings, and raised several objections thereto, but that the Supreme Court of New Jersey in November 1829 *dediced* [decided] against the defendants, by which Messrs Stout and Freeman, two of the sureties, were respectively adjudged to pay $3000, with interest and costs, and the estate of Mr Cathel (who had also been surety) was made liable for so much of the same amount as there should be assets to pay; that execution was issued against Messrs Stout and Freeman returnable in February 1830, to levy from each the sum of $3000, with costs and interest from the time at which Mr Mersereaus default was entered, and that an application [247] was made by Mr Wood to the Court to quash those executions, on the ground that two executions had been issued instead of one; he also objected to the claim for interest, and to the double bill of costs, upon which the Court decided, that interest could not extend further back than the date of the judgment (about the middle of November 1829) and that but one bill of costs could be taxed. They delayed deciding, until the next term, whether the execution should be quashed, and I have not learned whether any or what decision had since been made on that point.

It is certain however, as matters now stand, that Mr Freeman and Mr Stout, are each fixed for the payment of $3000, with interest from November last, and some costs; and that the estate of Mr Cathel will be held liable for some portion of a similar amount.

Mr Leveridge states, that those gentlemen have been required to pay the above demand, or submit to have their property sold; that they became such sureties at his earnest solicitation, and relying upon the indemnity of Mr Hone the former Mayor; that Mr Hone alleges that he acted throughout with the knowledge and approbation of the Common Council, and that they assumed all his responsibility in the matter.

And, finally, the object of Mr Leveridge's communication, is to request that the Corporation may promptly relieve Mr Mersereaus sureties by paying [248] the amounts for which they have thus been made liable

R Emmet

June 28. 1830

Upon the Question of adopting the Report of the Committee, it was carried in the Affirmative, And that part relative to an Application to the Legislature of the State of New Jersey and to the Legislature of the State of New York was referred to the Committee on Applications to the Legislature.

The Report of the Law Committee on the Memorial of the Manhattan Gas light Company presented on the 3d of August last and laid on the Table was on motion now called up and read as follows.

The Law Committee to whom was referred the Memorial of the Manhattan Gas Light Company

Respectfully Report.

That the Memorialists pray that the Corporation would by Resolution, annul and declare void the agreement made by their predecessors with the New York Gas Light Company; and grant to them, the Memorialists the right in common with the last named Company, to use the Streets of the City, for laying Pipes and supplying Gas Light within the Limits prescribed for the old Company.

[249] In order that the rights of the two Companies may be properly understood, the Committee lay before the Board the following statement of their origin and proceedings.

The New York Gas Light Company was incorporated by the Legislature of the State in March 1823 with a Capital of One Million of Dollars, and a Charter unlimited in its duration $495,000 of this Capital has been subscribed and actually paid in, and nearly the whole of that amount is now invested, and employed in the operations of the Company.

In May 1823, the Company entered into articles of agreement with the Corporation of the City whereby the Corporation granted to them, on certain conditions the sole and exclusive privilege and right of laying pipes under ground for conducting Gas to light the Public Lamps and the houses and buildings throughout that part of the City, south of a Line running from the East River through Grand street, Sullivan street, and Canal street to the Hudson River—This Grant the Company is to hold and enjoy until the 12th day of May 1853.

The Conditions to be performed by the Company were as follows namely.

That before the 12th day of May 1825 they should erect and complete good and sufficient buildings works and apparatus, for the preperation and manufacture of Gas; cause the necessary Pipes to be made of Cast Iron, and to be laid, and also manufacture and [250]

supply in the most approved manner sufficient quantities of the best quality gas commonly called inflamable gas, for lighting Broadway from Grand street to the Battery.

These conditions were performed within the time limited.

After the 12th day of May 1828 and at all times during the residue of the term of the Grant, the Company engaged to lay the necessary pipes, and supply a sufficient quantity of Gas for lighting such other streets and buildings within the prescribed limits, as the Corporation should from time to time reasonably require, by resolution or by Law; and that the Public Lamps should be lighted with gas during such times, as were customary to light them with oil &c at a yearly expence, not exceeding that of lighting and supplying an equal number of the said Lamps with oil, estimating the price at the average of the preceding year.

The uncertainty of the terms "best quality of gas" was settled between the Parties by making the London Gas a standard. The contract stipulates that the light of the said Lamps shall be of a quality, brilliancy, or intensity equal to the Gas in use for the Public Lamps in the City of London.

The Gas Company also stipulated, that they would so conduct their manufactories [251] as not to create a nuisance; and also agreed, that if they failed in fulfilling the conditions above mentioned the Common Council might by a Resolution or order, annul and vacate the grant.

In February 1827, the State Legislature incorporated another Company called the American Gas Light Company for the purpose of lighting with gas, that part of the City, north of the line prescribed by the Corporation for the New York Gas Company. This second Company entered into a contract with the Corporation, engaging to light with gas the Public Lamps &c agreeably to their Charter, on certain stipulated conditions, which it is now unnecessary to detail. The American Gas Light Company took no step towards fulfilling their contract, which expired by its own limitation, on the first day of May 1830. This document is on file in the Street Commissioners Office and is dated in July 1827.

During the existence of the last mentioned contract, the Vice President and Secratary of the American Gas Company, who executed it, and a majority of the Directors, associated their names with other individuals and petitioned the Legislature to grant them a charter under the title of the Manhattan Gas Light Company.

Their application to the Legislature was to obtain from them, the

right to open and dig into the streets of the City independent of the Common [252] Council. This appears from a printed copy of the Act of Incorporation; but clauses were afterwards added in its passage through the Senate restraining the Manhattan Gas Company "from digging into or defacing any Street without the permission of the Corporation first had and obtained;" and declaring that the "rights and privileges granted them should not be construed to impair or affect any exclusive rights and privileges, theretofore granted to any incorporated Company in said City."

This third Company now memorialize the Corporation praying for a concurrent right, with the New York Gas light Company, to use the streets for laying pipes, and thereby create a useful competition; for which purpose they respectfully allege and insist that the Common Council ought to annul and declare void the contract entered into between the Corporation and the New York Gas Light Company; on the ground, that the said Company have wholly failed to comply with the stipulations and engagements which form the conditions of their contract with the Corporation.

The Manhattan Gas Light Company specially allege, that the New York Gas Light Company have failed in what constitutes a fundamental part of their Contract to wit: the quality of the gas; and in the Memorial they offer [253] to prove.

"First, That the gas furnished by the New York Gas light Company, has never been of a quality, brilliancy or intensity, equal to the gas used in the public Lamps in the City of London but greatly inferior.

"Secondly, That the Manufactories of Gas of the New York Gas Light Company have been nuisances since their erection, and that their pipes have been and are, in several streets so carelessly laid, as to be offensive to the Citizens.

"Thirdly, That the quality of the Gas has been inferior, and the price exorbitant; and that pretended reductions have been wholly nominal and deceptive." Also stating that superior Gas may be furnished at a cheaper rate.

Your Committee have with patience and care, at various meetings, examined, under oath, a great number of witnesses, among whom were persons both scientifically and practically acquainted with the the quality, manufacturing and furnishing of Gas in different cities in Europe, as well as at Baltimore and New York.

The weight of testimony adduced substantiates the following facts; that the gas used for lighting the public lamps in the City of London,

is prepared entirely from coal, while that furnished by the Company here is now made from rosin, and was formerly manufactured from oil; that the best gas is made [254] from oil, and the next best from rosin, but it is fully shown that the gas as here furnished from rosin is superior in illuminating power, and in value to gas manufactured from Coal in the proportion of 2 feet of rosin to 3 feet of Coal gas.

It is however shewn that the quantity of light given by the public Lamps in Broadway is not by any means equal to the quantity in similar streets in London. It appears that the Lamps in London are larger, consume more Gas, and in a similar street are placed at an average distance of only 90 to 100 feet from each other, on each side of the Street while in Broadway the average distance is one hundred and forty eight and a half feet.

The Broadway Lamps are by the Corporation Lamp lighters, and the Superintendent testifies that the Gas Company furnishes at all times as much gas as can be used, but that the Lamp lighters are deterred from a more free use of the gas in consequence of the glasses which cover the Lamps, being too small to bear a sufficient height of flame.

In relation to the second charge viz "that the manufactories are a nuisance and the pipes carelessly laid," several witnesses testified, that they considered the gas manufactories a nuisance; but none of the witnesses believed them injurious to health.

[255] The opinions of the witnesses on this point appeared to your Committee to be governed by the same principle, by which almost any large manufacturing establishment might be considered a nuisance in a City.

It appeared in evidence, that gas manufactories were not considered nuisances, in the large European cities. It is also evident, that the parties to the contract under consideration, were not to consider the gas works as a nuisance in the City unless improperly conducted.

On this point, the contract expressly stipulated, that the Company should, before the twelfth day of May, 1825, erect, establish, and complete, in the city good and sufficient buildings, works and aparatus, for the preparing and manufacture [of] gas. All that the contract provides for in relation to a nuisance, has reference to the mode of conducting the works, and is in the words following, to wit: "And also that the said parties of the second part, will so conduct the manufactory, or manufactories of gas, as not to create a nuisance." It fully appeared from personal inspection by some of the members of your Committee as well as from other testimony, that the manufactories of

the New York Gas Light Company, were conducted with care and cleanliness; and it was proved to your Committee, that the works here, of the New York Gas Light Company, for the manufacture of gas from rosin, are, as now conducted far less offensive than similar establishments for the manufacture of Gas from coal as now conducted in the City of London.

[256] In relation to the Pipes, it was proved that the New York Gas Light Company used great care by testing each pipe by hydrostatic pressure, and also in joining, cementing and laying the same; and in all cases, endeavouring to discover and remedy every accidental escape of Gas as early as possible.

Your Committee also patiently attended to the examination of Witnesses, on other points which were claimed to be implied breaches of the Companys contract, and matters coming under the supervision of the Common Council, as guardians of the public weal. They consented to extend their examination to such matters, although not contained in the contract, in consequence of a desire expressed by the company's agents, to invite and meet a full investigation of all their concerns. The agents of the Company were examined under oath and their accounts vouchers and statements laid before your Committee. From the result of the testimony it fully appears, that the Gas delivered to customers is all measured with meters, made and tested with great care; that the quantity indicated by the meter, cannot be greater than the quantity which has actually passed through the measure; that no deception in the quality of the gas, as now made from rosin, has by no means deteriorated from the quality of the Gas first made from rosin, and when it was sold at a higher price.

[257] No proof has been adduced to shew that better Gas could be furnished at less or even at the present rates; but from the accounts, statements, and annual Reports of the officers and clerks of the company verefied by oath, it was shown to the conviction of your Committee, in relation to exorbitance of charges and profits, that the company could not afford to reduce their price for gas, without an increase of custom from the public.

It was also proved by the testimony of the manager that the Company were losers to the amount of fifteen dollars per year, for every public lamp furnished by them with gas under their contract with the Corporation; and it was shown that the price paid per annum, for lighting each public Lamp with coal gas, in Baltimore was Ten dollars, and in London about Twenty five dollars, while the Corporation here pay the company but Five dollars and twenty five cents per Lamp.

In relation to the benefit which it is suggested would result to the Public, from creating more Gas companies for the purpose of competition, it has been shown by the result of an investigation made by Commissioners in the City of London, and instituted by the British Parliment that serious evils grew out of the operations of different Gas Companies in the same district, the breaking up of the pavement for two sets of mains [in] the place of one the confusion and disorder produced by pipes crossing and intersecting each other, the disputes and delay in identifying [258] leakages, altogether became so great an inconvenience that it proved absolutely necessary to separate and confine the different companies to different districts, which distinct separation was accordingly made of the different Companies; and all the latter grants made by Parliment for the metropolis to new Companies, have been confined to particular and exclusive sections of the City.

The New York Gas Light Company have as before stated, invested a large amount of Capital—Their works have now been in operation between five and six years, and during the whole of that period, by the judicious management and care of the persons in their employ, the difficulty and somewhat dangerous process of preparing and distributing the gas, have been carried on without a single failure of any consequence, in supplying the necessary quantity of Gas, and without any accident affecting in the slightest degree the person or property of any of the Citizens.

In conclusion, your Committee, remark, that although they have devoted an unusual degree of time and labour to the investigation, they have not been able to discover any such breach, on the part of the old company, of the contract entered into by them with the Corporation, as would justify the Common Council, in annulling or revoking the grant.

The following Resolution is therefore submitted.

[259] Resolved, That it is inexpedient to grant the prayer of the petitioners.

James I Roosevelt Jun^{r}

Fyler Dibblee.

Alderman Stevens presented the following amendment to be added to the Report "But that the Common Council in passing this Resolution neither admit the correctness of the facts as stated in the above Report nor do they admit the correctness of the conclusions stated in the Report at which the Committee have arrived. Debates arose

thereon and Alderman Wells moved to divide the sentence taking a Question upon the correctness of the facts, separate from the conclusion drawn from the Report which was agreed to, And the question being taken on the first part it passed in the Negative—The question was then taken on the latter part of the sentence relative to the conclusions drawn from the Report which was carried in the Affirmative.

The Question was then taken on the Resolution as amended Viz[t] "That the Common Council do not admit the correctness of the conclusions stated in the Report at which the Committee have arrived" and was agreed to—And on the question upon the Report, Resolution and Amendment, the whole was agreed to.

[260] The Counsel presented the following Report on Three Leases for Thomas Blanch

The Counsel of the Board herewith presents Three Leases drawn to Thomas Blanch for Lots and pieces of Land sold on the 13[th] of October 1828 for Assessments and for which the said Thomas Blanch holds Certificates.

The following Resolution is respectfully submitted

"Resolved that the above mentioned Leases be authenticated in the usual maner during the recess of the Board"

Respectfully submitted

Which was read and Adopted and the Leases ordered to be executed during the recess of the Board.

Alderman Strong presented the following Resolution which was read and referred to the Police Committee.

Resolved that the Office of Street Inspector of the Sixth Ward, be and the same is hereby declared vacant, and that this Board now proceed to appoint a suitable person to fill said vacancy.

[261] Alderman Woodruff presented the following Resolution which was read and referred to the Street Committee.

Resolved that it be referred to the Street Committee to inquire into the propriety of having the Side walks of Orange street paved from Prince street to the termination about 200 feet.

The Street Commissioner presented the following Communication relative to the repaving part of James street.

The Street Commissioner respectfully represents that in consequence of the filling of James Slip the surface Waters of James street and parts of Cherry & Water streets are deposited at the former head

of the Slip at Water street, and will be rendered impassible during the ensuing winter.

In order to remedy the evil, it is suggested that the pavement of so much of James street between Cherry street and the Southerly side of Water street be taken up and paved on such regulation as to cast the water over the surface to South street—And that the same may be carried into immediate effect, it is respectfully recommended that the Street Commissioner adopt the necessary measures therefor, And that an Ordinance be passed accordingly.

All which is respectfully submitted

R Graves S^{t} Comm^{r}

[262] Which was approved and the Street Commissioner was directed to Report an Ordinance therefor.

He accordingly presented the following Ordinance.

An Ordinance for repaving James street between Cherry street and Water street which was passed and John Slidell, Reuben Munson and Jedediah B Leister was Appointed Assessors.

The Board then Adjourned to meet on Monday the 1st of November at 5 OClock P M.

For repaving William street from Pearl to Duane street and Thomas Cottrell appointed Collector.

[273] The Report of the Ferry Committee on the applications relative to Williamsburgh Ferry which was Laid on the Table, and made the order of the day at this Meeting was on Motion of Alderman Mott called up and read in the words following Viz[t]

The Committee on Ferries to whom was referred the several petitions of Long Island Farmers and others in relation to the Williamsburgh Ferry

Respectfully Report.

That, owing to the repeated application which have [been] made from time to time on this subject, the Committee have deemed it proper to make a full investigation into the matters referred to by the petitioners; and in order to arrive at a just decision, have examined minutely into the management and affairs of the ferry, since it has been held by the present owners.

The Committee find that the original Lease of this ferry was granted to the late David Dunham deceased, for the term of 21 years, the rent was for the 1[st] seven years $75, 2[d] seven years $150, 3[d] seven years $250,

In it the Leesee covenanted to run two Team Boats, and the Corporation covenanted, " not to establish or grant during the continuance of the term any Ferry between Grand street and the foot of Twelfth

street on the East River, nor between Grand street and the limits of the grant made to Samuel Evans," (at the foot of [274] Walnut street) Mr Dunham conveyed to the Corporation his interest in the docks wharves &c at the foot of Delancy street which was considered an equivalent for the exclusive grant of the Ferry for the Period of the Lease.

By subsequent conveyances this lease became vested in the Williamsburgh Ferry Company. By an arrangement between the Corporation and the Company it was afterward agreed, that Steam should be substituted for Team Boats; and on the 8th of October 1827, the Company surrendered the old Lease, and the Corporation executed a new one, for the unexpired part of the term of the prior lease vizt fifteen years and three months from the first day of February 1827 the rent being the same as under the former Lease; that is to say, for the 1st year and 3 Months $75, next seven years $150, next seven years $250.

By this Lease the Company covenanted, to run two good and substantial Steam Ferry Boats on the Ferry and the same exclusive grant is given to the Company as in the first Lease.

The present owners of the Lease are Henry Remsen, Reuben Withers, James M Halsey, John L Graham, Daniel Jackson, Anthony V Winans, Miles Hitchcock and Silas Butler—These individuals being large stock holders in the [275] Williamsburgh Ferry Company, were compelled in order to comply with the requirements of the last lease, and to put the Ferry in proper condition, to advance and expend, of their own private funds, upwards of 25.000 dollars. Subsequently, the lease of the Ferry and all the other property of the Company have been sold, and they were compelled to purchase the same, in order to protect themselves. That the sums so advanced, added to the actual amount of their stock in the Williamsburgh Ferry Company, amount to upwards of $68.000, and which is the true cost of the ferry to them. That the said owners have derived no income from their investment, and that the revenue from the ferry has been scarcely sufficient to defray its curent expences.

The Committee are convinced, that the owners have fairly discharged their obligations under the Lease of the Ferry, and that the public have been greatly benefitted by their enterprise and exertions.

No just cause of complaint exists to the Knowledge or belief of the Committee, as it respects the strict and proper performance of all the engagements of the owners under the present Lease; but the want of a third Boat on the Ferry is imperiously required for the public

convenience. The Committee after giving the subject full consideration feel satisfied that the Petitioners are correct in stating that two Boats [276] should be Kept constantly and uninterruptedly running at the Ferry; and that it cannot be effected unless the owners have Three Boats, which would enable them at all times, to supply the place of any Boat rendered unfit for use by accident or the want of repair— The Committees is satisfied that the income of the Ferry, does not justify the owners in incurring the Cost of another Boat, without the prospect of indemnity, by an extension of their privileges, and that it would be unjust and illiberal towards the present owners, to ask or expect, with a certainty of heavy loss upon their present investment, that they should voluntarily increase it for the sole purpose of accommodating the Publi[c].

The Committee deeming the Public convenience as the primary object to be considered in respect to matters of this nature, are of opinion that it is expedient and proper with a view to meet the present exigency, to grant a new Lease of the said Ferry to the present owners for nine years, to commence at the expiration of the present Lease, at an annual rent of Six hundred Dollars; it being a condition that the present Lessees shall, *or* [on] or before the first day of June next, procure and put upon the said Ferry a third Steam Boat; that they shall at [all] times, until the termination of the Lease so extended own three good and sufficient Boats, [277] and Keep two constantly running at the said Ferry, and that the Corporation shall have the right to require the owners after the term of the present Lease is expired to run one of said Boats from or above Stanton street, the said new Lease in all other respects to resemble the present one. The Committee therefore offer the following Resolution.

Resolved that the Counsel to the Board prepare a Lease to the present owners of the Lease of the Williamsburgh Ferry for the said extended term of nine years, in conformity with the aforegoing Report, and that the same be authenticated in the usual manner during the recess of the Board.

B J Meserole
Wm W Mott
John Rogers

The Remonstrances against said Report presented this evening were also called up and read; A Motion was made to refer the same back to the Committee which was negatived—Alderman Stevens then moved that the Report be amended by adding at the close of the report on the 4th line after the words "to run" "one Boat from or above

Stanton street independant of the Two Boats, running constantly from Grand street." Which was agreed to—The Question was then taken on the Report as Amended, A Division having been called the Members voted as follows

[278] In the Affirmative Mr Recorder Ald Nevius Mott Lamb Strong Seaman B M Brown Meserole Lee Mr Seymour Arcularius Bedel Rogers Jeremiah Engs 15

In the Negative Ald Stevens Wells Marsh Palmer Woodruff Mr Mandeville Bryson Dibblee Cooper Lovett 10

So it was carried in the Affirmative Mr Dibblee gave Notice of Reconsideration at the next Meeting of the Board.

The Committee on Assessments to whom was referred the Petition of Solomon Ingersoll & others against the Assessment for the Bulk head at James Slip presented the following Report against the Petition.

The Committee on Assessments to whom was referred the Petition of Soloman Ingersoll remonstrating against the Assessment [279] for the Bulk head at James Slip.

Respectfully Report.

That Mr Ingersoll appeared before the Committee and stated that he was Assessed for the Bulk head at James Slip in the sum of Seventy five dollars for his property corner of South Street & James Slip, and that he was of opinion that his property had been injured rather than benefited by filling in the said Slip.

The Committee examined the Assessors who stated to their satisfaction, that the Assessment was reasonable and just, and they are of opinion that Mr Ingersoll is mistaken in the effect of the improvement—As no other person has remonstrated against the Assessments, and as the same appears to be apportioned with a proper regard to the rights of individuals, the Committee are of opinion that it ought to be confirmed. They offer the following Resolution

Resolved that the Assessment for a Bulk Head at James Slip be and the same is hereby confirmed.

George D Strong
Jona Seymour
Henry Arcularius

Whereupon the Assessment was confirmed and Thomas Cottrell appointed Collector.

The Committee on Assessments to whom was referred the Petition of Robert Halliday [280] Executor of the Estate of the late Margaret Douglass for relief from an erroneous personal Tax presented the following Report in favor of the same.

The Committee on Assessments to whom was referred the Petition of Robert Halliday, executor of the Estate of the late Margaret Douglass Deceased, for relief from an erroneous Tax.

Respectfully Report.

That Mr Halliday appeared before the Committee and testified, that the Estate of the late Mrs Douglass deceased was Taxed for personal property on the sum of $250,000, and that the personal estate of the Deceased, did not amount to more than $60.000—He further stating that being absent from the City, he in haste came in Town two days previous to the Assessors Books of the 9th Ward being closed, with an Affidavit which is hereto annexed, stating the personal property of the said Estate to only amount to $65,000; that he went to the place where the assessed advertised that their Books were open, several times each day without being able to find the Assessors or procure access to their Books, and that he used every diligence to have the deduction made by the Assessors without being able to see them or the Books.

As it appears that the Error did not arise from any neglect on the part of Mr Halliday but occurred [281] from the inattention of the Assessors, The Committee believe him entitled to relief as he desires—The Certificate of the Assessors hereto annexed acknowledges the error and states that if the information had been received, they would have reduced the Tax—They offer the following Resolution—Resolved that the Tax on the personal property of the Estate of Mrs Magaret Douglass deceased in the 9th Ward be reduced from that on $250,000 to that on $65,000, and that the surplus be placed among the errors of personal Taxes for 1830.

The Minutes of the last meeting were read and Approved.

Unfinished business of the last Meeting was taken up.

[287] The Finance Committee to whom was referred the Petition of Robert Wilson & others for the postponement of Sales of Lands for Assessments presented the following Report in favor of the same

The Finance Committee to whom was referred the Petitions of Robert Wilson and sundry other persons praying for postponements of Sales of Lands for Assessments—Respectfully Report.

That the Lands of the Petitioners are among those advertised to

be sold on the 17th day of November instant—That a considerable portion of the lands thus advertised, are held by the occupants on uncertain Titles the difficulties to which are in a train of Settlement, which will probably take place in a short time, And that arrangements are making as the Committee have been informed by the owners of other portions of the said lands to pay off the Assessments upon them respectively without much delay.

Under all these circumstances the Committee have concluded to recommend that a general postponement of the sale of all the Lands now advertized should take place until the 22d day of March next, that being the day to which the sale advertized for the 18th of January last and afterwards for the 22d of March last, was postponed. The Committee recommend this Measure under a belief that many of the proprietors will thereby be saved and that previous to the day of Sale, much of the money due for these [288] Assessments will be paid in—They offer therefore the following Resolution.

Resolved that the sale of all such Lands & tenements advertized to be sold for Assessments on the 17th day of November instant and mentioned in the printed notice or advertisement hereunto annexed, upon which the Assessments have not been already paid respectively, be postponed and suspended until the 22d day of March 1831

The Committee on Assessments to whom was referred the Petition of Timothy R Green to be relieved from the payment of an erroneous Tax presented the following Report in favor of the same.

The Committee on Assessments to whom was referred the Petition of Timothy R Green to be relieved from an erroneous personal Tax

Respectfully Report

That Mr Green appeared before the Committee and testified that he was Assessed on his personal [289] property in the sum of Ten thousand Dollars. Whereas he is not worth any personal property.

He further stated that he had resided for several years at the same House in the Third Ward, that he is a single man who Boards with his Mother, and from the circumstance of his never having been taxed previously he did not think it necessary to call on the Assessors—The

Certificate of the Assessors corroborates his statement—As this case is in the opinion of the Committee one which demands the interference of the Board they offer the following Resolution.

Resolved that the Tax on the personal property of Timothy R Green in the Third Ward amounting to Forty one Dollars be and the same is hereby remitted.

The Committee on Assessments to whom was referred the Petition of John M Bletsoe to be exonerated from the payment of personal Tax

Respectfully Report.

That M[r] Bletsoe appeared before the Committee and testified that he was quite ill during the period that the Books of the Assessors for the 9[th] Ward were open for examination, that he was Assessed in the said Ward on the sum of $5000, for personal property—Whereas he was not at that period worth any personal property. The certificate of the Assessors confirms his statement and the Committee offer the following Resolution.

Resolved that the personal Tax of John M Bletsoe in the 9[th] Ward on $5000, be and the same is hereby remitted.

The Committee on Assessments to whom was referred the Petition of Benjamin Hempstead to be relieved from an erroneous Tax presented the following [291] Report in favor of the same.

The Committee on Assessments to whom was referred the Petition of Benjamin Hempstead to be relieved from an erroneous Tax

Respectfully Report

That M[r] William H Crossman agent for M[r] Hempstead appeared before the Committee and testified that M[r] Hempstead who was last

summer absent, and is still absent from the City, has been taxed on his personal property in the sum of Twenty thousand Dollars in the Seventh Ward—He further stated that he was perfectly acquainted with the pecuniary circumstances of Mr Hempstead, who was not worth over One thousand Dollars in personal property.

The Certificate of the Assessors hereto attached states the error in the Tax, and asserts that they would have only taxed Mr Hempstead in $1000 if the information they now possess had been given while the Books were open. The Committee offer the following Resolution.

Resolved that the personal Tax of Benjamin Hempstead in the 7th Ward be reduced from that on $20,000 to that on $1000 for the year 1829

The Finance Committee to whom was referred the Petition of John R Peters & others for a Donation to aid in erecting a Building for the use of the Northern Dispensary presented the following Report in favor of the same.

The Finance Committee to whom was referred the Petition of John R Peters and [299] others praying for a Donation to aid in the erection of a suitable building for the use of the Northern Dispenary Respectfully Report

That the Institution in behalf of which this application is made, was founded by the exertions of public spirited & charitable individuals who have liberally contributed from their own means, not only to support the same and render it extremely useful, but to accomplish the object now in view, viz the erection of a suitable building for its operations. That such a Measure is called for, may be inferred from the fact as represented to the Committee, that about eight hundred patients applied for relief during the last Month alone. And when it is considered that the proportion of the Inhabitants of this City, to whom from its local situation, it may be deemed useful, cannot fall short of Fifty thousand.

The Committee are well convinced that from private contribution alone, the laudable object of the applicants cannot be attained; and viewing this species of Charity as one, not only of the most Meretorious Character, but tending directly to relieve the City from public burdens, they do not hesitate to recommend that pecuniary aid should be afforded for the purpose for which it is now asked

On a similar application recently made in favor of the Institution called the City [300] Dispensary, this Board on the recommendation of the Finance Committee granted a Donation of Twenty five hundred Dollars—Your Committee under a belief that the present applicants represent an Institution not far behind the City Dispensary in prospective usefulness, but less favored in respect to the chances of pecuniary Aid from private subscription, have concluded that the sum of Two thousand dollars would be a suitable and well bestowed Donation out of the City Treasury to assist them in their present undertaking.

They offer therefore the following Resolution.

Resolved that the Comptroller Report a Warrant in favor of John R Peters Esq^{r} as Chairman of the building Committee of the Northern Dispensary for the sum of Two thousand Dollars to aid in the erection of a suitable building for that Institution.

The Finance Committee to whom was referred the application of David P Hall for the apportionment of a certain Assessment on a piece of Land situate on 5th Street between Avenue C & D presented the following Report in favor of the same.

The Finance Committee on the application of David P Hall, for the Division of a certain Assessment, on a piece of Land situated on 5th Street between Avenues C & D Respectfully Report

That in the Assessment for opening 5th Street a piece of Land marked as No 35 on the Commissioners Map and comprising 22 Lots & having a front of 443 feet on the Street was Assessed in the sum of $93,3/100, and charged as belonging to Alfred S Pell, which Assessment remains unpaid—It appears that the Petitioner is the owner of 3 Lots being 75 feet, of the above mentioned Land, and is willing and

desirous, to pay the just proportion of Assessment, with interest and cost of advertising, chargeable against his Three Lots, which in the judgment of your Committee, is a fair and [303] reasonable proposition, and they offer the following Resolution.

Resolved that the Collector receive from David P Hall the sum of $15,^{75}/_{100}$ as Assessment $4,^{46}/_{100}$ as interest & 40 Cents cost of advertising, being the amount chargeable on his three Lots, and thereupon to give him the said David P Hall a receipt in full for his proportion of the said Assessment.

The Finance Committee to whom was referred the Petition of Michael Tally for balance due him for paving Troy street presented the following Report in favor of the same.

The Finance Committee to whom was referred the Petition of Michael Tally praying that the Balance due him for paving Troy street may be paid to him Respectfully Report.

That the Assessment for paving Troy street was confirmed on the 5th of April last, That the Total amount of Mr Tallys contract for the same [304] was $801,94 and that he has already received on Account the sum of $350 leaving a balance of $451,94 still due to him.

The Committee are of opinion that it would be just to pay this Balance to the Petitioner—They offer the following Resolution therefore.

The Finance Committee to whom was referred the Petition of Robert Pettigrew for the whole or part of the money due him on his

The Finance Committee to whom was referred the Petition of Robert Pettigrew praying that the whole or part of the money due to him [305] on his contract for filling up and regulating Fifth street from Avenue A to Avenue C may be paid to him

Respectfully Report

That Mr Pettigrews contract was entered into in the year 1828 and the Assessment confirmed on the 28th of June last—That the whole amount due upon the Contract is $27873.16, no part of which has been as yet received by Mr Pettigrew

The Committee have ascertained that on the faith of this contract, and in order to enable him to complete the same, the Petitioner has obtained a large accommodation at one of the Banks for which he is now actually paying interest, and that unless he obtains relief from the Corporation, he will be seriously embarrassed if not ruined in his circumstances—It has been represented to them that the sum of $10,000 would relieve him from his present difficulty; And the Committee consider it a matter of justice to a Meritorious Man who has faithfully performed his contract that the present application should be complied with to that extent.

They offer therefore the following Resolution.

Resolved that the Comptroller Report a Warrant in favor of Robert Pettigrew for the sum of Ten thousand Dollars as a payment on account of his Contract for filling up and regulating Fifth street from Avenue A to Avenue C.

The Finance Committee to whom was referred the Petition of Elizabeth Lattimer for the payment of a sum of money in consideration of Work done in the year 1824 by her late husband on the 10th Avenue presented the following Report against the same

The Finance Committee to whom was referred the Petition of Elizabeth Lattimer praying for a sum of money in consideration of Work done in the year 1824 by her late husband on the Tenth Avenue Respectfully Report

That from the facts set forth in the Petition it appears that the work for which compensation is now asked, was done by Mr Lattimer in pursuance of an Agreement with certain owners of Land adjoining the Tenth Avenue, and that the Corporation are in no respect legally bound to pay any thing on account of such work. Under these circumstances although the case may be a hard one, for those who represent Mr Lattimers estate, the Committee [307] do not feel themselves authorised to recommend that any money should be paid on this application and they offer the following Resolution.

The Finance Committee on the annexed Petition of Samuel Forgay for the payment of the balances due him for paving the second Avenue, from First to Fifth street, and for paving Second street from the Bowery to Avenue A

Beg leave to Report

[308] They find the Petitioner has completed his contracts a considerable time since and the Assessments made, have been in part collected, and paid to him, that there is now due to him on the Assessment for paving the Second Avenue a balance of $160,9\frac{2}{100}$ and on the Assessment for paving Second street a balance of $1354\ 8\frac{7}{100}$ That all the legal requisites pointed out by the Law, have been taken, and the property on which the Assessments remain unpaid, are now advertised by order of the Common Council to collect the same

Your Committee are of opinion that the application made by the

The Street Committee to whom was referred the Petition to have Ann street widened from Nassau street to the House of Francis Panton presented a Report in favor of the same which was read and together with the Remonstrances against the same were referred back to the Street Committee.

The Watch Committee to whom was referred the Petition of Sarah Tilford widow of Robert Tilford deceased late a Watchman for some pecuniary Aid presented the following Report in favor of the same

The Watch Committee to whom was referred a Petition from Sarah Tilford widow of Robert Tilford Deceased for Assistance

Respectfully Report

That Robert Tilford the Husband of the Petitioner was a Watchman on the 1st District Watch, that on Sunday evening 24th of October last, Capt Stewart with Tilford and three other men left the Watch house accompanied by and at the request [325] of Alderman Lamb, to quell a riot in front of the African Church in Chapel street. On their return in passing Anthony street, Watch being called, Tilford ran toward the noise, and in his course came in contact with a post in front of Mr Lyles Church, whereby he received so severe an injury in his breast, that death ensued on Tuesday morning following—A part of your Committee were deputed to wait upon the Widow and to make enquiry as to her situation and character, they have done so, and from information received, she had not at the time of his death, means of defraying the funeral charges, but received assistance from the Watchmen for that purpose, she is involved in Debt for Rent, schooling &c between 40 & 50 Dollars, and no means of paying it, or even providing for herself and three small children the approaching winter, she is represented as a Woman of prudent & industrious habits, and Your Committee are of opinion, that as the unfortunate accident occurred to Tilford while acting on his public duty, that some pecuniary relief should be granted towards the support of his Widow & Children —We therefore offer the following resolution.

Resolved that the Watch pay of Robert Tilford Decd be continued

to his Widow Sarah Tilford from the 24th day of October last until the 1st day of May next

The Committee on the Fire Department to whom was referred the Petition of Fire Wardens to have the Law altered relative to qualifications of Fire Wardens presented the following Report in favor.

The Committee on the Fire Department to whom was referred the Petition of the Fire Wardens praying that the time required of Firemen to serve [before] being eligible as Fire Wardens may be reduced from five years to three years

Respectfully Report

That your Committee having given the subject referred to them that due consideration which its importance demands and having also had a Committee of the Fire Wardens before them, would respectfully state that in consequence of the reduction of the term of service of Firemen as now required to serve by Law, the Fire Wardens experience no little difficulty in procuring the aid of such competent persons as are willing to do the duty of Wardens for the short space of time viz two years, that they are eligible for that Office.

[327] Your Committee would further state that in their opinion, the Public interest requires that the Fire Wardens, ought by a longer continuance in their Office be enabled to render more efficient aid in the duty in which they are engaged by becoming more fully acquainted with the various duties of the same.

They accordingly offer for the consideration of the Common Council the following Resolution.

Resolved that the Eleventh section of the fourteenth Chapter of the Ordinances of the Common Council be amended as to read "but none other than those who have been Firemen at least three years, shall be so recommended."

The Committee on the Fire Department to whom was referred the Petition of Hose Company N° 1 for an increase of Members presented the following Report in favor of the same.

The Committee on the Fire Department to whom was referred the Petition of Hose Company [328] N° One for an increase of the number of members attached to their machine.

Respectfully Report.

That in the opinion of your Committee the aid of the Hose Company is of vast importance to the public, and that they should at all times be enabled to convey their machine to the Fire with great facility, not only that they may be enabled by their being soon at the Fire to check the same, but also by having a full complement of men more effectually to use the large quantity of Hose in their care—Your Committee would also state that from the success which has attended to procureing of Water for extinguishing Fires, at the Public Reservoir the services of the Hose Company will be very often required, they therefore deem the present number of men attached to the same inadequate to the duty, they accordingly offer the following for the consideration of the Common Council.

Resolved, that the number of Firemen attached to Hose Company N° 1 be increased from Twenty to Twenty six Men

[330] The Committee on Assessments to whom was referred the Petition of Homer Bostwick to be relieved from an erroneous Tax presented the following Report in favor of the same.

The Committee on Assessments to whom was referred the Petition of Homer Bostwick to be relieved from an erroneous Tax, Respectfully

Report

That M[r] Bostwick appeared before the Committee and testified that he was taxed in the 3[d] Ward for personal property on $1000, Whereas he is not worth any personal property—He further stated that he was a single man, a Student of Medicine, and that he was not in the City while the Assessors Books were open for examination.

The Certificate of the Assessors hereto annexed confirm his statement, and Committee believeing him to be entitled to relief offer the following Resolution.

Resolved that the personal Tax of Homer Bostwick in the 3[d] Ward amounting to $4,^{5}\%_{00}$ be and the same is hereby remitted

[331] The Committee on Assessments to whom was referred the Petition of Laurent Salles to be relieved from personal Tax presented the following Report against the same.

The Committee on Assessments to whom was referred the Petition of Laurent Salles to be relieved from personal Tax Respectfully Report

That M[r] Salles appeared before the Committee and stated that he conceived himself erroneously Taxed on his personal property in the Fifth Ward, that the Assessors had originally taxed his personal

property at Eighty thousand dollars, which was altered by the Board of Assessors to Three hundred thousand Dollars, but which on his representation was again reduced by one of the Assessors of the 5th Ward to $200,000

To this reduction the other Assessor objected, and the Board of Assessors on his representation again placed the Tax on $300,000.

Mr Salles stated that his personal property was not worth more than $100,000 but refused to take the oath required by Law, and it is understood by the Committee that he has at all times refused to testify under Oath to the error in his Tax.

From the refusal of Mr Salles to comply with the provisions of the Law in testifying according to its provisions, the Committee do not think him entitled to relief, and offer the following Resolution.

[332] Resolved that it is inexpedient to grant the prayer of the Petitioner.

The Street Commissioner presented an Ordinance For paving Side walks of Wooster street from Bleecker street to Amity street, Which was passed and Garret Forbes, Peter Stagg & Abm Lefoy were appointed Assessors.

The Joint Committees on Public Offices and Repairs presented the following Report in relation to Alterations they propose to make in the Old Jail for the purpose of converting it into Fire Proof Offices.

The Joint Committee on Public Offices and Repairs respectfully represent to the Common Council, that they have deemed it proper previously to commencing the Alterations, authorised to be made in the Old Jail, for the purpose of converting it into Fire proof Offices to Report to the Board, their plan, specifications & estimates for such an alteration [333] of said building, as will make it ornamental as well as useful, and in some measure meet the public expectation on this subject.

The plan, upon which the estimates in the former report of your Committee was founded, contemplated only such an alteration of the building, as would make it answer the purpose intended, which was to make it Fire proof, without reference to any embellishment of its

exterior & the sum appropriated by that Report was in the opinion of your Committee amply sufficient for that purpose, but as this building is in the vicinity of the City Hall to which it may be considered in the nature of a Wing, & where it may remain for ages to come, your Committee are of opinion that its exterior ought to be made in some measure to correspond in appearance with that splendid building and their plans and estimates have been made with a view, (as far as it is practicable) to effect this object.

The plan adopted by the Committee and accompanying this Report, contemplates the erection of a Portico at each end of the building, the expense of completing it on this plan according to estimates obtained by the Committee upon notice in the public Papers will be $22,500 should the building be finished with a Portico on the South front only, the sum required for completing it would be but $18,400 but as there is a probability that at some future & not very distant [334] day, the public School house and other buildings on Tryon Row will be removed, the building would in that case appear unfinished and defective without a Portico at the end towards that Street, corresponding with the one in front, The Committee are therefore of opinion that it ought to be finished according to the plan herewith submitted and they offer for consideration to the Board the following Resolution and Ordinance.

Resolved that the Joint Committee on Public Offices and Repairs be & they are hereby authorised to enter into contracts for converting the Old Jail into Fire proof Offices agreeably to the plans submitted by them.

Be it Ordained by the Mayor Alderman & Commonalty of the City of New York in Common Council co[n]vened, that the sum of Seven thousand five hundred Dollars be and the same is hereby appropriated for the purpose of carrying into effect the preceding Resolution, in addition to the sum of Fifteen thousand Dollars heretofore appropriated for that purpose.

Resolved that State street between Pearl street and Bowling Green be repaved.

[336] Alderman Nevius presented the following Resolution which was read and referred to the Gas Committee.

Resolved that the Superintendent of Lamps under the direction of the Gas Committee be authorized to procure New Lanthorns for the Lamps in Broadway of a similar sise to those now in use in Pearl street.

Alderman Strong presented the following Preamble and Resolution which was read & Adopted.

Whereas the Common Council have in common with their fellow Citizens witnessed with the most lively emotions of pleasure the complete success of the glorious Revolution accomplished by the Wisdom firmness and bravery of the French people on the ever memorable days of the 27th 28th & 29th July 1830 resulting in the emancipation of that Gallant Nation from the thraldom of Tyranny and oppression, and in the establishment of the Government of their choice.

And Whereas in the progress of the above sanguinary contest the Citizens of Paris exhibited the most heroic fortitude and consummate bravery—The most enthusiastic spirit of freedom, combined with the most sacred regard for individual rights, and the security of personal property

[337] And whereas the Citizens of this Metropolis have agreed to celebrate the triumph of Civil and Religious liberty in France on the 25th Instant thereby associating that event with the anniversary of the emancipation of this City from the dominion of foreign invaders.

Therefore Resolved that a Committee of Five be appointed to make

the necessary arrangements on the part of this Common Council to unite with the Citizens on that occasion.

The Street Committee to whom was referred the Petition to have the Bowery regulated from 13th to 16th Street presented the following Report in favor of the same.

The Street Committee to whom was referred the Petitions for digging and regulating the Bowery between the 13th and 16th Streets and also the remonstrance against the same.

Respectfully Report that they have [352] duly considered the subject and are of the opinion that it has become necessary to reduce and regulate that Street it being rendered impassable by the digging and Regulating of the Bloomingdale Road and as there would be several thousand loads of surplus earth afforded by such regulation and which is now required to fill the low grounds in the vicinity your Committee deem it expedient that the request of the petitioners should be granted and accordingly submit the following resolution

Resolved that the Bowery be dug out and regulated between Thirteenth and Sixteenth Streets

Thomas T. Woodruff
Jno. Rogers
Geo. D. Strong
William Scott.

Which was approved and the Resolution Adopted

The Street Commissioner presented the following Ordinances which were passed and Assessors appointed Viz

For repaving State Street from Marketfield to Pearl Street and John Lozier Abraham Baudoine and Jacob S Baker were [353] appointed assessors

For paving sidewalks of Bank Street from Greenwich Lane to Hudson Street and Gideon Tucker, Everadus Warner and Gabriel Van Cotts were appointed Assessors.

For regulating the Bowery between 13th and 16th Street and David Lyon, Charles Dusenbury and David Marsh were appointed assessors

The Committee on Public Offices to whom was referred the Memorial of the Governers of the New York lying in Hospital for aid from the Corporation presented a Report which was read Laid on the Table and [ordered] to be printed for the use of the members

Alderman Seaman presented the following Resolution which was read and adopted

Resolved that all the Lamps in the different Markets in the City be from this time Lighted until the further direction of the Board

Mr Dibblee presented the following Resolution which was read and Laid on the Table

[354] Resolved that in future and until otherwise resolved this Common Council will convene for its regular meetings at four O'Clock in the afternoon

Mr. Cooper presented the following Resolution which was read and referred to the Water & Fire Department Committee.

Resolved that Judge Wright be employed to make the surveys and calculations necessary to ascertain where an ample supply of good water may be had sufficient for all the purposes of this City, and that he report to this Board his opinion of the best practicable mode and probable cost of obtaining the same

On Motion of Alderman Woodruff the Report of the Street Committee on opening Union Place was called up and being amended was agreed to in the words following

The Street Committee Respectfully Report, on the annexed petition of the owners of the triangular piece of ground situate between the Bloomingdale Road or Broadway and the Bowery and Fourteenth and Sixteenth Streets and Known as "Union Place" that the said piece of ground may be taken and appro- [355] priated for public purposes inasmuch as that by the digging down to the permanent regulation the surrounding and intersecting streets their buildings are rendered useless and untenable unless lowered down and repaired at a great expense

Your Committee having duly considered the subject are of the opinion that this is a favourable time for appropriating that piece of ground to the purposes for which it was designated, as it will be attended with far less expense to the owners of the lands in its vicinity and to the public than at any future time, owing to the circumstance of the buildings and improvements being rendered almost useless to the owners and cannot be made productive but at a great expense and which would be lost to them whenever the grounds shall be so appropriated as a public place. For the foregoing reasons and considerations your Committee are induced to recommend the adoption of the following resolutions

Resolved That it is desirable for public purposes and convenience that Union Place together with so much of the 4th Avenue as lies between the Bowery and Broadway and connected therewith be opened and the same is hereby ordered to be done

Resolved that the Counsel to this [356] *to this* Board make the necessary application to the Supreme Court for the appointment of Commissioners of estimate and assessment in the said matter and that

the petition for that purpose be authenticated during the recess of the Board

Thomas T. Woodruff
John Lovett.
John Rogers
Geo. D. Strong

On Motion of Alderman Woodruff the Report of the Committee on Repairs was called up and read in the following words

The Committee on Repairs—Respectfully Report *the* [that] agreeably to a resolution of the Board they procured an Iron pump and fixtures and had the same placed in the Well in William near Cedar Street.

Your Committee are fully satisfied with the utility of the cast Iron pump and as they are assured the expense of such pump and fixtures will not exceed those of wood now in common use. They recommend their use in all the public Wells hereafter built and as the pump now in use shall require to be replaced with new ones—that the Iron [357] pump be in all cases substituted

Resolved that the Superintendant of Repairs be authorised to purchase Iron pumps for all public Wells that may require new pumps on the best terms they can be procured under the direction of the Committee of Repairs

Thomas T. Woodruff
Wm Mandeville
James N. Wells

The question being taken on the adoption of the Report and Resolution it was carried in the affirmative

Which were passed.

The Street Commissioner presented the following Returns of Delinquents on Assessments which were read

For paving 6th Street from the 2d to the 3d Avenue—And for laying side walks of Norfolk street, between Rivington and North streets—Whereupon Warrants were directed to issue to John Hanmer the Collector thereof.

For laying side walks in Thompson street between Prince & Houston streets.

For laying side walks in Crosby street between Prince and Houston streets.

For repaving Nassau street from Spruce to Beekman street.

For laying side walks in 6th Street between McDougal & Grove street.

For regulating 5th Street between Avenues A & C—And for [12] A Well & Pump in Morton near Washington street. Whereupon Warrants were directed to issue to Thomas Cottrell the Collector thereof.

The Street Commissioner presented the following Assessments which were confirmed and Collectors appointed thereto Viz[t]

For repaving William street from Duane to Frankfort street and John Hanmer appointed Collector.

For repaving Eldridge street from Division to Hester street and Thomas Cottrell appointed Collector.

A Communication from the Street Commissioner stating that the owners of Water Lots between Hammond and Jane streets have not complied with the Ordinances of the Board requiring them to fill the grounds of their respective Grants was read and referred to the Finance Committee

The Finance Committee to whom was referred the Petition of Peter Williamson for a Reward for detecting an Incendiary presented the following Report.

The Finance Committee to whom was referred the Petition of Peter Williamson praying for a Reward of Two hundred and fifty Dollars offered [13] by the Mayor for the discovery of Incendiaries.

Respectfully Report.

That the Petitioner claims to be entitled to the said Reward under a proclamation issued in pursuance of a Resolution of this Board passed August 10th 1829 That by reference to the said Resolution (a Copy of which is annexed to this Report) it appears that the same was intended to apply to cases of Arson which had already occurred, and not to future Commissions of that crime; And that the attempt which the Petitioner discovered, was made as appears by his Petition on the night of the 29th of July 1830. The Committee have therefore no hesitation in expressing their opinion that as a matter of right, the Petitioner is not entitled to the said Reward, and they would be distinctly understood as disapproving of any construction of the said or similar Resolutions which might give them a prospective meaning, the effect of which would in their opinion be to hold out strong temptations to the commission of perjury. But in the present case the Committee have made due enquiry into the circumstances and they are satisfied that the Petitioner by his vigilance and perseverance in watching and finally detecting Sarah W Smith the Incendiary mentioned in his Petition, rendered an essential service to the public. The District Attorney from whom they have made enquiries on the [14] subject, has informed them that it was upon the Petitioners testimony that the prisoner was convicted; and they have reason to believe that in attending Court and necessarily neglecting others matters, the Petitioner

lost an employment which would have been advantageous to him— It has also been represented to them by a respectable gentleman who appeared on his behalf that the Petitioner has a mother and sisters dependant in a great measure upon him for support and that he and they are in a very reduced condition.

Under all these circumstances the Committee think it would be right to give something as a gratuity to the Petitioner, and they have concluded to recommend that One hundred and twenty five Dollars, being half the amount of the reward claimed should be appropriated for that purpose.

They beg leave therefore to offer the following Resolution.

Resolved that the Comptroller Report a Warrant in favor of Peter Williamson for One hundred and twenty five dollars as a gratuity to the said Peter Williamson for his services and loss of time in detecting Sarah W Smith in an attempt to set fire to a dwelling house and procuring her conviction of that crime.

The Finance Committee to whom was referred the Memorial of Christian Bergh containing a proposition for settlement of the controversy between him and the Corporation presented the following Report in favor of the same.

The Finance Committee to whom was referred the Memorial of Christian Bergh containing a proposition for the settlement of the controversy now depending in the Court of Chancery between him and the Corporation upon certain terms therein stated Respectfully Report

That the subject matter of the said controversy and its history during the long period of time, it has continued, being fully set forth in Mr Berghs Memorial which is hereto annexed, the Committee do not deem it necessary to give more than the following details thereof. The object on the part of Mr Bergh has been to obtain from the Corporation a Water grant extending from the Easterly line of Gouverneur Slip One hundred and fifty feet along the property now owned and occupied by [16] *by* him. He has been in possession of the premises for which he seeks a formal grant since the year 1810, without having

paid any rent therefor, and his right thereto being disputed and denied by the Corporation. A Resolution was passed in Common Council on or about the 2d of July 1810 to give to Mr Bergh a grant extending to "Scammel Slip" and there being no such Slip in the City, it became a question whether Scammel street or Gouverneur Slip was meant in the said Resolution, the latter being insisted upon by Mr Bergh and the former contended for on the part of the Corporation. Out of this Mistake a long and obstinate litigation arose which has existed for about fourteen years, both in the Supreme Court and in the Court of Chancery. Voluminous testimony has been taken on both sides, but no hearing of the Cause now depending in the Court of Chancery has yet taken place, and Mr Bergh avows that his age and increasing infirmities, makes him solicitous to end this controversy in an amicable manner and as speedily as possible, and with that view he has come forward with the proposition for settlement which was referred to this Committee.

The Committee. deeming the subject to be one of much importance have spared neither time nor labour to make themselves fully acquainted with the merits of the case, in which they have derived much [17] aid from the Officers of the Board including the former Counsel under whose charge the suit has been conducted. Many interviews have been had with Mr Bergh and his Counsel, the premises have been viewed, and accurate surveys and Maps have been made by the Deputy Street Commissioner through means of all which, the Committee have become enabled to understand and properly judge of the terms proposed by Mr Bergh. The result has been that they became convinced of the inexpediency of agreeing to the same and were prepared to Report accordingly to the Board—This being communicated to Mr Bergh, further conferences on the subject were had with him and his counsel, and the interchange of opinion between them and the Committee led to a suggestion of the following terms of settlement Viz[t]

That the Corporation should execute a grant to Mr Bergh extending the whole 150 feet or to the Easterly side of Governeur Slip, he paying all the back rent without interest, that is to say from the 1st May 1810 to the 1st May 1821 at the rate of Seventy five cents per foot per Annum and from the 1st May 1821 to the present at the rate of $1.50 per foot per Annum. The grant to provide that Mr Bergh shall make those portions of Front and South street which intersect the premises, and [18] that until Gouverneur Slip shall be filled up to the permanent line he shall leave a Cartway of Twenty five feet wide along the Easterly side of the Slip between Front and South streets,

which Cartway he shall be at liberty to resume when the Slip shall have been so filled up; Also that the Wharfage along the Easterly side of Gouverneur Slip shall be reserved to the Corporation so long as it remains a public Slip, and finally that each party shall pay their own Costs and expences incurred in the controversy.

The Committee conclude by stating that Mr Bergh has expressed his willingness to settle upon those terms, and that after bestowing all the attention and reflection in their power upon the subject, they do not hesitate to recommend that this Board should agree to the same.

They submit therefore the following Resolutions.

Resolved that the suit now depending in the Court of Chancery between Christian Bergh and the Mayor Aldermen and Commonalty of the City of New York be settled on the terms mentioned in the foregoing Report according to Mr Berghs offer to that effect, and that the former Counsel to this Board, by whom the said suit has been conducted be instructed accordingly.

Resolved that the Counsel prepare a Grant to Mr Bergh in conformity with the said terms [19] of settlement, and that the same be authenticated in the usual manner during the recess of the Board and be delivered to Mr Bergh he paying the expences thereof and complying on his part with the said terms of Settlement.

The Street Committee to whom was referred the Communication from the Trustees of Columbia College accompanied by a Deed of Cession of the land known as Chapel street as the same has been widened between Murray and Barclay streets.

Respectfully Report

That they have caused the said Deed of Cession to be examined by the Counsel, and the same has been approved of by him—They offer therefore the following Resolution.

[20] Resolved that the said Cession from the Trustees of Columbia College be accepted by the Common Council.

The Street Committee to whom was referred the Communication from the Counsel relative to opening 24th Street, also of widening Pine street presented the following Report

The Street Committee to whom was referred the Communication from the Counsel to the Board stating that the Supreme Court at their late Session had confirmed the Report of the Commissioners of Estimate and Assessment in the case of opening the 24th Street from the Ninth Avenue to the Tenth Avenue, and also for the widening of Pine street at William street, and that it remained with the Common Council to designate the time when the same should be carried into effect. On which your Committee respectfully Report.

That in their opinion the opening of 24th Street ought to be carried into effect without delay [21] And that the widening of Pine street should be delayed until the first day of May next.

And accordingly submit the following Resolutions.

Resolved that the opening of Twenty fourth street between the Ninth and Tenth Avenues be carried into Effect on the first day of January next, and that the incumbrances be removed therefrom within Thirty days thereafter.

Resolved that the widening of Pine street be delayed until the first day of May next and that the buildings and incumbrances be removed therefrom within thirty days thereafter

The Committee on Roads to whom was referred the Petition of R C Wetmore, asking payment for damage done his House near the Six mile stone, by reason of blasting Rocks on the Third Avenue by Corporation Agents Report

That they have had several interviews with the Petitioner, and other persons, and have been [23] unable to find such evidence, as would induce them to award damages in a similar case between private Individuals. They therefore offer the annexed Resolution.

Resolved that it is inexpedient to grant the prayer of the Petitioner.

The Road Committee to whom was referred the Petition of John Odell for remuneration for damages done his premises in repairing the Road near Hamilton Hill presented the following Report against the same.

The Committee on Roads to whom was referred the Petition of John Odell

Report

The Petitioner was the Lessee of a House which he occupied as a Tavren, situated and fronting on the Third Avenue, on the summit of Hamilton Hill, through which the late repairs of the Road have necessarily caused a deep cutting, destroying the natural level between the House [24] and Road, and in effect cutting off the direct entrance from one to the other, whereby the premises are materially injured for the Tavren purposes of the Petitioner, and he asks for such remuneration as shall be deemed reasonable.

With the great aggregate benefits arising from repairing the Roads, some causes of individual injury must necessarily occur in cases of opening new Roads, ample statutory provision has been made for equalizing the benefits and damage among the Parties affected, but your Committee find no legal provisions in relation to the benefits or damage which may accrue from repairing Old Roads.

Nor do they find any rule or precedent, to guide them in the case of the Petitioner, if his prayer be granted, then, it must be gratuitious, or on the principle of common equity, and the feelings of the Committee lean strongly to this course, but they apprehend it would open a wide door for unequal disbursments of the Public money for this class of damages, while at the same time all legal doors are closed against the Assessment, and collection of benefits, which seem to be the only legitimate funds applicable to such payments

The uneven surface of our Island, and the great travel so near the City leave few places on our Roads, which do not require either cutting down, or filling up, it is not likely the benefit and damage [25] will be precisely equal, to any two Individuals; several Vallies of considerable length and depth have been filled, during the present and past season, by which, much of the adjoining Land is effectually barred from its natural entrance to the Road, if payment be made in case of damage, it should be extended to all, and as there is no legal officer to make the equitable Assessments, and no proper fund from which to make payment, the Committee feel constrained to Report against the application.

The Petitioner further asks remuneration for the use of his premises for the Cattle Implements and Workmen employed on the Road, this claim will be properly adjusted by the Superintendent of Roads, to whose duty it specially belongs.

In conclusion the Committee offer the annexed Resolution.

Resolved that it is inexpedient to grant the Prayer of the Petitioner.

The Road Committee to whom was referred the Petition to have Eighty sixth street worked into a convenient Road between the 5th and 8th Avenues

Respectfully Report

That in the year 1828 that street was opened from the Hellgate Ferry to the 8th Avenue and subsequently worked into a good road between the Ferry and the 5th Avenue, no order has been taken to work that part between the 5th and 8th Avenues, now asked for. Public convenience seems to require that some direct communication should be afforded between those Avenues. Your Committee would therefore recommend that 86th Street be worked into a passible and convenient Road, or Carriage way between the 5th and 8th Avenues at a sum not exceeding Four hundred dollars, and accordingly submit the following Resolution.

Resolved that the Fences and other incumbrances be removed from Eighty sixth street between the Fifth and Eighth Avenues and that the same be worked into a convenient Road at an expence not exceeding Four hundred Dollars

The Market Committee to whom was referred the Petitions and Remonstrances on the subject of making an addition to the Catharine Market presented a Report in favor of the Petition which was Laid on the Table, and on Motion made the order of the day, at the next regular meeting.

The Committee on the Fire Department to whom was referred the Petition of the Trustees of Columbia College, and also others relative to the location of Engine N° 6 presented the following Report.

The Committee on the Fire Department to whom was referred the Petitions of the Trustees of Columbia College, also the Inhabitants in the vicinity of Chapel, Hudson, Reed & Chambers street together with a Petition of the Members of Fire Engine Company N° 6 for a location for the same beg leave respectfully to Report

That your Committee have given the subject [28] committed to them, that attention its importance demanded, but have not been able to procure a Lot in fee, and on the contrary they have found no little difficulty in Leasing or hireing any eligible situation, and they would further state, that the Fire Engine for some time past has been stored at the Corporation yard, and this is the more to be regreted, as she has a full complement of Firemen now attached to the same, ready and anxious to do their duty.

Your Committee would state that M^r^ Thomas T Griffen the Lessee of Lot N° 106 Reed street from Trinity Church, having four years unexpired from first of May next at Seventy five Dollars per Annum size of Lot 25 feet front and rear, and 87 feet 6 inches deep is willing to sell the same for Nine Hundred & fifty Dollars, there is on the Lot a Wooden House, and Stables in the rear, the House could be sold for a small price, but the stables in the rear could be rented for a rent that would reduce the annual expence to the Corporation materially, they would therefore offer for the consideration of the Common Council the following Resolution.

Resolved that the Committee on the Fire Department be and is hereby empowered to purchase the above Lease on the said terms and the Comptroller is hereby directed to Report a Warrant for the same.

Resolved that the Superintendent of [29] Repairs have a suitable House built on the same for Fire Engine Company N° 6 under direction of the Committee on the Fire Department.

Resolved that the Committee on the Fire Department, rent such

part of the above Lot as may not be wanted for the above House, and also that they sell the Wooden House now on the premises.

The Watch and Lamp Committees to whom was referred the Petition of Inhabitants of the 12th Ward for an extension of Watch & Lamp District presented the following Report in favor of the extension.

The Watch and Lamp Committees to whom were referred the annexed Petition from a number of Inhabitants of the 12th Ward praying for an extension of the Watch & Lamp District

Respectfully Report.

That the Watch and Lamp District as now [30] established is Bounded by 14th Street and extending across the City from the North to the East River, the Petitioners wish it may be so enlarged as to embrace the space Bounded by 6th Avenue from 14th to 21st Streets and from thence to the North River, your Committee having made the necessary inquiry and examination, are of opinion that from the numerous improvements and dense population of a considerable portion of the above district, an extension of the Watch and Lamps are highly necessary for the safety, peace and accommodation of its inhabitants; it is estimated that for the necessary lighting of the settled parts of the district, so described will require 40 Lamps, the cost of each Lamp will be $11 $^{31}/_{100}$ yearly, making an annual expence for Lamps of $452,$^{40}/_{100}$. The number of Watchmen requisite, your Committee believe will not exceed Four posts or eight men, the Annual expence for which will be $2555, or $638,$^{75}/_{100}$ each post, making for Watch and Lamps an aggregate sum of $3007 $^{40}/_{100}$. As the amount of this expenditure will hereafter be assessed upon the 12th Ward, Your Committees can perceive no objection to granting the prayer of the Petitioners, and therefore offer the following Resolution.

Resolved that the Watch & Lamp Districts be so extended as to run along the Westerly side of the 6th Avenue to 21st Street, from thence along the Southerly side thereof to the North River, including

the intermediate [31] space between 14th & 21st Streets, and that 40 Lamps be placed thereon under the direction of the Lamp Committee. And that a Watch not to exceed four posts or eight men be arranged on said district by patrole or otherwise, under the direction of the Watch Committee.

The Committee on the Fire Department to whom was referred the several Petitions of Fire Engine Company No 18 for a Location and also for a New Engine House beg leave Respectfully

to Report

That they have experienced no inconsiderable difficulty in procuring a proper site for the same, [32] as in the opinion of your Committee it is very desirable to have the same as near the Sixth Avenue as it could be conveniently placed, they have now offered to them a Lot in Amity street near Sixth Avenue belonging to Mr Uzziah Wenman 25 feet 3 inches front and rear and Eighty feet deep for the sum of Fourteen hundred Dollars, which your Committee, would recommend the purchase of, and also the Building of a new House on the same, they accordingly recommend for the consideration of the Common Council the following Resolutions.

Resolved that the Committee on the Fire Department be and is hereby empowered to purchase the above Lot, and that the Comptroller Report a warrant for the amount of the consideration money, on the Certificate of the Counsel of the Board that the title is complete.

Resolved that the Superintendent of Repairs have a suitable Engine House built on the above Lot under the direction of the Committee on the Fire Department.

The Counsel reported that the Supreme Court had confirmed the Report of the Commissioners on opening Fifth Street which was referred to the Street Committee. He also reports [52] that on *that on* the Application of the Grocers relative to the additional excise duty of $1.5\%_{00}$ for the benefit of the House of Refuge, the Supreme Court have refused the Motion thereby deciding that the said duty is a legal one Which was laid on the Table and afterwards called up and referred to the Finance Committee

The Street Commissioner presented the following Returns of Delinquents on sundry Assessments,

On the Assessments for paving Hall Street from 6th to 7th Street—Also for paving 21st Street from the 8th to the 9th Avenue—Also for paving the 8th Avenue from 13th to 21st Street—also for paving the Sidewalks of Bleecker Street from Hancock to Downing Street,—also for paving the sidewalks of the Bowery between 6th and 8th Streets, Whereupon Warrants were directed to issue to John Hanmer the Collector thereof

Also on the Assessments for Regulating 6th Street from Avenue D to Lewis Street—and also for paving 7th Street from the 2nd to the 3d Avenue. Whereupon Warrants were directed to be issued to Thomas Cotrell the collector thereof.

[53] The Report of the Market Committee on the Petition and Remonstrance relative to Catharine Market which was made the order of the day for this Meeting was called up and read in the following Words.

The Market Committee to whom was referred the several Petitions and Remonstrances on the subject of Catharine Market.

Respectfully Report.

That they have fully considered the subject to which the said Petitions and remonstra[n]ces relate and have heard the statements and

views of the parties interested therein; And the opinion at which they have arrived is that the Upper old Market beween Cherry and Water streets should be taken down, and that a New Market with granite Columns conforming to a plan which they have caused to be made, should be erected—They have estimated that the expence of such new Market will be about $4000, The Committee therefore offer the following Resolutions.

Resolved that, that part of the Catharine Market lying between Cherry and Water street be taken down and that a New Market conforming with the plan which has been made thereof be erected in the place thereof.

Resolved that the Market Committee [54] receive proposals for the building of such Market and that $4000, be appropriated for the expences thereof

The Lamp Committee to whom was referred the Petition to have a part of the 3d Avenue lighted by Lamps presented the following Report in favor of the same.

The Lamp Committee to whom was referred the Petition of sundry Inhabitants of the 12th Ward relative to lighting a part of the 3d Avenue beg leave to Report

That they have had the subject before them and made the necessary inquiries, and have given it the consideration it demands. Although that part of the Avenue that is asked to be lighted is beyond the Lamp District, yet after taking into consideration the thickly settled neighborhood at [56] the Bulls Head, and the number of persons who are obliged to travel that road, and more especially since the conversion of the Penitentiary into our Bridewell and City Prison, your Committee deem it very unsafe, and think it advisable and are of opinion, that the prayer of the Petitioners should be granted. The Avenue being lighted as far as 14th Street, Your Committee would recommend that the Lamps be placed in the Section asked to be lighted, at a greater distance from each other than generally. They therefore offer the following Resolution.

Resolved that the Lamp Committee be authorized to have 14 Lamps placed on the 3d Avenue between 14th & 28th Streets under their direction.

The Watch Committee to whom was referred the subject of accommodating the 1st District City Watch in the West end of the Building known as the Old Alms House presented the following Report in favor of the same.

The Watch Committee to whom was referred the annexed Resolution of Assistant Alderman Engs, on the subject of accommodating the 1st District Watch in the West end of the Old Alms House

Respectfully Report.

That your Committee have examined the apartments now in the occupation of the 1st District Watch, and believe there is not sufficient room for their accommodation, the superficial measurement is [58] about 3.400 feet. This Watch including Officers consists of 112 Men, and the number of prisoners each night vary from four to twenty, among the prisoners are of course some of a very turbulent and noisy character, and who for want of a subteranean place of confinement, prevent the men by their noise from taking their necessary repose, and which with justice has been a frequent cause of complaint, there is another evil under which the present location labours, that is the windows being on the rear only, prevent that circulation of air through the premises, which is essential for its purification as well as for the health of the Watchmen. The West end of the Old Alms House offers far superior Accommodations by appropriating 124 feet in length [it] will give 4760 s[u]perficial feet which is rather over one third larger than the present Watch House, the advantages resulting from the change will be that, a proper circulation of air can readily be admitted having Windows on both sides of the building, that Cells can be constructed for the confinement of prisoners which the present Watch House is deficient in a Room for the Captains and Assistants, seperate from the sleeping room of the men, in which prisoners of a certain class can be examined, and where the Officers can be consulted by the members of the Board, Police Magistrates and [59] others out of hearing of the Watchmen—the estimated cost of making the necessary alterations will not exceed $1200, perhaps not more than $1000, as the Police Office Court of Sessions and Grand Jury Rooms are to be established in that Building and the workmen are now engaged in making the necessary alterations for their accommodation your Committee are of opinion that the Watch and Police should be as contiguous as possible and as the contemplated removal will add greatly to the convenience of the 1st District Watch, and also be conducive to the health of the Men, recommend that the alteration and fitting up be

commenced forthwith and be[g] leave to offer the following Resolution

Resolved that one hundred and twenty four feet of the Basement from the West end of the Old Alms House be and it is hereby appropriated for the use and accommodation of the 1st District Watch, and that the necessary alterations be made therein at a sum not to exceed twelve hundred Dollars

The Finance Committee to whom was referred the Petition of Samuel Bielby and others residing on 21st Street between 8th and 9th Avenues praying that the money received for surplus earth on the said street should be applied towards the payment of an assessment for paving the same.

Respectfully Report

That the Petitioners are either Purchasers from or Lessees under Clement C. Moore Esqr and by their respective Deeds or Leases are bound to pay all assessments and charges upon their respective lots. That on the opening of 21st Street by Commissioners, the sum of $13,300 was advanced to Mr Moore for the land taken for the Street and Mr Moore of his own accord and without being legally bound so to do, paid all the sums assessed upon the lots of the Petitioners and others amounting in the whole to $12,614. Mr Moore has since received about $1200 for the proceeds [61] of the surplus earth. The above particulars the Committee have ascertained from the Deputy Street Commissioner, and they are not denied by the applicants. The Committee are satisfied that the Petitioners never had any legal right to the said surplus Earth or the proceeds therefrom, but even if this were doubtful they do not think that the Corporation under the above state of facts, should interfere to deprive Mr Moore of the same for the benefit of the Petitioners. The Committee on Assessments to whom was referred the petition of Frederick Phillips administrator of the Estate of Frederick Phillips dec^d^ praying the Common Council to Collect an Assessment on the

House Corner of Pine & William Streets from the personal property of the occupant.

Respectfully Report

That Mr Phillips appeared before the Committee and stated that the property which he represented, as agent at the corner of Pine and William Streets had been leased to Mr Niblo, with a proviso in the lease binding Mr Niblo to pay all assessments, and that subsequent to such contract the property had been assessed for widening William Street the sum of six hundred and fifty Dollars

This assessment which Mr Niblo had omitted paying and the object of the application by Mr Phillips was that the Common Council might release the real Estate & direct the Collector to resort to the personal property which might be *be* found on the premises, as the Law which [64] specifies the duties of Collector of Assessments is a Law of the State an[d] as in the opinion of the Committee it would be improper for the Common Council to direct or controul that officer in the discharge of his duties they offer for the consideration of the Board the following Resolution

That M[r] Townsend appeared before the Committee and testified that he was assessed for his personal property on $10,000, whereas his personal Estate is not worth more than $1000,

The Committee to whom was referred the Petition of Clara Robins to be releived from an erroneous Tax

Respectfully Report

That by an affidavit made by Mrs Robins it appeared that when the assessors called at her residence to impose the Tax, she informed them that her personal property was not worth more than Five hundred dollars which sum she had always been Taxed for—that the assessors expressed their satisfaction of the truth of her statement and agreed to place the same at that sum.

In consequence of this circumstance Mrs Robins did not apply when the Books were open for examination and supposed the Tax correct until the Collector demanded the Tax on $2500,

[68] In justification of the course the Assessors pursued it is proper to state that they received subsequent information, which induced them to believe the amount of her personal property greater than represented, but which by her affidavit is clearly correct.

As the Assessors acknowledge the error the Committee offer the following Resolution

Resolved that the personal Tax of Clara Robins in the Fifth ward be reduced from that on $2500, to that on $500 and that the surplus be placed among the errors of personal Taxes for 1830.

Alderman Mott further stated that he had possession of the Books

of the deceased and that from this circumstance the Assessors of the 2nd Ward were of opinion that he was the proper person to be Assessed as Executor to the said Estate, and as he states that the Tax on the personal property of the deceased in the 2nd Ward, is the correct amount, the Committee recommend the adoption of the following Resolution

Resolved, that the Tax on the personal Estate of the late Benjn Mott deceased. assessed to Wm F. Mott Executor in the Seventh Ward amounting to $23,1 1/100. and the Tax on the personal estate of Elizabeth Mott amounting to $4 2/100 be and the same are hereby remitted

The Committee on Assessments to whom was referred the Petition of the President & Directors of the Tradesmens Bank for a deduction of Tax presented the following Report against the same

The Committee on Assessments to whom was referred the petition of the President, Directors & Co of the Tradesmens Bank for a deduction of Tax*

Respectfully Report

That the President & Cashier of that Institution appeared before the Committee and stated that the nominal capital of the Bank amounted to $480,000 divided into 12,000 shares at $40. each, that of that amount 8.634 shares amounting to $345,360 are held by individuals and that the 3366. shares making up the 12,000, are held by the Bank, and were principally derived from the Agents of the Life and Fire Insurance Company in 1825 by legal process and in lieu of Notes previously held and secured by said stock, which [71] notes were given up by the then Officers of the Bank and no value substituted in their stead. The Officers of the Bank therefore argue that the 3366 shares held by them are merely nominal—that they are the same as if they were never taken up or subscribed for and that neither by the letter or spirit of the Law can they be legitimate subjects of Taxation.

In support of this position they refer to the 15th section of the 2nd Title of the 13th Chapter of the Revised Statutes which makes it the duty of the assessors to value the Real and personal Estate of Indi-

* For further Report see page 173.

viduals at such sum as may be specified by affidavit and no more and by the 4th Title and 8th section of the same chapter the provisions of the before mentioned 15th Section are extended to monied and stock incorporations, subject to the like affidavit to be made by the proper Officers of the Institution.

An affidavit having been made before the Assessors, and the statement of the amount of capital of the Bank duly returned deducting the value of the 3366 Shares from their capital Stock, the President and Cashier are of the opinion that they have complied with the requisitions of the Law, and that the decision of the Board of Assessors Taxing the whole amount of [72] $480,000 is erroneous and they solicit the Common Council to make the deduction of $565 $^{40}/_{100}$ being the Tax on the 3366. Shares of Stock held by the Bank.

As the amount of deduction claimed is of considerable magnitude, the Committee Soliceted the advice of the counsel of the Board who furnished them with a written opinion which is hereto annexed by which it will be perceived that he is of opinion that the deduction is not warranted by the provisions of the Law referred to:

The Tradesmens Bank is an incorporated monied Institution which the Law contemplates Taxing on the whole amount of their Capital Stock. Which Capital Stock cannot be reduced except by an act of the Legislature.

If the Common Council therefore recognize the principle claimed by the Bank they virtually for all the purposes of Taxation reduce the Capital Stock of the institution in opposition to the Law of the Legislature.

If on the other hand the claim for deduction of Tax is based on the principle of the Value of the whole stock, deducting the deficiency which would arrise from the [73] subtraction of the funds of the Institution to the value of 3366 shares, thereby reducing the value of each share: the 7th Section of the 4th Title of the 13th Chapter of the Revised Statutes clearly defines the Incorporated companies which shall be permitted to be taxed on the cash value of stock, and leaves the basis of Taxation to monied Incorporations on the par Value of the whole stock originally paid in or secured to be paid in,

That the 3366 shares of the stock of the Tradesmen's Bank on which the deduction is claimed was originally paid in to the Bank or secured to be paid in, fully appears from the fact that at one time it was in the possession of the Life and Fire Insurance Co. & that some equivalent in the way of security was undoubtedly given in

exchange for the stock either by the individuals originally holding the same or by the Life and Fire Insurance Company.

For the above reasons the Committee are of opinion that the Tax imposed on the stock of Tradesmens Bank is just legal and proper and they beg leave to submit for the consideration of the Board the following Resolution

Resolved that it is inexpe- [74] dient to grant the prayer of the Petitioners

There being a Majority of Votes for Walter Bowne he was declared by the chair duly elected Mayor of the City of New York for the ensuing year

The Mayor elect then [88] rose and addressed the Board as follows Gentlemen of the Common Council.

Allow me to return to you. my warmest thanks. for this renewed expression of your confidence in me. by again selecting me to the honorable station which under your indulgence, and favor of my fellow Citizens, I have filled for the last two years.

I beg you Gentlemen to be assured that nothing shall be wanting on my part to render our deliberations agreeable to every member of the Board, and useful to our constituents

As the period is soon to arrive when the City Government is to be transfered, from the hands of the Common Council as now organized to two Chambers, it is our duty not only to use our endeavours to promote the best interests of our constituents but to employ with industry all our experience to enable those who may succeed us. to advance all the useful measures which may have been projected by us and to advise & carry into effect. everything which may conduce to the greatness of our [89] City. & the permanent happiness and welfare of our fellow Citizens

The proposition to revise and digest (which the board has agreed to) all the statute laws of the State, which relate to the City, will when judiciously executed be of essential service to our successors in office—Those laws, with the ordinances which may be passed by the corporate authorities will place in the hands of the Citizens, the legal obligations by which he is bound—To render the whole a perfect code as regards our City it is contemplated to annex the Old & new constitutions of the State and the old and new Charters of the City

The enlightened committee to whom this important trust is confided by this Board, will I am confident discharge their duty with zeal—industry & ability, and their services will doubtless be duly appreciated by their fellow Citizens

I avail my self of this opportunity to say that as far as my observations have gone all the Committees under whose care the important interests of this City now composing a population of 213.000 persons have been intrusted have performed their respective duties with diligence intelligence and a sole desire to promote the general [90] good.

I can only repeat what I have before had the honor to press upon the attention of the Common Council, as in my judgment of great and vital importance to our rapidly increasing Metropolis

The introduction of an abundant supply of pure and wholesome water, so as to provide our Citizens at large

To cle[a]nse and purify our Streets, and furnish in the most convenient way our shipping with it, the resources of our City will justify a large and liberal expenditure for this all desirable object.

There are below 14th Street

about 14.000 Buildings & Lots value from 1 to 4.000 Dolls
4.500 do " do " " 4 " 10.000 "
1.000 do " do " above 10.000 "

I beg leave also to recal the attention of the Common Council to the subject I presented to their view the last year the importance of adopting efficient means by making our wharves of stone so as to avert in future as much as possible any further encroachment upon the spacious and noble harbour with which Providence has blessed this City

Gentlemen of the Common Council [91] As in a few months our mutual labours must cease premit me to assure you and every member of this Board that it is my earnest wish that we may pass this little remnant of our official duty in a manner acceptable to us all.

Be assured that I shall feel a peculiar pleasure in contributing thereto, and terminating our public duties with unfeigned good will to wards each other

To all of you I tender my cordial & best wishes for your Individual prosperity and happ[i]ness.

The Board then adjourned to Monday 10th Jany 1831

Whereupon Warrants were directed to be issued to John Hanmer the Collector thereof.

The Street Commissioner [107] presented the following Assessments which were confirmed and Collectors appointed thereto Vizt.

For pitching and paving Delancy Slip from Goerck Street to the Bulkhead and Thomas Cottrell appointed Collector.

For a Well and Pump in Forsyth Street near Stanton Street and Thomas Cottrell appointed Collector.

For regulating part of 14th Street between the 6th & 7th Avenues and Thomas Cottrell appointed Collector.

For paving 13th Street from the 5th Avenue to Greenwich Lane and John Hanmer appointed collector.

The joint Committee on Finance and Public Offices to whom was referred the Petition of Cadwalader D Colden and others respecting the Rotunda presented the following Report.

The Joint Committee (on Finance and Public Offices) to whom was referred the Petition of Cadwalader D. Colden and others praying for a Lease of the Building called the Rotunda.

Respectfully Report

That this application comes from those gen- [108] tlemen who originally patronized the undertaking of Mr Van Derlynn to establish an Exhibition of Panoramick pictures in this City, and who still are desirous to aid him in another attempt to conduct such an Institution. The joint Committee have heard the statements of Mr Vanderlynn and of other gentlemen who are interested in his behalf It is proposed by them that the Rotunda should be appropriated to its original use under the direction of Trustees and that for this purpose a new Lease should be granted by the Corporation at a certain Rent and that such rent or a portion of it should be applied to extinguish the demands still remaining unsatisfied for work and materials for the Building. It is also urged that the construction of this building fits it peculiarly for such a purpose only, and that there is a prospect that under judicious management an exebition of panoramas in it might be made popular and profitable

It will be recollected that the ground upon which this building is erected was leased by the Corporation to [109] Mr Vanderlynn for

the term of nine years from the 1st day of May 1817. That a mere nominal rent was reserved and that by the terms of the lease, the buildings and improvements were at the expiration thereof to belong to the Lessors Mr Vanderlynn was allowed to remain in possession for about three years after his term had expired and until it was determined by the Board that the premises were required for public purposes and since the surrender of the premises to the corporation alterations have been made in the building at a considerable expence to adapt it for a Court room. It has been strongly represented to the committee that the Marine Court might be advantageously accommodated there, and there are other public uses to which in their opinion it might be suitably applied. Under all these circumstances the committee do not deem it expedient to grant the present application. It is well understood that Mr Vanderlynn when he had no rent to pay was not successful there. by the tenor of the Lease all his rights have expired and the corporation have according to their contract with him become the owners of the building and have new modelled it. Judging therefore from the past success of the exhibition which was conducted there and considering [110] the present altered condition of the premises the Committee do not think that the Common Council are called upon to allow a second experiment to be tried there, especially as there are objects of more importance in their view, to which that building could undoubtedly be applied, They submit therefore the following Resolution

Resolved that it is inexpedient to grant the prayer of the said Petition.

A Motion was mad[e] to lay the same on the table which was lost. Alderman Strong then proposed for adoption the following Resolution.

Resolved that the building known as the Rotunda be leased jointly to Mr Vanderlynn and the Mechanics who assisted in the erection of the building and whose claims are still unliquidated, provided that an amicable arrange- [111] ment can be effected and that the same is signified to the counsel of the Board within one month from the passage of this Resolution

The question was taken thereon and it passed in the Negative.

The question was then taken on adopting the Report and Resolution and was carried in the affirmative.

The Finance Committee to whom was referred back their former Report relative to India Wharf also the Remonstrance against taking the East side thereof for public purposes presented the following Report in favor of the adoption of their former Report.

The Finance Committee to whom was referred the Petition of Holmes Hawley & Co and others, owners and occupants of property in the vicinity of Roosevelt Slip praying that the East side of India Wharf may be purchased by the corporation

Respectfully Report

That in and by a certain grant made on the 7th day of July 1823 from the corporation to John Agnew and others of certain land under water in the East River it was covenanted and agreed that the Grantees should construct a [112] certain Pier to join on the Northerly side at and upon the Pier Known as number 27. and further that if any time thereafter the corporation should by resolution passed in Common Council declare that it is expedient or requisite that the ground covered with water, known by the name of Roosevelt Slip, and extending along the Easterly side of and to the end of the Pier, as already erected, or so to be erected extended and built, should be employed for a Public Basin or Slip or for other public uses, then and from thenceforth upon paying to the said Grantees, their heirs or assigns, one third part of the monies expended in erecting the said Pier and one third part of a fair valuation of that part of said pier already built and completed the corporation should be entitled to the whole of the Slippage of the Easterly side of the whole length of the said Pier, and also to one half of the wharfage to arise from the outermost end of said pier. And it was also provided that the said grantees should keep a true account of the [113] cost and expence of erecting the said pier and also of the part thereof already built or a fair valuation of such part, and should within a reasonable time after the completion of the said pier, deliver to the Comptroller a copy thereof verified by the oath of the said grantees which account should be conclusive against such grantees and their heirs and assigns as to the expense of said pier. The said pier was accordingly built and extended and is commonly called India Wharf and a copy of the account of the expenses thereof, duly verified, was filed in the comptrollers office on the 21st of May of 1828, by which it appears, that

such expences in the whole amounted to $10.795.00. From the above it appears that upon paying the sum of $3.598.33 (being one third part of the whole expenses of said wharf) the corporation are entitled to take the Easte side thereof, for public purposes, and the committee are of opinion that it is expedient that such power should be exercised, on the first day of May next.

They beg leave therefore to offer the following Resolution in conformity with the terms of the grant above [114] mentioned

Resolved That it is expedient that the ground covered with water known by the name of Roosevelt Slip, and extending along the Easterly side of and to the end of the Pier commonly called India Wharf should, from and after the first day of May in the year 1831 be employed for Public uses.

The Report presented this meeting was as follows.

The Finance Committee to whom was referred back their former Report relative to India Wharf together with a Remonstrance from sundry persons against taking the East side thereof for public purposes.

Respectfully Report

That they have heard the arguments and objections of parti[e]s who are opposed to having the east side of India Wharf taken by the corporation for public purposes as recommended in the former report of this committee [115] and have carefully reconsidered their said former Report in connection with the said objections The Result is that the committee do not find sufficient grounds for altering the opinion expressed by them in that Report, and they recommend therefore that the Resolution offered with the said Report be adopted and passed.

The Finance Committee to whom was referred the Petition of Peter Smith for the amount due him on *on* his contract for regulating Lewis street from North to Elizabeth Street presented the following Report in favor of the same.

The Finance Committee to whom was referred the Petition of Peter Smith praying that the amount due on his contract for regulating Lewis Street from North street to Eighth street. should be paid to him.

Respectfully Report.

That they have enquired and find that the Petitioner duly performed his contract, that the [116] assessments for the work has been confirmed and returns made, and that the amount due to the Petitioner is $640.80 They are of opinion that he is entitled to receive the same and offer the following Resolution.

Resolved that the Comptroller report a warrant in favor of Peter Smith for $640.80. being the amount due him for regulating Lewis street from North to 8th Street.

Which was approved and the Resolution Adopted.

The Finance Committee to whom was referred the Petition of Henry Marsh Lessee of Castle Garden praying for a reduction of his rent &c presented a Report in favor of the same. which was read and after some discussion refered back to Finance Committee

The Finance Committee on the Petition of John L. Graham to have a mistake in the sale of a gore of land [117] to him in Ann Street corrected presented the following Report.

The Finance Committee to whom was referred the Petition of John L. Graham praying that a mistake which occurred as to the width of a gore of Land on Ann street sold to him by the Corporation should be rectified

Respectfully Report. That on the 8th of February last, Two reports were made by this committee, one in favor of selling to John L. Graham for $150. the gore or strip of land (part of what was Ann street before the said street was widened and improved) lying in front of his lot, and the other in favor of selling for $196, to John H. Graham when he should have obtained a complete title to the adjoining Lot, the gore or strip of land lying in front thereof. The said prices were the sums assessed upon the corporation for the gores or pieces stated in the report of the Commissioners and in their Map to be in front of the said lots respectively The deed to John L. Graham was made out and delivered but John H. Graham's title to the adjoining Lot not being as yet perfected, he has received [118] no deed for

the strip fronting such lot. The width of the strip sold to John L. Graham is stated in his Deed and the map annexed thereto to be Twenty three feet eight inches, and it appears that his Lot is twenty four feet wide making a deficiency of four inches which he now asks to have conveyed to him offering to pay the rateable value thereof

The Committee have caused this matter to be carefully examined and the result is that in their opinion Mr John L. Graham should have received a Deed for four inches more than he has actually got and that a Deed should be now given to him for the said four inches on paying the value thereof which by calculation appears to be Two Dollars and forty two cents. As no Deed has yet been executed to Mr John H. Graham this can be done, and it will be only necessary to reconsider the report and resolution which was adopted in respect to the gore to be sold to the said John H. Graham and to alter the amount to be paid by him from $196 to $193.58 which will be the correct price of the gore to be [119] deeded to him upon the condition in the said report mentioned. The Committee would further state that the propriety of thus correcting the error above mentioned, is admitted as they understand by Mr John H. Graham. They offer the following Resolutions.

Resolved that the Report and Resolution adopted by this Board on the 8th of Feby 1830 in favor of selling a certain gore on Ann Street to John H. Graham be corrected by substituting $193.58 in place of $196 as the price to be paid for such gore.

Resolved that the Counsel to the Board prepare a Deed to John L. Graham for the additional four inches of ground on Ann Street mentioned in this Report—he paying the sum of $2.42 therefor and the expenses of the deed—and that such Deed may be authenticated during the recess of the Board.

The Finance Committee [120] to whom was referred the application of the Managers of the New York Female Assylum for Lying in women praying for pecuniary aid presented a Report in favor of the same which was Laid on the Table and directed to be printed for the use of the Members.

The Finance Committee to whom was referred the Communication from the Street Commissioner relative to the non compliance of the owners of Water lots in Hudson River between Hammond and Jane

Streets in filling in the same presented the following Report in favor of reporting Ordinances for the object of having the said Lots filled up

The Finance Committee to whom was referred the annexed communication from the Street Commissioner informing the Board that the proprietors of all the water grants between Hammond and Jane Streets on the Hudson River were directed to fill up within their respective grants by the 1st day of December last, and [121] *and* that they have neglected to comply therewith

Respectfully Report.

That in their opinion the said Lots should be filled by the corporation and the expenses thereof charged as a lien on the prooperty and measures be taken to enforce the same according to law. They offer therefore the following Resolution.

Resolved That the Street Commissioner and City Inspector cause the proper ordinances for that purpose to be reported to this Board.

W. Seaman
G. Lee
Benjamin M, Brown

Which was approved and the Resolution adopted.

The Street Commissioner presented an Ordinance for Regulating Washing[ton], Bank, Bethune, Troy and West Streets between Hammond and Jane streets and John Slidell, Ruben Munson and Jedidiah B. Leister were appointed Assessors.

The Finance Committee presented a Report in favor of selling a [122] *a* 3 Story Brick Store N° 75 Market Slip.

The Finance Committee beg leave to report to the Board that in their opinion it would be expedient to sell the 3 story Brick store N° 75 Market Slip owned by the corporation, without delay, and they submit the following Resolution therefore.

Resolved That the three Story Brick Store and Lot of ground belonging to the corporation and situate N° 75 Market Slip be sold at Public Auction under the direction of the Finance Committee at such time as the said Committee may think proper.

W. Seaman
G. Lee
Benjamin M. Brown

Which was approved and the Resolution adopted

The Finance Committee to whom was referred the subject of the disposal *of the disposal* of the $1.5\%_{00}$ paid by holders of Tavern

and Excise Licenses presented the following [123] Report in favor of the money being retained by the Mayor

The Finance Committee to whom was referred the Letter from Cadwalader D, Colden, President of the Society for the reform of Juvenile delinquents, also the Resolution offered by Alderman Strong; also the Report from the Counsel, relative to the decision of the Supreme Court upon the legality of the additional excise duty of $1.50 upon grocers in this City for the benefit of the House of Refuge.

Respectfully Report.

That by the Report from the counsel, it appears that the Supreme Court have decided that the said additional duty is legal; and if such decision were final, there could be no objection to paying the amount collected for such duty, and now in the hands of the Mayor to the proper officers of the House of Refuge. But inasmuch as the Common Council have received satisfactory information that the grocers of this City are taking measures to have this decision reviewed in the Court of Errors, the committee do not think it would be right, while the matter remains [124] yet in litigation, to authorize the Mayor to part with the said fund. This course, altho' it may cause inconvenience to the officers of the Institution for whose benefit this money has been received is in the opinion of the Committee, the only safe one for this Board to pursue. They offer therefore the following Resolution

Resolved, that it is inexpedient to pay over the said money as requested by the annexed letter from M[r] Colden.

W. Seaman
G. Lee
Benjamin M. Brown

Which was approved and the Resolution adopted.

The Street Committee to whom was referred the petition of owners of property in Lombardy Street to have the name changed to Munroe Street presented the following Report in favor of the same.

The Street Committee to whom was referred the annexed [125] petition of the owners of the property on Lombardy Street, to have the name of that Street changed for that of Monroe Street.

Respectfully Report.

That in as much as that Street is about to be widened and materially improved, and for asmuch as there is another Street in this City bearing nearly the same name, and as the name proposed is intended to commemorate that of one of the late distinguished Presidents of

the United States—your committee are induced to recommend the adoption of the following Resolution.

Resolved That the name of Lombardy Streets be, and is hereby changed to that of Monroe Street, and by that name to be hereafter known and distinguished and that it be marked and numbered accordingly.

[126] The Street Committee to whom was referred the Communication from the Counsel relative to the opening of 5th Street between Broadway and Mercer Street presented the following Report in favor of the same.

The Street Committee Respectfully Report one the annexed communication from the Counsel to the Board, Stating that the Supreme Court at their November sittings had confirmed the report of the Commissioners of Estimate and assessment in the case of opening of Fifth Street between Broadway and Mercer Street and that it became necessary for the Common Council to determine the time when the said opening should be carried into effect—That in the opinion of your Committee there is no objections to have the said Street opened forthwith and accordingly submit the following Resolution

Resolved, That the opening of Fifth Street between Broadway and Mercer Street be carried into effect from and after the first day of [127] February next.

Thomas T. Woodruff
John Lovett.
Geo. D. Strong
Jno. Rogers

Which was approved and the Resolution adopted.

The Street Commissioner recommended Thomas Cottrell as Collector on the assessment for opening 5th Street between Broadway and Mercer Street. Whereupon he was appointed.

The Street Committee to whom was referred the Petition to have the name of Harman Street changed to East Broadway presented the following Report in favor of the same

The Street Committee to whom was referred the annexed petition for the changing the name of Harman street to that of East Broadway —and the remonstrance against the same

Respectfully Report.

That they have duly considered the subject [128] and are of the opinion that inasmuch as it appears that a very large Majority of the Owners and Lessees of property on that Street are in favor of the changing of its name and the public are not materially interested or affected by such alteration your committee are induced to recommend the adoption of the following resolution

Resolved, that the Street now known as Harman street be and is hereby changed to that of East Broadway and by that name to be hereafter known and distinguished and be marked and Numbered accordingly.

Thomas T. Woodruff

The Committee on the Fire Department to whom was referred back their former Report made on 5th April 1830. and laid on the [130] Table relative to Fire Wardens. presented the following Report together with a Law.

The Committee on the Fire Department, to whom was referred, the return of the Chief Engineer, for two Fire Wardens in the Eighth Ward, beg leave respectfully to Report.

That in their opinion the Fire Wardens should at all times be residents of the respective Wards which they represent, in as much as the duty to which they are assigned is local in its nature, and the Citizens experience no inconsiderable difficulty in ascertaining the residence of the wardens especially when they live at a great distance from the ward where they are appointed to do duty in They offer a draft of an ordinance for the consideration of the Common Council.

Respectfully Submitted

[131] The Report made at this meeting was as follows.

The Committee on the Fire Department. to whom was referred back their Report. respecting the appointing of Fire Wardens.

Respectfully Report,

That they have had the subject committed to them under consideration and offer the following draft of an ordinance as the result of their deliberation.

A Law.

To amend a law passed 30th April 1827. entitled "A Law for preventing and extinguishing Fires."

Passed January 10th 1831.

Be it ordained by the Mayor, Aldermen and Commonalty of the City of New York in Common Council convened,

1rst That every Fireman hereafter recommended through the Chief Engineer to the Common Council, as a suitable person to be appointed a Fire Warden shall be at the time of such recommendation *be* an actual resident and inhabitant of the ward for which such return shall be made.

2nd Be it further ordained, that in case any Fire Warden appointed after the passage of this ordinance shall remove from the [132] Ward

to which he shall have been appointed, the said office shall be deemed vacant, and the Chief Engineer shall notify the company of Fire Wardens to proceed to fill the vacancy thus made.

Respectfully submitted

Whereupon the Report presented at this Meeting was approved. And the Law passed under the Title of A Law to amend a Law, passed 30th April 1827 entitled a Law for preventing and extinguishing Fires.

The Road Committee to whom was referred the Petition of sundry persons to have 10th Avenue regulated between 52nd and 71st Streets presented a Report in favor of working the same which was read and laid on the Table.

The Market Committee [133] to whom was referred the Petition of John K. Floor for Stall N° 32 Catharine Market presented the following Report in favor of the same.

The Market Committee to whom was referred the Petition of John K, Floor respecting Stall N° 32 Catharine Market.

Respectfully Report.

That Mr Floor, and George W. Smock the person having a License for said Stall appeared before your Committee and after an investigation of the subject, it would appear that Mr Smock is the son in law of Mr Floor and that he Floor purchased the said Butchers Stall and sat Smock up in business. on the same, that the said Smock is neglectful of his business and does not attend to it, and is very seldom if ever in the Market, that his Wife has had to seek shelter again in her fathers House, for these reasons and others that could be stated your Committee would recommend that a Butchers License be granted to William D. Floor, who has served a regular apprentisship to the Butchers business.

Resolved That a Butchers License be granted to William D, Floor, for Butchers Stall N° 32 Catharine Market.

The Committee on Assessments to whom was referred the Petition of Allen Smith to be releived from the payment of an erroneous Tax presented the following report in favor of the same

The Committee on Assessments. to whom was referred the Petition of Allen Smith to be releived from an erroneous Tax

Respectfully Report. That Mr Smith appeared before the committee and testified that he was taxed on personal property the sum of $4 2/100 and that he was worth no personal Estate; He further testified that he had resided in New York for several years, but that he had never been taxed before, and was not aware of the requisitions of the Law which required an attendance on the Assessors [135] when their books were open. The certificate of the Assessors is hereto annexed, As Mr Smith erred through total ignorance of the law and as he is a poor man the Committee beleive him a proper person to be releived and offer the following resolution

Resolved, That the Tax of Allen Smith in the 7th Ward on his personal property amounting to $4,2/100 be and the same is hereby remitted

The Finance Committee to whom was referred back their former Report on Petition of Henry Marsh Lessee of Castle Garden made on the 10th January 1831 presented another [158] Report confirming the former Report.

The Report of 10th January was as follows.

The Finance Committee to whom was referred the Petition of H Marsh Lessee of Castle Garden for a Reduction of his rent

Respectfully Report.

That Mr Marsh hired the said Castle Garden for seven Years from the 1st of May 1829. at the annual rent of $800 for the first and $1800 for the remaining years of said term—in addition to which he was to do certain repairs to the premises. Mr Marsh alleges that the property proved to be more out of repair than he anticipated and that the receipts for admission to the garden as a place of recreation have been much less than he expected and that he is consequently unable to pay the amount of rent reserved by the Lease. The Committee have investigated the circumstance of the case and they are of opinion that the profits of the Establishment have not been equal to Mr Marshe's expectations when he undertook it and the rent is heavier than he can afford. On the other hand they find that Mr Marsh [159] has not complied with his agreement in respect to repairs; and while they admit the propriety of making a reasonable deduction of his rent they consider that he should be held to a reasonable performance of his engagements to repair the premises. They recommend therefore that the rent of Castle Garden be reduced to $1000, per annum from the first day of May last, on condition that he pays up all arrerages of rent due (at the said reduced rate) till the first of February next, and that he causes all such repairs to be done to the said premises at his own expense as may be required by this Committee, or any person appointed by them for that purpose. They offer the following resolution therefore.

Resolved, That on his complying with the conditions mentioned in

the above report but not otherwise, Mr Marsh's rent for Castle Garden be reduced from $1800. to $1000. per annum from the first day of May last.

The Report made this day was as follows.

The Finance Committee to whom was referred back their Report made on the [160] 10th January instant, on the Petition of Henry Marsh Lessee of Castle Garden

Respectfully Report,

That having reconsidered their said report, they find no reason to alter the opinions therein expressed. They offer therefore the following Resolution

Resolved, that the said Report and the Resolution therewith offered be adopted and passed

The Question being taken thereon and a Division having been called by Mr Mandeville the Members voted as follows.

In the Affirmative Mr Recorder Alderman Nevius Lamb Strong Seaman B M. Brown Wells Meserole [161] Lee Mr Seymour Bryson Arcularius Townsend Scott Beadel Rogers Jeremiah Lovett Engs 19.

In the Negative Alderman Stevens Woodruff Mr Mandeville Dibblee 4.

So it was carried in the affirmative.

The Finance Committee to whom was referred the Petition of Walter Betts late Sheriff of Richmond County for payment of expenses incurred by him in the case of Joshua Mersereau presented the following Report in favor of the same

The Finance Committee to whom was referred the Petition of Walter Betts former sheriff of Richmond County, praying for payment of certain charges incurred by him in consequence of the arrest of Joshua Mersereau his deputy in New Jersey.

Respectfully Report;

That the whole amount of the Petitioners [162] charge is seventeen Dollars, a great proportion of which is for money actually disbursed by

him in endeavouring to redeem his Deputy from captivity in New Jersey. The Committee are of opinion that in as much as the claim arises out of proceedings commenced in the name and by order of the corporation, it ought to be settled, They believe the charge to be fair in point of Amount. The following Resolution is therefore offered.

Resolved That the comptroller report a warrant in favor of Walter Betts for seventeen Dollars in full of his said claim.

The Finance Committee to whom was referred the application of John J. Astor and John Rogers for purchase of land, formerly part of [163] the Old Southampton Road on the 8th Avenue and on 14th Street presented the following Report in favor of the same

The Finance Committee to whom was referred the applications of John J. Astor and John Rogers for the purchase of land being formerly part of the Old Southampton Road, and which became vested in the Corporation, by the closing up of the same road,

Respectfully Report;

That the land in question fronts partly on the 8th Avenue, and partly on 14th Street, and is adjoining to the land of the above named applicants who are desirous of purchasing the same. That with a view to an equitable division thereof they caused a diagram of the land to be made and the parties applying have both agreed to purchase the parts which are designated thereon as being immediately in front of their land; according to the lines of division which have been drawn, on the diagram above mentioned the effect of which will be to square the property of the parties respectively at right angles to the Avenue and Street and they have further agreed to pay the amounts at which the prices of land to be sold have been [164] estimated by the committee viz. by John Rogers $1444.57/100. and by J J, Astor $600, making together the sum of $2044.57 being the exact amount which the land in question has cost the corporation, and it has been the practice of the Board to sell to the owners of the adjoining land pieces of which they have became possessed, in the manner they have acquired these, your Committee would suggest the propriety of doing so in this case and offer the following resolution.

Resolved. That the pieces of land spoken of and described in the above report be sold and conveyed to the parties respectively, therein

mentioned according to the map or diagram made for that purpose, and for the sums mentioned therein viz by John Rogers $1444.57/100 and by John J Astor $600. they paying for drawing the conveyances, and that the same be executed in the usual manner during the recess of the Board.

The Finance Committee to whom was referred the petition of *of* John Kinney to be releived from the payment of certain costs against him in the 5th and 8th Ward court presented the following report in favor of the same.

The Finance Committee to whom was referred the Petition of John Kinney praying to be discharged from the payment of certain costs incurred in suits in the court of one of the Assistant Justices

Respectfully Report.

That the Petitioner it appears commenced several suits some time ago in the 5th and 8th Ward Court to recover sums of money due to him in all of which he obtained Judgements. That he paid the costs in those suits to two persons named Curren an[d] Barton who were officers attached to the said Court and employed in the said suits. That the said [166] officers did not however pay the said costs to the then clerk of the Court, and the present Clerk Mr See finding those costs charged on the Books and appearing unpaid has required Mr Kinney, to settle them. Mr Kinny has sworn to the truth of his petition and has attended and explained his case to the Committee and they are satisfied that the facts alleged by him are true. While they fully approve of the vigilance of the present clerk in collecting all such outstanding costs, they consider that it would be exceedingly unjust to require Mr Kinny to pay twice and as the costs in those courts are collected for the Treasury of the City they concieve there can be no difficulty in relieving him.

They offer the following Resolution therefore. Resolved that John Kinny be releived from the payment of the costs above mentioned.

[167] The Finance Committee to whom was referred the petition of John P. Roome for an increase of Salary as crier of the court of Oyer & Terminer and Sessions presented the following report in favor of the same.

The Finance Committee to whom was referred the Petition of John P. Roome praying for an increase of his compensation as Crier of the Criminal Courts.

Respectfully Report.

That Mr Roome at present receives but Two hundred Dollars per annum for all his services as such crier as well as for other duties which he performs in court. That he is universally admitted to be a most faithful and efficient officer, who has discharged his duties for several years to the entire satisfaction of all parties connected with the said Courts and the committee are of opinion that his compensation is inadequate to the services rendered by him and that it should be raised to Three hundred Dollars per annum

They offer the following Resolution therefore

Resolved, That the salary of John P, Roome as such crier be Three hundred Dollars per annum from the commencement of the present year.

The Street Committee to whom was referred the Petition of owners of property in Chapel Street between Barclay and Murray Streets to have sidewalks widened presented the following Report in favor of the same.

The Street Committee to whom was referred the annexed petition of the owners of the Buildings situate on the westerly side of Chapel Street between Barclay and Murray Streets for permission to widen the side-walks on that side of the Street to two feet beyond the distance allowed by law and also to extend their Stoops or steps in proportion Viz. by occupying two feet more of the side-walk than usually allowed.

Respectfully Report,

That in their opinion it would be improper to permit the widening of the sidewalks as proposed, but that there [169] would be no impropriety or inconvenience in permitting the stoops to be extended one foot beyond the usual distance and as that would accommodate the petition-

ers with all the advantages asked for by them, your Committee are induced to recommend the adoption of the following resolution.

Resolved, That the proprietors of the buildings in Chapel Street between Barclay and Murray Streets be permitted to extend their stoops or steps to the distance of seven feet in front of their respective buildings.

The Committee on Assessments to whom was referred the petition of Arthur S Cowan to be releived from the payment of [172] an erroneous Tax presented the following Report in favor of the same.

The Committee on Assessments to whom was referred the petition of Arthur S, Cowan to be relieved from an erroneous Tax

Respectfully Report;

That Mr Cowan appeared before the Committee and testified that he was Taxed in the 9th Ward on $5000. for personal property and that he was worth no personal estate.

He further testified that he had been in this Country but a few Months and that he was unacquainted with the law regulating assessments and consequently he had not applied to the assessors while their Books were open for inspection.

The Annexed certificate of the Assessors, corroborates his statement and the Committee beleiving him to be entitled to relief offer the following resolution.

The Committee on Public Offices to whom was referred the Memorial of the Justices of the Marine Court to have the Rotunda assigned to them for the use of their Court presented the following Report in favor of the same.

The Committee on Public offices to whom was referred the Memorial of the Justices of the Marine Court, praying that the building formerly known as the Rotunda. (now Sessions Hall) be [175] assigned for the accommodation of said Court.

Respectfully Report;

That they have maturely considered the said Memorial, and are of opinion that the prayer thereof ought to be granted, but as the Act constituting said Court requires that it should be held in the City Hall, it will be requisite that an application should be made to the Legislature to authorize a change of its location. The Committee therefore propose for the consideration of the Board the following Resolution.

Resolved, That the building formerly known as the Rotunda, (now Session's Hall) be and the same is hereby appropriated and assigned to the use of the Marine Court and that it be referred to the Committee on applications to the Legislature to prepare an application for an act authorizing the removal of said Court to said Building.

The Law Committee to whom was referred the petition of John L. Lawrence and others to have certain floodgates removed from the ponds near Rose Hill presented the [177] following Report.

The Law Committee to whom was referred the Petition of John L. Lawrence and others, asking the Corporation to require that certain floodgates should be removed from the ponds near Rose Hill.

Report. That so far as relates to the artificial Pond which passes off through Cedar Creek, it does not in the opinion of your Committee at present endanger the lives of the neighbourhood, in fact very few persons are near it, and in as much as it has been filled with water for the purpose of making Ice. Your Committee are disposed to let the tenants enjoy this advantage for the present season directing however that the water be let off before the middle of February, and that hereafter no such artificial dam be permitted to be erected.

In relation to the two other ponds, one between 1st & 2nd avenues and 10th & 11th Streets adjoining the burying ground of St Mark's Church, and the other at the junction of 13th St and the 1st Avenue, They ought to be filled up with out unecessary delay so far as to prevent the water from laying stagnant

The Watch Committee on the annexed petition from Captn Nathaniel L. Asten of the 2nd Dist. Watch.

Respectfully Report,

That your Committee in the inquiry have ascertained that a suit was brought against Captn Asten in the court of Common Pleas, by two persons named Alva Morehouse and James Heath for false imprisonment it appears that they were taken from a House on the complaint of the Wife of Heath and lodged in the Watch House by Captain Asten, and the following morning were committed to Bridewell by one

[181] of the Police Magistrates, after their liberation they instituted a suit for false imprisonment in which they were nonsuited, but unable to pay the costs in said suit amounting to $27.50 the consequence was that the defendant became liable for the same, under these circumstances your committee are of opinion that as the Captain did not transgress the bounds of his duty he ought not to sustain any loss, and therefore offer the following Resolution

Resolved That a Warrant for $27.30 be drawn in favor of Nathaniel L. Asten

[204] The Committee on Applications to the Legislature to whom had been referred the subject of electing the Mayor by the People presented the following report.

The Committee on Applications to the Legislature to whom was referred the Resolution of Alderman Strong calling for an enquiry into the expediency of bringing the election of the Mayor of this City directly to the people.

Report:

That as the resolution proposes a material change in the recently amended Charter, the Committee have examined the question with much deliberation; that such change will first require an amendment to the Constitution of the State; that the framers of that instrument have purposely made any the slightest change difficult and of tedious process. It must be passed in the affirmative by two sucessive Legislatures and once passed in the affirmative by the people of the State in their annual election. [205] That in the opinion of this Committee, the people are the most proper authority to make the application required. That any amendments to the Charter proposed by the Common Council, and particularly affecting the Elections or organization of this Body have

been heretofore discountenanced by the people, and finaly. that however desirable or beneficial the proposed change might be found in practice, any interference of this Common Council, unsolicited by the people might endanger the success of the measure.

The Committee offer the following Resolution:

Resolved That it is inexpedient at this time to make application to the Legislature for any alteration in the Constitution of the State or of the Charter of this City

Gideon Lee
James Palmer
Joseph W. Beadel
James N. Wells.

After some discussion Alderman Stevens presented the following Resolution.

Resolved; That this corporation consent that their charter be so amended that their Mayor be appointed by the People and that a Memorial be presented to the Legis- [206] lature expressive of this opinion

Mr Townsend presented a Resolution of similar import which he afterwards withdrew. after considerable debates the previous question was called and the Ayes and Noes being demanded the Members voted as follows

In the Negative Alderman Stevens I Brown Strong Mr Arcularius Engs 5

So it was carried in the Affirmative and laid on the Table accordingly.

[208] The Committee on application to the Legislature to whom was referred the subject of the extension of the Fire Limits presented the following Report in favor of the same accompanied with a Bill to the Legislature in favor thereof.

The Committee on applications to the Legislature to whom was referred the question of extending the Fire Limits.

Report;

That several different sections of the City petitioned the Common Council last year for such extension. That the street Commissioner advertized the usual time for objections, that objections were made to one section only and this section was excluded, that the other sections against which there was no remonstrance were embraced in the memorial and bill which the Common Council forwarded to the Legislature. That for causes unknown to this Committee the Legislature failed to pass the Bill into a law

That the Street Commissioner [209] has again advertized for objections to the extension of the fire limits over the same sections as last year, and again no objection has been made. He has also advertized for objections to a new section which has been petitioned this winter to be brought in, and no objection has been made to it The Committee therefore Report a bill defining the lines and boundaries of the sections over which the fire limits are proposed to be extended and against which there is no remonstrance and that such lines and Boundaries may be more clearly seen they have caused them to be drawn on a map accompanying this report. The red lines on the Map form the Northerly boundary of the present fire limits The green and yellow lines mark the boundaries of the sections over which the bill proposes to extend the fire limits, the annexed resolution is offered.

Resolved, That a Memorial be prepared, authenticated and presented to the Legislature during the recess of the Board, to pass a law extending the fire limits in conformity with this report.

The Committee on Applications to the Legislature to whom was referred the Communication from Ab^{m} Cargill in relation to a Bill now in the assembly providing for the payment of Jurors in this County presented the following Report against said Bill.

The Committee on Applications to the Legislature to whom was referred the Communication of Abraham Cargill Esq^{r} in relation to a

Bill now in the assembly, providing for the payment of Jurors in this County, be[g] leave to Report;

The number of Jurors liable to be summoned, the number of Terms and days of Court, are [211] computed as follows. Viz

Genl Sessions	12	Terms	11	days each	24	Grand	Jurors	3168 days.
Oyer & Terminer	4	Do	2	Do	24	Do	Do	192 do
Genl Sessions.	12	Do	11	Do	84	Petit	Jurors	11.088. do
Common Pleas	11	Do	10	Do	84	Do	Do	9.240 do

7 Asst. Justices	550	Pannels	1.	Do	18	Do	Do	9.900 do

Total liable attendance..... 58.386 Days.

The Committee have no Copy of the Bill in question, They understand it provides a per diem pay to the Jurors of four of the principal Courts. We do not perceive the equity of this distinction and no doubt the Jurors of the other Courts will be added should the Bill pass. The actual attendance of Jurors now falls far short of the numbers summoned, probably more than half whether a per diem pay would cause a full attendance at roll-call, to secure the pay is uncertain. The sum to be drawn from the Treasury by this measure, would in any event be considerable, but the Committee deem this unimportant compared with other con- [212] sequence. The Yeomanry of this Country, have ever performed three branches of Public duty gratuitously, sustaining like the grand Pillars, the Military, the Jury and the Fire Department.

The relation and mutual dependence of these Departments, through the force of numerous Laws, and long practice is now such, that any material change in one might destroy the three.

It is known to the Common Council that the time and expense of a Member of our Uniformed Militia, is vastly greater than that of a Juryman, that the time and hazard to a Fireman, is vastly greater than that of the Uniformed Militiaman, that from the increased numbers of Fires, the duty of that Department has become onerous and dangerous to health and life. That the Revised Statutes provide for the exemption from Jury duty, all persons whose Interest would be materially injured by such service, that Fines for non attendance are [213] rarely enforced, that Jury service is a school of inestimable value to our Yeomanry, that the knowledge, the dignity and self

respect acquired in the performance of Jury duty, is scarcely less valuable to a Mechanic or Tradesman, than the privilege of Trial by Jury, that the claims to pecuniary compensation of the two other departments named are far stronger than those of the Jury.

The Committee would recommend money payment to neither. Our Yeomanry, that class of Men of which the Departments named are chiefly composed, also form in a great measure the foundation of our Independence the shield of our Political liberties, so long as Patriotism is the incentive to duty but if we make all Public service venal if we render our Yeomanry mercenary, the best feature of our Republic is lost.

The Committee offer the following Resolution.

Resolved That a remonstrance be authenticated and forwarded to the Legislature, during the recess of the Board. against any alteration in the existing Laws. relative to the Jurors of this County.

The Street Committee to whom was referred the Petition of Alexander Knox to have West Street made and [216] the water Lots filled up from Jane Street to the great Kill Road presented the following Report in favor of the same.

The Committee on Streets to whom was referred the annexed Petition of Alexander Knox requesting that measures may be taken by this Corporation for having West Street made and the Water lots filled up from Jane street to the Great Kill road.

Respectfully Report;

That the land under water betwen Jane street and the Kill Road lies in front of the grounds of the late William Bayard and in consequence of a claim to said lands by the United States the which until within a short time past remained unsettled—No grant of the said lands under water have been made and consequently no order could be given for making the Streets or filling the lots, but in as much as it is now understood that those objections are removed.

Your Committee are of the [217] opinion that measures ought to be adopted for the relief of the petitioner who is receiving great damage in consequence of the lots adjoining his premises not being filled and also as the public are not receiving the quit rent growing out of the said lands under water they therefore recommend the adoption of the following resolution.

Resolved, That the Comptroller cause due notice to be given to the proprietor of the grounds fronting the Hudson River, and lying between Jane Street and the Kill road, to take out Grants for the water lots in front of the grounds to the permanant line on such terms and conditions as may be approved by this Board.

The Finance Committee to [whom was referred] the annexed Petition of Edward Lyde and John M[c]Comb. Trustees of the Estate of Henry Spingler deceased for remission of Interest on the assessment for opening Twentieth Street.

Respectfully Report;

That the sum of Interest on the above assessment for which the Petitioners ask from the Common Council a remission is two hundred and eighty dollars and seven cents and is claimed from them only for the period chargeable agreeably to the Statute of the State in such cases [220] and as it is customarily paid by other persons against whose property assessments are made and which are not paid off in proper season. Your Committee are of opinion that a compliance with the request of the petitioners would establish an injurious precedent and in all probability produce difficulties and embarras-

The Finance Committee on the application of B McCafferty for payment of monies due him.

Beg leave to Report; that the Petitioner entered into a contract with the Street Commissioner for filling up and regulating Sixth Street from The First Avenue to Avenue A. which said contract was completed by the Petitioner the Assessments therefor made out and confirmed on the 6th September last past. the amount of which contract is $18,054.$^{6}/_{100}$ that the sum of $3500. has been collected and paid over to the applicant, and that the further steps required by law have been taken by the collector against the owners of the lots assessed in order to secure the final payment of the same.

Your Committee are of opinion that it is expedient, a part of the amount remaining due, should be advanced to him and offer the following resolution.

Resolved. that the Comptroller draw a warant in favor of Bernard McCafferty for the sum of Twenty five hundred dollars on acct. of his contract for regulating [222] 6th Street from the First Avenue to Avenue A.

The Finance Committee [224] to whom was referred the Petition of Abraham G. Mayers praying for compensation for his attendance as a witness in the Court of Sessions during the latter part of the last Year

Respectfully Report.

That the petitioner appeared before your Committee and stated that by desire and request of the District Attorney he had remained in this City for a considerable time during the last summer and fall for the purpose of giving his testimony, before the Court of Sessions on the trials of sundry persons who had been indicted for keeping gaming houses contrary to Law as his evidence was deemed material in order to elicit the truth of the charges made against the persons held under indictment and whose convictions and consequent punishment were produced mainly through his testimony, he further states that he is extremely poor being absolutely without any present means of support for himself or family and that he is desirous [225] of returning to the

interior of the State of Pennsylvania where his friends reside, but that he is totally without the means of defraying the expenses necessary in traveling thither, the petitioner further states that at different times during the pendency of the indictments sums of money were offered to him provided he would leave the City and fail to appear on the trials of the persons indicted all of which he invariably declined— Of the importance of the testimony given by the petitioner on the trials above mentioned there can be no doubt. indeed the fact is within the personal knowledge of many members of the Common Council and it seems beyond question that through his instrumentality some of the most dangerous haunts of vice in the City have been broken up. his necessitous situation has been fully shewn to your Committee. And under all the circumstances they think it would be proper for the corporation to afford him some relief by furnishing him the necessary means to enable him to return to the interior of Pennsylvania where his friends reside and [226] with that view they offer the following Resolution

Resolved. That the sum of Fifty dollars be allowed as a compensation to Abraham G. Mayers for the time occupied by him in attendance as a witness at the Court of Sessions as above mentioned and that the Comptroller draw a warrant for the sme

The Committee are entirely satisfied of the superior quality of its workmanship and have no doubt that the Members of the Board and the public generally will not regret the time that has been occupied in its p[r]eperation, at the request of the Messieurs Demilts, and with the concurrence of the Committee, The Members of the Common Council are Invited to examine it to morrow (Tuesday at 1 O Clock P M.)

Respectfully submitted

Thos Jeremiah
P S. Townsend

Which was approved and the Invitation accepted.

Mr Jeremiah presented the following Resolution which was read and Laid on the Table.

[236] Resolved, That it be submitted to the People at the approaching Spring Election to decide by Ballot whether the Office of Mayor shall thence forward be Elective

Mr Townsend presented the following Resolution which was read and adopted.

Resolved, That the Resident Physician of the Bellevue Alms House & Penitentiary upon Blackwells Island and also the attending Physician of the Jail be directed to make a semi annual Report to this Board of the number name and description of diseases treated by them during each year and also of the name birth place and ages of the persons so treated, the number of deaths and also the number of cases that have terminated successfully together with such other remarks and information to this Board as will in any manner tend in their opinion to improve and relieve the [237] condition of the poor under their charge.

Mr Engs presented the following Resolution which was adopted.

Whereas it appears that the Legislature of this State have before them a Bill to appoint Guagers for this City, and whereas the Charter

of the City grants such power to this Corporation and the same having been heretofore exercised to the satisfaction of their fellow Citizens it is Resolved. that his Honor the Mayor be authorized and requested during the recess of the Board to authenticate and forward to the Legislature the remonstrance of this Common Council against the proposed law as an infringement on their chartered rights.

Alderman Isaac Brown presented the following Resolution which was read and referred to the Committee on Wharves Piers and Slips.

Resolved That the Committee on Wharves Piers and Slips enquire and Report to this Board the propriety of amending the Law regulating the [238] lying of Vessels in the Public Slips in relation to that part of it which requires Vessels to pay extra Wharfage after remaining Fifteen days.

The Bill proposed to be transmitted to Legislature to be enacted into a Law under the title of "a Law relative to the City of New York" which was under consideration at the last meeting was called up amended and approved of and directed to be engrossed and transmitted to the Legislature now in Session at Albany. And it was directed that the proceedings of the last Meeting on that subject be not engrossed on the Minutes.

A Petition of John Gelston praying that Thirty fourth Street may be [250] opened was read and referred to the Street Committee.

The Report of the Committee on Common Schools relative to an additional Tax for the support of Common Schools presented on

the 24th January last and made the order of the day was called up and read in the words following.

The Committee on Common Schools, to whom was referred the Memorial of the Public School Society.

Report:

That this Society applied to the Common Council two years ago, for a half mill on the dollar of the taxable property of this City for Common Schools; that several thousand citizens, generally heavy payers of taxes made a similar application, and that but one eighth of a mill was then granted. The Memorial now under consideration, prays that grant then made, may be increased to the half mill then asked for.

[251] The sum proposed to be raised, added to the monies now raised will still be less than the amount raised and disbursed by some neighbouring Cities for the same purpose considering respective means and numbers.

The extensions of a Common School education to all classes of society, seems essential to the cintinuance and well being of our Civil and Political Inst[it]utions and we find several thousand of our children still unschooled.

The contemplated improvements and embellishments of the Park, demand the removal of Public School N° 1; it must be replaced by a New School House in the vicinity. The recent burning of School House N° 12, leaves seven to nine hundred children without any school, it should be rebuilt speedily; and such has been the rapid increase of people in the upper and Eastwardly wards, that three other new houses are this moment imperiously required. The cost of the five Buildings which ought if possible to be erected the ensuing season will be about sixty thousand dollars—the Committee therefore offer the following [252] Resolution

Resolved; That application be made to the Legislature in the recess of this Board to pass a Law granting a discretionary power to the Common Council annually hereafter to assess and collect a tax of three eights of a mill on the dollar of all taxable property in this City, in addition to any tax now authorized to be applied exclusively to the support of Common Schools.

Gideon Lee
Fyler Dibblee
David Bryson
John Rogers
Henry Arcularius.

The Law reported by them was also read amended and approved of as follows.

An Act for the further support and extension of Common *Chools* [Schools] in the City of New York.

§ I. The Corporation of the City of New York are hereby authorized in addition to the amount now required to be raised for the support [253] of Schools in the said City, annually to raise and collect by Tax upon the inhabitants thereof a sum of money equal to three eightieths of one per cent of the value of the real and personal property in the said City, or liable to be assessed therein to be applied exclusively to the purposes of common schools in the said City.

§ II All monies which shall be raised by virtue of this Act shall be and remain under the immediate and sole controul of the Common Council for the purposes named in the proceeding section of this Act.

Alderman Seaman moved that the Board now elect Justices of the 1st 2nd 3rd 4th District and of the 12th Ward to take effect at the expiration of the term of service of the present Incumbent which was agreed to. The Board accordingly proceeded to ballot for the same and on counting the Ballots the following was the result and the persons so chosen were declared duly elected.

Eber Wheaton having a Majority of Votes was elected for the 1st District.

[254] Elisha Morrell having a Majority of Votes was elected for 2nd District.

William W. Cowan having a Majority of Votes was elected for 3d District.

Charles M^cEwen having a Majority of Votes was elected for 4th District.

John Doughty having a Majority of Votes was elected one of the Justices for the 12th Ward.

On Motion it was Resolved (there being no opposition) that David M. Cowdry be chosen Clerk of Justices Court 1st District. that George Betts be chosen Clerk of Justices Court 2nd District, and that James Lozier be chosen Clerk of Justices Court 4th District. And the persons so chosen were declared duly elected.

The Committee on Applications to the Legislature to whom was referred the qualifications of Electors presented the following Report with the proposed draft of a Law as follows.

The Committee on [255] Applications to the Legislature to whom was referred the Resolution of Alderman Lamb and Stevens in relation to Elections,

Respectfully Report:

That by the amended charter which goes into operation in April next, it is declared: That all the provisions now in force, in regard to the notification, duration and conduct of the election for Members of Assembly, and in regard to the appointment, the powers and duties of the Inspectors holding the same, shall apply to the Annual Election for Charter Officers.

This provision in the charter cannot in the opinion of the Committee, extend to the form of the oath to be administered to a challenged elector, that being the test of his qualification to vote, and has nothing to do with the manner of conducting the election, or the powers granted to the inspectors for that purpose

In order to show that when the Legislature declared that the provisions of the Election Law, in relation to Members of Assembly, shall extend to Charter Elections of this City, they did not intend to prescribe the oath to be taken by electors [256] for Members of Assembly, as the one to be taken by electors of Charter Officers. It will only be necessary to refer to former acts, where the phraseology has been the same, when the qualifications of the electors for the respective officers were different, and when the oath required of the electors, as a test of their qualifications were also different.

The Act entitled an Act altering the time of electing charter officers in the City of New York passed April 11th 1815 changed the time for holding the Charter Elections, from the third Tuesday in November to the last Tuesday in April which was the same day on which the General Election was held, and it declares in relation to the Election for Charter Officers, that such election shall be notified, held and conducted by the same Inspectors, in the same manner and with the like powers as the election for Members of Assembly.

At the time of the passing of this Act, the qualification of [257] an elector for Members of Assembly, was, that he possessed a freehold of the value of fifty dollars, or had rented a tenement of the yearly value of twenty-five dollars and had paid taxes; and the qualification of an elector for Charter Officers, was that he was a freeholder, a freeman, or rented a tenement of the yearly value of twenty-five dollars and had paid taxes; and the oath which the said electors were respectively required to take, was in conformity to thes[e] qualifications.

After the adoption of the new Constitution of this State, an Act was passed in 1822 which changed the qualification of electors for Charter Officers, and made it the same as that for Members of

Assembly, and directed the election for Charter Officers to be held on the same day, and by the same Inspectors &c, as for Members of Assembly; consequently the oath prescribed for the electors of the one, was applicable to either and no special oath was required for electors for Charter Officers.

The Election Law of 1822 and the oath prescribed by it which oath required that the elector, should swear that he had done Militia duty, or paid taxes, [258] and which was applicable as well to electors for Charter Officers as to electors for Members of Assembly, remained in force until the last amendment to the Constitution, extending the right of suffrage, and in conformity with such extension, an Act was passed April 7th 1827, regulating elections which prescribed an oath to be taken by a challenged elector in conformity with such extension, which oath was to be taken by all persons offering to vote for any of the officers enumerated in said act which officers were Governor, Lieuten[an]t Governor, Senators, Representatives in Congress, Members of Assembly, Sheriffs, Coroners, Clerks of Counties, including the Register and Clerk of the City and County of New York and no others.

No provision being made in this Act for the Election of Charter Officers, it follows of course that the oath prescribed in it cannot be administered at such charter Election, and the only oath which can be so administered, if any, must be the [259] oath recognized by the Act of 1822, which required the elector to swear that he had done militia duty, or paid taxes; and it is questionable whether this oath will now ap[p]ly to the case, inasmuch as it is at variance with the provisions of the last amendment of the Constitution.

The Revised Statutes make no provision for the case, and as many illegal votes are undoubtedly offered at our polls.

The Committee are of opinion that it is necessary that an application should be made to the Legislature on this subject and have reported a bill, embracing the form of an oath, to be taken by electors of Charter Officers, when challenged as being unqualified to vote at our Charter elections which they are of opinion ought to be adopted.

Gideon Lee
James Palmer
James N. Wells.

The project of the Law was as follows:

If at any Election for Charter Officers in the City of New York, either of the Inspectors shall suspect that any person [260] offering to vote at such Election, is unqualified for that purpose, or if any person entitled to vote at the same Poll shall challenge such person

offering so to vote, as being so unqualified, the Board of Inspectors or either of them shall declare to the person so challenged or suspected, what are the legal qualifications of an Elector, and if such person shall still claim his right to vote at such Election, and the challenge shall not be withdrawn, one of the Inspectors shall then tender to him the following oath.

You do swear or affirm, that you are a citzen of the United States, of the age of twenty one years, and that you have been an Inhabitant of this State for one year, next preceding this Election, and for the last six months a resident of this County, that you actually reside in this Ward, and that you have not voted at this Election, and that you have not come or removed into this ward, for the purpose of voting in the same [261] at this Election; and further, that you will true answers make to such questions as shall be asked you by the Inspectors of this Poll, touching your qualification as an Elector of this Ward.

And if such person shall refuse to take the oath so tendered his vote shall be rejected, and if any person shall be guilty of wilful and corrupt false swearing, in taking such oath or affirmation, every such person shall be adjudged guilty of wilful and corrupt perjury, and upon conviction thereof shall suffer the punishment provided by Law, in cases of wilful and corrupt perjury.

The question being taken thereon the Report was agreed to and the draft of the Law was approved of.

The Resolution presented by Alderman Stevens on 24th January last on the subject of the supply of Water to the City and of the proceedings of the Manhattan Company therein, made the order of the day was called up and read and after some discussion it was moved that the Board when they adjourn do adjourn to Thursday next at 5 O'Clock to take the same [262] into consideration and that the Resolution in the mean time lie on the table which was agreed to.

The Report of the Finance Committee on the Memorial of the Managers of the New York Female Asylum for Lying in Women presented on 10th January and laid on the table was called up read and adopted in the words following

The Finance Committee to whom was referred the Memorial of the Managers of the New York Female Asylum for Lying-in Women, praying for pecuniary aid,

Respectfully Report:

That from the statement made to this Committee, on behalf of this Institution, as well as the contents of the Memorial, it appears

that this charity was founded about seven years ago, by the exertions of benevolent individuals and has been since sustained by private subscription and donations. Its object is to provide for females of [263] good moral character, but destitute of the necessary comfort, an Asylum, in which their wants may be properly attended to during their confinement by child-birth. For about three years a connexion existed between this Institution and the New York Hospital, and by an agreement with the governors of the latter establishment, accommodations were provided there for a certain number of patients, of this discription; this connexion being broken off the Managers of the Lying-in Asylum hired a building and have afforded relief therein to as many patients as their income would permit, but finding that in this way their us[e]fulness was comparatively limited they determined to make an effort to obtain means of erecting and furnishing a proper building in which relief could be afforded on a more extended scale. For this purpose between $6 and 7000 has been collected by private subscription which have been applied towards the purchase of ground and the erection of a suitable building. This has been accomplished and the Managers have now sufficient room to accommodate from Fifteen hundred to two thousand patients [264] in a year but they are incumbered by a debt of about five thousand dollars incurred in the undertaking, and are still in want of additional furniture for the establishment.

Under those circumstances they ask the Common Council for aid and the Committee do not hesitate to recommend it should be extended to them. They are satisfied that with small means this Institution has already done much good and that it promises to be of permanent and extensive usefulness if properly sustained by the community.

Under all the circumstances the Committee are of opinion that a donation of fifteen hundred dollars should be made to the applicants out of the City Treasury, and they submit therefore the following Resolution:

Resolved, That the Comptroller report a warrant in favor of the Treasurer of the New York Female Asylum for Lying-in Women for $1500. as a donation from the Common Council to that said Institution.

(signed)
[265] William Seaman
Gideon Lee
Benjamin M. Brown.

The Report of the Committee on Public Offices on the Memorial of the Governors of the New York Lying-in Hospital presented on the 29th November last and laid on the table was called up read and amended and adopted in the words following.

The Committee on Public Offices to whom was referred the memorial of the Governors of the New York Lying-in Hospital

Report.

That they have had the said Memorial under consideration and that one of the Governors of the Hospital has been before your Committee for the purpose of explaining the objects of the Institution and the assistance prayed from your Honorable Body

It appears that the New York Lying-in Hospital was incorporated in the year seventeen hundred and ninety nine. That the funds of the Hospital arise entirely from charitable donations of our citizens.

The sum received at first not amounting to much more than three thousand dollars [266] the Governors were unable to establish an independent Institution and therefore entered into a temporary connection with the New York Hospital. From circumstances unnecessary now to detail but not through the solicitation of the Lying-in Hospital, that connection has been broken off for two or three years.

The Governors of the Lying-in Hospital represent that by a careful management of their funds and through the increased anxiety of our citizens to see the establishment prosper resulting in farther donations they have been enabled to increase their funds to about seven thousand dollars. They farther represent that with the increase of their funds their hopes of being useful to the poorer class of Citizens and to the unfortunate have increased also. They now propose to adopt a plan which with moderate assistance they think will be successful and which will afford relief to every individual wanting assistance from the institution; and they apply with great confidence to the Corporation for this assistance because they propose [267] to relieve the City Treasury from the expense attending the care of an entire class of the poor. They ask of the Corporation the gift of a lot of land fronting on White Street on the Northerly side thereof adjoining the lots granted by the Corporation to the City Dispensary to be fifty two feet in breadth in front and fifty feet in the rear and of the same depth as the lots granted to the Dispensary—being part of the land heretofore granted by the Corporation to the people of the State of New New York as long as it shall be used for Military purposes lying in the 6th Ward. On this lot they propose erecting a convenient building

similar to the Dispensary lately built on the adjoining lot and to divide the City into convenient districts: to appoint physicians to each district: and others to attend at the establishment, to have out door patients and in door patients and to afford assistance to every Female whose situation may require the aid of the charity, without making an enquiry excepting as to her immediate wants.

The Governors further represent that after having made every enquiry and heard the objections of some they are of opinion that no situation can be selected more con- [268] venient for locating the institution they propose than the one mentioned.

That it will be near the Dispensary they consider a strong argument in its favor, an examination has convinced them that no position will, on the whole be more convenient for the objects of charity and the officers superintending it.

Having weighed the Memorial and the representations which have been made to them taking into consideration that the City is destitute of an establishment upon a plan so extensive, and having in view the important objects of this that besides great distress, the loss of many lives may be fairly attributed to the want of such an institution: that its establishment will free the City Treasury from a heavy burthen, and from the expense of taking care of many who are now sent to the Alms House: that the object of the Governors is *sot* [not] only disinterested and humane but of general concern; that our fellow citizens have manifested their approbation of the plan by [269] liberal donations; that the poor and distressed of the City, without exception are to receive the aid they want, and the Governors offer all their funds for the erection of a suitable building only asking the lots on which to put it. Your Committee are therefore of opinion that the prayer of the petitioners ought to be granted and offer for the consideration of the Board the following resolution,

Resolved, That it be referred to the Counsel of the Board to prepare an application for a release of said lot of land, and upon such release being obtained that the same be granted to the Governors of the New York Lying-in Hospital, on condition that a building be erected on said lot with in two years from the date of such grant for the purpose aforesaid and that it be authenticated in the recess of the Board.

The Minutes of the last Meeting were read and approved.

The Mayor stated that the special business to be taken into consideration and for the consideration of which the Board had adjourned [275] to this time was the Resolution presented by Alderman Stevens on the subject of introducing pure and wholesome water into the City and of the conduct of the Manhattan Company in relation thereto.

Alderman I. Brown stated he had a petition from a number of Brewers complaining of the ill quality of the Manhattan water in

their business, which he requested might be read, which was agreed to. It was accordingly read and laid on the Table

The subject was then taken into consideration and after considerable discussion Mr Jeremiah presented the following resolution.

Resolved; That the Counsel to the Board prepare a Memorial to the Legislature setting forth the wants of the City in relation to a full and ample supply of water as necessary for the safety of the City against Fire, and to be of a pure and wholesome quality as necessary for the preservation of the health and lives of our fellow Citizens; and enable the Corporation to raise by loan as sum not exceeding 500.000. dollars for the purpose of procuring an ample supply of pure & wholsome water.

A further discussion ensued when it was informally agreed that a special Meeting should be held on Thursday [276] next to resume the consideration of the subject.

The Comptroller presented a Balance Sheet and an Estimate of Receipts and Expenditures for 1831, which was referred to the Finance Committee.

I Warren
City Inspector

Which were read and passed.

The Street Commissioner presented the following Assessments which were confirmed and Collectors appointed thereto Vzt.

For repaving Hester Street from Forsyth to Norfolk Street and Thomas Cottrell appointed Collector.

For repaving Coenties Slip Easterly side from Front to South Street and John Hanmer appointed Collector.

For fencing in 18 Lots on Prince, Sullivan & Thompson Streets and Thomas Cottrell appointed Collector.

He also presented Returns of Delinquents on the Assessments—For opening 5th Avenue from 13th to 21st Street. For flagging sidewalks in Barrow Street [288] between 6th Avenue and McDougal Street—For repaving William Street from Pearle to Duane Street—Whereupon Warrants were directed to issue to Thomas Cottrell the Collector thereof.

The Mayor stated that he had been served with process issuing out of the Supreme Court at the suit of the Managers of the House of Refuge to recover the money paid by the Grocers and Tavern Keepers of $1.5\%_{100}$ additional duty and of sums paid by Proprietors of Theatres & Circuses under the late law of the State—Whereupon the subject was referred to the Law Committee.

The Committee on Cleaning Streets presented the following Report together with the accounts of the Superintendant of Cleaning Streets from 1st January 1830 to 1st January 1831.

The Committee on Cleaning Streets present their Report; of the expenses for cleaning Streets from the 1st January 1830. to 1st January 1831 by which it appears that the expense of cleaning streets has been $22,234.56 Collecting Coal ashes $2000. Carts employed on Public Grounds $223.43. Superintendants Salary $1500. Deptᵗʸ Supᵗ Dᵒ eight Months $666.64. making a total expense of	$26,624.63
During the same period there [289] has been sold Manure and Kitchen garbage amounting to	26,620.55
	$4. 8

Your Committee are of opinion that collecting Coal ashes, and the work done on Public grounds ought not to be debited to the Department, as the Superintendant informs the Committee that the Stock on hand of Horses Carts &ᶜ have in previous reports been reduced at or below their cost so that no deterioration can be sustained by their use therefore the above sum should form a credit, leaving a Balance in favor of the Deputy of. $2219.35.

The Committee having discovered several errors and omissions in the Deputy Superintendant's Accᵗˢ of missing certificates; Receipts for money received and not credited &ᶜ deemed it important to have those accᵗˢ closed to effect which they were compelled to send to a great many of the purchasers of Manure to examine the[i]r receipts, and certificates, and after much fatigue and labor, they have found vouchers, by which it appears that Mʳ C. Dobbs has received monies and not credited on his Books making him deficient to the Corporation $1436:94 exclusive of his Bond given in Septʳ last for $1720:40 making a Total of $3157:40 from all the circumstances it is considered proper to place these claims in a train of settlement they therefore offer the following Resolution.

[290] Resolved: that the papers establishing the claims of this Board against Mʳ C. Dobbs be placed in the hands of the Counsel of the Board for collection

Geo. D. Strong,
Jonᵃ Seymour.

Which was approved and the Resolution referred to the Counsel of the Board.

The Finance Committee to whom was referred the Communication from the Comptroller on subject of Annual Tax Law presented the following Report.

The Finance Committee to whom was referred the Comptroller's communication r[e]lative to the annual tax law. beg leave to

Report:

That application should be made to the Legislature for the passage of the usual act, authorizing the Supervisors to raise the necessary amount by tax for the City expenses for the ensuing year; And that Four hundred and fifty thousand Dollars should be the amount to be thus raised being the same sum that was similarly applied for at the last session. That the Act to be thus [291] applied for should provide that the same sum be apportioned as follows viz. $250.000 upon the whole City and County and $200.000 upon that part lying within the Lamp and Watch District or south of a line beginning at the East River at the centre of 14th Street to the centre of the 6th Avenue, thence Northerly thro' the centre of the 6th Avenue to the center of 21st Street and thence along the centre of 21st Street to the North River. The Committee offer the following Resolution.

Resolved: that the Counsel prepare the necessary application with a Draft of a Law conformable to this report and that such application be authenticated during the recess of the Board and forwarded for preservation to the Legislature.

W. Seaman,
Benjamin M. Brown,
G. Lee,
Peter J. Nevius,

[294] The Committee on Applications for Office to whom was referred the Petition of Silas Ludlam for the Office of City Surveyor presented the following Report in favor of the same.

The Committee on Applications for Office to whom was referred the Petition of Silas Ludlam to be appointed to the Office of City Surveyor Respectfully Report:

That they are satisfied with the qualifications of the Applicant, and of his abilities to perform the duties of a City Surveyor and therefore recommend that he may receive the appointment he solicits—and accordingly submit the following resolution.

Resolved, That Silas Ludlam be appointed to the office of City Surveyor.

B. J. Meserole,
Peter J. Nevius,
John Lovett.

Which was approved and the resolution adopted.

The Street and Finance Committees to whom was referred the Petition for widening Hoboken Street presented the following report:

The Joint Committees on Streets and Finance to whom was referred the Petition to have Hoboken Street widened by adding thereto [295] thirty feet of the Public grounds on the Northerly side thereof,

Respectfully Report;

That they have had the subject under their deliberate consideration and are of the opinion that the request of the petitioners is reasonable and ought to be granted—that the Public interest requires a more convenient and ample communication to, and from that Ferry, it having a direct intercourse with an already dense population of a large section of our City and with one of the Public Markets—the present width of Hoboken Street being altogether too narrow and inconvenient for a Street leading to a Public Ferry—Your Committee deem it expedient and proper that thirty feet of the Public grounds on the Northerly side of said Street should be appropriated for the purpose of widening it to sixty feet—they therefore recommend the adoption of the following resolution.

Resolved, that Hoboken Street be widened to sixty feet—by [a]dding thereto Thirty feet of the public grounds on the Northerly

side thereof from Washington to West Street and that the same be carried into effect from and after the first day of May next

Geo. D. Strong,
Anthony Lamb,
Benjamin M. Brown,
Peter J. Nevius,
G. Lee,
Jno. Rogers.

[296] A motion was made to lay the same on the table which was lost. After some discussion the motion was renewed and again negatived—The question was then taken on approving the report and adopting the Resolution and a Division having been called by Alderman Palmer the Members voted as follows.

In the Affirmative. Mr Recorder, Alderman Nevius, Stevens, I. Brown, Lamb, Strong, B M. Brown, Lee, Mr Seymour, Bryson, Arcularius, Townsend, Beadel, Rogers, Jeremiah, Dibblee, Cooper. 17.

In the Negative. Alderman Wells, Palmer, Woodruff Mr Mandeville, Scott, Lovett, Engs, 7.

So it was carried in the Affirmative, Aldm [297] Palmer gave Notice of reconsideration at the next regular meeting of the Board.

The Street Committee to whom was referred the communication from the Counsel stating that the Supreme Court had confirmed the report of the Commissioners in case of widening Market Street from Harman to Division Street and of Beekman Street at the Park presented the following report.

The Street Committee to whom was referred the annexed communication of the Counsel to this Board, that the Supreme Court at their late sittings had confirmed the report of the Commissioners, in the several cases of widening Market Street from Harman Street to Division Street and of Beekman Street at the Park—and that it remained with the Common Council to determine at what time the widening of the said Streets should be carried into effect.

Respectfully Report:

That in their opinion the widening of said Streets ought to be respectively delayed until the first day of Ap[r]il next, and the Buildings and incumbrances removed therefrom on or before the fifteenth day of May next following—and accordingly submit the following resolution.

Resolved, that the widening of Market Street between the late Harman Street and Division Street and of Beekman at the Park,

be respectively delayed until the first day of April next and that the Buildings and incumbran- [298] ces be removed therefrom by the fifteenth day of May then next ensuing.

Which was approved and the Resolution Adopted.

The Committee on Applications to the Legislature to whom was referred the Petition of sundry Inhabitants of the 11th Ward relative to Boring for Water presented the following report in favor of the same together with the Draft of a Bill to be enacted into a Law by the Legislature at their present Session—the same having been read the Draft submitted was approved and the resolution adopted.

The Committee on Applications to the Legislature to whom was referred the Petition from several Inhabitants of the Eleventh Ward praying to have a Law applied for authorizing the boring for water instead of digging wells in certain parts of the City.

Respectfully Report:

That the Petitioners represent that they are suffering for the want of pure and wholesome water [299] and that digging for water in that [part] of the 11th Ward known as Stuyvesant's Meadows is of no use. The Committee are of opinion that it might be found advantageous to bore for water in other parts of the City as well as that in which the Petitioners reside; and as it is doubtful whether the existing laws respecting Wells and Pumps would apply to boring for water, so as to authorise Collecting the expences thereof by Assessment, your Committee are of opinion that a Law should be applied for, specifically authorizing the same proceedings in respect to the expences of such boring as are now provided for by law in cases of Wells and pumps. They have caused such a law to be prepared and they submit the following resolution therewith.

Resolved, That the Counsel to the Board prepare the necessary application to the Legislature for the passage of the said law and that the same be authenticated in the usual mode during the recess of the Board and be forwarded without delay.

The Committee on Assessments to whom was referred the Petition of William Cowan to be relieved from the payment of an erroneous Tax presented the following Report against the same.

[300] The Committee on Assessments to whom was referred the Petition of William Cowan for relief from an erroneous Tax.

Respectfully Report:

That Mr Cowan appeared before the Committee and testified that he was taxed on personal property in the 1st Ward on $3000. and that the same did not exceed $500. in Value. Mr Cowan admitted that he was in Town during the period that Assessors Books were open and that he negl[e]cted to call and examine the same. He further stated that he was taxed erroneously for the Year 1829, and that the Common Council afforded him relief. As Mr Cowan is an old citizen perfectly acquainted with our Laws, and, as he experienced the same difficulty last year, the Committee are of opinion that he has not used due diligence in attending to his own Interest and do not consider him entitled to relief. They submit the following resolution.

Resolved, That it is inexpedient to grant the prayer of the petitioner.

Geo. D. Strong,
Henry Arcularius,
William Scott,
Thos Jeremiah,
Jona Seymour.

Which was approved and the resolution adopted.

[301] The Committee on Assessments to whom was referred the Petition of E. Barker to be relieved from the payment of an erroneous Tax presented the following Report in favor of the same.

The Committee on Assessments to whom was referred the Petition of E. Baker to be relieved from an erroneous personal Tax.

Respectfully Report:

That Mr Baker testified that he was Assessed on $5000, for his personal property in the 3d Ward, whereas he was not worth more than $2000. in personal Estate. He further testified that he was in Town during the period that the Assessors Books were open, but that he had last May moved into the City, and that being a Stranger; he was totally unacquainted with the Laws governing assessments. As the recent removal of Mr Baker in this City, warrant the conclusion that he erred from a total ignorance of our Laws. The Committee believe him entitled to the desired relief.

They offer the following Resolution.

Resolved, That the personal Tax of E. Baker N° 82 Chamber Street in the 3d Ward be reduced from that on $5000. to that on $2000.

Geo. D. Strong,
Henry Arcularius,
William Scott,
Thos Jeremiah,
Jona. Seymour.

[302] Which were approved and the Resolution adopted.

The Committee on Assessments to whom was referred the Petition [of] Elizabeth Lasellas for relief from the payment of an erroneous Tax presented the following report against the same.

The Committee on Assessments to whom was referred the Petition of Elizabeth Lasellas for relief from an erroneous Assessment,

Respectfully Report:

That Mrs Lasellas made application to be relieved from an Assessment for opening Asylum Street, which she stated was exorbitant and unjust.

As the Assessments for opening Streets are not subject to the Supervision of the Common Council and as in the case of Mrs Lasellas the Supreme Court have confirmed the Assessment, the Committee are satisfied that the Board can in no way interfere, They offer the following Resolution

Resolved, that it is inexpedient to grant the prayer of the Petitioner.

Geo. D. Strong,
Henry Arcularius,
William Scott,
Thos Jeremiah,
Jona Seymour.

Which was approved and the Resolution adopted.

[303] Upon the recommendation of the Street Commissioner Thomas Cottrell was appointed Collector of the Assessment for widening Market Street between Harman and Division Streets and John Hanmer for the Assessment for widening Beekman Street at the Park.

The Market Committee to whom was referred the Petition of Jacob Stamler, John B. Smith & John Fash for transfer of Stalls presented the following Report in favor of the same

The Market Committee to whom was referred the Petitions of Jacob Stamler, of John B. Smith and of John Fash for the transfer of Stalls.

Respectfully Report:

That they are accompanied with the necessary transfers and also with the usual certificate of Qualifications, or are known to your Committee to possess them—they accordingly offer the following for the consideration of the Common Council.

Resolved; That a Butchers Licence be granted To Christian Stamler Junr for Stall No 44 Fulton Market To William P. Varian for Stall No 20 Centre Market To Arnest Fink Junr for Stall No 7. Centre Market.

Respectfully submitted,

Benjamin M. Brown,
W. Seaman,
Jona Seymour,
B. J. Meserole.

[304] Which was approved and the Resolution adopted.

The Market Committee to whom was referred the petition of Asa W. Wasson for return of Purchase money of Stall No 4 Tompkins Market presented the following report against the same.

The Market Committee to whom was referred the Petition of Asa Wasson,

Respectfully Report:

That the petitioner sets forth that in purchasing a Butchers Stall No 4 Tompkins Market his anticipations have not been realized, but on the contrary the business he has heretofore done at that Market will not give him that support the situation of his family demands, & therefore wishes the Corporation would refund him the amount he has paid for the said Stall, this in the opinion of your Committee would establish very bad precedent, & ought not to be made, they accordingly offer for the consideration of the Common Council the following,

Resolved, that in the case of the Petition of Asa Wasson, that it is inexpedient to grant the prayer of the said petition.

respectfully submitteed

Benjamin M. Brown
W. Seaman
Jona Seymour
B J. Meserole.

[305] Which was approved and the resolution adopted.

The Committee on Fire Department to whom was referred the subject of locating Engine N° 8 in the vicinity of Essex Market presented the following Report in favor of the same and recommending certain persons as members of said Company in addition to those now attached.

The Committee on Fire Department to whom was referred the Petition of the Inhabitants in the vicinity of Essex Market to have a Fire Engine placed in the vicinity, Also of Robert W. Piggott & others to be organized into a Fire Company to be placed as above, also of the members of Engine Company N° 37 to have their location together with a petition of Walton and others that they may be located as above, and also two petitions of Horatio N. Walker, Foreman of N° 8, beg leave Respectfully to Report:

That, in the opinion of your Committee a Fire Engine is much wanted in that section of the City, that it would be improper to remove N° 37 from its present location, viz in Christie Street near Stanton Street, but that Fire Engine N° 8, heretofore placed in the building in Tryon Row opposite to " Sessions' Hall," is rendered almost useless from the fact of there being but three members belonging to the said Machine, and there is but little chance of their being able to fill up in the immediate vicinity of three other Fire Companies, that the noise & tumult attending alarms [306] of Fire and the necessary congregation of large numbers of men and boys have long been complained of and is well known to the Common Council, by the Removal of one of the Fire Engines the evil complained of will be in part abated and the Fire Engine will be removed to the vicinity of a thickly inhabited section of our City, where Firemen can at all times be had, the Committee would further State that M^r Elijah F. Purdy on the corner of Broome & Ludlow Street has generously offered the use of his Building until a more convenient one can be obtained, the Committee annex to this Report a list of Eighteen persons who have organized themselves and will become Firemen in case the Board should deem proper to appoint them, they therefore offer the following resolutions for the consideration of the Common Council.

Resolved, That Fire Engine N° 8, be located in the vicinity of Essex Market and that the Committee on the Fire Department be empowred to carry this resolution into effect.

Resolved, that in addition to the three persons who are now Firemen attached to Fire Engine N° 8, that the following be appointed Firemen to the same, viz.

Robert W. Piggott, Upholsterer	N° 102 East Broadway	7	Ward

Which was approved and the resolution adopted and said persons were appointed.

[308] The Committee on Wharves Piers & Slips to whom was referred the Petition from Andrew Smith for payment for his Horse lost in Peck Slip presented the following report against the same.

The Committee on Wharves, Piers and Slips to whom was referred the annexed Petition from Andrew Smith for payment for his Horse, lost at Peck Slip, by backing off the Middle Pier

Respectfully Report:

That from the evidence before the Committee it appears that M^r Smith the Petitioner, had purchased the Horse five days previous to the accident and was driving him then for the first time, that he was going on the middle Pier at Peck Slip to purchase Hay &^c at this time a Horse and Cart was standing on the Pier in such a way as left merely

sufficient space for another to pass by, Smith was in the act of passing when his Horse became frightened by the other attempting to bite him, and which caused him to back off the Dock. the backing piece as stated by the Superintendant of Wharves is now 6 inches above the dirt on the Pier and is as high as the backing pieces generally are, your committee under these circumstances are of opinion that the corporation are in no way bound to make good the loss sustained by Mr Smith, and offer the following resolution.

Resolved, That it is enexpedient [309] to grant the prayer of the petitioner.

John Lovett,
Isaac Brown,
Peter J Nevius,
Anthony Lamb.

Which was approved and the Resolution adopted.

The Committee on Wharves, Piers and Slips to whom was referred the Petition of Philip Hart Junr for permission to erect a Shed on the Pier No 1 East River presented the following Report against the same.

The Committee on Wharves, Piers and Slips to whom was referred the annexed Petition of Philip Hart Junr for permission to build a shed on the Pier at White Hall.

Respectfully Report:

That the petitioner Mr Hart is one of the proprietors of a Steam boat Company at Whitehall, and is desirous of being permitted to erect a Shed on the Pier occupied by them, for the purpose of sheltering their Wood from the weather, as well as securing it from dep[r]edators who infest our wharves; after mature deliberation your Committee have come to the conclusion that it would be hig[h]ly improper to grant permission to erect a building of that kind on the Pier at Whitehall, or on any other of our Piers, and therefore offer the following Resolution.

Resolved, That it is inexpedient to grant the prayer of the Petitioner

John Lovett,
[310] Isaac Brown,
Peter J. Nevius,
Anthony Lamb.

Which was approved [and] the resolution adopted.

Upon Motion of Alderman Stevens the subject of his Resolution

relative to supplying the City with water [318] which was the order of the day was called up—It was agreed to divide the Resolution into three parts the first part was taken into consideration and was read as follows.

Resolved, that the Counsel of the Board prepare a Memorial to the Legislature sitting forth the wants of the City in relation to a full and ample supply of water as necessary for the safety of the City against fire, and to be of a pure and wholesome quality as necessary for the preservation of the health and lives of our fellow Citizens.

Mr Townsend read a Communication from the New York Lyceum in reply to a Letter from him to the President of that Institution requesting information as to the source, quantity and quality of the water of this Island which was read and directed to be printed for the use of the Members.

Alderman Strong presented the following.

"That it be referred to a Special Committee of Five to make such experiments as may by them be deemed proper in various parts of this Island for the purpose of ascertaining whether an adequate supply of good and wholesome water cannot be procured, which Committee shall report to the Board the nature and extent of their operations, with their opinion as to the prospect of success, if such supply cannot be found on this Island that a further power be given to said Committee to make the requisite surveys to introduce water from distant sources.

Resolved, that Dollars be appropriated [319] to carry into effect the foregoing Resolution and that the above Committee have power to accomplish the same.

Mr Townsend presented the following to be added as an amendment. Provided nevertheless that nothing herein contained shall be construed to mean that this Common Council wish to prevent the Manhattan Company from enjoying Banking privileges.

The Mayor decided that the question should be first taken on the Resolution then under consideration before that proposed by Alderman Strong. The question was accordingly taken thereon and a Division having been called the Members voted as follows.

In the Affirmative Alderman Nevius Stevens I. Brown Lamb B. M. Brown Wells Marsh Lee Palmer Woodruff Mr Mandeville Seymour Bryson Arcularius [320] Townsend Beadel Rogers Jeremiah Cooper Engs 20.

In the Negative. Mr Recorder Alderman Strong Mr Dibblee Mr Lovett 4.

So it was carried in the Affirmative.

The second Division of the Resolution was then read in the words following.

"And further setting forth *the* that the Manhattan Company although Chartered in the year 1799 for the express and apparently sole purpose of furnishing the City these inestimable blessings, have not in the opinion of the Common Council complied with the conditions of their Charter and stating that under such circumstances it has become necessary for the Corporation to do that which the Manhattan Company have failed to perform. And that there exists powers in the Act relating to this Company, authorising them to take by process of Law all streams of Water and to divert Water courses from their natural chanels, and also in like manner to possess themselves of other property: which powers the Manhattan Company have wholly failed to use, therefore asking a repeal of the said powers now vested in said Company and the vesting exclusively all such powers for the purpose aforesaid in the Corporation of the City of New York.

[321] Considerable debate arose thereon when Alderman Palmer demanded the previous question which was agreed to and all further debate being prohibited the question was taken on the second division of the Resolution and the Ayes and Noes having been called the Members voted as follows.

In the Affirmative Alderman Nevius Stevens Lamb B M Brown Wells Lee Palmer Woodruff M[r] Seymour Mandeville Bryson Arcularius Townsend Beadel Rogers Cooper Engs. 17

In the Negative Alderman Strong Marsh M[r] Jeremiah Dibblee Lovett 5.

So it was carried in the affirmative.

The third Division of the Resolution was the[n] read as follows "And further enabling the Corporation to raise by Loan a sum not exceeding Dollars for introducing an ample supply of pure and wholesome water."

[322] The Question being taken thereon and the Ayes & Noes being called it passed in the Negative the Members voting as follows.

In the Affirmative. Al[d] Nevius Stevens Lee Palmer M[r] Seymour Bryson Townsend Cooper 8

In the Negative. M[r] Recorder Al[d] Lamb Strong B M Brown Wells Marsh Woodruff M[r] Mandeville Arcularius Beadle Rogers Jeremiah Dibblee Lovett Engs 15

The Question was then taken on the Report as amended and a Division being called it was carried in the Affirmative the Members voting as follows.

In the Affirmative Ald Nevius Stevens Lamb B M Brown [323] Wells Lee Palmer Woodruff Mr Seymour Mandeville Bryson Arcularius Townsend Beadle Rogers Jeremiah Cooper Engs 18

In the Negative Mr Recorder Ald Strong Marsh Mr. Dibblee Lovett 5

Mr Dibblee gave Notice that he would move for a re-consideration of the Vote on the two first Divisions of the Resolution at the next Meeting of the Board.

The notice of Re-consideration given by Alderman Palmer respecting Hoboken street at the last Meeting was continued to the next Meeting of the Board.

It was moved and agreed that when the Board adjourn they would adjourn to meet on Thursday next 3d March at 5 OClock.

[324] Alderman Palmer presented the following Resolution which was referred to the Street Committee.

Resolved that the Street Commissioner be authorized to carry into effect the regulating and paving of Ridge and Attorney streets from Division to Broome Street.

The Board then adjourned to Thursday next 3d March at 5 OClock.

Resolved that the Lamp Committee be requested to place a suitable number of Lamps on the Battery.

Alderman Strong presented the following Resolution which was read and referred to the Committee on cleaning Streets.

Resolved that it be referred to the Committee on cleaning streets with power to employ a number of Labourers to break up the Ice in those streets which are the greatest thorough fares and which are most dangerous to Vehicles passing through the same.

Alderman Lamb presented the following Resolution which was read and referred to the Law Committee.

Resolved that it be referred to the Law Committee to enquire whether any and what [328] Measures ought to be taken by this Common Council in relation to the suit commenced against this State by the State of New Jersey in the Supreme Court of the United States for determining the Boundary line between the said States.

M^r^ Townsend presented the following Resolution which was read and Laid on the Table.

Resolved that a Special Committee be appointed to inquire into the expediency of purchasing for the use of the Common Council a

Library of such Books of standard and practical utility as may be necessary as Books of referrence for the deliberations of this Board.

Mr Cooper presented the following Resolution which was read and referred to the Law Committee.

Resolved that a Special Committee be appointed to inquire and Report to the next Meeting of this Board the present state of the controversy between the State of New York and the State of New Jersey in relation to the Jurisdictional lines or Boundaries and what measures if any the City Government ought to adopt in the premises.

[329] Mr Dibblee agreeably to notice given at the last Meeting, moved that the Board now re-consider their Vote at the last Meeting upon the Resolution of Alderman Stevens respecting supplying the City with pure and wholesome water—After some discussion, the question was taken "Will the Board re-consider the Question," and it passed in the Negative.

The Special Committee on the Resolution of Alderman Stevens to confer with the Commissioners of the Alms House on subject of supplies of fuel & Provisions given out to the Poor during the late inclement Season presented a Report which was Laid on the Table and directed to be printed for the use of the Members.

Alderman Strong moved that the Board now take into consideration the Report presented by the Committee on Applications to the Legislature on 7th February and Laid on the Table on the Resolution presented by him respecting bringing the Election of the Mayor directly to the People.

Debates arose thereon, and on the Question of taking the same into consideration, and a Division being called it was carried in the Affirmative the Members voting as follows.

[330] In the Affirmativee. Mr Recorder Ald Nevius Stevens I Brown Lamb Strong Seaman B M Brown Marsh Palmer Mr Seymour Mandeville Arcularius Rogers Jeremiah Dibblee Engs 17

In the Negative. Ald Wells Lee Woodruff Mr Bryson Scott Beadle Cooper Lovett 8

The Report was then read in the words following.

The Committee on Applications to the Legislature to whom was referred the Resolution of Alderman Strong calling for an enquiry into the expediency of bringing the Election of the Mayor of this City, directly to the People—Report.

That as the Resolution proposes a [331] material change in the recently amended Charter, the Committee have examined the question with much deliberation, that such change will first require an Amend-

ment to the Constitution of the State. That the framers of that Instrument, have purposely made any, the slightest change, difficult and of tedious process.

It must be passed in the Affirmative by two successive Legislatures, and once passed in the Affirmative by the People of the State in their Annual Election.

That in the opinion of this Committee, the People are the most proper authority to make the application required. That any Amendments to the Charter, proposed by the Common Council, and particularly, affecting the Elections or organization of this Body, have been heretofore discountenanced by the People, and finally that however desirable or beneficial, the proposed change might be found in practice, any interference of this Common Council unsolicited by the People, might endanger the success of the measure

The Committee offer the following Resolution

Resolved that it is inexpedient at this time to make application to the Legislature, for any alteration in the Constitution of the State or of the Charter of this City.

G Lee
James Palmer
[332] Joseph W Beadel
James N Wells

After considerable discussion Alderman Palmer moved the previous Question which being sustained the Question was taken on the Report of the Committee and a Division having been called the Members voted as follows.

In the Affirmative Mr Recorder Ald Wells Lee Woodruff Mr Bryson Scott Beadle Jeremiah Cooper Lovett 10

In the Negative Ald Nevius Stevens I Brown Strong B M Brown Marsh Palmer Mr Seymour Mandeville Arcularius Townsend Rogers Dibblee Engs 14.

So it passed in the Negative—Mr Recorder gave notice that he would move for a re-consideration at the next Meeting of the Board.

Alderman Strong then presented the following Resolution.

[333] Resolved that it is expedient at this time to make application to the Legislature to take the necessary steps to have the Constitution of the State so altered that the Mayor of this City may be elected hereafter by the People.

Resolved that the Counsel of the Board prepare a Memorial to the Legislature praying them to carry the above Resolution into effect

and that the Mayor authenticate the same during the recess of the Board and forward it to the Legislature.

Mr Townsend presented a Resolution extending the Provisions of the Resolution to the other Cities of this State, which was Laid on the Table,

The Minutes of the last Meeting were read and Approved.

The following Letter was received from Arthur Burtis Esqr Superintendent of the Alms House and one of the Commissioners of the Alms House

[2] To the Honorable the Mayor Alderman and Commonalty of the City of New York

Gentlemen

Desirous of giving up my present charge as Superintendent and Commissioner of the Alms House, An opportunity is offered in tendering my resignation to express to your Honorable Body my sincere and gratefull thanks for the kindness and attention that I have ever received from the present as well as all former boards with which I have been connected, and If I have been enabled to render any satisfaction it is principally to be attributed to the Assistance Counsel and Advice I have derived from your worthy Commissioners.

If my Resignation is Accepted, I should be pleased to vacate on the first day of May; But cannot conveniently remove my family until about the middle of that Month.

With sentiments of the greatest esteem
I remain your very humble
and Obedient Servant

Arthur Burtis.

The same being read it was Resolved that it be Accepted upon the terms and Conditions expressed in said Letter. It was further upon Motion unanimously Resolved that the thanks of this Board be presented to Arthur Burtis Esquire for his long faithful services as Superintendent of the Alms House and as Commissioner [3] of the same, and that the Clerk of the Common Council transmit to Mr Burtis a Copy of this Resolution under the Common Seal of this City.

A Letter was received from Gilbert Coutant Esqr tendering his Resignation of the Office of Commissioner of the Alms House with an acknowledgment for the Confidence which had been reposed in him to an Office of so much Responsibility—Upon Motion the Resignation was Accepted.

Alderman Meserole moved that the Board go into the appointment of Commissioners of the Alms House in the place of Arthur Burtis and Gilbert Coutant Resigned which was agreed to.

He also moved that the Board also go into the appointment of a Commissioner of the Alms House in the place of Thomas R Smith Esquire at present one of the Commissioners. Debates arose and the Question being taken thereon and a Division being called the Members voted as follows.

In the Affirmative. Mr Recorder Ald Seaman B M Brown Wells Meserole Lee [4] Woodruff Mr Bryson Arcularius Townsend Scott Beadle Rogers Jeremiah Cooper Lovett 16

In the Negative. Ald Nevius Stevens I Brown Lamb Strong Marsh Palmer Mr Seymour Mandeville Dibblee Engs 11

So it was carried in the Affirmative.

The Board then proceeded to Ballot for Three Commissioners of the Alms House, when on opening and counting the Ballots it appeared that Jameson Cox, John R Peters, and George Lovett were duly chosen.

The Board then proceeded to Ballot for a Superintendent of the Alms House when Jameson Cox was duly chosen.

The Report of the Committee on Assessments on the Petition of the Franklin Fire Insurance Company Laid on the Table on the 10th of January last was called up and read as follows.

The Committee on Assessments to whom was referred the Petition of the Franklin Fire Insurance [5] Company to be relieved from Tax

Respectfully Report.

That E Tibbits Esqr President of the Franklin Fire Co appeared before the Committee and stated that the capital stock of the above

Institution was $250,000 of which amount $99,189 was invested and owned by them in stock of the "New York Gas Light Co" and that they claimed a deduction of Tax on the amount of the Gas Light Co Stock owned by them. In support of this claim, Mr Tibbits referred to the 13th Chapter 2d title, sec 14 of the Revised Statutes, which states that "if any person whose personal estate is liable to taxation, shall at any time before the Assessors have completed their Assessment roll, make affidavit that the value of his personal estate does not exceed a certain sum to be specefied in the Affidavit after deducting his just debts and his property invested in the Stock of incorporated Companies, liable, under this Charter, to taxation on their Capital, it shall be duty of the Assessors to value such personal estate at the sum specified in such affidavit and no more." By the 8th Section of the 4th Title of the 13th Chapter of the Revised Statutes, the provisions of the above section are extended to certain Incorporated Companies named in the two preceding sections and the President Secratary, or other proper Officer, may make the Affidavit required by the said section.

From the above provisions of the Revised [6] Statutes the Officers of the Franklin Fire Insurance Company were of the opinion that the deduction claimed for the Stock of the Gas Light Co was proper and legal, and they applied to the Assessors of the Ward who consented to the deduction but their decision was reversed by the board of Assessors who refused to allow the same.

From this decision of the board of Assessors, the Officers of the Company appealed to the Common Council.

It will here be necessary to state that the above provision of the Revised Statutes, which exempts incorporated companies in certain cases, from the payment of Tax on the Stock of other Incorporated Companies held by them is introduced in the Revised Statutes for the first time, and that the application of the Franklin Fire Insurance Company may therefore be considered a pioneer case, which is intended to form a precedent for other Companies who are situated in the same manner, and who claim the like exemption.

Under this view of the subject, the Committee have solicited the advice of the Counsel of the Board, whose written opinion is hereto annexed, by which it will be perceived that while he recognizes the principle which is contended for by the Franklin Fire Co as far as relates to their construction of the two sections of the Revised Statutes above referred to that he is confident that they have failed to comply with those provisions of the Law which prescribes the form

of the Affidavits [7] to be made before the Assessors and that they are thereby legally excluded from the deduction of Tax claimed.

Taking his opinion as a correct guide, it will be perceived that if the deduction which is claimed by the above Institution is granted, that it rests solely on the ground of Lenity, and that the principle which has heretofore guided the Common Council in its decisions, on individual applications for relief from erroneous Taxes, will be overlooked or rendered nugatory. The same rule which prevents an individual from receiving relief at our hands if he neglects to attend to the advertisement of the Assessors, he being in the City, and in health, would prevent the Franklin Fire Insurance Company from succeeding in the present application; as it does not appear that the Officers of that Institution were in any way unable to make the necessary Affidavits in the proper time.

But independent of the above considerations, there is still a doubt on the minds of many individuals of judgment and experience in these matters, whether the provisions of the above quoted sections are strictly applicable to the case of the Franklin Fire Insurance C°

It is contended by the Secratary of the Board of Assessors, and was so decided by that body, that the application of the word "named" in the section which extends the privilege which is enjoyed by individuals to certain incorporated Companies is to be confined to [8] its most restricted sense, and that it solely alludes to Manufacturing Turnpike and Marine Insurance Companies, which are the only Incorporations which are designated by name.

An ingeniously written opinion was submitted by M^{r} John Leonard Secratary of the Board of Assessors who supported the views above last alluded to.

As there appears to be at least a doubt whether the construction claimed by the Petitioners in relation to the applicability of the 8th Section of the 2^{d} title of the Revised Statutes to the Franklin Company is correct, and as the case is one which is hereafter to form a precedent for future decisions of the like nature, the Committee do not feel authorized to concede the correctness of the principle claimed by the Petitioners.

As however the fact of neglect on the part of the Company to submit to the Assessors such statements and Affidavits as are required by the 2^{d} Section of the 4th title and the 15th Section of the 2^{d} title of the Revised Statutes is apparent, and as such neglect cannot now be remedied, the Committee are of opinion that the Common Council would depart from the practice which has heretofore been established,

if they were to extend the desired relief to the Franklin Fire Insurance Company.

They offer the following Resolution.

Resolved that it is inexpedient to grant [9] the prayer of the Petitioners

George D Strong
Jonathan Seymour

A Petition of Godfrey Kling to be relieved from the payment of a Fine for selling Meat *meat* without a Licence, was read and referred to the Police Committee.

The following Memorial was received from the Managers of the Society for the Reformation [13] of Juvenile Delinquents in the City of New York.

To the Mayor Aldermen and Commonalty of the City of New York.

The Managers of the Society for the Reformation of Juvenile delinquents in the City of New York Respectfully represent.

That the number of children now under their care amounts to One hundred & ninety six, that since the establishment of the Charity in

1825 to this time eight hundred and fifty one children have been received into the House. That of this number more than two thirds were the children of persons chargeable as paupers to the City and County of New York.

Five hundred and fifty one have been bound out as Apprentices, One hundred and four have remained until they were of age, or returned to parents; Most of them rescued from the ignominy of Criminal punishment.

These facts are sufficient to secure for the House of Refuge the confidence and support of every benevolent Citizen. The Legislature of the State convinced of the necessity of such an institution has from time to time enacted Laws to provide funds for its support.

By the Act of April 1829 the sum of One dollar and fifty cents was imposed on every Licence granted to Tavren Keepers and others, and the sum of Five hundred Dollars on each Licence granted to a Theatre, and the sum of Two hundred & fifty Dollars [14] on each licence granted to a Circus, which sums were directed by the Act to be Collected and paid over for the benefit of the House of Refuge. Under this Law a large amount has been received by the Agents of the Common Council and retained by them for many Months.

It is proper to remind your Honorable Body that at a very early period, when objections were made to pay over the money, on the ground that the Law of the Legislature was unconstitutional, the Managers of the House of Refuge consented that the Question should be submitted to the Supreme Court of this State. The question was decided in favor of the House of Refuge by the unanimous opinion of the Court.

The opinion of the Supreme Court having been ascertained it was supposed that no further delay would take place, in the payment of the funds hitherto withheld

We regret to say that the just expectations of the Community have been disappointed.

Although the sum of 2598 dollars has been advanced by the Treasurer of the Institution out of his private purse, to provide for the inmates of the house, no disposition is manifested to appropriate the bounty of the State as directed by the express provisions of the Law.

The opinion of the Supreme Court invoked by the Common Council, is now disregarded as Authority, when that opinion has been pronounced against their [15] pretensions. We do not ask the payment of this money as a favor to be conferred. Repeated solicitation and

disappointment may well justify a demand when hundreds of Children are in want of the necessaries of life, and when the funds of private men must supply the deficiency of Public servants—There is another reason why in the present exigences no false delicacy should prevent our remonstrating in decided terms.

The Managers of the House of Refuge are agents of the State and responsible to it for a faithful dispensation of its Bounty. The Officers of the Common Council in receiving the money in question acted as Agents of the State, and having obtained the money by virtue of the Authority so conferred, are bound by every principle of Law and Justice, to distribute the funds according to the direction of their Principal.

We might repeat here what has been urged before, that this money when applied to the support of the House of Refuge will be an alleviation of suffering which the Common Council would have to provide for out of the City funds, and in a way less effective and less satisfactory to good men—Under these circumstances it would be unjust to ourselves and to the public to disguise the fact that if the amount of funds belonging to this Charity be longer withheld by the Agents of your Honorable Body, the doors of the House must be opened and a large number of children be sent back to the [16] Alms House. This measure so painful to the Managers so detrimental to the prospects of the children, so injurious to the discipline of the House, and we may add so unexpected to the Public ought to be avoided by every means within our power, And we are induced to make this further effort to prevent such a calamity. Conscious of no disrespect to the City Council by this plain statement we again respectfully ask that your Honorable Body would direct the payment of the money in question without further delay.

Cadwallader D Colden Pres^{t} [Seal]
Frederick Sheldon Sec^{y}

The same being read Alderman Stevens presented the following Resolution.

Resolved that the Mayor be requested to pay over to the Managers of the Society for the Reformation of Juvenile Delinquents all the Monies in his hands which by the Law of the State were collected from the Retailers of Liquors and the Licensing of Theatres & Circuses, and directed to be appropriated for the benefit of the House of Refuge, Provided the House of Refuge engage to indemnify the Mayor and Corporation for the same.

Debates arose thereon, and the Question being taken on Adopting the Resolution, the Ayes & Noes were required by Alderman Strong the Members [17] voted as follows.

In the Affirmative Mr Recorder Ald Nevius Stevens Wells Marsh Lee Palmer Woodruff Mr Seymour Mandeville Beadle Jeremiah Cooper 13

In the Negative Ald Lamb Strong B M Brown Mr Bryson Arcularius Townsend Scott Rogers Dibblee Lovett 10

So it was carried in the Affirmative. Alderman Strong gave Notice of Reconsideration at the next Meeting.

The City Inspector presented a Report of the Quantity of Wood Coal & Grain, which had been Measured and Inspected for the Year 1830 which was read directed to be filed and printed for the use of the Members.

A Communication was received from Jeremiah Johnson and David Johnson in behalf of the Supervisors of Kings County relative to the support [18] of their Convicts in the Penitentiary at Blackwells Island was read and referred to the Committee on Blackwells Island.

A Petition of the President Directors & Co of the Hudson & Delaware Canal Company to be relieved from the payment of a Tax on their Capital was read and referred to the Committee on Assessments.

A Petition of Mrs Meade to occupy the Rooms in the New York Institution formerly occupied by the Academy of Fine Arts in exhibiting paintings belonging to the estate of her late husband Richard W Meade was read and referred to the Committee on Public Offices & Repairs.

A Petition of Peter Aymar requesting damages may be repaired done by Engines running on Side walks in front of his premises in Nassau street was read and referred to the Committee on the Fire Department.

A Petition of sundry Inhabitants to have Barclay street re-paved was read and referred to the Street Committee.

Alderman Palmer agreeably to Notice [19] given Moved that the Board now Re-consider the Report of the Street & Finance Committees on the subject of widening Hoboken street. The Question being taken thereon it passed in the Negative, and Board refused to re-consider their decision on this subject as made on the 21st of February last.

For regulating Avenue C And for regulating Fifth street, in the aggregate sum of $5497.$^{61}/_{100}$; That the said Assessments were made against the property in the names of Ferris Pell & Alfred S Pell, and still remain due and unpaid. That your Committee find the property to be encumbered by three separate Mortgages one for 9 Lots to the Eagle Fire Insurance Company. One for 15 Lots to the Estate of Albertson M^cCoun and one for 13 Lots to Edward W Laight; which run on lines in various ways through the Block, not agreeing with the Lines by which the Commissioners have made the Assessment, with a view of affording all the facilities in their power in the settlement of the above mentioned Assessments, which are somewhat complicated, they have caused a [31] diagram of the ground to be made (which is hereunto annexed) on which the 9 Lots Mortgaged to the Eagle Company are distinguished by the blue colour and marked with the Letter E, and they have set off against the said Nine Lots the sum of $1495 $^{94}/_{100}$ as the just and proper sum of their share of the Assessments above mentioned. Against the Thirteen Lots coloured Red and marked with the letter L which are under Mortgage to Edward Laight the sum of $1420 $^{51}/_{100}$ as their just share. And against the Fifteen Lots coulered yellow and marked with the letters A M C the sum of $2581,$^{16}/_{100}$ as their share, with interest from the days of confirmation of the Assessments respectively and the cost of advertising. That a detailed statement of the division of the Assessments agreeably (in each case) to the Mortgage lines is also hereunto appended, to which they beg leave to refer as part of their report, and respectfully recommend to the Board, *and respectfully recommend to the Board,* the propriety of dividing the above mentioned assessment, so that the parties who have an equitable interest in the same may be enabled to settle the charges on the property comprised within their respective claims and offer the following Resolution.

Resolved that the Collectors of Assessments be and they are hereby respectively directed to receive [32] from the parties concerned the amount of Assessments due from the proprietors of the above mentioned thirty seven Lots of ground in conformity with this Report.

[36] The Finance Committee to whom was referred the Petition of Bernard M^cCafferty for payment of part of the amount of his Contract for filling up and regulating Sixth street from the First Avenue to Avenue A presented the following Report.

The Finance Committee on the annexed petition of Bernard M^c-Cafferty asking for the payment of part of the amount of his contract for filling up and regulating Sixth street from the First Avenue to Avenue A

Respectfully Report

They find the Petitioner has exhausted all his means in raising the amount necessary to enable him to complete his contract, which was finished, and the Assessment confirmed on the 6th of September last past, they further find that the petitioner is labouring under embarrasments arising out of engagements entered into in relation to this contract, and are of opinion it is proper to advance him a sum of money on Account, and offer the following Resolution.

Resolved that the Comptroller be directed to draw a Warrant in favor of Bernard M^cCafferty for Three thousand Dollars on Account of his contract for regulating Sixth street from the First Avenue to Avenue A

The Finance Committee to whom was referred the annexed Petition of Charles Wayland for reduction of rent on a Water Grant at fifty ninth and Sixtieth streets on the Hudson River held by him from the Common Council.

Respectfully Report.

That the Memorialist appeared before the Committee and stated to them the causes and reasons which had induced him to apply for a reduction of rent on his Water Grant, to all which your Committee gave their careful attention, but can discover nothing therein which would make it advisable for the Common Council, to consent to the wishes of

the Memorialists, on the contrary they are satisfied, it would form a precedent productive of the most injurious consequences, and offer the following Resolution.

Resolved that it is not expedient to [38] grant the prayer of the Petitioner.

The Committee on Assessments to whom was referred the Petition of David [Kipp] to be relieved from Tax Respectfully Report.

That M[r] Kipp appeared before the Committee and testified that he was Taxed $9,$^{6}/_{100}$ for his real Estate, and that being an Artillerist he claimed a deduction for $500,

He further stated that he was worth $500, in personal Estate which he admitted was not Taxed. As the Assessors did not Tax his personal

property, the Committee do not consider his application entitled to the consideration he claims for it & offer the following Resolution.

[40] The Committee on Assessments to whom was referred the Petition of Thomas L Ogden to be relieved from an erroneous Tax presented the following Report against the same.

The Committee on Assessments to whom was referred the Petition of Thomas L Ogden to be relieved from an erroneous Tax Respectfully

Report

That M[r] Ogden complained that the Assessors of the 8[th] Ward had assessed him for 4½ Lots of ground on the corner of Wooster & Grand street and that he owned but little more than 3 Lots. It appeared by the statement of M[r] Ogden that he had divided his property into 3 Lots with twenty six feet front & one small Lot in the rear fronting on Wooster street & that the Assessors considered it as 4½ Lots. As the Assessors have given no Certificate of an Error the Committee do not feel authorized to interfere.

M[r] Ogden further requested the remission of a portion of the Tax on the same property assessed in 1828. M[r] Ogden stated that on representing to the Collector in 1828 that the Tax was too high he consented to release the one Lot and gave him a receipt in full—This he supposed settled until he received a Notice from the Comptroller that he owed arrears on 1828. However improper the Collector might have acted in this matter, the [41] Committee do not feel authorised to remit the Tax.

They offer the following Resolution.

Resolved that it is inexpedient to grant the prayer of the Petitioner.

The Committee on Assessments to whom was referred the Petition of L & T Seymour to be relieved from an erroneous Tax Respectfully Report.

That the Messrs Seymours appeared before the Committee and testified that they owned a Lot of Ground in Christie street in the 10th Ward and that they leased one half of the same to the Corporation to erect an Engine House on and that the Corporation were bound to pay the Taxes on the half occupied by them.

As one of the Committee of the Common Council appointed to negociate with the Messrs Seymours has informed your Committee that the above statement [42] is correct, they believe them entitled to relief and offer the following Resolution.

Resolved that the Tax on the Lot No 17 Christie street in the 10th Ward be divided and that the one half of the same only be charged to L & T Seymour and that they be relieved from the payment of $3,15/100 which ought to be charged to the Corporation of the City.

The Committee on Assessments to whom was referred the Petition of John Jacob Astor to have an error on Tax corrected presented the following Report in favor of the same.

The Committee on Assessments to whom was referred the Petition of John Jacob Astor to have an erroneous Tax on Real estate corrected

Respectfully Report

That Alderman Taylor Agent for Mr Astor appeared before the Committee and stated that an Error had occurred in the Books of the Assessors of the Eleventh Ward by which 17 Lots of ground near [43] the corner of Avenue A in Sixth street were Taxed on $8500—instead of $850—which they were valued at by the Assessors—The Assessors make the explanation by stating that through a Mistake in Copying their Books they added a Cypher to the $850, and that the same is an unintentional error.

The Committee therefore offer the following Resolution.

Resolved that the Tax on 17 Lots of ground in Sixth street between Avenue A and Avenue B in the 11th Ward Assessed to John Jacob Astor be reduced from that on $8500, to that on $850.

The Committee on Assessments to whom was referred the Petition of John R Willis to be relieved from the payment of an erroneous Tax presented the following Report in favor of the same.

The Committee on Assessments to whom was referred the Petition of John R Willis to be released from an excessive Tax Respectfully Report

That M[r] Willis affirmed that he was taxed [44] on his personal property in the 4th Ward on $20,000 and that the same did not amount to over $10,000.

He further stated that he applied to the Assessors when they made their Assessment and that they noted it on their Books in pencil mark, but through some subsequent mistake the Tax was put at $20,000

M[r] Morgan one of the Assessors was present and coroborated the statement of M[r] Willis & united in the request that it might be rectified.

The Committee are of opinion that it is proper to grant the prayer of the Petition and offer the following Resolution.

Resolved that the personal Tax of John R Willis in the 4th Ward be reduced from that on $20,000 to that on $10,000

The Committee on Assessments [45] to whom was referred the Petition of Henry Dalton to be relieved from Tax Respectfully Report

That Mr Dalton appeared before the Committee and testified that he was taxed for personal property in the 7th Ward on $10.000 whereas he was only worth $5000, He further stated that he was out of Town during the period that the Assessors Books were open for examination and that he was not aware of the Tax being excessive until called on by the Collector. As the Assessors have certified that the error exists, the Committee believe him entitled to relief and offer the following Resolution.

Resolved that the personal Tax of Henry Dalton in the 7th Ward be reduced from that on $10,000 to that on $5,000.

That Mr Lyon testified that he was Assessed in the Ninth Ward on $5000, for personal property & that he is not worth more than $500, and that being an Artillerist he is exempt from the Tax on that sum. Mr Lyon further stated that he was out of Town during the Period that the Assessors Books were open and therefore could not attend to correct the Error.

The certificate of the Assessors acknowledges the mistake and the Committee thinking him entitled to relief offer the following Resolution.

Resolved that the Tax on the personal property of William Lyon be and the same is hereby remitted.

The Minutes of the last Meeting were read and approved.

The Mayor laid before the Board a Copy of the Act entitled "An Act to alter the Map of the City of New York by declaring certain Land in [57] the Seventh Ward of the City of New York now called Stuyvesant street to be one of the Public streets of the said City," which he had received during the recess of the Board, was read and ordered to be printed in the News papers employed by the Board, and ordered to be filed.

Mr Townsend presented the following Report which was read and the question being taken thereon it was Negatived

Resolved that a Member of this Common Council be appointed by the Mayor to proceed to Albany as a delegate of this Board to further the enactment by the Legislature of a Law investing the Mayor Aldermen and Commonalty of this City with power to introduce therein an ample supply of pure and wholesome water.

Alderman Strong presented the following Resolution which was read and referred to the Mayor.

Whereas it is important to our Constituents to be informed of what is going on in this Board, and as *to* the most efficient means of promulgating our proceedings is through the public press, and as several Editors attend regularly at our Meetings for the purpose of Reporting them, and as it is all important that these Gentlemen, should have convenient and comfortable accommodations to insure precision and correctness [58] Therefore Resolved that the Tables for the use of Reporters be moved to the upper part of the Chamber.

A Petition of C Wilkinson of John Raynor & John C Wines, and of Giles R Crary to be relieved from the payment of an erroneous Tax, also of James Killin & Doc^{r} David Hosack to be relieved from the payment of Tax, were severally read and referred to the Committee on Assessments.

A Remonstrance and Petition of the Ministers Elders & Deacons of the Reformed Protestant Dutch Church against the widening of Ann street praying that said Street may be widened on the North side instead of the South as contemplated was read and referred to the Street Committee together with the Report of the Committee on the 7th Instant and now lying on the Table.

[60] A Petition of J Green Pearson for a Well & Pump in Bond street near the Bowery was read and referred to the Alderman & Assistant of the 9th Ward and Street Commissioner.

A Petition of Hugh M^{c}Keon and others that the Well & Pump corner of Madison & Walnut streets be repaired was read and referred to the Alderman & Assistant of the Seventh Ward and Street Commissioner.

A Remonstrance of William B Townsend & others against repaving Barclay street was read and referred to the Street Committee.

The Chairman of the Watch Committee presented a charge against David Field Captain of the 2d District City Watch for disobedience of orders which was referred to the Watch Committee to investigate the charge, and Report thereon to the Board.

The Report of the Committee on Applications to the Legislature on the subject of Wharves & Wharfage presented on the 14 February last and laid for consideration was now called up and read in the following words.

[61] The Committee on Applications to the Legislature to whom was referred the Memorial of sundry owners of Wharves and Piers alleging that the present rates of Wharfage yield an income inadequate to their cost and maintenance, and praying the interference and aid of the Common Council.

Report.

That the large amount of investments public and private, in this kind of property, and the frequent agitation of the question heretofore induced the Committee to examine the subject with unusual attention.

We have heard a number of Merchants Wharfingers and Lessees of Wharves on the subject, a portion of such examination is appended; and are well satisfied that the neet income to the owners of private Wharves is less than that derived from the aggregate of other property; and that the income derived to the City Government from the Public Wharves is inadequate, and might be increased without endangering Commerce in the least. The gross disbursements on the Public Wharves during the seventeen years ending 1st January 1831 exceed the gross Receipts from the same source One hundred and twenty four thousand three hundred and thirty eight dollars; this sum must have been drawn from other sources of revenue, or from direct Taxes.

The new erections during this period have [62] been considerable, the decay too has been great, the aggregate increased value is not ascertainable.

It is deemed a good general rule, "that each branch of business should sustain itself from its own income" and it was matter of surprise to the Committee that the Public Wharves in the best harbour in the world, and of a City the most commercial and most thriving on the American Continent, should be found an exception to this rule.

It is evident that this government in the commercial rivalry and competition of years gone by, with neighbouring Cities, have adopted

and practised in the very extreme on the unquestionable maxim "that a low tariff, whether of wharfage, import or other port charge is beneficial to commerce," and it is the opinion of the Committee, that so long as the Commercial Capital and skill of neighbouring Cities surpassed or equalled those of New York, the present low rates of wharfage were beneficial, but now that our trade and commerce is established on a basis far surpassing any City on this Continent, and our natural advantages such, that no ordinary cause can diminish or impede their progress, a moderate increase of these rates is proper and necessary.

In comparing the rates of Wharfage of some other Cities with New York, which seems essential in this question, the bases adopted by them are so [63] widely different that perfect accuracy is unattainable, but we are within the Bounds when we say that the wharfage of Boston is six fold the rates of New York; that of Savannah, five fold; that of Charleston, three and a half fold; that of Baltimore, two fold, and that of Philadelphia, rather above than below.

The wharfage in Europe generally, is represented to the Committee much higher than in this country, but were these facts otherwise, the Committee would still recommend a moderate increase of the present rates.

A coaster of 50 to 100 Tons now pays 62½ Cents per day, and remains at the Wharf not exceeding five days, paying 3.12½ Cents each trip. We cannot conceive that 75 Cents (the difference between the present and proposed rates) would ever change the destination of a single coaster. We suppose the value of the Cargo of such Coaster is from fifty to One thousand dollars, would 75 Cents extra wharfage on such amounts ever be brought into the calculation? Would the Coaster or Market boat of Stonington, go to the worse Market of Boston? Would the corn coaster of Deleware go to the worse Market of Baltimore? Would the Market Boat or Coaster of Bridge Port or New Brunswick, go to the worse Market of New Haven, or would they all come to the better Market of New York.

The Sea Vessel from 400 to 450 tons from Europe India or elsewhere now pays 150 cents per day. [64] We suppose she remains in port 25 days, the total wharfage for the voyage is 37½ Dollars add 36 Cents per day, the proposed increase is nine dollars. We suppose the value of her Cargo is five thousand to one hundred thousand dollars can the additional nine Dollars on such amounts ever be taken into account.

The question of increasing the rates of wharfage is intimately connected with a proposed change of Materials at some future day in the building of wharves. Some of our most respected Citizens, some of our ablest nautical men, and his Honor the Mayor have strongly recommended the substitution of square stone, for the mixed materials now used, and your Committee apprehend such change will take place some time hence. The cost will be great, and a moderate increase of wharfage now will prepare the way for the great increase which must take place, to enable either private or public owners to sustain the great additional Cost of building in this manner

The present tariff is unequal as well as too low—A vessel of 49 Tons carrying more than double the cargo pays no more than a vessel of 21 Tons; a vessel of 99 Tons pays no more than a Vessel of 51 Tons.

We recommend that the rates of Vessels of 20 to 50 Tons be increased on each ten Tons; and on Vessels of 50 to 100 tons that the increase be on each 5 Tons.

[65] It is our opinion that Steam Boats, a kind of vessel hardly known, when our present tariff of Wharfage was fixed, and whose tonage measurement compared with other vessels, is so disproportioned to the room they require, should be charged much higher rates than ordinary vessels. We think too as they cannot conveniently lie at the same wharves with other vessels, one or more Slips should be assigned them exclusively, and as their stay in port is very short, we recommend that the charge of Wharfage on all regular Boats be by the year or season, and not by the day. Some per diem provision will be necessary, however, for transient Steam Boats.

The Committee offer the following Resolution.

[66] Resolved that the Counsellor prepare a Bill for increasing

the rates of Wharfage on all Vessels in conformity with the principles of this Report for the consideration of the Common Council

A Motion was made to strike out the proposed increase of rate on Vessels of 100 Tons and under which was lost. After considerable discussion the question was taken on adopting the Report of the Committee, and a Division having been called the Members voted as follows

In the Affirmative Al^{d} Nevius Stevens Wells Lee Woodruff M^{r} Seymour Mandeville Beadle Rogers Cooper Engs 11

In the Negative M^{r} Recorder Al^{d} Lamb Strong Palmer M^{r} Bryson Arcularius Townsend Scott Jeremiah Dibblee Lovett 11

[67] There being an equality of Votes the Mayor gave his vote in the Negative, so the question was lost.

Alderman Strong according to notice moved to reconsider the Vote at the last Meeting on Memorial of the Managers of the House of Refuge, and Resolution of Alderman Stevens thereon. The question being taken, Will the Board reconsider, It passed in the Negative.

On motion of M^{r} Townsend the Report on the subject of Hospital money paid by Seaman was made the order of the day at the next meeting of the Board.

M^{r} Rogers gave notice that he should at the next meeting of the Board call up the Report of the Committee on Wharves on the Petition for a Wharf at the foot of Barrow street presented June 14th 1830.

The Report of the Committee on Common Schools upon the Memorial of the Common School Society presented the following Report

The Committee on Common Schools to whom was referred the Memorial of the Public School Society, at the last meeting of the Board.

[68] Respectfully Report.

That the object of the Society, as expressed in their Memorial, is the restoration of the second section of the draught Act, formerly reported by this Committee, making certain sections of the revised statutes applicable to the funds to be raised under the contemplated

law, subject to the control of the Corporation, there are cogent reasons why all the funds for the support of Common Schools, at the disposal of the Board should be subject to the same general legal regulations. To secure this object the Committee do not deem it necessary to abolish the second section of the Act, as adopted, and restore the section formerly reported, conformably to the prayer of the Memorial, but they think the wishes of the Memorialists may be substantially complied with by striking out the words "Common Schools in the said City," occurring at the end of the first section, and substituting therefor the words "the Common Schools among which the Public School monies are now, or hereafter may be by Law distributed in said City."

Resolved that the Counsel of the Board be instructed to have the amendment suggested in this Report incorporated in the Act forwarded to the Legislature entitled "An Act for the further support and extension of Common Schools in the City of New York.

[69] Gideon Lee
Henry Arcularius
Fyler Dibblee

The question being taken on Adopting the Report & Resolution it was carried in the Affirmative.

The Comptroller presented the following Report which was read and referred to the Finance Committee.

The Comptroller respectfully suggests to the Common Council the propriety of authorising the payment of the Five per Cent City Stock 1821 on the 1st of May next. The balance redeemable is $151,800.

The subject is now presented that public notice may be given to the Proprietors of the Stock if the Board should concur in the measure proposed.

The Report of the Committee on Applications to the Legislature on the subject of amending the Quarantine Law presented on the 7th Instant and laid on the Table was called up and read as follows.

The Committee on Applications to the Legislature to whom was referred the Memorial praying the Common Council to apply to the Legislature for amendments to the Quarantine Laws.

Report

That they find many of the existing provisions [70] relative to the Public Health useless as guards against disease, and at the same time embarrassing to the executive officers, injurious to the Sailors, cram[p]ing the industry of mechanics tradesmen, cartmen, and all that

class of our Citizens whose trades or labours are in any manner connected with navigation or commerce, and most onerous to the Merchant; that those incong[r]uous provisions have driven much of our commerce to other ports, and much of our population and wealth to a neighbouring County—The Committee consider a thorough revision necessary, but, as the time required for such revision would carry it beyond the present session of the Legislature, and believing that discretionary powers may be safely lodged in the Board of Health we offer the following Resolution.

Resolved that application be made to the Legislature during the recess of the Board, in the usual way that discretionary powers be given to the Board of Health to [be] exercised by them in all cases that may occur under the health Laws in relation to vessels or goods.

Gideon Lee
James Palmer
James N Wells
Fyler Dibblee
Joseph W Beadle

[71] The same being read Alderman Stevens presented the following Resolution.

Resolved that the Counsel of the Board prepare a Law and Memorial to be forwarded to the Legislature asking them to authorise the Corporation of the City of New York to pass such Ordinance as they may deem proper to vest such discretionary power in the Board of Health from time to time as they may deem expedient. A motion was made to refer back which was lost. Debates were had thereon, when the Question was then taken on adopting the Resolution proposed by Alderman Stevens, and was carried in the Affirmative.

M[r] Bryson gave notice of Reconsideration at the next Meeting of the Board.

Alderman Woodruff presented the following which was adopted.

Resolved that it be referred to the Committee on repairs to move a portion of the Board fence that enclosed the wood yard, in the East corner of the Park to the West side of Chatham street for a temporary enclosure of the building now fitting up for Records Office.

The Board then adjourned to Monday next 21[st] Instant 5 OClock P M.

[86] The Finance Committee to whom was referred the Petition of Abraham P Maybie & William Kelly on behalf of themselves and others to whom sums were due from Mr Vanderlyn for work done and materials furnished in erecting the Building called the Rotunda presented the following Report.

The Finance Committee to whom was referred the Petition of Abraham P Mabie and William Kelly on behalf of themselves and others

Respectfully Report

That the said Petition comes from the creditors of Mr Vanderlyn to whom considerable amounts are still due for work performed and materials furnished in erecting the building known as the Rotunda.

The Committee deem it unnecessary to State in detail the facts relative to the Lease heretofore given by the Corporation to Mr Vanderlyn for the ground upon which that building stands. The Board is sufficiently apprised of the history of that building and that it has become the property of the Corporation by the terms of the Lease. In referrence to the claims of the present applicants, it appears from their Petition and the statements which the Committee have received in support thereof that in or about December 1819—Mr Vanderlyn became insolvent and took the benefit of the Insolvent Act, having assigned all his property [87] to James Smith Esqr for the benefit of his creditors. That Mr Smith in pursuance of his duty as Assignee sold all Mr Vanderlyns interest in the Rotunda establishment at Public Auction; and that the Petitioners in the hope of thereby saving themselves from loss became the purchasers. The Lease had not then expired, and if these creditors had realised the use of the establishment for the remainder of the term, they might have reduced the amounts due to them; but it appears that Mr Vanderlyn contrived to regain possession of the premises although his rights there had ceased, and to retain such possession until recently compelled to remove

by the Corporation, and that his creditors were allowed to remain still unpaid. The Committee have been furnished with a statement which is hereunto annexed, shewing the names of the creditors on whose behalf this application is made, the original amounts of their claims, the dividends which they have received (amounting only to 13¾ cents on the Dollar) and the balances still due to them without interest which balances amount to the total sum of $3540,44. The Petitioners have no prospect of ever receiving any thing from Mr Vanderlyn and they appeal to the liberality of the Common Council for relief.

The Committee have duly considered all the circumstances of the case, and they do not hesitate to say that in their opinion this application is sustained by those considerations of justice which should always [88] weigh with this Board. The Corporation have without paying for its erection become the owners of a building which with some additional expenditure has been rendered fit for important public purposes and which has been actually thus appropriated, while the Mechanics and others who built it, and who, it may be reasonably supposed are illy able to bear the loss have been left to suffer. The Committee think that the Corporation although not legally bound, ought under the circumstances to extend relief to the applicants by paying to them the balance still due on their original claims, without interest, and they submit therefore the following Resolution.

Resolved that the Comptroller report a Warrant in favor of Benjamin Ferris Esqr the attorney for the Petitioners for the sum of $3540,44 to be paid and apportioned by him among the creditors of Mr Vanderlyn for building the Rotunda, whose names are mentioned in the annexed statement according to the amounts of their respective claims as contained in the said statement.

The Police Committee to whom was referred the Petition of Thomas Stokes and others for permission to employ at their own expence a Matron for the female prisoners at Bellevue presented the following Report in favor of the same.

The Police Committee to whom was [91] referred the Petition of Thomas Stokes and others asking permission to employ at their own expence a Matron to live among the Penitentiary women a[t] Bellevue

Report.

That they have conferred with the Petitioners, and your Committee cannot but applaud the benevolent and humane motives, which have led them to make this effort to improve the moral condition of that large class of destitute & abandoned females, who are carried by the enforcement of our Vagrant Laws to our City Prisons. It cannot be denied that our Prison confinement does not improve the Prisoners. That there are exceptions is admitted, but it is believed, that at least our Bridewell & Female Penitentiary, do demoralize, rather than improve their inmates; and a fact is stad[t]ed of a female in one

instance having been taken up and committed no less than eighteen times.

The Petitioners represent what has frequently been represented, that the female Penitentiary has not the room (while the Bridewell is in the same building) for any proper classification of the Prisoners. The 170 or 180 Penitentiary women lodge in but three or four different sleeping apartments. It is only necessary to mention the fact, and all persons must be anxious to remedy the evil. The constant attendance in the Prison of a discreet and religious woman, as a Matron may effect much in repressing improper conversation, [92] and by her advice turning the attention of the unfortunate women to a better course of life and conduct; And these Gentlemen the petitioners propose to extend their charities and relief, by furnishing some useful and honest occupation to these unfortunate beings when they come out of prison, so that they cannot longer charge to our Community, that by not affording them an opportunity of acquiring an honest livelihood they are driven to the Idleness and Vice for which they are returned again and again to our City Prisons.

They present the following Resolution

Resolved that the Commissioners of the Alms House accommodate the Matron referred to, and that they assist in improving the Condition and morals of the females referred to.

[96] The Ferry Committee to whom was referred back the Petitions of Long Island Farmers & others in relation to the Williamsburgh Ferry together with their former Report thereon and the Remonstrances against such Report presented a Report which was read—A motion to lay the same on the Table was lost—Debates were had thereon when M[r] Dibblee then debating gave way to a motion for adjournment and the further consideration was postponed.

Alderman Woodruff presented the following Resolution that Stuyvesant street be opened between the Bowery & 2[d] Avenue, and that the Counsel take the necessary measures therefor Which was adopted

Whereas the Legislature of this State, have on the Memorial of this Corporation enacted that Stuyvesant Street between the Bowery and the Second Avenue, be one of the Public streets of this City

And Whereas in order that the object of the said Act of the Legislature may be carried into effect it becomes necessary to make applica-

tion to the Supreme Court for the appointment of Commissioners of Estimate and Assessment.

Therefore Resolved that it is desirable for public convenience that Stuyvesant street be opened between the Bowery and the Second Avenue, and the [97] same is hereby directed to be done.

Resolved that the Counsel to this Board make the necessary application to the Supreme Court for the appointment of Commissioners of Estimate and Assessment in the said matter and that the Petition for that purpose be authenticated during the recess of the Board in the usual manner.

The Finance Committee to whom was referred the Petitions of William Hamilton James M^cSorley & others praying a postponement of the Sale of their property for Assessments respectfully

Report.

That the Petitioners are the holders of property situated in the Twelfth ward purchased by them from the late William Bayard, the title of which is now in litigation owing to claims against the estate of M^r Bayard.

They are all poor people who devoted their hard earnings to the purchase of this property of which they may[y] now be wholly deprived, and their case is one of peculiar hardship. The Petitioners are unable at present to [98] pay the said Assessment and pray that the Corporation may extend the time of selling as long as they can by Law, hoping that something may occur to enable them to keep their little properties and to pay those Assessments—The premises in question are advertized for sale on the 22^d of March instant, and the Corporation have power by Law to postpone such sale for any time not exceeding Fifteen months from the 17^th of November last. As the lien upon the property will not be impaired by extending to the Petitioners the indulgence which they ask, and as their situation is one of great hardship, The Committee recommend without hesitation that the Sale of their property and of such other property formerly belonging to William Bayard be postponed until next spring.

They offer the[re]fore the following Resolution.

Resolved that the Sale of the said Lands & premises now advertized to be sold for Assessments on the 22[d] of March instant be suspended and postponed until the 10[th] of February 1832.

[99] The Finance Committee to whom was referred the subject of delaying the Suit now pending for the recovery of Fort Gansevoort presented the following Report against the same.

The Finance Committee to whom was referred the annexed Resolution relative to the suit now pending for the recovery of the premises known as Fort Gansevoort and its appurtenances, Respectfully

Report

That the premises in question are erected upon land formerly covered with water lying beyond High water mark in front of property belonging to John Jacob Astor Esq[r] which was formerly part of the Clinton Farm.

That in 1812 M[r] Astor having what is termed the pre-emptive right to said premises, sold and conveyed the same by a Warantee Deed to the United States for $10,000—That the Government of the United States caused the Fort and other improvements to be erected there and have been in possession ever since. That in February 1829 an application was made to the Corporation by M[r] Astor for a grant of the land under water between the great Kill road & 12[th] Street embracing the whole of the premises in question, upon which application, the then Finance Committee reported on the 30[th] of November 1829 that in their opinion the premises so applied for would be required by the Corporation for public purposes; and a Resolution was thereup[on] adopted by the Board, [100] "that it was not expedient to comply with the prayer of the said Petition". That subsequently the Board passed a Resolution directing the Counsel to take such measures as might be necessary to obtain possession of the said premises; in consequence whereof an Action of Ejectment was commenced by him in the name of the Corporation against an Officer of the United States who has the charge and possession of the said Fort, which Action is now pending in the Superior Court of this City and ready for trial. That at

the last January term of the said Court, when the said cause was about to be tried, Mr Astor applied to this Committee to have the said trial postponed stating that the Covenant of Warrantee, in his deed to the United States had been inserted by mistake or without his intention, as he did not mean to have sold more than his pre-emptive right nor to dispute the rights of the Corporation; that he had applied to the Government to re-convey the premises to him on re-paying them the consideration money they had paid to him with interest; that an Act of Congress would be necessary to authorize such re-conveyance that such an Act was then before the House of Representatives and that he had no doubt of its final passage before the adjournment of Congress

That on obtaining a re-conveyance of the premises under such Act, he would apply to the Corporation for [101] a grant on the usual terms and pay all the back rent, and do whatever else might be reasonably required by the Corporation, his object being to avoid litigation or difficulty, while he was desirous to have the said premises upon fair terms. This Committee thereupon instructed the Counsel to have the trial of the said cause, deferred to a future day, with a view of bringing the subject before the Board in the mean time; And it was for the purpose of obtaining the sense of the Board upon the Communication of Mr Astor, before any further steps should be taken in the suit, that the Resolution hereunto annexed was offered. The Committee have thought it proper to be thus particular in the facts relative to this subject, inasmuch as the suit has been again noticed for trial and is on the Calendar for the present term of the Court, and as Mr Astor has addressed the annexed communication to them, (by which it appears that the Act of Congress applied for by him cannot pass before next Session) with a view of having the said trial again postponed. The Committee would however take occasion to say that Mr Astor has fallen into an Error in stating that he was ready to carry the understanding which he had with the Committee of Finance into effect, as this Committee have never come to any understanding with Mr Astor in relation to this subject, have confined themselves to hearing his propositions, which they now, communicate to the Common [102] Council to have such order made thereupon as may be deemed expedient.

The Committee would merely add that in their opinion a trial of the said cause cannot prejudice any rights which Mr Astor may have, or impede any negociation which may be entered into between him and the United States, relative to these premises, or prevent any future arrangement which may be deemed expedient between him and the

Corporation on this subject. Therefore they offer the following Resolution. Resolved that it is inexpedient to have the trial of the said cause further delayed.

The Minutes of the last regular and special meetings were read and Approved.

Major General Morton Clerk of the Common Council presented the following Report in relation to the transfer by the General Government of the North Battery to the Corporation

[106] New York, April 1st 1831

Sir

Agreeably to the directions of the Committee in relation to the North Battery I proceeded to Washington to negociate for the Cession of that Fort to the Corporation of this City.

It gives me great pleasure to state that the powers given by the Act of Congress to the President to transfer that work were construed by him in that spirit of Justice and liberality, which, while it awakens kind feeling towards our government, tends also to willing and ready exertions for the public weal on any future emergency.

An order was issued for the Department of War, a copy of which accompanies this, directing General Macomb to order the Commanding Officer of the Eastern Department to deliver to the Corporation the North Battery, as soon the Ordnance and Quarter masters stores can be removed from the premises.

An order to that effect has been received from Major General Macomb and the Assistant Quarter Master General informs me, that measures are now taking for the removal of the Stores which will probably be effected by the middle of this month.

I am very respectfully

J Morton

The Honorable Walter Bowne Mayor

Which was Accepted and directed to be filed.

It was then agreed to make it the order of the day at the next Meeting, as was also the Report of the Special Committee on supplying by the Commissioners of the Alms House Provisions and Fuel to the out door Poor.

The Report of the Special Committee on the subject of Hospital money paid by Seamen of the Port of New York presented on the 14th of February last was called up and read [115] as follows.

The Special Committee appointed to confer with the Committee of the Shipmasters and Seamen of New York, relative to the Tax

imposed by the Legislature of the State upon Seamen arriving at this port, beg leave Respectfully to

Report.

That the two Committees have had several conferences together, in which the matter presented for their consideration was duly deliberated upon, and Resolutions passed directing the Chairman to make application to all such Public officers or other sources from which accurate information could be procured relative to the time at which the various State laws imposing a Tax upon Seamen were enacted, and the manner in which the fund thus accumulated has been expended.

The details which have come into the possession of the Committee from the Collector of the Customs, the Comptroller of the State, and from other sources, though not as complete and perfect in all the items as could be desired, are herewith subjoined, and are amply sufficient in the opinion of your Committee to justify them in coming to the conclusions which they beg leave herewith to submit for your perusal referring for the authority upon which their inferences are founded to the statistical [116] documents and tables appended to this Report, and which your Committee conceive will fully substantiate the statements herein made.

The first Law enacted by the Legislature of this State, imposing a Tax upon Seamen including also Passengers, was passed March 30. 1797, and was enacted for the obvious intention and express purpose of defraying the expences necessarily incurred for the treatment and supervision of all such persons either Seamen or Passengers arriving at this Port during the warm season who fell under the provisions of the Quarantine Laws. So long as the funds thus raised were scrupulously applied to this object the Tax could not be considered partial or oppressive upon the class of individuals from whom it was collected. But in the course of time it was found that the fund thus created amounted to a very considerable sum, and left a very large surplus over and above the necessary moneys expended at the Marine Hospital (Staten Island) for the treatment and care of seafaring persons arriving in this Port, during the limited period of four months while the Quarantine Laws were in force. It came also to be observed that that portion of the fund expended for Seamen was exclusively appropriated to such Sick Seamen only as arrived during the Summer and Quarantine Months, that is to such [117] Seamen only as were sick with certain billious malignant or infectious fevers. Though the Quarantine continued but about four months of the year, Seamen were

contributing to the Tax during the whole year, and enjoying the benefit which was intended to be derived from it to these persons for the limited space only of the four months stated, and upon the implied condition that they should be sick of such and such complaints or fevers only as are specified in the provisions of the Quarantine laws. While during the remaining eight months of the year the Quarantine ground and Hospitals, though the Tax continued to be paid, were shut up, and no place was provided for the reception of such sick and disabled Seamen as might arrive within our harbour, though it was during these eight more inclement months that by far the greater proportion of sick and disabled Seamen existed, vast numbers arriving during the Winter, more especially, some frost bitten and others labouring under small pox and various pulmonary and inflamatory affections.

It was thus at the very moment when assistance was most needed and when they were paying also another Tax levied by the General Government, that they were most deprived of relief and Charity. Nor was any place of refuge offered to them during all this rigorous part of the year, [118] except at the City Hospital, and there only in a certain and limited number, and at a stipulated price of Board. For during the whole of the period mentioned eight months in each year, the Hospitals at the Quarantine ground erected out of the accumulated surplus of the Sailors' and Passengers' fund, had and still have their doors closed, and their apartments unappropriated, until each successive period of Quarantine arrives in the beginning of the Summer season.

The following Statement is presented as the estimated amount of Tax collected upon Seamen and Passengers arriving at the Port of New York in conformity to different legislative enactments of the State of New York since March 30th 1797 inclusive to January 1st 1831.

From 1797 inclusive to 1799 the estimated receipts from Seamen and Passengers were $11.000 annually	$22.000.

Add the amount as above received from Passengers during that Period	302.966.82
Total amount of the State Tax upon the Commerce of the Port of New York in 34 years	$828.220.75

Estimating the total number of Seamen engaged in the Commerce of this Port, foreign and Coastwise during the last thirty four years at the number as stated of 434.756, and the number of Seamen annually received as Patients into the Marine Hospital at Staten Island at 200, which is a large estimate, there have been then, during the [121] space of thirty four years 6.800 Seamen only who have enjoyed the advantages of that Institution; while there has been paid towards that Institution and establishment in the same space of time, by the Seamen of this Port, under the State Tax as aforesaid the sum of $302,966.82;

leaving 427.956 Seamen contributors to that Tax who have received no benefit from the fund so accumulated.

Estimating each of the 200 seamen as aforesaid annually received into the Marine Hospital at Staten Island to have remained there two weeks upon an average, we have at the rate of $3, per week for board and medical attendance during the space of thirty four years the sum of $40.000 only expended upon the care and treatment of sick and disabled seamen, at that establishment, during that period of thirty four years leaving a balance out of the State Tax, collected upon Seamen, for the Quarantine Hospital and establishment upon Staten Island aforesaid of $262 166.82 which sum has been diverted from its original and legitimate destination, or, in other words, not appropriated to the care and treatment of sick and disabled seamen, as was the original intention of the Law, so far as respects the Tax levied upon that class of persons—The whole fund raised by the United States Tax upon Seamen since the year 1802 inclusive to January 1. 1831, amounts to $310.709.21; which together with a surplus of $21.000 and upwards, amounting [122] in all to $341,155.69 has been paid over by the Collector of the United States Customs to the Governors of the New York Hospital of this City commencing with the year 1799 inclusive to January 1—1831.

Each Seaman received as a Patient into the New York City Hospital as aforesaid under the United States Law has paid for Board and Medical attendance, out of that fund, at the rate of three dollars per week; which upon the average estimate of two weeks for each patient, gives about 56,859 sick and disabled seamen, who have at different times, during the last thirty years received medical treatment at the New York City Hospital, leaving a Balance of 328.127 Seamen contributors to the United States Tax aforesaid who have received no benefit from the Institution, to which the fund of $341.155.69, created by that Tax has been paid.

The whole amount of Tax, therefore collected upon the seamen of this Port during the last Thirty four years by the Law of the General government which was passed July 16. 1798, and since the passage of the Act of the Legislature of this State March 30. 1797 amounts to $613.676.03 paid by 434.756 Seamen; out of which number of Seamen 63,659 only have received medical care and treatment; while it is a well known fact, that numbers of sick and disabled seamen have every winter during that [123] period, for want of some suitable place to accommodate them, become paupers upon the Charity of the City authorities of New York.

In conclusion under the State Tax, add to the above amount of $613.676.03, the fees and Salary of the Health Officer for 34 years $222,287.11 and the Tax upon passengers for the same period $302,966.82, and we have the sum of $1,138,929.96 or One million, one hundred and thirty eight thousand nine hundred and twenty nine dollars and ninety six cents, paid to the United States and State Governments principally by the Seamen and Ship owners employed in the Commerce of this Port during the last Thirty four years.

The Committee are at a loss to conceive, that any argument could be presented in behalf of *of* the seamen and shipping interest of this port more powerful and conclusive than the simple arithmetical computations herewith submitted to your consideration.

They beg leave therefore to offer for your adoption the following Resolutions.

Resolved that the Common Council of this City do respectfully recommend to the Honorable the Legislature of this State, that the present Law imposing a Tax upon Seamen arriving at this Port be so amended that the whole amount collected [124] upon that class of persons be appropriated to their sole and exclusive benefit.

Resolved that his Honor the Mayor be requested to transmit to the Legislature through the Governor of this State a Copy of the foregoing Resolution.

The Committee on Public Offices & Repairs to whom was referred the Resolution respecting a Room to accommodate the additional Chamber under the new Organization of the Common Council agreeably to the amended Charter presented the following Report.

The Committee on Public Offices and Repairs to whom was referred the annexed Resolution directing the Committee to Report to the Board what Room in the City Hall will in their opinion be suitable to accommodate the additional Chamber of the Common Council under the organization of the New Charter, and an Estimate of the Expence, of fitting up the same in a proper manner

Respectfully Report.

[125] That in their opinion the South East Room on the second floor of the City Hall now appropriated to the Court of Sessions, is the most convenient and proper room for the aforesaid purpose.

That the sum which will be necessary for painting & Repairing the

said Room will be Three hundred Dollars—and for procuring Furniture and drapery to correspond with that of the present Council Chamber the sum of Thirteen hundred dollars will be required. And for altering the said Room in such manner as that its style of Architecture shall correspond with the Chamber at present occupied by the Common Council the additional sum of Three thousand Dollars will be required.

The Committee therefore propose for the consideration of the Board the following Resolutions.

Resolved that the Room in the South East corner of the City Hall on the second floor now occupied by the Court of Sessions be and the same is hereby appropriated to the use of one of the Chambers under the amended Charter.

Resolved that the sum of Four thousand six hundred Dollars be and the same is hereby appropriated for the purpose of altering the Architecture of the said Room and for fitting up the same with Furniture and drapery so as to correspond with the Chamber at present occupied by the Common Council

The Gas Committee to whom was referred back their former Report on the subject of [129] placing Lanterns on the Lamps in Broadway presented the following Report

The Report presented on the 7th March 1831 and referred back to the Committee was in the following words.

The Gas Committee to whom was referred the Resolution to have Lanterns placed on the Lamps in Broadway Respectfully Report.

That they have duly considered the subject and examined some of the Lanterns, which in the opinion of Your Committee are entirely too small, as the heat of the Gas is so great as to break the Glass and renders continual Repairs necessary. They have also had Mr Snethen before them, who corroborates this opinion and is free to say that they ought to be replaced with new ones of a larger size which will not only greatly increase the Light but be sound policy on the score of economy

The[y] accordingly recommend the adoption of the following Resolution.

Resolved that the Superintendent of Lamps under the direction of the Gas Committee be authorized to place new Lanterns, on the Gas Lamps in Broadway of the same dimensions of those now in use in Pearl street

The Lamp Committee to whom was referred the subject of procuring a suitable location for an Oil House presented the following Report.

The Lamp Committee to whom was referred the following Resolution "Resolved that the Lamp Committee be authorised to select some central Location for the erection of a permanent Oil House, and Report the Cost of ground, and the cost & Plans of the necessary Buildings &c for the accommodation of the Department"—Respectfully

Report

That the subject of this Resolution being in [131] the view of this Committee one of some importance, they have given it a careful examination, and have fully deliberated on the advantages likely to result from the removal of the Lamp Department from its present location.

They would lay before the Board the following considerations as the result of their investigations and as the grounds of their Report. The Building in the Park that is now occupied for an Oil House is in a very bad state of Repair, and is not large enough to accommodate the Lighters who are 50 in number, and who must attend every day while lighting and for the want of sufficient accommodations are exposed in Stormy weather without fire or shelter, neither is there any accommodation for laying up a large supply of Oil if at any time the Board should deem such a course advisable, and the Cisterns now used will not hold more than 1000 Gallons.

The Repairing of the Lamps (for which purpose from 25 to 100 are brought in daily, your Committee think ought to be done, in the same building under the charge of the Superintendent of Lamps, but at present for want of sufficient Room in the Oil house, if the repairs to be done should not cost more than 3 Cents (which is frequently the case) the Lamp must be sent to the Tinmans, perhaps the distance of a Mile to have such repairs done.

The present location of the Oil House is [132] at least One mile below the centre of the Lamp District, whereas, for the conveniency of those whose business it is to attend there Your Committee are of opinion that it should be Located somewhere about the Centre—Another strong inducement for the removal of said Oil House is, that in its present state and Location it is a nuisance, and prevents that part of the Park from being permanently improved—Your Committee have selected a Lot of ground in Mercer street, North of and adjoining Firemens Hall the said Lot is 21 by 100 feet, and can be purchased for the sum of $1900 which your Committee consider a fair and just Value of the same.

The Cellar under Firemans Hall is 25 by 60 feet and is not at present occupied, nor likely to be, unless by the Lamp Department, to

which it will be a great acquisition, as it will serve to hold any additional quantity of Oil the Board may see proper to have purchased— The plan of the Building which your Committee would recommend erecting is simply such outside walls as are necessary for a common dwelling house, in order that if the Board should deem it advisable, at some future period to have the Oil House again removed the said building may be converted into a dwelling House.

The end wall of Firemans Hall may be used in building and save at least $500, the [133] cost of the Building when completed will be about $2000, the Cisterns necessary to hold 10,000 Gallons will cost about $500, Having considered the above facts the Committee are of opinion that the present location of the Oil House is a very improper one, they therefore offer the following Resolutions.

Resolved that the Lamp Committee purchase said Lot of Ground in Mercer street and cause a building to be erected forthwith agreeably to Report.

Resolved that said Committee cause the removal of the Oil House as soon as the new Building is finished.

Resolved that an appropriation of $4,500 be made for that purpose.

The Committees on Lands & Places to whom was referred the accompanying Resolution relative to placing an Iron fence on that part of the Park fronting on Chamber street beg leave to Report

[134] That the wooden fence with which that part of the Park is now enclosed, is in a dilapidated condition and not worth the cost of Repairing and the Committee are desirous of putting that ground in order, so as to get it in grass, and set out the trees, which it will not be proper to do until the present fence is repaired or a new one erected in its stead—Your Committee have made the necessary enquiries relative to the probable cost of erecting an Iron fence, to correspond with that now on Chamber street with a large Gate in the centre corresponding with the Gate at the head of Murray street and they find it will cost about $2000, For the foregoing reasons your Committee are induced to offer the following Resolutions Viz[t]

Resolved that the Committee on Lands & Places be authorized to contract for and cause to be erected on Chamber street an Iron fence agreeably to the above Report.

Resolved that $2000 be appropriated for that purpose.

[135] The Aldermen and Assistants of the 5th 8th & 14th Wards to whom was referred the Communication from William W Cowan Assistant Justice relative to the Court Room of the 3d District presented the following Report.

The Aldermen and Assistants of the 5th 8th & 14th Wards to whom was referred the communication from William W Cowan Assistant Justice relative to the Court Room for the third District

Report.

That about two years since, the Common Council leased apartments in the second Story of a small building on Canal street extending into a rear building and the entrance to which is thro an Alley from Howard street for the term of Three years from the first of May then next at an Annual Rent of $250,

Shortly after and before the Court was removed from Church street, an arrangement was entered into with Mr Egbert the then proprietor of the House corner of Grand & Laurens street where the Court is now held by which he agreed to permit the Court to be held in the upper part of his Home which is spacious and Airy without charge to the Common Council. He to be at liberty to let out the Rooms on Canal street for his own benefit, and that under this Arrangement the Court has been holden for the last two years in Grand street

That Mr Egbert has ceased to occupy the [136] house and the owner of the Building has given Notice that possession must be surrendered to him on the first of May next.

That the Lessor of the rooms on Canal street now proposes to erect a three story building to front on Howard street between Broadway and Mercer street of 26 feet in width and at least 40 feet deep, and to appropriate the 2d Story and a room in the 3d Story for the use of the Court, provided the Common Council will take a Lease of the rooms for 5 years from the first of May next at the Annual rent of $250,

the rent to commence from the time the rooms are completed which is to be within 60 days from the first of May the Lease now held to become void.

That we had the proposition of Mr Britten under consideration, and after maturely deliberating thereon, and examining as to the fitness & propriety of the location, do not hesitate to pronounce it as one of the most convenient and Central Sites for a Court room within the District, and that the terms proposed are liberal and ought to be Accepted.

The spot selected being nearly equi-distant from the extreme points of the District, and within the vicinity of two or three leading streets, it affords facilities of approach offered but by few places in the District, and is but little exposed to annoyance from the rattle and noise of Carts and Carriages

[137] We therefore pray leave to offer the following Resolutions.

Resolved that the terms proposed by Henry M Britten as contained in the annexed paper be acceded to, and that the Counsel of the Board prepare a Lease in accordance herewith, and have the same duly executed

Resolved that the Aldermen & Assistants of the above wards be authorized to procure rooms for the use of the Court during the time required for the erection of the building

The Committee on Blackwells Island to whom the Communication from the Board of Supervisors of Kings County relative to the support of their Convicts in the Penitentiary at Blackwells Island, was referred

Report

That they have had the said communication under [138] their consideration, and have had an interview with the Commissioners of the Alms House and Bridewell on the subject, who stated that the greatest

The Finance Committee to whom was referred the Petition of Garret Cronkright to be relieved from the payment of Fine & Costs of suit for selling Spiritous Liquors without being Licensed presented the following Report against the same.

The Finance Committee to whom was referred the annexed Petition of Garret Cronkright asking for the return of the sum of Twenty five dollars and costs of suit, being the amount recovered against him on the 20th of October last past as a fine incurred for selling spiritous Liquors without having been Licensed for that purpose Respectfully Report

That the Petitioner in his Memorial sets forth [150] as the ground of his application to have this money returned to him, that there was a License, regularly issued by his Honor, the Mayor and the Alderman of the 12th Ward dated the 16th June 1830 authorising James Cronkright (who is a son of the petitioner) to sell spiritous Liquors, in the house at the corner of 16th Street, and the 9th Avenue, and further alleges that when the charge was brought against him of selling without Licence, and he was prosecuted thereon before James Flanagan, Assistant Justice of the 12th Ward, he tendered to the said Justice, the said Licence as evidence in his favor, which he the said Justice refused to receive; or permit to be introduced in the case. The Memorial further asserts, that he also demanded from the said Justice the right of his case being tried by a jury of his fellow Citizens, but that the said Justice Flanagan also refused to him his right, but proceeded to try the cause alone, the Memorialist further charges the said Justice with oppressive and arbitrary conduct in issuing execution against him immediately on rendering the judgment against him, being actuated thereto from Motives of personal ill will towards him.

Allegations of so serious a nature brought by a Citizen against one of the Ministers of Justice, your Committee were of opinion called for a severe and minute scrutiny, in order that ample justice, [151] should be rendered to the Complainant provided the matters set forth

in his Memorial should on investigation be substantiated, and with that view, they notified both the parties, who appeared before them, and produced their witnesses, who being examined under Oath gave testimony in relation to the facts which took place at the trial of the Petitioner before Justice Flanagan on the 20th of October last past, on the charge made against him for selling Liquors without License. Your Committee further Report that from the evidence given it was shown most conclusively, that so far from refusing the Memorialist the privilege of a Trial by Jury, a Jury was called, that the Jurors were in Court and about to be sworn when the Memorialist interposed and in express terms waived his right to a Jury altho pressed by the Justice to permit the Jury to be sworn, which he postively declined, and the trial in consequence proceeded before the Judge alone—The fact of selling spiritous Liquors being proved, the Memorialist exhibited in justification a paper purporting to be a License to James Cronkright granted by the proper authorities, but it was shewn by the testimony that from the declarations of the Memorialist himself his son James Cronkright was under age, and could not take a Licence and that the paper which was exhibited as his License, was necessarily void, and therefore could not be received as evidence, it also appeared in this stage of the examination that James [152] Cronkright has purchased goods on credit and refused to pay for the same, pleading infancy as a reason why he could not be compelled to pay.

Much other testimony was given before your Committee which it is not necessary to detail but the whole of which goes to shew that the conduct of Justice Flanagan in every particular in relation to this Matter, was in no degree whatever, oppressive or arbitrary, but on the contrary was prudent and praiseworthy and such as was called for by his situation as a Magistrate.

Your Committee would therefore respectfully Report to the Board that the allegations made by Garret Cronkright against James Flanagan Assistant Justice of the 12th Ward, are in their opinion wholly without foundation, and offer the following Resolution.

Resolved that the prayer of the Petitioner ought not be granted.

[154] The Street Committee to whom was referred the Petition of Patrick M°Barron to be allowed for damages done to Pavement of Hester street in consequence of Engines running over the work while in an unfinished state presented the following Report in favor of the same.

The Street Committee to whom was referred the Petition of Patrick M°Barron to be allowed for damages done to the pavement of Hester street Respectfully Report.

That the Petitioner is the contractor for repaving Hester street, and that while progressing with the work the Block lying between Eldridge and Allen streets being paved and rammed, but not yet covered with gravel (it being late of a Saturday evening) it was left in that situation with the usual barriers to prevent the passage of Carriages intending to cover it on Monday morning, on Sunday it commenced raining and continued to rain the two succeeding days in the mean time there were several Alarms of Fires the barriers were

thrown down and the Engines passing repeatedly over the pavement and thereby breaking it up, and rendering it necessary to repave the whole of the Block.

Your Committee are satisfied with the statement of the Petitioner, and are of the opinion that he is justly entitled to be remunerated for [155] the expence of repaving that Block, inasmuch as it does not appear that there was any neglect on his part they therefore recommend the adoption of the following Resolution.

Resolved that the sum of Forty five dollars be paid to Patrick McBarron for damages sustained by him in consequence of the pavement being broke up in Hester street by the Fire Engines, and that the Comptroller report a Warrant for that Amount

The Street Committee to whom was referred the Petition for and Remonstrance against extending Broadway from 10th to 53d Street presented the following Report against the same

The Street Committee to whom was referred the Petition for and remonstrance against the extending of Broadway from 10th Street to 53d Street near the Four mile stone Respectfully Report

That in the opinion of your Committee the opening and continuing of Broadway as proposed by the Petitioners would not be attended with public convenience or with that individual interest [157] which some of them have anticipated and forasmuch as it would require Legislative aid to alter the Map or plan of that part of the City, and as the proposed line of extension would run in a diagonal line across all the Blocks of ground for more than one and a half miles and thereby destroying that symetry in which the Island is laid out, And inasmuch as that there appears a Majority of more than four to one of the persons interested who are opposed to the Measure, Your Committee are induced to recommend the adoption of the following Resolution.

Resolved that it is inexpedient to open and extend Broadway to 53d Street.

The Finance Committee to whom was referred the Petition of Patten & Burges to be compensated for extra work done to Pier at the Washington Market presented the following Report against the same.

The Finance Committee to whom was referred the Petition of Patten and Burges to be compensated for extra work said to be performed by them to the Pier at the Washington Market

Respectfully Report.

That Patten & Burgess entered into Contract with [173] this Board in 1829 to build a Wharf or Pier in front of the Washington Market for the sum of $10,286—in performing the contract the outer block owing to some cause, moved further out than was intended, to the distance of about thirty feet making it necessary to lengthen the connecting Bridge, for which they now ask compensation. It appears that the outer Block which was to have been worked up to 30 by 40 feet at the top is in fact but 29 by 29 feet, the outer bridge having of course to be extended, the length of more than fifty feet whereas it should have been the 30 feet as per Contract. Whatever might have been the difference of expence to the contractors—Your Committee believe the public are not benefitted, but on the contrary, the Pier is of less Value than it would have been had the contract been complied with; And forasmuch as Patten & Burgess have been paid the whole amount according to contract more than a year since, and no intimation having been given until now that they had been sufferers by the contract

Your Committee therefore believe that the petitioners are not entitled to any extra compensation, And accordingly submit the following Resolution.

Resolved that it is inexpedient to grant the request of the Petitioners.

[174] The Finance Committee to whom was referred the Petition of Henry Pratt for deduction from rent for District N° 4 Public Wharves &c presented the following Report in favor of the same.

The Finance Committee to whom was referred the Petition of Henry Pratt the Lessee of District Number Four of Docks & Slips praying for a deduction from his rent Respectfully Report.

That the said District was leased to the Petitioner for the year commencing on the 1st May 1829 at the yearly rent of $6100. That after he had become such Lessee vizt on the 20th of April 1829 a Pier at Washington Market was ordered to be built for which a contract was entered into on the 25th of May following and that the work was shortly after begun and not finished until the month of January following. The Petitioner complains that by reason of building this Pier, the Slip was obstructed for the best part of the year; and for the loss sustained thereby, and also in consequence of the Pier at Albany Basin being occupied for depositing Manure for a much longer time than was reserved in the Lease he claims a deduction from his rent. The Committee have carefully enquired into all the circumstances, and from their examination they are satisfied that Mr Pratt did sustain a loss from the causes stated in his Petition which loss they are of opinion should be made good to him by the [175] Corporation; They have endeavoured to ascertain as nearly as possible the amount which should be awarded to Mr Pratt as a fair indemnity for the injury he has sustained and after hearing Mr Pratts own statements and collecting all the information in their power on the subject they have concluded that the sum of $800 should be allowed for this purpose, and deducted accordingly from the rent still due. They offer therefore the following Resolution.

Resolved that the sum of Eight hundred Dollars be deducted from the Rent still due for District N° 4 of Docks & Slips for the year

ending May 1st 1830 in settlement of the above claim of Henry Pratt the Lessee, provided that the balance of such rent after making such deduction, be paid without delay by the said Lessee.

A Petition of Fisherman in Centre Market for a Wood floor in place of the present brick one was read and referred to the Market Committee

The Finance Committee to whom was referred the Petition of sundry Masters of Vessels praying to be relieved from the payment of Wharfage presented the following Report against the same

The Finance Committee to whom was referred the Petition of sundry Masters of Vessels employed in the Marketing trade to be relieved from the payment of additional Wharfage over and above their yearly rate—Respectfully

Report.

[188] That the Petitioners represent that in consequence of the unusual quantity of Ice in the Slips they were compelled to remain there with their Vessels for more than Fifteen days successively, by reason of which they have incurred Wharfage in addition to the yearly rates paid by them, and they pray the Common Council that such additional Wharfage may not be collected from them by the Lessee of the District, Your Committee are of opinion that the Common Council have nothing to do with this matter and that it rests entirely between the Lessee of the District and the Petitioners. They offer therefore the following Resolution

Resolved that it is inexpedient to grant any relief on the said Petition.

The Finance Committee to whom was referred the Petition of Thomas C Taylor for a Water Grant at Greenwich presented the following Report in favor of the same.

The Finance Committee to whom was referred the Petition of Thomas C Taylor praying for a Water grant Respectfully Report.

[189] That Mr Taylor as the Committee have been informed is now the owner of certain premises granted by the Corporation to the late William Bayard and laying between Great Kill Road and Jane street and between High & Low water mark, and that he has paid up all the arrears due for Quit rent on that property. He now applies for a

grant of the land under Water in front of the said premises, and to extend to the permanent line provided the proprietors on the North side should be compelled to have their grants similarly extended.

The Committee conceive that it would be proper to give to Mr Taylor as the owner of the adjacent land, a grant in the usual manner, and on the usual terms without reference to what may be done respecting any other property. They offer therefore the following Resolution.

Resolved that the Counsel of the Board prepare a Grant to Mr Taylor in conformity with this Report he paying the expences thereof, and that the same be authenticated during the recess of the Board.

The Finance Committee to whom was referred the Petition of Thomas Hertell to commute [190] for a portion of Quit rent on a Water Grant bounded by Chamber, Reed, Washington & West streets presented the following Report against the same.

The Finance Committee to whom was referred the annexed Petition of Thomas Hertell that he may be permitted to commute the Water rent reserved and payable on a certain portion of a Water grant formerly issued by the Common Council

Respectfully Report.

That on examination of the reasons which have induced the application of the Petitioner it appears that on the 16th of November 1807 a grant was issued to Wm Rhinelander, for the Land under Water in the block bounded by Chambers, Reed, Washington and West streets, which grant contained a clause, that certain, sums of money should be reserved, and payable annually forever as rent to the Corporation, it further appears that Mr Hertell has become the purchaser of sundry Lots of ground, which lie within the boundaries of the above grant, and is willing to pay such amount of money, by way of commutation as might be chargeable against the Lots of which he is the owner, contained within the said Grant—However desirable it might be to consult the wishes of the petitioner in this matter, it appears to be a settled rule (and has been so laid down in several successive opinions of the Counsel for the Corporation) that the Common Council can accept [191] of a Commutation with safety only when the whole

rent reserved in the grant is to be commuted and paid off, and not upon any subdivisions thereof. Your Committee are compelled to Report against the prayer of the petitioner and offer the following Resolution.

Resolved that the prayer of the Petitioner cannot be granted.

The Finance Committee presented the following Report recommending an Appropriation of $500 for the Rev[d] John Stanford.

The Finance Committee beg leave to Report to the Board that it has been usual for several years past to make an annual Donation to the Rev[d] John Stanford as a Compensation for his valuable services in attending the various Prisons and Public Charitable Institutions of this City as a Minister of the Gospel. That M[r] Stanfords health is now so impaired as to prevent him from performing those duties, and the probability is that his advanced age and infirmities may soon terminate his earthly career; But that it would be proper in the opinion of the Committee in consideration of his past labours, and the great [192] benefit which the community has derived from them to appropriate the usual sum (Five hundred Dollars) for M[r] Stanford, it being now more than One year since a similar appropriation was made, They offer the following Resolution therefore

Resolved That the Comptroller Report a Warrant in favor of the Rev[d] John Stanford for the sum of Five hundred Dollars.

The Finance Committee presented the following Report relative to the disposition of the Common Lands in the 12[th] Ward.

The Finance Committee respectfully report to the Board, that they have had under consideration such a disposition of the Common Lands in the 12[th] Ward as they think will be most conducive to the public interest. The Commissioners of the Alms House have several Lots under their charge, which are in a state of improvement and the Com-

mittee recommend that they be continued under the same direction. They are as follows. The west part of N° 31 and 32 on the Middle Road. No. 16. 17. 18. 21. 22 at the Cross [193] Road, between the Middle Road & Bloomingdale Road. N° 37. 42. 43 Containing 11¾ Acres on the Middle Road. N° 69. 70. 75. 76. 81 4th Avenue near Pottersfield. N° 106. 111. 112. 117 Hamilton Square.

With respect to the residue which are unappropriated, the Committee believe it to be most judicious to authorize the Comptroller to receive proposals for Leasing them from the first day of May next for 21 years. By placing them in a state of improvement a benefit would arise not only to the Revenue of the City, but individuals may be induced to cultivate the Land, and render it advantageous to themselves and the Community.

The following Resolutions are therefore proposed.

Resolved that the Lots of Common Land above mentioned under the charge of the Commissioners of the Alms House, be continued under the same direction.

Resolved that the Finance Committee be authorised to receive proposals for Leasing the following Lots of Common Land for 21 years from the 1st day of May next and that they Report to the Board previous to completeing the contracts. Lots N° 84. 85. 91. 129. 156 159. 161. 165. 166. 167. 168. 169. 171. 173. 175. 177. 187. 188.

The Committee on Assessments to whom was referred the Petition of James Killen to be relieved from an erroneous Tax Respectfully

[196] Report

That M[r] Killen appeared before the Committee and testified that he was Taxed on his property N° 74 Ludlow street in the 10[th] Ward,

& that he was not allowed his privilege as an Artillerist. The Certificate of the Assessors admits that they did not allow the deduction from the Tax on Mr Killens property in consequence of his being an Artillerist

Mr Killin testified that he spoke to the Assessors and informed them that he was an Artillerist while they were making their Assessment but that through inadvertence they omitted to mention it. The Committee offer the following Resolution.

The Committee on Assesments to whom was referred the Petition of John P Baker to be relieved from the payment of an erroneous Tax presented the [198] following Report in favor of the same

The Committee on Assessments to whom was referred the Petition of John P Baker to be relieved from Tax Respectfully Report

That Mr Baker appeared before the Committee and testified that he was Taxed on personal property in the Sixth Ward on $2000, and that he was not worth more than $300,

He further testified that he was in Town while the Assessors Books were open, but that being a labouring man and very imperfectly acquainted with the English language, he did not know of the method of applying to the Assessors for relief.

The Certificate of the Assessors corroborates his statement and the Committee believing him entiled to relief offer the following Resolution.

Resolved that the personal Tax of John P. Baker in the 6th Ward be reduced from that on $2000, to that on $300,

On Motion of Mr Arcularius the Report of the Committee on Wharves Piers & Slips which was Laid on the Table on the 7th September 1829 relative to building Piers at Harrison Provoost & North Moore streets was called up and read as follows

The Committee on Wharves Piers & Slips respectfully Report on the several Petitions for building Piers into the North or Hudson River from the foot of Harrison Provoost and North Moore streets respectively and also the remonstrances against the same.

That in accordance with their former Reports they are of the opinion that the necessities of that section of the Water front of the City imperiously require some better accommodations than the present unprotected Bulk head affords, to the Vessels frequenting that place for the delivery of their Cargoes of Lumber fuel &c. For the foregoing considerations, and from a conviction that the public as well as individual interest would be subserved by directing the said Piers to be built at the places designated—Your Committee are induced to recommend the adoption of the following Resolutions.

[204] Resolved that Piers or Wharves be built and extended into the North or Hudson River Two hundred and fifty feet from the foot of Harrison street Provoost street and North Moore street at the individual expence of all the proprietors of Grants of Water Lots lying and fronting on the Hudson river between Jay street and Hubert Street.

Resolved that due notice be given by the Street Commissioner to all the proprietors of the Lots interested in the building of the Piers designated by the foregoing Resolution, that they commence the building of the same on or before the first day of June next and that they be completed within Six months thereafter.

On Motion of Alderman Stevens the Report of the Special Committee appointed to confer with the Commissioners of the Alms House in relation to Fuel and Provisions given to the poor and Laid on the Table on 3d March last was called up [205] and read as follows.

The Special Committee appointed on the Resolution of Alderman Stevens to confer with the Commissioners in relation to the fuel and provisions given out to the poor during the late severe weather

Report.

That they had an Interview with the Commissioners, and examined their establishment and mode of relieving the poor; and although the suffering and severe weather has gone by, they yet deem it their duty to present to the Board the result of their observations.

They found that during several days of the cold weather the Commissioners relieved fourteen or fifteen hundred persons—Their donations of wood, for the space of six or seven weeks was about Three thousand loads; and that both vegetables and money to a considerable amount were given out during the same period, and all from the Old Alms House in Chambers street

They remark, that it is desirable that the system of the Commissioners giving to the out door poor, should not be extended; that they should as much as possible confine the public Charities to the Public Alms House, and the fewer exceptions to this rule the better, although unusual severe seasons, like the past, will call for unusual relief.

But the objections to the out door relief, is first; the impossibility of the Commissioners judging of Fourteen hundred cases in a day; and in the next place it [206] leads persons instead of trusting to their labour and industry, to look to this mode of support, more expensive to their friends and the public than their support in the Alms House would be, and no doubt, leads to arts and tricks to impose on the Commissioners and by degrees breaks down the pride of an individual and leads him without remorse to live on Charity. Still the system must probably, to some extent be kept up, and it is desirable to put it on the best footing to accomplish the objects of affording temporary relief to temporary suffering, and to accomplish this end, Your Committee are fully satisfied that the Commissioners Office should be removed to some more central point, in reference to our poor population. The Commissioners by being near to the poor could the more easily have them visited. The sick and the aged could the more conveniently apply to them. No good reason can be offered why the poor should be made to come to this lower end of the City, generally too in the most severe season of the year, and there be obliged to wait on an average two hours before their cases can be enquired into. The Committee in another season should so arrange their department as not to have, as has sometimes been the case, a thousand persons at one time waiting to be relieved.

As relates to fuel, your Committee think that hereafter, coal would be cheaper than wood, and the sooner the poor learn to use it the

better, but [207] on this subject, they would take the opinion of the Commissioners.

As our Alms House cannot accommodate more than has been in it during the last month say 2.600, it becomes necessary, for the reasons above given, to provide for the wants of the out door poor, as well as to provide for the increase of poor growing out of the increase of population, and increase of emigration, and those of a destitute description. An increase of the Alms House accommodations can be had, by making other provision, separate from the Alms House, for the pauper Children; and this measure your Committee earnestly recommend, not only for the above reason, but because the children are at present improperly located.

Our Alms House contains principally in one building 2.600 persons. The children occupy contracted buildings between the Alms House and the Penitentiary, and Female State Prison, and the City Prison or Bridewell, all enclosed by high fences, well calculated to produce the diseases so frequent among these children, and which has rendered some of them blind and paupers for life. The children are of an age when they are or ought to be in high health, and their constitutions made rugged by exercise and exposure, and prepared to be bound out to Merchants and farmers. Their number (attending Schools) amounts to 320 and is a very interesting part of our establishment for the poor.

[208] They are not there from idleness intemperance or crime committed by them.

All proximity to degradation sickness and disease, but more particularly to vice and immorality, should be studiously avoided. In addition to the children who attend school there are 280 others in the house and 200 more at nurse so that it appears there are 480 others who will require soon to be taught in the Alms House School.

Your Committee recommend that a suitable building be erected on the further or Easternmost end of Blackwells Island to accommodate all the poor Children belonging to the Alms House establishment.

They have selected this situation because the children will then be removed from the prisoners and have ample room and because it is a healthfull situation; and they there may be made to do so much labour as will improve their healths and constitutions; and also because the Penitentiary prisoners can principally erect the building with stone of their quarrying, causing but little expence to the City

The Committee in conclusion recommend on the different subjects embraced in this Report.

1st That the Commissioners of the Alms House enquire and report a suitable place for the Commissioners Office for the ensuing year

2d That the Commissioners of the Alms House (if in [209] their judgment they deem it expedient) provide coal and stoves if necessary as a substitute for wood for the ensuing Winter.

And 3d *[—That the Commissioners report to this board a plan for a House & School for the Alm's House Children, and the probable cost in money to erect the Same on Blackwell's Island.]

All which is respectfully submitted

Fyler Dibblee

Whereupon the Report was approved the Resolution amended and adopted.

On Motion the Report of the Street Committee on the subject of widening Ann street from Nassau to William street which was laid on the Table on 4th April last was now called up and read as follows

The Street Committee to whom was referred back their report of the 15th November last on the subject of widening and improving Ann street between Nassau street and William street for their reconsideration, have duly and carefully reviewed the same, with the reasons for and against the improvement by the parties to be principally affected thereby, and although your Committee are decidedly of the opinion that the contemplated improvement would if carried into effect, be attended [210] with material benefit to the owners of the property in that vicinity, as well as to the public generally.

Yet forasmuch as there appears to be a majority of the owners of the property remonstrating against the same. Your Committee are reluctantly induced to submit the following Resolution

Resolved that it is inexpedient to grant the request of the Petitioners to have Ann street widened between Nassau street and William Street

The Report presented this day was as follows

*[329] The Street Committee respectfully Report on the subject of widening and improving Ann street between Nassau street and William street, that they have given it their further deliberate consideration, and in order to reconcile the various conflicting interests and feelings of the persons particularly affected by such improvement they propose to recommend a partial deviation from their former Report as follows viz[t] That the widening on the Southerly side should terminate at the North west corner of the Dutch Church Yard by which the Fences trees & Vaults belonging to that Church will remain undisturbed the which it is understood will meet the wishes of the remonstrants without materially affecting the improvement—The widening on the Northerly side to remain the same as recommended in their former Report

Your Committee accordingly submit the following Resolutions

Resolved that it is desirable for public convenience that Ann street be widened and improved between Nassau street and William street and the same is hereby ordered to be done.

Resolved that the Counsel to this Board make the necessary application to the Supreme Court for the appointment of Commissioners of Estimate and Assessment in the said matter and that the Petition for that purpose be authenticated during the recess of the Board.

Be it Ordained by the Mayor Aldermen and Commonalty of the City of New York in Common Council convened—That the sum of Five thousand Dollars be and the same is hereby appropriated for the repairing and improving the Roads and Highways on this Island.

The Finance Committee to whom was referred the Petition of Joseph Townsend to postpone for the term of one year the payment of Monies due the Corporation presented the following Report against the same.

The Finance Committee to whom was referred the Petition of Joseph Townsend to postpone for the term of one year the payment of the sum of [221] $1310,^{71}/_{100}$ due by him to the Corporation

Respectfully Report

That on examination they find the following to be the facts, in relation to this matter—At the sale of Lots for Assessments which took place on the 22^{d} of last month, the petitioner bid off four several Lots of ground viz Two on the Bowery between 8th & 9th Streets, One on the Northerly side of 8th Street, and One on the Southerly side of 8th Street, extending to Lafayette place, and Art Street, the whole amount of which purchases is the above mentioned sum of $1310,^{71}/_{100}$ That the terms of sale were made known to all bidders viz, That the amounts due, and for which the Lands were sold, should be paid

immediately after the close of the Sale, this your Committee have ascertained was known to the Petitioner at the time of his bidding and no reason exists why he should not comply with the terms of the Sale in like manner with all other purchasers.

They offer the following Resolution

Resolved that the prayer of the Petitioner be not granted and that the Counsel to the Board adopt the necessary measures to Collect from him the Amount due

Which was Approved and the Resolution Adopted

[222] The Finance Committee to whom was referred the Petition of Daniel W Kissam for the apportionment of Assessment in Opening 5th Avenue from 13th to 21st Street presented the following Report in favor of the same.

The Finance Committee to whom was referred the annexed Petition of D W Kissam for the subdivision of an Assessment Respectfully

Report.

That in the proceedings, had before the Supreme Court for opening the 5h Avenue from 13th to 21st Street a plot of ground, lying on the West side of the 5th Avenue and between 19th and 20th Streets was charged as belonging to Alexander Hamilton in the sum of $296,81 1/100 that the said piece of ground has since been laid out into Lots and sold under a decree in Chancery—That the petitioner is the present owner of Four Lots, James H Lyons of Two Lots and Nicholas Stripple of Two Lots which 8 Lots comprise all the ground included in the Assessment and they are willing to pay respectively their just proportion. Your Committee have made a Division of the same as follows.

To D W Kissam on 4 Lots	$115.87
J H Lyons on 2 Lots	80.05
N H Stripple on 2 Lots	100.89
	$296.81

[223] and interest thereon respectively from November 1st 1830

This apportionment, has been laid before all the parties concerned, and is approved by them all—Your Committee would therefore offer the following Resolution.

Resolved that the Collector is hereby directed to receive the

amounts in the manner, and from the persons above named, and that he give them receipts in full for the same.

Which was approved and the Resolution Adopted

On Motion the Report of the Ferry Committee on the Williamsburgh Ferry together with the Remonstrances on the subject were referred to the Ferry Committee.

Upon the Petition of William Reed for leave to assign his Interest in the Hell Gate Ferry to Stephen Smith presented at the last Meeting and referred to the Ferry Committee it was Resolved that Authority be given to the Committee to direct the Assignment to be made if in their opinion proper.

The Report of the Ferry Committee on the Petition of S & R M Blackwell for extension of their Lease of Hell Gate Ferry presented on 4th April and laid on [224] the table was called up and read as follows Vizt

The Ferry Committee to whom was referred the Petition of S & R M Blackwell for an extension of the Lease of the Hell Gate Ferry

Respectfully Report

That the Committee at the request of the Messrs Blackwells visited the Ferry at Hell Gate and found it in good order and well attended.

It appears by the Statement of the Messrs Blackwells which the Committee believe Correct, that they have expended on the Ferry, in pursuance of the directions of the Common Council during the past year $2864.41 being an excess of $664,41 over and above the sum allowed by the Corporation—In consequence of the above expenditure and in consideration of the loss of nine months business while the Ferry was undergoing repairs, the Petitioners request the Common Council to grant them an extension of the Lease of the said Ferry for the term of Six years in addition to the remaining Nine years from the first of April next for which they at present hold a Lease.

The Ferry has now been in operation for a period of nine Months since the Repairs have been completed, and although the proprietors have two good Boats in operation, and in every respect the Ferry has been conducted under the most favorable circumstances for the accommodation of travellers, yet the Receipts have not [225] exceeded if they have reached two thirds of the interest of the money expended

on the Ferry, and the actual expences attendant on its ordinary operation.

Independent of the sums paid for the Boats and fixtures which constitute the Capital of the proprietors in the Ferry, they have for the last two years given their personal exertions, and have not calculated the same in the amount for which they have failed to receive two thirds of the Interest. Judging therefore from the past, the Committee are warranted in concluding that it will be several years before the Ferry will be sufficiently productive to cover its actual expenses and the interest of the money originally invested. From the above statement, the Committee do not hesitate to avow the opinion that the request of the Petitioners is reasonable and proper, and ought to be granted. It is unnecessary to enter into detail of the various reasons which might be urged in favor of granting to the proprietors the desired extension, as the Justice and propriety of preventing them from persuing a ruinous business merely to accommodate the public will be apparent and need not be urged.

On the other hand, it is for the interest of the whole community that the various Avenues to our City, should be in the best possible condition, and that every facility should be afforded to the free ingress and egress of the residents of the surrounding Country.

While therefore justice to the liberal proprietors [226] of the Hell Gate Ferry can be extended without detriment to the interests of the community, the Committee believe it will be cheerfully afforded by the Board.

They therefore offer for the consideration of the Board the following Resolution

Resolved, That the Lease of the Hell Gate Ferry be extended for the term of Six years in addition to the term for which it is now held by Samuel Blackwell subject to an annual Rent of One hundred Dollars and that the Counsel of the Board prepare a Lease to the Mess^{rs} Blackwells in conformity with the above conditions.

The Counsel presented the following Report relative to opening Stuyvesant street.

The Counsel of the Board respectfully Reports—That inasmuch as Stuyvesant street in the Eleventh Ward, which has lately been created by Law, one of the public streets of this City and has been ordered to be opened by the Common Council, is not one of the Streets laid out by the Commissioners of Streets and Roads under the Act of April 3d 1807 and is not situated in that part of the City not so laid out by the said Commissioners, the terms of the law authorising the opening of Streets by Commissioners of Estimate and Assessments do not apply to it; and that it would not be safe to proceed with such contemplated opening without first obtaining an Act of the Legislature declaring that the said Law shall apply to the said street—The following Resolution is therefore respectfully submitted for the consideration of the Board

"Resolved that the Counsel to the Board be and he is hereby authorized to take such measures as may be necessary to obtain the passage of such an [231] Act before the adjournment of the present Legislature"

The Street Committee to whom was referred the Petition of Seth Geer and others for permission to inclose a Court of fifteen feet wide in front of the Buildings to be erected fronting on Lafayette Place presented the following Report in favor of the same accompanied with an Ordinance on the subject.

The Street Committee to whom was referred the annexed Petition of Seth Geer and others owners of Lots fronting on Lafayette Place requesting that they may be permitted to inclose a Court of [234] fifteen feet wide in front of all the Buildings to be erected on that Street or Place.

Respectfully Report.

That they have duly considered the subject and are satisfied that the request of the Petitioners is in accordance with an express understanding of all the owners of the grounds through which that Street was opened in 1826 with the then Corporation and was the principal inducement in opening it 100 feet wide, that they might have elegant and spacious Courts in front of their buildings leaving the unobstructed width of the Street 70 feet and which your Committee believes is sufficiently wide for all the purposes of a public way—And as the proposed plan of Buildings when carried in effect will be highly Ornamental to our City, and inasmuch as the public interests will not in any respect be injured by granting the request of the Petitioners and accordingly submit for consideration the following Resolution and draft of an Ordinance in accordance therewith.

Resolved that the request of the Petitioners be granted and that the Law or Ordinance of which a draft is hereunto annexed be passed.

The Street Committee to whom was referred the Petition of owners of property in Pine street to have the same widened between William & Nassau street presented a Report in favor of the same which was read and Laid on the Table.

[236]The Street Committee to whom was referred the Petition of Owners of property to have William street widened from Old Slip to Exchange street presented the following Report in favor of the same.

The Street Committee to whom was referred the annexed Petition of sundry persons to have William street widened and improved between Stone street and Exchange street and the remonstrances against the same Respectfully Report.

That they have given the subject their deliberate consideration and are of the opinion that it would be a great public improvement as well as individual benefit to have that part of William street widened it being a great thoroughfare and is only on an Average at present but about 28 feet is often rendered impassible for Carts but with great delay and inconvenience.

Your Committee therefore recommend the adoption of the following Resolutions.

Resolved that it is desirable for public convenience that William street be widened and improved between Exchange street and Stone street according to a Map or plan herewith submitted and marked A and the same is hereby ordered and directed to be done.

Resolved that the Counsel to this Board make the necessary application to the Supreme Court [237] for the appointment of Commis-

sioners of Estimate and Assessment in the said matter and that the Petition for that purpose be authenticated in the usual manner during the recess of the Board.

The Committee on the Fire Department to whom was referred the subject of Leasing part of Lot N° 106 Reede street not wanted for an Engine House presented the following Report.

The Committee on the Fire Department to whom was referred the Leasing of that part of Lot N° 106 Reede street not wanted for Engine House N° 6

Respectfully Report.

That they caused application to be made through their Chairman to the Corporation of Trinity Church for a renewal of the Lease, and they have obtained a renewal for Twenty one years commencing at the expiration of the present vizt on 1st May 1835 at the yearly rent of One hundred and twenty five Dollars, that the Fire Engine House ordered to be built by the Common Council is nearly finished & that

Mr Andrew Stevens has offered One hundred Dollars per Annum for that part of Lot not wanted for the Fire Company including four feet in the rear of the House for the term for which the Corporation have Leased the same, this price in the opinion of your Committee is a [239] fair one and ought to be accepted, they accordingly offer the following Resolution for the consideration of the Board.

Resolved that a Lease be granted to Andrew Stevens for Twenty five years commencing 1st May 1831 at One hundred Dollars per annum for that part of Lot No 106 Reede street as may not be wanted for Fire Engine House No 6 and that the same be authenticated during the recess of the Board

The Finance Committee to whom was referred the Petition of Mrs Smith widow of the late Lemuel Smith Corporation Attorney for a balance due the estate of her late husband presented the following Report in favor of the same.

The Finance Committee to whom was referred the Petition of Mrs Smith widow of Lemuel Smith Esqr deceased late Attorney to the Corporation praying that a Balance due to the estate of her late husband by the Corporation for Costs on sundry suits might be paid to her Respectfully Report

[240] That they have caused the particulars of this claim to be examined by the Counsel of the Board who has procured a statement of the different suits and of the amount of Costs claimed in each case which statement is hereunto annexed and which he has ascertained to be correct—It appears that the costs due Mrs Smiths estate in those cases amount to $202.61 against which there stands a balance of $90.55 due by Mr Smith to the Corporation on his Account for the month of June 1830 making the balance now due by the Corporation to the Estate of Mr Smith amount to $112.61

The Committee have also caused due enquiry to be made as to the legal right of the present petitioner Mrs Smith to receive this balance and it appears that administration has been duly granted to her upon her husbands estate which makes her the proper person to receive the same. The Committee therefore offer the following Resolution.

Resolved that the Comptroller report a Warrant in favor of Mrs

Smith widow of Lemuel Smith Esq[r] dec[d] and administratrix of his Estate for the sum of One hundred and twelve Dollars and Sixty one cents being the balance due such estate by the Corporation

The Report of the Road Committee relative to working the 10th Avenue which was laid on the Table on the 10th January last was now called up and read as follows.

The Road Committee to whom was referred the Petition of sundry persons to have the 10th Avenue worked into a Convenient road or Carriage way [244] between the 52d & 71st Streets Respectfully Report

That they advertised for and received estimates for working the said Avenue varying from $5950 to $1,175 and they are of opinion that for public convenience and individual accommodation that Avenue ought to be made into a passable Road, inasmuch as that it has been opened for many years and rendered passible only to 52d Street and as the sum for which the work can be performed is much less than was anticipated Your Committee think it would be advisable to enter into a Contract for the same at the lowest estimate and accordingly submit the following for the consideration of the Board.

Resolved that the Tenth Avenue be worked into a convenient Road between the Fifty first and Seventieth [Streets] at an expence not exceeding Eleven hundred and Seventy five Dollars.

The Minutes of the last Meeting was read and Approved

The following Communication was received from Major General Morton on subject of delivery of the Fort at the foot of Hubert street called the North Battery which were read and it was Resolved that the *the* several Documents in relation thereto be entered at length on the Minutes and afterward filed in the Comptrollers Office.

[249] The Law of Congress is in the words following

*[Whereas the Mayor and Corporation of the City of New York, on the sixth May, one thousand eight hundred and eight, did convey to the United States, a lot of land at the foot of Hubert street, in

* Supplied from the *Acts passed at the First Session of the Twenty-First Congress of the United States.*—ED.

the City of New York, called the North Battery, " so long as the same should be used and applied to the defence and safety of the port of New York, and no longer."

Be it therefore enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That, whenever the President of the United States shall determine that the said lot is no longer useful for the purposes aforesaid, he be, and he hereby is, authorized to cause the same to be re-conveyed to the Mayor and Corporation of New York, the works thereon to be dismantled, and the materials thereof to be disposed of, in such manner as, in his judgment, the public interest may require. Approved, May 10, 1830.]

Order from the War Department

Department of War March 28. 1831

Sir

You will direct the Commanding Officer of the Eastern Department to deliver to the Corporation of New York the North Battery (in conformity to an Act of Congress passed at its last Session) as soon as the Ordnance and Quarter Masters Stores can be removed from the premises.

very Respectfully

Sir:

Head Qrs. Eastern dep't of Army,
New York, April 22, 1813.

I have the honour to report, that I shall be ready, on demand, after this day, to deliver to the Honorable, the Corporation of New York, "The North Battery" in conformity with the act of Congress & instructions received by me to that effect.

Major Henry Stanton, quarter master of the United States Army, whose office is in No 61, Washington Street, is appointed by me to make the delivery to any person who may be designated to receive the Battery.

I have the honour to be,
Sir
With high respect,
your most ob. Serv.t
Winfield Scott

His Honour
The Mayor of N. York.

This document, found among the loose papers in the custody of the City Clerk, is here reproduced for the first time. On May 6, 1808, the city conveyed to the Federal government a piece of land at the foot of Hubert St. for "so long as the same should be used and applied to the defense and safety of the port of New York, and no longer" (pp. 661-2). The North Battery, as this came to be called, was one of a chain of forts built by the Federal Government during the War of 1812 to protect the city from an expected attack by the British. Like Castle Clinton, it had become no longer of strategic importance since the erection of fortifications at the Narrows. Therefore, at the request of the Common Council, it was reconveyed by Act of Congress to the Corporation of New York. General Scott was given instructions that resulted in this communication to Mayor Bowne. For references in this volume see pages 349, 376, 584-5, 661-3. A photograph of the North Battery appears in King's *Handbook of New York City*, page 32.—Ed.

The Finance Committee to whom was referred the subject of the claim of Enrico Causici for making a Colossal Statue of Washington presented the following Report against the same.

The Finance Committee to whom was referred the annexed Communication from Henry M Western Esqr to the Mayor claiming compensation for Mr Enrico Causici for a Colossal Statue of Washington, Respectfully Report

That they have carefully investigated the [261] circumstances upon which the claim is founded having been attended by Mr Western as Counsel for Mr Causici, and heard the testimony of the Witnesses produced on his behalf. It appears that in the years 1823 and 1824 Mr Causici was engaged in making a Model of a Colossal Equestrian Statute of Washington which was for some time erected in the Park, and for the labor Materials and time bestowed upon this work Mr Causici now prefers a claim against the Corporation amounting in the whole to $5944, as appears by his bill annexed hereto. In order to ascertain how far any Act of the Corporation as a public body might have committed them in respect to this claim, the Committee have examined the Minutes of the Common Council and caused an extract to be made therefrom of all their proceedings on this subject which is hereunto annexed. And it appears that no Resolution was ever passed by the Board which could in the slightest degree be construed as an understanding to pay anything to Mr Causici or upon which any liability for such payment could arise; nor has any evidence been

produced to them that any authorized agent of the Corporation ever undertook that Mr Causici should be compensated by that body, or that any inducements were held out to him, which could give a colour of equity to his present demand. On the contrary the proof before the Committee has been full and [262] conclusive, and although at Mr Causici's request, the Board visited his model, and accommodated him with the use of a building for it and although he was allowed to erect it in the Park, he was given to understand distinctly that he must not expect compensation from the Corporation for the work he was thus engaged on. The testimony of Philip Hone Esqr who was then Mayor is decisive on this point, and it appears satisfactorily from all the evidence before the Committee that whatever was done by the Common Council respecting Mr Causici's said work was done out of pure kindness to him, and that there is no ground either of Law or Equity upon which his present claim or any claim arising out of the said transactions can rest. The Committee therefore offer the following Resolution.

Resolved that the said Claim on behalf of Mr Causici be rejected.

The Finance Committee to whom was referred the Petition of the New York & Boston Steam [263] Boat Company to have the Wharves & Piers foot of Cortlandt & Liberty street appropriated for the use of said Company presented the following Report in favor of the same accompanied with an Ordinance.

The Finance Committee to whom was referred the Petition of the New York and Boston Steam Boat Company praying that the private Wharves and Piers between the foot of Cortlandt street and the foot of Liberty street may be appropriated for the exclusive use of Steam Boats &c Respectfully Report.

That this application is in substance to renew an Ordinance which was passed by the Board on the 6th of September last and which will expire on the 1st day of May next; and the Committee are of opinion that it would be expedient and proper to renew the same for the ensuing year—The Petitioners also ask permission to erect a building for an Office, also a gateway & flaggstaff for the accommodation of the

said New York & Boston Steam Boat Company, but the Committee do not think it would be right to give any permission in reference to such building, as the erection thereof might be in violation of the State laws relative to the prevention of Fires in this City—The Committee however can see no objection to the said improvements provided they are not infringements of the Law, and would recommend that the applicants be left to make the same if they shall think fit at [264] their own risque in that respect.

The Committee have caused an Ordinance to be drawn and annexed hereto relative to the designation of the said Wharves and Piers and they offer the following Resolution.

The Ferry Committee to whom had been referred back their Report of the 18[th] April last (which see this Volume page 223-4-5-6) on the

Petition of S & R Blackwell for the extension of the Lease of Hell Gate Ferry presented the following Report.

The Ferry Committee to whom was referred back the Report and Resolutions of the same Committee in relation to the application of S & R M Blackwell for an extension of the Lease of the Hell Gate Ferry or for such other compensation for losses sustained in building Docks &c as the Board may deem proper—Respectfully Report

That the Committee have come to the conclusion [273] that it is correct and proper to allow to the Messrs Blackwells the sum expended by them for a permanent Dock &c which is a necessary fixture and is the property of the Public. They also state that having examined the Ferry House on the Long Island side of said Ferry and finding it in so decayed a condition that it is impracticable to repair it, they are of opinion that it is necessary for public convenience that a new Building be erected and that the moderate sum of Fifteen hundred Dollars be appropriated to build the same—As this building is to belong to the Public and is to serve the purposes of a Ferry House after the Lease of the Messrs Blackwells expires, the Committee recommend that it be built of Stone—The Committee are still of the opinion that the Lease of the Ferry should be renewed for one year, but as the majority of the Common Council have by a recent Vote doubted the propriety of such renewal, the Committee in defference to the opinion so expressed deem it proper to waive their view of the subject and to abandon any recommendation for a renewal of the Lease—They offer the following Resolutions.

Resolved that Six hundred and Sixty four dollars & forty two Cents be appropriated to pay a balance due on the Hell Gate Ferry, and that a Warrant in favor of Samuel Blackwell Junr & Robert M Blackwell for the above sum be issued by his Honor the Mayor during the recess of the Board.

The Street Committee to whom was referred the Petition for opening Front street from Corlaers street to Rutgers street Slip Respectfully Report

That in their opinion the opening of that Street as asked for by the Petitioners is much required for public convenience, but inasmuch as that the expence of Bulkheads required to make that street (now a part of South street) from Rutgers to Clinton streets would be attended with much expence they recommend that it be opened only from Clinton to Corlaers Street, [280] that part lying between Montgomery street and Corlears street being already reserved as a Street by the Grants to the several proprietors and only requires an Ordinance directing the incumbrances to be removed and the Street regulated, and that so much of South street (formerly Front street) lying between Clinton and Montgomery streets will require to be opened and widened a por-

tion of which has only been reserved by Grant to Co[l] Rutgers and others and will therefore require an application to the Court for Commissioners of Estimate and Assessment to open and widen that part of South street—In accordance with the foregoing Report your Committee offer for consideration the following Resolutions.

Resolved that Front street be opened by removing the incumbrances therefrom and regulating the same between Montgomery street and Corlears street.

Resolved that it is desirable for Public convenience that so much of South street lying between Clinton street and Montgomery street be widened and the same is hereby ordered and directed to be done.

So it passed in the Negative.

[289] On Motion of Mr Engs the Report of the Law Committee on the subject of the Interment Law which was made the order of the day was called up and read as follows.

The Law Committee to whom were referred the Memorials of the owners of Private Vaults in various Cemetries within the City Respectfully Report.

That the Memorialists represent that these vaults were constructed

or otherwise acquired at great expence by the Memorialists or their ancestors, when the Interment of the dead in all parts of the City was authorized by Law.

That by an Ordinance of the Common Council interdicting interments within certain Limits, the Private Vaults within those limits, as objects of property have become of no value—Deprived of the only use of them of which they are susceptible, the Memorialists have in effect been deprived of the Vaults themselves.

That the professed design of this prohibition being the security of the Public Health, in which the whole community are interested, the Memorialists respectfully submit that the losses and sacrifices incident to the attainment of this common benefit ought to be borne by the community at large.

Upon this obvious principle of justice, the Memorialists ground their present appeal to the City Corporation for indemnity against the Losses to which they are subjected by the privation of the use of their Vaults.

[290] In pressing upon the consideration of the Common Council this equitable claim, the Memorialists, suggest that a modification of the existing Ordinance, by which interments in Private Vaults, shall be prohibited only during certain months of the year, and by which, during those months, such Vaults shall be carefully and inviolably closed up, would, even upon the theory assumed by the advocates of the present system afford full security against consequences injurious to the public health whilst at the same time, those feelings which in all ages have led mankind to collect in one hallowed depository, the remains of families through successive generations, would be sufficiently respected inasmuch as the bodies of those dying with[in] the period referred to might be temporarily deposited in tombs beyond the limits of the interdiction, and thence removed in the Winter season to the family Vaults.

In this modified prohibition of interments the Memorialists say they would readily acquiesce foregoing all claim to compensation on account of such partial interference with their rights.

The Committee haveing weighed these representations are satisfied that the existing Ordinance, without any adequate public benefit, imposes a great hardship upon the Petitioners, and that a relaxation thereof may be made in the [291] manner proposed without endangering the public health.

The Committee have therefore prepared an Ordinance for the relief

of the Petitioners and herewith submit the same for the consideration of the Common Council.

The Committee on Assessments to whom was referred the Petition of William McDonnell to be relieved from the payment of an erroneous Tax presented the following Report in favor of the same.

The Committee on Assessments to whom was referred the Petition of William McDonnell to be relieved from Tax Respectfully Report.

That Mr McDonnell appeared before the Committee and testified that he was Assessed for the House No 51 Bowery in the Tenth Ward on $10.000 a portion of which was Taxed on some Copper Boilers and Steam Engines which belonged to the Tenant of the premises and which in consequence of their being [304] fixed to the Wall the Assessors considered a part of the freehold. Mr Peck one of the Assessors stated that such was the case, and that he objected at the time of making the Assessment but as Mr Purdy was the oldest Assessor he submitted to his decision.

As in the opinion of the Committee the articles above enumerated are not freehold but personal property and as Mr Peck stated that the additional sum assessed on the house was $3000 for those articles the Committee recommend the adoption of the following Resolution.

Resolved that the Tax on $3000 be deducted from the sum assessed to William McDonnell for the House & Lot 51 Bowery in the Tenth Ward.

The Finance Committee to whom was referred the Petition of John Woodward to have Lease of Common Lands cancelled presented the following Report in favor of the same.

The Finance Committee to whom was referred the Petition of John Woodward praying that the Corporation may take a surrender of his

Lease for Lot N° 158 of Common Lands and discharge him from further claims for Rent

Respectfully Report.

That Mr Woodward is the Lessee of Five Lots of Common Lands, and that a considerable amount is now due from him to the Corporation for arrears of rent, through one of the said Lots N° 158 a Street is about to be opened which would require some fencing to be erected to make the remaining part fit for use: And as Mr Woodward has but about two years remaining term of said Lot he requests the Corporation to accept a surrender thereof. Under all circumstances the Committee think it would be expedient to accede to Mr Woodwards request [311] provided he will pay up on or before the first day of July next all arrears of rent due by him on the said and other Lots up to the 1st of May Instant.

They offer therefore the following Resolution.

Resolved that in case Mr John Woodward shall on or before the first day of July next pay all the rent due by him to the Corporation for any property leased to him up to the 1st day of May Instant, then and in such case, the Comptroller is authorized to receive from him a surrender of his Lease as respects N° 158 of Common Lands, and Mr Woodward shall be discharged from all claim for rent upon such Lot after the 1st day of May next

The Finance Committee to whom was referred the subject of extending the Bulkhead on West street between Cedar and Albany streets presented the following Report in favor of the same.

The Finance Committee to whom was referred the annexed Resolution relative to extending the Bulk head on West street between Cedar and Albany streets for the purpose of selling the Public [312] Ground situated at the above Place

Respectfully Report.

That they have examined the premises in question, and have caused a Map thereof to be made from which it appears that in order to extend West street in the manner proposed by the Resolution it will be necessary to make a Bulk head along the exterior line of West

street about two hundred feet in length and to fill up within the same. The cost of such bulk head may be estimated at between Four and Five thousand Dollars, and the expence of filling up will be nothing, as the Street rubbish which now has to be carted to Bank street may be used for that purpose—The Committee are satisfied that an ample supply of Materials for filling up this Bulkhead can be obtained without Cost.

The effect of this operation will be to give the Corporation Sixteen good building Lots in one block bounded by Washington, West, Albany and Cedar streets, worth in the opinion of the Committee at least Sixty thousand Dollars and the vacant space which is now worse than useless (as it is a receptacle for various nuisances) would be converted into valuable City property—The Committee therefore are fully convinced of the propriety of extending the said bulk head for the purpose of turning the said property to account and they offer the following [313] Resolution—Resolved that a Bulk head be built along the exterior line of West street and that the said Street be made between Cedar street and Albany street.

The Finance Committee to whom was referred the Petition of George G Burras for reduction of rent on Lot N° 265 William street presented the following Report.

The Finance Committee to whom was referred the Petition of George G Burras praying for a reduction of the rent of a Lot leased by him from the Corporation Respectfully Report.

That the said Lot is known as N° 265 William [314] street and lies between Duane and Pearl streets, the same being 30 feet front and rear by 64 feet 6 inches deep. By the terms of the Lease M^r Burras holds it for the unexpired term of sixteen years from the 1^st

day of May 1831 at the annual rent of $2500, which he represents is more than it is worth it appears that Mr Burras was bound by his Lease to have erected on this Lot a Brick building within a certain time, which he has failed to comply with, and that there are arrearages of rent due by him; And the Committee not deeming the present rate of rent unreasonable have considered it more expedient to relieve Mr Burras entirely from his Lease than to reduce his Rent. They are of opinion that it would be more advantageous for the Corporation to take this property off the Petitioners hands and to sell it, than to abate the present rent, and they understand from him that he is willing to surrender his Lease, under these circumstances they offer and recommend the passage of the following Resolutions

Resolved that on the payment of all arrears of rent now due by Mr Burras on the above mentioned Lot, the Comptroller be authorised to accept a surrender of his Lease for the same.

Resolved that on such surrender being duly made, the said Lot be sold at Public Auction under the direction of the Finance Committee.

The Finance Committee to whom was referred the annexed Petition of William A Thompson praying that the time for paying certain Assessments upon property in which he is interested may be deferred for two years Respectfully Report

That they have considered the grounds upon which this application rests and are of opinion that if they should be deemed sufficient, the payment of a majority of the Assessments laid upon property in this City should with equal propriety be deferred. They are in substance that the property in question has been already considerably assessed, and that it is inconvenient at present for the owners to pay the Assessments now standing against them.

The Committee on Wharves Piers & Slips to whom was referred a Petition from E W Nichols & [321] others for permission to erect a Gate on Pier Westerly side of Catharine Slip, and for an exclusive Birth on the lower side of said Pier for their Steam Boat

Respectfully Report.

That the Petitioners apply for a privilege of erecting a Gateway across said Pier commencing 120 feet from the outer end, which will they state be an accommodation to the Public; Your Committee however are of a different opinion and think that our Public Piers are

and ought to be considered as public highways equally with our streets, and to grant to Individuals the right of erecting Fences or Gates whereby the Public may be excluded, would be highly improper, on the application for an exclusive birth for their Steam Boat the Committee are of opinion that the Finance Committee who rent the Wharves & Piers are the proper Committee to decide on that subject— The following Resolution is therefore offered.

The Finance Committee to whom was referred the Petition of Gilbert Hopkins and Judson Hawley praying for a renewal of a Lease of Lot Number 233 Front street Respectfully Report

That the said Lot is held under a renewable Lease from the Corporation which will shortly expire and that a three story Brick Store has been erected upon it according to the terms of the Lease. While this subject has been pending before the Committee [323] the Petitioners have expressed a desire to purchase the said Lot from the Corporation and the Committee believing it to be expedient to sell property thus situated whenever the same can be done upon fair terms have caused the said premises to be examined and are of opinion that Five thousand Dollars would be a fair price for the said Lot. The Com-

mittee are informed that the Petitioners are willing to give that price and they offer therefore the following Resolution.

Resolved that the Counsel to the Board prepare a Deed to the said Petitioners for the said Lot for the price of $5000, (together with the expences of such Deed) payable on the 1st day of May next and that such Deed be authenticated during the recess of the Board.

The Committee on Arts & Sciences presented the following Report on subject of the Bell in the Cupola of the City Hall.

The Committee on Arts & Sciences beg leave to Report that the original appropriation of $1500 for the Hall Bell has been found inadequate to the expence incurred, and leaves a ballance due to James

P Allaire of $874,99. The Committee would remark that in contracting for said Bell Mr Allaire would not be Bound for the exact sum at the disposal of the Committee, but agreed to come as near to their views in relation to dimensions and weight as possible, and the result was that the Bell amounted by Weight to $2087 and that the expences of turning raising, Standard frames and other preparations Increased the Amount to $2374,99 leaving a deficiency as aforesaid. Under the circumstances mentioned your Committee submit the following Resolution.

Resolved that the sum of $874.99 be and the same is hereby appropriated for the payment of balance due James B Allaire on the City Bell

The Committee on Wharves Piers & Slips to whom was referred the Petition of the Inhabitants of the 3d & 5th Wards praying that the Manure Boats may be removed from the vicinity of foot of Duane & Reed streets presented the following Report in favor of the same.

The Committee on Wharves Piers & Slips to whom was referred the Petition of the Inhabitants of the 3d & 5th Wards residing in the vicinity of [347] Reed & Duane streets praying that the Manure Boats may be removed from that vicinity Respectfully

Report

That they have taken the said Petition into their consideration, and believe the Representations made by the Petitioners to be true, and that the Slip at the foot of Duane street is much frequented by Vessels bringing Materials and Marketing to the City

It is also represented by the Petitioners that many other Vessels would resort to this Slip and those of a much better class if those Manure Boats were removed—This neighbourhood has been much improved of late years by the erection of new buildings and an increase of population, and there can be no doubt but the owners of Property in this vicinity sustain considerable injury by the location of these Boats. The Basin at the North Battery would in the opinion of the Committee be a proper location for these Boats there are no buildings on West street opposite this Basin except two at the corner of Hubert street consequently there are no Inhabitants to be annoyed by them the Committee therefore propose for the consideration of the Board the following Resolution.

Resolved that the Manure Boats be removed from the Duane street Basin and that the same be located in the Basin at the North Battery between Hubert and Vestry streets.

The Committee on the Fire Department presented the following Report on the Public Reservoir.

The Committee on the Fire Department at the close of their term, ask leave to Report upon the " Public Reservoir "

That they have accomplished this trust as far as directed by the Board leaving $805.18 yet unexpended of the appropriations to this object.

The most sanguine anticipations of your Committee are realised, both as it relates to the mode of procuring the water, and the supply being ample, and the public are assured by p[r]actical result that the property lying between Broadway and Third Avenue & the Bowery in the extensive line from 13th Street to Canal street on one side and to Chatham Square on the other with that to a great extent on the East and West side of these main Pipes are better protected from destruction by Fire than any other property in this City.

[350] Various trials have been made from the hydrants, to ascertain the power of the Water, it is found that on the whole line, it forces itself over a two Story house, and on many parts over one of three stories high. The stream from each hydrant being equal at least in quantity to what is produced from two Fire Engines, it was also found that one hydrant would over run two Engines in one minute, they working with all their power at the same time.

But the most practical evidence of the certain success of this enterprize was witnessed at a late fire, in a cluster of wooden Stables in the centre of a Block between Mott & Elizabeth street on which two streams from the Bowery and two from Broadway were brought from the Hydrants and altho the wind blew very high, the spread of the

Fire to the Front buil[d]ings was prevented, and Thousands of dollars were saved which could not otherwise have been.

As no other expenditure is necessary in order to give to the whole City, the benefit of the water from the Public Reservoir except the laying down of Pipes Hydrants and Stop Cocks, Your Committee consider that it will be the duty of the Common Council to meet the wishes of the Inhabitants by extending from time to time to different sections, its advantages, they have after due consideration concluded to recommend laying Pipes of 12 Inch bore from [351] the termination in Chatham Square down to Pearl Street thence to William street and down that street to Hanover Square—Pipes of 10 Inch bore through Houston to Bedford street and thence to Christopher street, and of 6 Inch bore through Delancy to Cannon street, with the necessary number of Stop Cocks & Hydrants for the whole.

The estimated cost of these extensions will be about $27.000. The following Resolution is offered.

Resolved that Pipes be laid and Hydrants and Stopcocks put down in conformity to the recommendations in this Report, and the sum of $27.000 is hereby appropriated to defray the expence of the same

The Watch Committee to whom was referred the charges against David Field Captain of 2d District City Watch presented the following Report.

The Watch Committee to whom was referred the annexed charges against David Field Captain of 2d District Watch Respectfully Report.

[352] That the charges preferred against Captain Field are for disobedience & contempt of orders from the Chairman of the Watch Committee and for suspending a Watchman from Duty and not reporting the same agreeable to the Law on that subject.

The first case is that of Harrison Palmer, who in consequence of Sickness was temporarily suspended as is usual in like cases on his recovery he reported himself to the Chairman as able to resume his duty as a Watchman, from this representation the Chairman sent a

Letter to Captain Field ordering him to re-instate Palmer the first vacancy, in place of obeying the instructions contained in that letter, he posted another man, altho in the investigation it was admitted by Captain Field that a Post was vacant when said instructions were received.

The 2d Charge for suspending a Man named Roseborne and making no Report of the same to the Chairman of the Watch Committee until five days had elapsed and not until after Captain Field had been reported to the Common Council for that Offence. This charge also the Committee conclude has been fully proven, the Law in cases of suspension, makes it the duty of the Captain to report the same to the Chairman without delay under the penalty of dismission from Office.

Your Committee are of opinion that it is the duty of the Captains of the Watch to obey all reasonable [353] instructions or orders of the Watch Committee. Captain Field however has pursued a line of conduct in opposition to this principle, but as there is a difference of opinion in the Committee as to the Resolution proper to offer on this occasion some being in favor of recommending the removal of Captain Field others preferring a resolution of censure, the following Resolution is therefore offered.

Resolved that the conduct of Capt Field in not obeying the instructions of the Watch Committee and for suspending one of his men without reporting the same as the Law directs is highly improper and merits severe censure.

The Finance Committee to whom was referred the Petition of John Morss for purchase of Gore of Land on 11th Street presented the following Report in favor of the same.

The Finance Committee to whom was referred the annexed Petition of John Morss for the purchase of a Gore of Land Respectfully

Report.

[355] That the said Gore was Awarded to the Corporation by the Commissioners of Estimate and Assessment on opening Eleventh street at the price of Three hundred and fifty five Dollars and Eighty four Cents. The Committee have ascertained that the Petitioner is the owner of the Land adjoining the said Gore, and that he is willing to pay the above price with the interest thereon for the same. They offer therefore the following Resolution.

Resolved that the Counsel of the Board prepare a Deed for the said Gore to the said John Morss he paying the above sum therefor with interest from the also the expences of the said Deed, and that the said Deed be authenticated in the usual manner during the recess of the Board.

The Finance Committee to whom was referred the Petition of Beverly Robinson for a Water Grant in the 12th Ward presented the following Report in favor of the Petition.

The Finance Committee to whom was [356] referred the Petition of Beverly Robinson praying for a Water Grant respectfully Report

That Mr Robinson applies for a Grant of the land covered with Water lying between the end of 24th Street and the end of 25th Street on the North River and being the owner of the upland adjoining the same, he has the pre-emptive right to such grant, to extend 400 feet into the River from Low Water mark.

The Finance Committee to whom was referred the Resolution to assume the occupancy of the Bulkhead and Waters on the Westerly side of West street between Hubert & Vestry streets presented the following Report

The Finance Committee to whom [*356] was referred the annexed Resolution recommending that the Corporation should assume the occupancy of the Bulkhead and Waters on the Westerly side of West street between Hubert and Vestry streets as being required for public purposes Respectfully Report

That they have caused a Map and survey of the premises referred to by the said Resolution to be made and have procured a statement containing extracts from the several grants extending along the line of Bulkhead proposed to be taken which Map and statement are annexed hereto and shew accurately the situation of the said property with the names of the respective parties interested therein and the extent of their several interests. From these it will appear that with the exception of Fifty three feet of the said line between Hubert and Vestry street lying in front of property now owned by Oliver Field, the several grantees or those now holding under them are entitled to the wharfage &c in front of their respective grants until the same by a Resolution of the Corporation in Common Council shall be required for establishing a Public Slip or basin and no longer. The Committee are decidedly of opinion that the time has arrived when it would be expedient to convert the space lying along this line and between the Pier at the foot of Vestry street and the Bridge leading to the North Battery (which has been recently ceded [358] back by the United States to the Corporation) into a public Slip. With respect to

* Clerk's error in numbering.—ED.

the above mentioned 53 feet which are claimed by Mr Field, free from the proviso above recited which applies to the remaining premises along the said line, the Committee do not think that the peculiar situation of this small portion (being less than one eighth of the whole line) should cause any delay or hesitation in assuming the remaining part for such public purpose, the respective rights of Mr Field and of the Corporation may be settled hereafter upon just and proper terms; nor can the existence of Mr Fields claim interfere in any way with such proceedings as the Corporation may think it expedient to adopt under the conditions of the grants which embrace the residue of the premises in question.

With these views of the subject referred to them the Committee submit the following Resolution.

Resolved that the Bulkhead and Waters along the line of West street and between Hubert street and Vestry street is required for establishing a Public Slip or Basin according to the conditions of the Grants heretofore made for the land under Water Easterly of the said line, and therefore, Resolved that the Resolution hereunto annexed (offered by Alderman Seaman on the 31st May 1830) be passed

" paving 20th Street from 6th to 9th Avenue		1665.64
Making together the sum of		$3981.97

which balances your Committee deem it expedient to recommend the payment of. They also further Report, there is yet a balance due to Robert Pettigrew on his contract for regulating 5th Street of $12.873 $^{1}/_{100}$ as this work has been completed a considerable time nearly a year they would recommend to the Board a payment to him on Account of $9000. They also beg leave to Report that there is a balance due to Christopher Keyes on his Contract for regulating 7th Street of $7983,$^{41}/_{100}$ as the circumstances attending this application are similar to those of the one last mentioned, they also recommend a payment to him of $5000, on Account, and offer the following Resolution.

Resolved The Comptroller draw Warrants in favour of the above named persons for the sums mentioned in this Report Viz[t] Thomas Cummings $3981,$^{97}/_{100}$ R Pettigrew $9000, & C Keyes $5000, to be charged respectively to the accounts above stated.

On Motion of Alderman Woodruff the Report of the Street Committee on widening Pine street between Nassau & William streets was called up and read in the following words.

The Street Committee to whom was referred the subject of widening Pine street from Nassau street to about One Hundred feet Southerly of William street. Respectfully Report

That they have had the subject under their careful and deliberate attention and are of the opinion that the interests of the owners of property on that Street would be greatly promoted by the measure as proposed by the Petitioners Viz[t] by taking ten feet from the [364] Lots on the Easterly side of the Street between Nassau & William Streets and about two feet six inches from the Westerly side between William street and the Store house of Saul Alley—and inasmuch as a large Majority of the owners of the property interested in the contemplated improvement are desirous to have the same carried into effect, Your Committee are induced to submit the following Resolutions.

Resolved that it is desirable for public purposes that Pine street should be widened between Nassau street and William street on the Easterly side and between William street and the Store of Saul Alley on the Westerly side, and the same is hereby ordered and directed to be done.

Resolved that the Counsel to this Board make the necessary application to the Supreme Court for the appointment of Commissioners of Estimate and Assessment *of Commissioners of Estimate and Assessment* in the said matter and that the petition for that purpose be authenticated in the usual manner during the recess of the Board.

Thomas T Woodruff
Jn[o] Rogers

APPENDIX A

For reference, lists are here given of the Common Council membership in the period covered by these minutes, 1784-1831. The Mayors, until 1822, were commissioned "under the Great Seal of the State," being appointed by the Governor or the State Council of Appointment; the Aldermen and Assistants elected Stephen Allen in 1822 and 1823, as well as the four last Mayors listed below. The Recorders were all appointees of the Governor or the State Council of Appointment. The Aldermen and Assistants were elected by the voters of the several wards. The number of wards increased from seven to fourteen during the period, hence the number of representatives in 1831 was exactly double that in 1784. During the whole period the two bodies continued the practice of meeting in joint session.

APPENDIX B

A new office, that of City Inspector, an outgrowth of the existence of small pox and yellow fever scourges in the previous decade, was created March 19, 1804. It was the duty of this official "to ascertain either by information from the Inspectors of Lots already appointed or from his own view or both and to determine upon the best mode of correcting the several nuisances reported or to be reported by the Inspectors of Lots and to prepare and present to this board from time to time and without delay the drafts of Ordinances necessary to remove or correct such nuisances in the most expeditious and useful manner having regard to the future health of the City."*

At first these nuisances were indicated by number, but beginning May 9, 1814,† Jacob Morton, the incumbent of the office, reported the names and addresses of the owners of the property where the nuisances existed. A later practice was to give the names of both owner and occupant.‡ Some twenty thousand different names appear in these reports from 1814 to 1831, and many problems have arisen in connection therewith. Either the officer in his written report to the Common Council of the various nuisances to be corrected might spell the name of owner or occupant phonetically, or with a coat of cockneyism,§ or with utter abandon, or the scribe in copying such report into the record book might blunder, or, indeed, the double error might occur. The Editor felt that every possible assistance should be given the reader to identify a name that was misspelled so badly as not to be recognized readily. There were some names, however, that seemed impossible of solution, and, without doubt, there are some which did not come under suspicion. Whenever any editing is done the clerk's spelling is always retained in italics.

A number of the original reports of the City Inspector evaded all search until after press work had been completed, and the following changes in vols. VII-XI should be noted, now that the documents have been discovered:

APPENDIX C

In Volume I, Introduction, p. XIV, it is explained that the activities of the first Common Council of the City of New York subsequent to the Revolution actually began December 26, 1783, although there are no minutes extant previous to February 10, 1784. Additional data concerning such activities the Editor recently discovered in the opening pages of *Journal A, 1783 to 1794, Chamberlain's Office,** and such are printed here in order to make the record as complete as possible. Among other things revealed by these accounts is the fact that the Common Council elected Thomas Randall (not John Broome†) to preside at the first meeting. At the subsequent meetings John Broome, Abraham P. Lott, William W. Gilbert, and Benjamin Blagge were elected successively to preside. The members were thus following to the letter the instructions given them by the Council appointed by the Legislature "to provide for the temporary government of the southern parts of the State," namely: "The said Aldermen and Assistants shall, at their several meetings, elect, from among themselves, a person to preside at such meetings."‡
